XR4®

The XR4® is the original four strand team rope with a CoreTech™ core. Its true 3/8" diameter maintains a familiar feel in your hands. The increased weight and body enable better tip feel and help you deliver more accurately. The straight nylon core helps make this rope the most forgiving rope you've ever felt. It feeds easier and faster, allowing you to shave vital microseconds off your time.

Powerline4® Lite

The Powerline4® Lite combines four strand construction with the feel and handle of the original MoneyMaker®. It consists of four strands of twisted nylon and polyester filament wound around a CoreTech™ nylon core. This increases the rope's body and widens the loop, allowing you to throw with more accuracy and control. Plus, its smooth surface permits faster feeds.

NV4™

The NV4 blends two premium nylon types for greater stability, life and balance. The fibers are then fused with high tensity poly for enhanced action and speed. A CoreTech™ core provides loop stability and tip weight. The outer diameter is smaller, making it faster and easier to control. The NV4 has a snappy, responsive feel for greater confidence and visible catches.

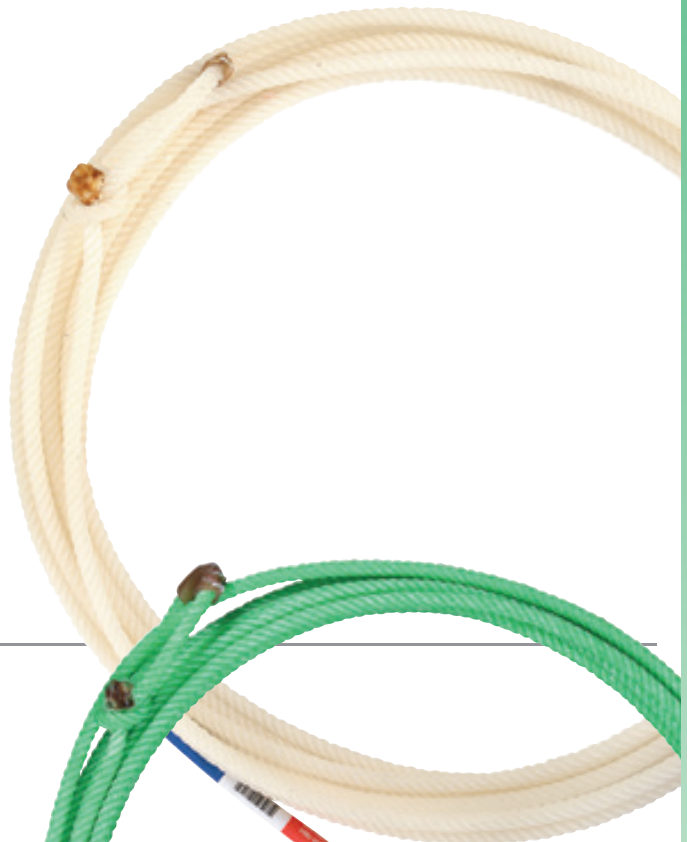
Ranch Rope

Typical to Classic's four strand construction, this rope is smooth and fast. We selected nylon for its durability and long life. Soft enough for anyone to handle, but tough enough for the hardest jobs. The CoreTech™ body offers a balanced loop with a weighted tip, making it easy to use for work on the farm or ranch.

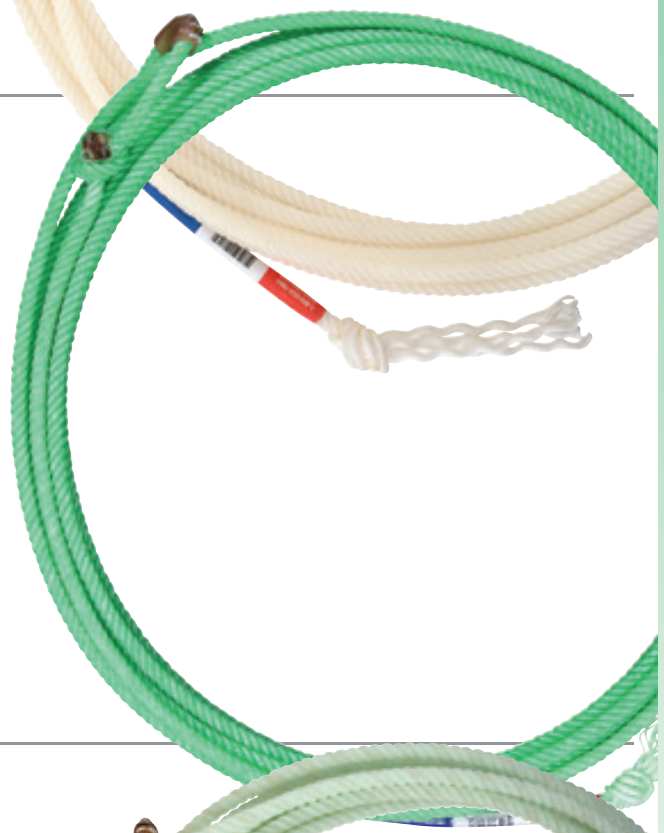
CRR4S335XS 3/8 TRUE 35' XS $43.99



Zoom™ Kid Rope

The Classic® Zoom is specially designed for young ropers or serious competitors in long-reaching dummy roping events. The Zoom is slightly smaller, with the same four strand CoreTech technology preferred by adult four strand users who need a lighter rope.

