  - » *youtube.com/user/primelinehowto*
- We serve industry leaders in retail, MRO, OEM, and other distribution
- Prime-Line is proud to be an employee owned (ESOP) company

WHO WE ARE...

Prime-Line Products has been supplying repair and replacement parts for windows and doors since 1978. Over 35 years of business acumen has led Prime-Line to the top of its trade. The worldwide need for residential maintenance has motivated our company to develop over 18,000 unique items for our customers. We service the professional trades with repair solutions throughout North America and abroad.

We also provide products to the Do-It-Yourself industry through home centers, hardware stores and lumber yards, with a wide variety of specialized repair parts that fit various individual and regional demands. We currently supply many manufacturers with OEM components that are in wide demand.

WHAT WE OFFER...

- Automated parts counting
- E-business capability
- In-house creative services available
- Shipping nationwide or international
- In-house printing capability
- Engineering capability with 3-D rendering
- 3-D printer model making capability
- QC department and cycle testing
- PVC and aluminum extrusion capability
- Multiple roll-forming capabilities
- Metal fabrication shop
- Custom steel door and aluminum door fabrication
- Product packaging capabilities

Prime-Line is ready to fulfill any large capacity order, we can take your order from inception to completion in stride.

With customer service available from 7:30 A.M. to 5 P.M. PST every weekday, you'll get the answers you want, when you want them.

REINFORCERS (See page 57)

Over half of all burglaries are initiated by forced entry. A majority of these are accomplished by kicking in a door. Lock & door reinforcers help prevent door kick in attacks. Lock & door reinforcers are available to fit most door thickness and backset configurations. There are also several designs and finishes available to complement your existing door hardware.

Sash Lock

- Diecast sash lock with stamped steel keeper
- Brite zinc finish
- Fits Daryl® windows

MP2509 (F 2509)
Inner pack: 2 Master pack: 10

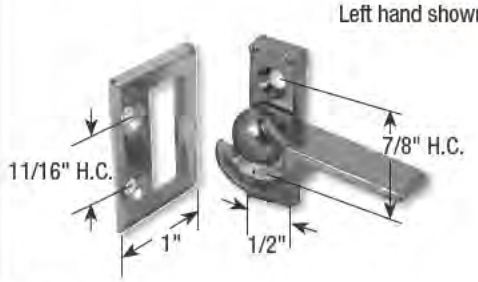

Sash Lock

- Diecast sash lock
- Brite zinc finish
- Fits on single hung windows by Keller®

MP2644 (F 2644)
Inner pack: 2 Master pack: 10

Left hand shown

Sash Lock

- Diecast sash lock and keeper
- Brite zinc finish
- Used on both residential and RV sliding windows

MP2510 (F 2510 left hand)
Inner pack: 2 Master pack: 10

MP2511 (F 2511 right hand)
Inner pack: 2 Master pack: 10

CHANNEL WINDOW BALANCES

Used On Single Or Double Hung Sash

Balance Shown Installed In Jamb With Vent Removed

Ordering Tips:

1. Check the back side of channel for stamped numbers (i.e.; 1410, 28A, 3620, etc.).
   a.) The first two digits indicate the actual glass height.
   b). The balance is 1" **LONGER** than the part number indicates (i.e.; **#1410 is 15" long**).
   c). The second two digits or letter designation (A, B, C, D) denote the weight series of the balance (i.e.; #1410 or 14A is for light weight sash, 1420 or 14B is medium, 1430 or 14C is medium to heavy and 1440 or 14D is heavy. Please see the enclosed **Selection Chart** for actual weight variations.
2. The balance number, by itself, does not include top or bottom guides.
   a). Determine the correct guides required from the accessory page. You may use the existing guides from the defective balance, however, this will require drilling out the attaching rivets.
   b). New guides may be ordered (installed) special order.

Installation Hints: Vents must be removed in order to replace the balance assemblies.

TO REMOVE VENT: Close vent to expose take-out clips. Open both clips for vent removal. Raise vent until top guide engages take-out clip. Continue to raise vent, 2 to 3 inches more. Move vent right or left as far as possible. Removal is then accomplished by swinging the opposite side of vent inward.

TO REPLACE BALANCE ASSEMBLY: Push down on balance until top guide is clear of take-out clip. Hold firmly and slowly lift up and away from jamb. Remove terminal clip and install new balance assembly using the reverse installation procedure. Be sure that top guide is secured under take-out clip. It is recommended that both balance assemblies be replaced in order to allow for efficient operation.

TO REPLACE VENT: Position right or left side of vent into jamb, 2 to 3 inches above take-out clip and swing opposite side into alignment with frame. Then lower vent to engage balances and on down to clear take-out clips. This will automatically center the vent. Snap take-out clips into jamb to facilitate normal operation.

SELECTION CHART (All balances sold individually in bulk)

CHANNEL BALANCE ACCESSORIES

Easy Guide Replacement

1. Drill out existing rivet using 3/32" bit (drill thru crimped side of rivet).
2. Slide new self locating guide (top or bottom) on to appropriate end of balance. Align holes and insert rivet thru the drilled out hole in balance.
3. Place balance on solid surface with rivet head down. Locate pointed end of rivet installation tool in open end of rivet. Tap end of tool firmly with hammer to crimp rivet.

