### Lighting

Plants vary in their lighting requirements. Refer to plant tags for specific sun or shade needs.

### Watering

Let mix dry to the touch between waterings. Do not allow plants to sit in drainage water. Outdoor container plants require frequent watering - as often as once per day in hot, dry conditions. To take the guesswork out of watering try Miracle-Gro® Moisture Control® Potting Mix!

### Repotting

To avoid soil compaction and replenish nutrients, all container plants should be repotted annually with fresh Miracle-Gro® Potting Mix.