ZOOM5F30XS 5/16" FULL 30' XS $36.99



Jr MoneyMaker® Kid Rope

A junior version of the Classic MoneyMaker®. It may be smaller, but it has the same fast, smooth feel that is easy to handle.

Triton™

Triton is the triple threat in team roping. Created with an innovative blend of three unique fibers, the Triton is a four strand rope ideal for any roper's arsenal. Each of the three fibers bring its individual element to the rope. The poly fiber increases the tip size and feel. The first nylon fiber gives more body and twist for an open loop and zippy closure. The second nylon fiber adds forgiveness, consistency and overall balance to the blend. This recipe ensures the Triton's superior longevity and performance as Rattler's winning weapon.

GT4™

The GT4 is a four strand that's easy to handle, with lots of body and a CoreTech™ core. Lots of body means a larger loop that stays open better than any rope in the arena, for more consistency. The GT4 is also much more durable than any conventional three strand. So, if you want long lasting life and body, you'll pick up the GT4.

Spitfire®

The Spitfire is the first professional breakaway rope of its kind. Made specifically to reach and rope the neck, the Spitfire is made with a customized process using technologically advanced fibers. This allows the loop to stay open, and upon delivery close sharp, fast and tight around the intended target. The enhanced tip has a weighted feel, helping to know where the loop is and guiding it to the intended target. The Spitfire shell is extremely smooth, allowing the rope to feed fast and easy. The body keeps the loop open to create a perfect storm for an aggressive, first-swing-shot out of the box necessary to win in today's sport of breakaway.

Striker™

The first four strand calf rope with a CoreTech™ core, the Striker is the most consistent calf rope available. It is constructed from special synthetic polyester that will not stretch, increasing life and consistency. The four strands give the Striker a smoother, faster feel than a polygrass, and the core stabilizes it, allowing it to rebound to its natural state.

Available in smaller sizes for junior ropers.

Goat Strings

Recommended by renowned clinician and goat tying coach Lynn Smith. Three ply construction for optimal hold, in four variations of stiffness for increased speed and control at all levels and age groups.

Novice (S): The softest feeling string in the line for the ultimate beginner.

Junior (MS): Designed for young, beginning goat tyers. Easier for smaller hands to handle.

Original (M): Precise blend between firmness for snappy ties and suppleness for control. Ideal string for goat tyers who are looking to add speed to their ties.

Pro (H): Offers optimum speed without sacrificing security. A truly fast string that is accurate run after run, for goat tyers who are comfortable handling a stiff string.

Boys': The perfect blend for fast ties, with a manageable length for tying goats.

Classic Equine

Working with the horse's own natural support structures, the Legacy2 cradles the fetlock and provides suspensory support without inhibiting movement. Horses are naturally designed to stop, turn, and accelerate – the Legacy System reinforces these motions and provides protection to the critical structures within the leg.

Extended height of the Tall Hind offers more tendon and suspensory support for horses with longer cannon bones. Available in Black and White only.

Legacy2™

Nature's Design

The extensor branches of the suspensory ligament extend around the back of the ankle to support the fetlock joint during the weight-bearing phase of the stride.

Legacy2's Design

The Legacy2 Fetlock Cradle System provides maximum support and protection to the fetlock and lower portion of the leg. It mimics the design of, and therefore reinforces, the ligament it is intended to support.

Flexion by Legacy

Flexion technology provides individual abrasive resistant cells on the Fetlock Cradle System with impact and wear protection never before seen in the equine leg protection space. Each Flexion cell can move and stretch individually, creating a flush, secure fit when wrapping the cradle around the horse's leg. The same Legacy2 design provides suspensory support without inhibiting movement, reinforcing the horse's natural motion while protecting the critical structures of the leg using nature's design.

For extreme competiton, Zone Saddle Pads provide extreme protection against pressure and impact. A specialized insert is filled with Zoombang™, an advanced polymer designed to reduce impact and pressure in a unique way. Zoombang has been used extensively to protect bull riders, NASCAR drivers, and professional football players with great success. This technology is available for the equine athlete as well. Zoombang is a semisolid material at rest. This allows it to conform comfortably to the horse and disperse saddle pressure evenly. Using cutting edge innovations in science, Zoombang reacts to impact by instantly becoming rigid, dissipating pressure and protecting the horse's back. To learn more about this leading-edge innovation in protective equipment, visit zoombang.com.

THE PAD THAT REACTS

THE ZONE™ SERIES pad is the only saddle pad that features a polymer protective material that changes its properties on impact to offer your horse the most comfortable fit while ensuring his protection, no matter how hard you ride.