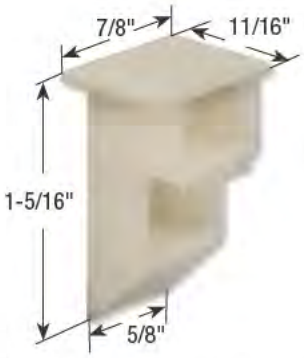

12 Piece Channel Balance Repair Kit

- Nylon top & bottom guides
- Steel rivet and take-out clip
- Enough to do 2 balances

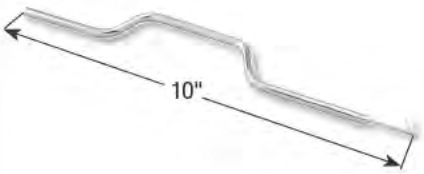

MP3754 (H 3754)
Inner pack: 1 Master pack: 10

Sash Cam

- Plastic
- Attaches to top edge of vent and provide for proper operating clearance

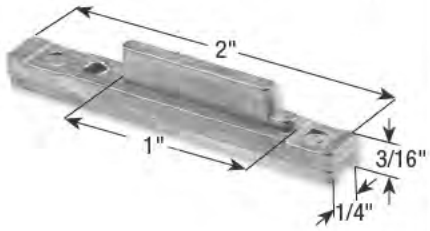

MP3838 (H 3838)
Inner pack: 2 Master pack: 10

Tension Tool

- For non-tilt balances
- Plated steel tool used to crank necessary balance spring tension

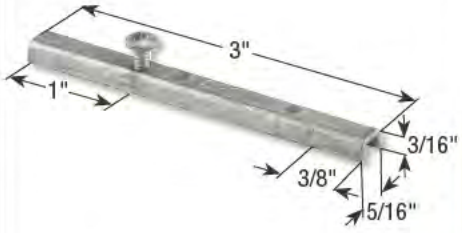

MP3788 (H 3788)
Inner pack: 1 Master pack: 10

Pivot Bar

- Zinc diecast
- Used with 3/8" spiral balances on tilt style systems

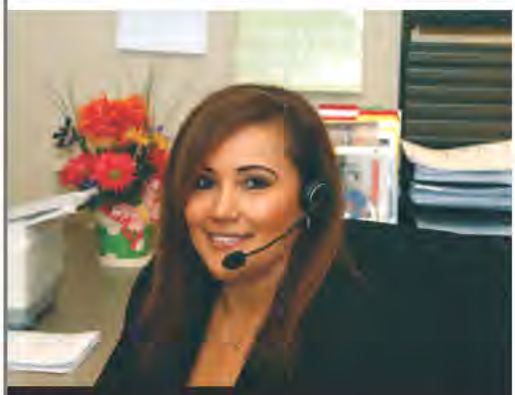

MP3897-2 (H 3897)
Inner pack: 2 Master pack: 10

Pivot Bar

- Stamped steel
- Used with 5/8" spiral balances on tilt style systems

MP3758-2 (H 3758)
Inner pack: 2 Master pack: 10

PATIO DOOR
Hardware

Sliding patio doors are one of the most neglected entry points for most homes. Prime-Line has developed over 1600 repair and maintenance items to ensure these doors function safely and securely. We carry over 350 different patio door handles, and over 550 roller assemblies. We manufacture the largest selection of patio door roller assemblies in the world using top quality, precision ground, sealed bearing assemblies.

Latch & Pull

- Black plastic pull
- Steel lever latch
- Non-handed
- Surface mount
- Fits on Keller® doors

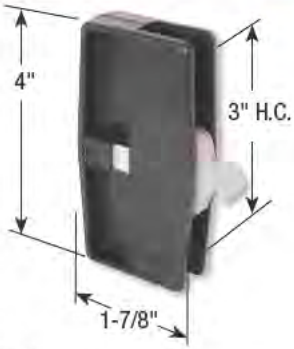

MP122 (A 122)
Inner pack: 1 Master pack: 10

Latch & Pull

- Black plastic pull
- Non-handed
- Complete with security lock
- Fits on Anjac® doors

MP108 (A 108)
Inner pack: 1 Master pack: 10

Latch & Pull

- Black plastic pull
- Non-handed
- Complete with security lock
- Mortise installation
- Fits on Columbia® doors

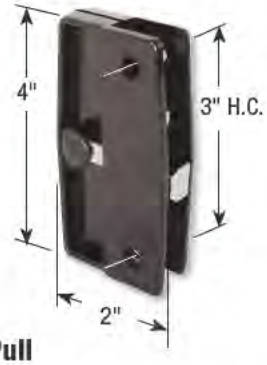

MP109 (A 109)

- 2-1/4 in. Deep stainless steel body

RP32122CH (chrome)
Inner pack: 1 Master pack: 6

Better

Disposal Flange Assembly
- Rapid ring pre-installed
- Stainless steel strainer basket with rubber seal
- 2-1/4 in. Deep stainless steel dual size body

RP32123CH (chrome)
Inner pack: 1 Master pack: 6

Better

Disposal Flange Assembly
- Rapid ring pre-installed
- Plastic strainer basket
- Plastic trim body

RP32125WH (white)
Inner pack: 1 Master pack: 6

PRECISION®
Screen & Security Products
A Division of Prime-Line

Precision screen doors are a great way to keep the bugs out and let the fresh air in!

Precision security doors offer the first line of defense to protect your home and family against burglary!

Precision doors are available in a wide variety of steel, aluminum, vinyl and wood models.