BIOFIT®
CORRECTION PAD

BioFit® Pads feature a strategically placed "buildup" that helps fill in the missing muscle mass often seen behind the shoulder. Decreased muscle behind the scapula can cause the saddle to run "downhill" and collapse on the spine at the withers. The BioFit® Pad is designed to effectively level the saddle, providing comfort and improving the horse's performance. BioFit® pads provide saddle fit solutions for narrow-shouldered or high-withered horses, or horses that have muscle atrophy due to ill-fitting saddles. Dense orthopedic grade felt absorbs shock and disperses pressure, while memory foam fills the void behind the shoulder with comfortable correction. A cutout over the withers offers greater clearance and spine relief. All BioFit® Pads are contoured for a close fit, offering excellent protection while solving saddle fit issues.

Cinch Fitting Tips

The cinch is the lifeline that holds your saddle in place, which in turn keeps you in a stable position during competition. Because there is so much riding on your cinch, we wanted to give you some helpful tips that will benefit both you and your horse.

1 Use a cinch that is designed with your horse's comfort in mind.

2 Choose a cinch by measuring the distance from one heart girth or "sweet spot" under the belly to the opposite one.

3 When the cinch is tight, the dees should lay flat and clean against the horse's heart girth or "sweet spot". If it rides above or below the sweet spot, it can cause soreness and discomfort.

4 To allow flexibility or "give" as your horse moves, use a cinch/latigo combination. Leather is a natural fiber that has "give". Leather latigos expand slightly and move with the horse as you ride.

5 Use a cinch with stainless steel hardware, which is long lasting and will not rust, corrode, or bind up. Classic Equine® cinches are made with stainless steel hardware to ensure you're getting the highest quality product possible.

REM Restoration Equine Mask

REST

The **Restoration Equine Mask** ensures your horse gets a good night's sleep even with the lights on.

Whether your horse is at a show, a vet clinic or a public stable, the lights are on. Have you ever tried to sleep with the lights on? Like us, our horses need the absence of light to produce melatonin, allowing for optimal rest and recovery.

Quality sleep is a big focus for today's athlete. It maximizes performance and is linked to increased levels of melatonin. Melatonin rises at night. Our equine athletes are asked to perform at competitions but often are left under lights at night, especially at an event.

The REM mask uses blue light blocking technology to promote the natural production of melatonin for a more restful night of sleep while being exposed to artificial light.

Developed and tested by veterinarians.

Patent pending.

MAGNTX
MAGNETIC EQUINE THERAPY

MagNTX™ therapeutic products are constructed with 1-1/2" bi-polar magnets. MagNTX magnets possess both north and south pole fields that run in horizontal planes. The north pole helps to expand the blood vessels and increase blood flow, while the south pole promotes the removal of toxins away from surrounding tissues. Using bi-polar magnets forces ions to rebound back and forth between the opposite magnetic fields, breaking up calcifications and carrying away toxins and other foreign debris, aiding the body's ability to heal naturally.

Science has proven beyond doubt that all living cells are electrical in nature. Each cell has a positive electrical charge at its nucleus and a negative charge on its outer membrane. This positive/negative polarization is what makes each cell function properly. When tissues are damaged, blood flow can be restricted, which limits the horse's oxygen and nutrient supply to the damaged area. Stimulating tissues and joints with bi-polar magnetic fields helps increase blood flow to a specific area and promotes a fast healing environment and natural pain killer. Magnetic therapy compliments deep tissue penetration therapies by prolonging benefits in a non-invasive, cost and time efficient manner.

MagNTX products fit and stay in place with reinforced elastic hook-and-loop closures. Each MagNTX product uses a soft coated micromesh material that allows adequate airflow and is comfortable to the horse. Each bi-polar magnet is strategically placed for optimal effectiveness.

- We recommend using MagNTX products for a minimum of 30 minutes and no more than 12 hours at one time; ideal treatment periods will vary on a case by case basis
- Ensure the horse is adequately cooled down after a workout before applying magnets
- Do not use any oil-based or abrasive liniments under MagNTX products, as these substances can cause damage
- MagNTX magnets can be used in conjunction with preventative and treatment regimens
- Always consult your veterinarian when using magnet regimens

MagNTX

MagNTX products aid in injury prevention and speed recovery by generating blood flow to the affected area. Soft mesh ensures proper position.

Easy Now® Quick Release

Made to help prevent injuries to horses and cattle while maintaining safety to the rider when used properly. The QR2, made with Easy Now shock absorbing technology, is installed easily on the saddle horn using adjustable tension straps to perfectly position it for ease of use. It stretches after the steer is caught and stopped, absorbing shock and tension and protecting the animals. After tension is released, a lever on top is pulled and the rope is released. The QR2 can also be released under some tension. An optional guard is provided to help reduce the possibility of recoil. There is virtually zero rope change time required when a new rope is desired. Pull tested to 1,500 lbs. Replace rubber piece after 100 runs.

Sherry Cervi's Signature Collection bits have an excellent feel for quick pickup and release. Mouthpieces are stainless steel and available in many options and degrees of control.

"I see a lot of barrel racers who reach for the most severe bit in the trailer at the slightest resistance rather than following a natural progression. You should always start mild and work your way up only if needed. I recommend starting a colt or charging horse with mild bits to teach them to yield to pressure while building confidence and establishing correct body position. That's why I start with my smooth D-ring snaffle before anything else, and then move up to the Diamond Draw series."

-Sherry Cervi

Barrel Bits

Carol Goostree is a true barrel racing legend and has been a trusted name in bits for many years. She is a former World Champion and has provided the western industry with the highest quality bits, original in design and ridden by some of the best barrel racers in the world. We are proud to bring you some of the most successful designs in the line.

CG Bit

The "CG" bit is one of the first bits Carol designed. She developed this bit especially for her champion mount "Dobre" in the late seventies. The chain snaffle mouthpiece and short gag action make this bit soft and forgiving in a horse's mouth. Horses tend to feel comfortable in this bit and show a lot of response without overreacting. It helps add control in the turns, and support and correct an overly bendy horse. The CG's 5-1/2" weighted shanks add more feel and help encourage a proper headset.

GTCGBIT $64.99

A. GTCGBIT31 CHAIN SNAFFLE

Simplicity Bit

Simplicity bits are designed for light-mouthed horses that need more flex with added control. These bits enforce natural flexion and rate going into a turn and are great transitioning tools for young horses that are ready to add more speed as they advance. Simplicity bits are trusted by some of the most successful barrel racers in the world. 5” shank.

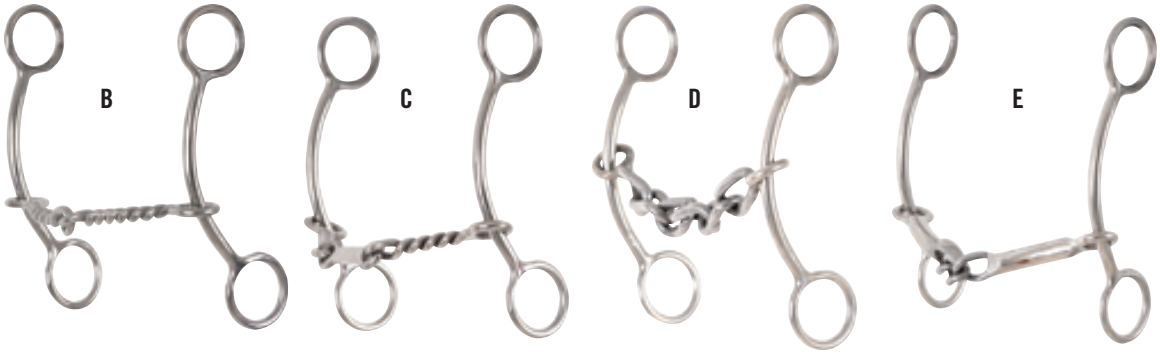
D. GTSBIT30 CHAIN
E. GTSBIT31 CHAIN SNAFFLE



Simplicity II Bit

Simplicity II bits encourage natural flexion with their balanced gag action. Designed for light-mouthed horses that need more flex and added control in the turn without restriction. 5” shank.

F. GTSIIBIT12 TWISTED WIRE SNAFFLE
G. GTSIIBIT13 DR BRISTOL
H. GTSIIBIT30 CHAIN
I. GTSIIBIT31 CHAIN SNAFFLE

Double Gag Bit

The Double Gag is for a light-mouthed horse that needs more direction and lift in competition runs as speed increases. The slight gag action gives the horse a chance to prepare for full contact before the rider fully engages the bit. It is comfortable, safe and provides a tremendous amount of feel for the rider without being too harsh. 8" shank.

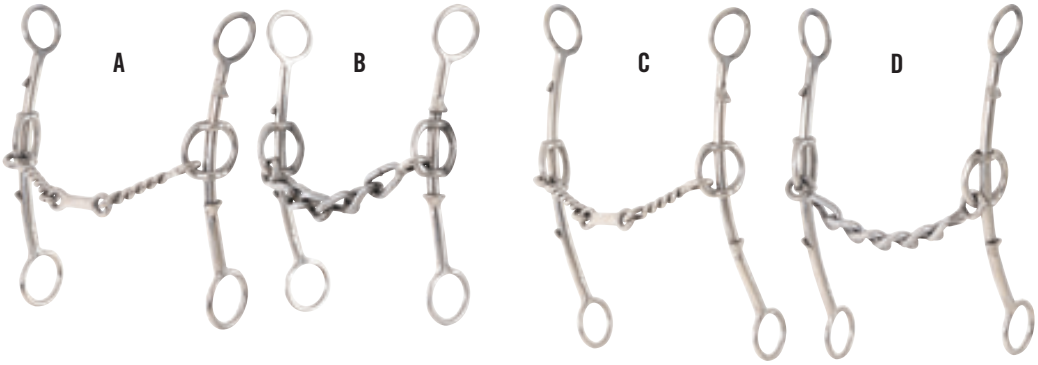
A. GTDGSS13 SHORT SHANK DR BRISTOL
B. GTDGSS30 SHORT SHANK CHAIN
C. GTDGLS13 LONG SHANK DR BRISTOL
D. GTDGLS30 LONG SHANK CHAIN

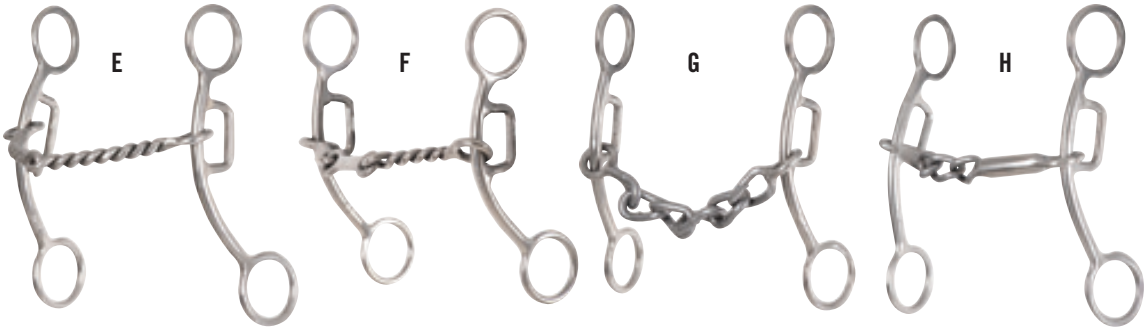


Delight Bit

The Delight has been around for decades and continues to be a best seller. It is a light bit, but offers quicker contact and a little more control when needed. The Delight is one of the original bits in Carol's line, and is perfect for tuning an older finished horse or for seasoned colts going around the barrels. 4-3/4" shank.

GTDBIT $64.99

E. GTDBIT12 TWISTED WIRE SNAFFLE
F. GTDBIT13 DR BRISTOL
G. GTDBIT30 CHAIN
H. GTDBIT31 CHAIN SNAFFLE



Pickup Bit

The Pickup Bit is available in both long (8-3/4") and short (7-1/4") shank versions and is Carol's next step up in control. Works well for obtaining shoulder control on seasoned horses that need help keeping their shoulder lifted going into the turns. Offers increased shoulder control and rate when needed. Horses that are harder mouthed usually respond well to the Pickup bit when lighter gag bits are not enough.

Goostree Quick Draw

Versatility and adaptability make the Quick Draw an excellent addition to any collection. The twisted wire dogbone mouthpiece is a basic tool for many disciplines. Gag length is variable by adjusting the headstall length, from 0" - 3". Two rein rings allow for either 5-1/2" or 6-3/4" shank length. The Quick Draw is excellent for collection at speed and teaching vertical flexion at many different levels.

GTQD **$64.99**

M.GTQD13 DR BRISTOL

Goostree Hackamore

The Goostree Hackamore is an extremely versatile piece of equipment. It is designed with a 8-3/4" shank and chain nosepiece covered in a supersoft polyurethane coating, making it very flexible. Because it is so flexible, riders don't hit that "dead spot" commonly felt in other hackamores. It offers plenty of "whoa" when needed and can be placed higher on a horse's nose or lower, depending on the horse's level of sensitivity.

GTHACK **$64.99**

N. GTHACK

Loomis Bits

Joyce Loomis-Kernek, a former WPRA & AQHA Champion Barrel Racer and World Renowned Clinician, designed the original Loomis Gag Bit. Its one-of-a-kind design has been trusted by some of the most prominent horse trainers for years.

Loomis Gag Bits are used and endorsed by Dena Kirkpatrick

Loomis Gag Bit

Loomis Gag Bits have been trusted by professional horse trainers for many years to start colts or tune finished horses. They work great for transitioning from the ring snaffle, providing additional lift to control the horse's nose, poll, rib cage and shoulders. Excellent tool for teaching collection and lateral maneuvers. Durable cord cheek pieces on double stitched natural leather headstall with silver dots. Smooth Snaffle is stainless steel. Twisted Wire Snaffle has a sweet iron mouthpiece with stainless steel cheek. Ready to use - all you need are reins.

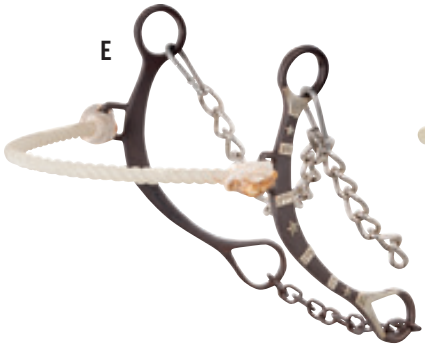
Bozo Sidepull

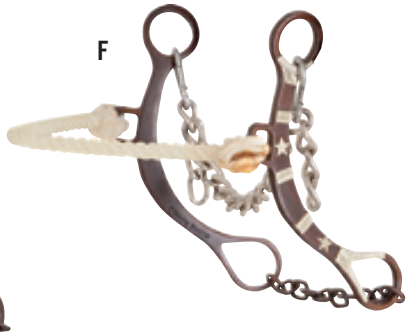
The Bozo Sidepull is a replica of the headgear World Champion Barrel Racer Kristie Peterson used on Bozo. It allows your horse to be comfortable enough to really run in, yet gives you enough control to rate and regulate the run. It helps correct a horse that is over-bending, and is more for the finished horse than for training.

TIP: Kristie recommends that you ride your horse in the Bozo Sidepull a few times before running in it.

BOZOSP $141.99

E. BOZOSP ORIGINAL (6-3/4" SHANK)
F. BOZOSPS SHORT SHANK (6" SHANK)





Shoulder Holder Bit

This is a great bit for elevating a horse's shoulder going into a turn. It aids the rider in holding a horse's shoulder steady, maintaining a more optimal body position around a barrel. Very fair and forgiving, the mouthpiece is set forward on the shank, which helps increase lift and lateral movement. This bit helps to maintain forward motion on horses that anticipate a turn. The Shoulder Holder is also a great tool for retraining man-made habits in aged horses. 7-1/4" shank.

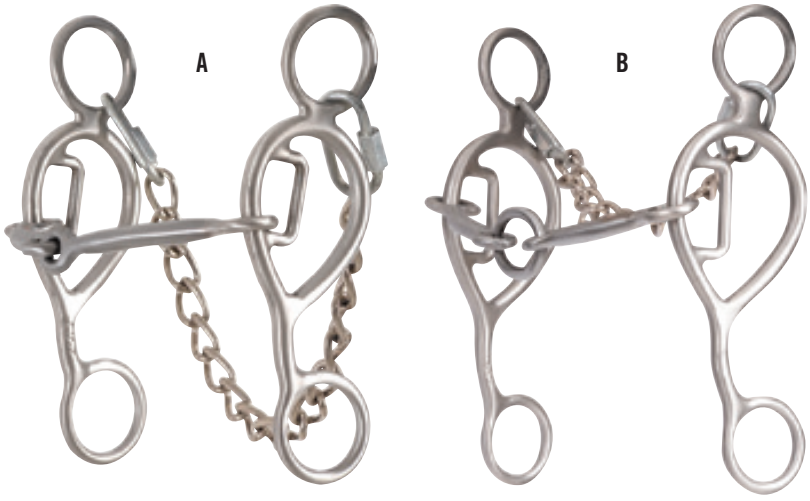
Les Vogt COLLECTION

Les Vogt is a 15-time world champion horseman who has been honored in the NRCHA hall of fame three times. He is known as "The Trainer's Trainer," sharing his knowledge by giving clinics worldwide.

Turbo Collection

Satin-finished tempered steel shanks and pinchless sweet iron mouthpieces. Calculated shanks and the pre-signal gag design keeps horses responsive.



5-1/2" Shank Snaffle

Shank Level 1: 5-1/2"
Mouthpiece Level 1: Snaffle
Gag Length: 7/8"

Snaffle mouthpiece combined with easy leverage and limited gag encourages lateral flexion and suppleness. Great for fundamental training in younger horses.

A. LVBB7 $64.99

6-1/2" Shank O Ring Snaffle

Shank Level 2: 6-1/2"
Mouthpiece Level 1: Ring toggle snaffle
Gag Length: 1-1/8"

Smooth ring toggle mouthpiece with medium leverage and gag encourages rate, lateral bend, and poll control. Provides lift for intermediate horses.

B. LVBB8 $64.99

Turbo Collection

7-3/4" Shank Ported

Shank Level 2: 7-3/4"
Mouthpiece Level 2: Loose port snaffle, designed for pressure points on the outer mouth bar areas
Gag Length: 1-1/2"

The tool that creates smooth lateral neck and hip control without creating fear in intermediate and advanced horses. Limited gag slide action with higher leverage encourages rate, respect, and collection.

C. LVBB9 $64.99

6-1/2" Shank Snaffle

Shank Level 2: 6-1/2"
Mouthpiece Level 1: Snaffle
Gag Length: Unlimited

Lower leverage helps to make your horse more user friendly. Specially designed for soft-mouthed horses that need front end elevation. Great tool for collection education and maintenance.

D. LVBB10 $64.99

7-1/2" Shank Dogbone Snaffle

Shank Level 3: 7-1/2"
Mouthpiece Level 3: 1/4" Square with copper roller covered dogbone
Gag Length: Unlimited

This bit gives you respect without fear with the unlimited gag slide action with medium-high lift leverage. Allows speed control, rate and lateral body control.

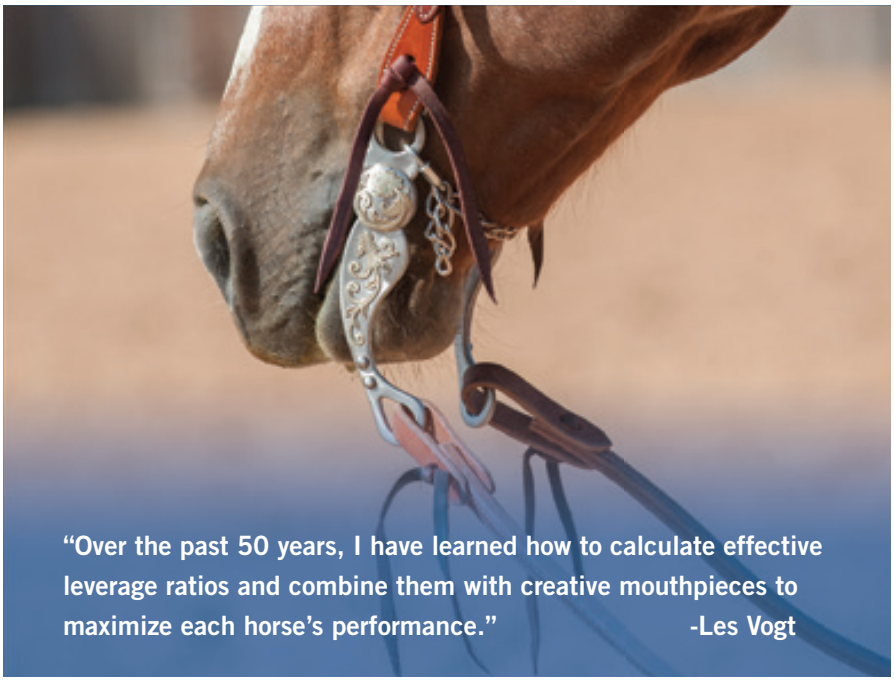
E. LVBB11 $64.99

8-1/2" Shank Ported

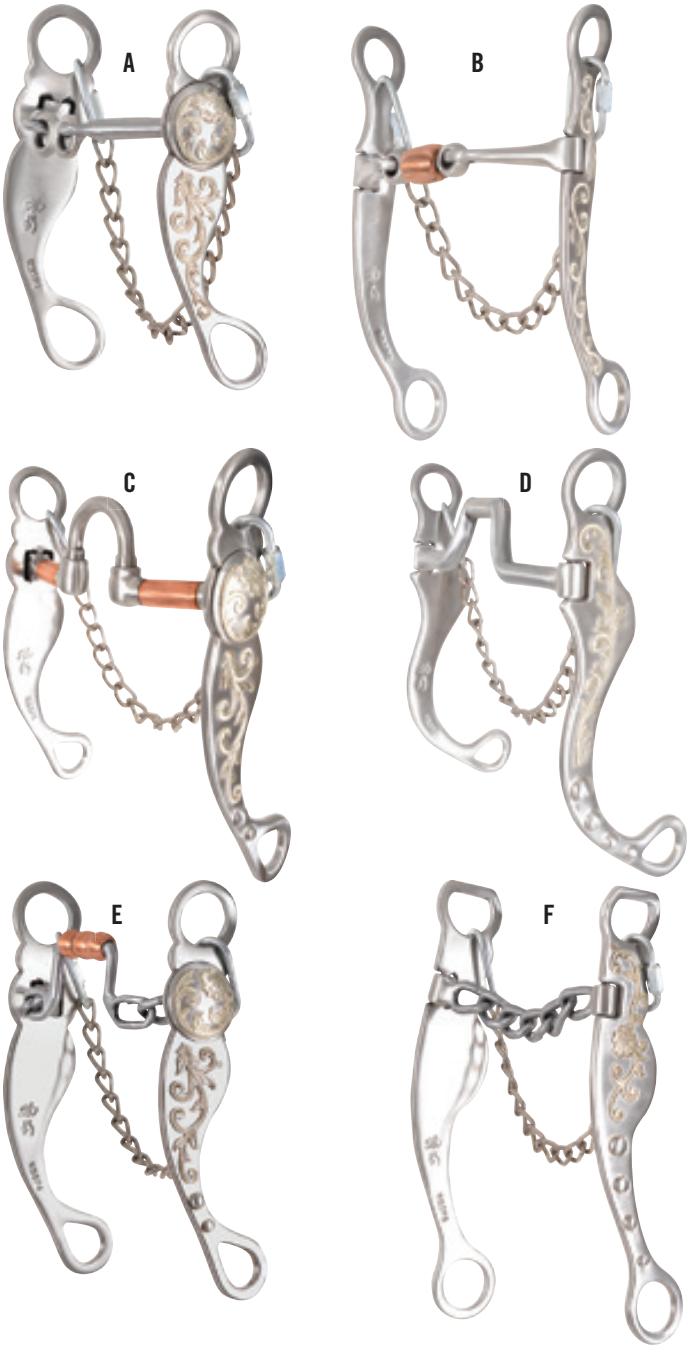
Shank Level 4: 8-3/4"
Mouthpiece Level 4: 1/4" square bars with loose open port center
Gag Length: Unlimited

The unlimited gag slide action with high lift leverage encourages hindquarter engagement and weight distribution, with hip and shoulder control while competing to win at a high level on a broke horse.

F. LVBB12 $64.99



"Over the past 50 years, I have learned how to calculate effective leverage ratios and combine them with creative mouthpieces to maximize each horse's performance." -Les Vogt



Roper Collection

The Les Vogt **Roper Collection** is designed to increase performance in the arena, on the ranch, or on the trail with precision design combinations.

Dogbone Snaffle with Swivel Cheeks

Shank: 5-3/4"; Leverage Position: 1. Low leverage, easy mouthpiece is great for green or fragile horses.

A. LVRB1 $149.99

3 Piece

Shank: 6-3/4"; Leverage Position: 1.5. Popular, versatile graduation bit with more leverage, feel, and respect on green horses.

B. LVRB8 $149.99

Short Shank Correction with Swivel Cheeks

Shank: 6-3/4"; Leverage Position: 2. Allows for rate and communication. Shifts weight to the hindquarters and eliminates performance dead spots.

C. LVRB5 $149.99

Swivel Port with Hinged Cheeks

Shank: 7-1/2"; Leverage Position: 2-1/2. Swivel port mouthpiece combined with high leverage allows lift and more control when shifting weight to the hindquarters. Flexible and slow reacting; good for strong, well-seasoned horses.

D. LVRB3 $149.99

Square Port with Rollers

Shank: 6-3/4"; Leverage Position: 2-1/2. Contoured chain links find pressure points that achieve lateral flexion with rate and body control under speed.

E. LVRB6 $149.99

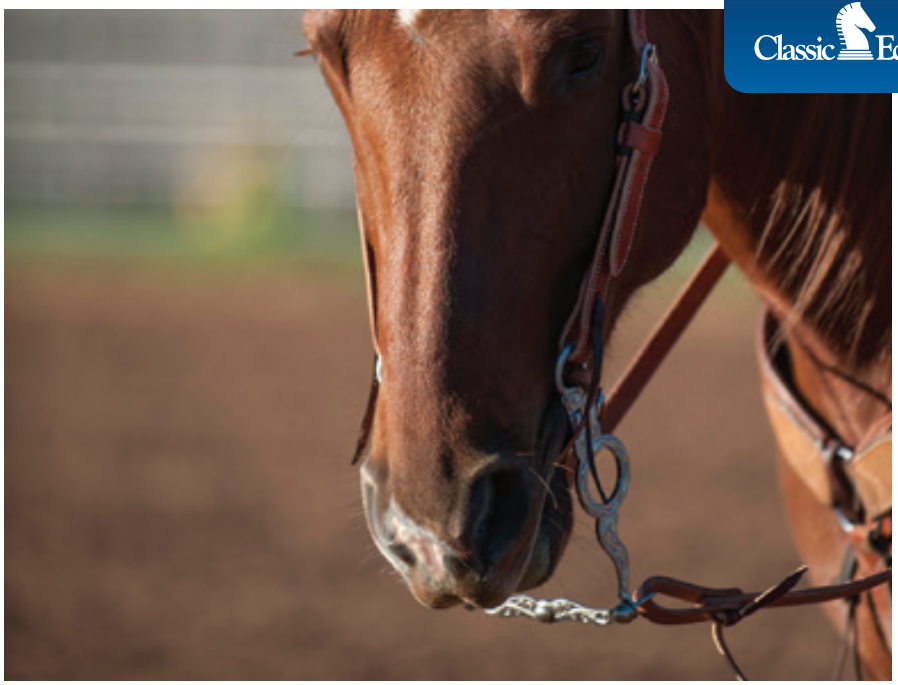
Chain

Shank: 8"; Leverage Position: 3. Chain mouthpiece with high leverage. Flexible and slow reacting, good for stronger, well-seasoned horses.

F. LVRB2 $149.99

Cowhorse Collection

The Les Vogt **Cowhorse Collection** includes NRCHA approved bits with sweet iron mouth with copper inlay. Satin brushed iron shanks with beautiful hand engraved German silver overlay.



1-3/4" Slope Port

Shank: 8"; Leverage Position: 1. Higher leverage drops the neck and slows curb action. Slope port mouthpiece gives tongue clearance and contact with the exterior of the bars. Great for green horses.

G. LVCH4 $149.99

2" Flat Port Roller

Shank: 7-1/4"; Leverage Position: 2. Versatile mouthpiece with leverage. Communicates with respect, not too hot or too cold. Perfect for the nice horse that deserves to be bridled properly.

H. LVCH2 $149.99

1-1/2" Port with Rollers

Shank: 8"; Leverage Position: 2. Higher leverage combined with a soft mouthpiece for more collection. Works well to eliminate high performance busy signals in and out of the arena and is a popular crossover bit.

I. LVCH6 $149.99

2-1/2" San Joaquin Port with Tongue Relief

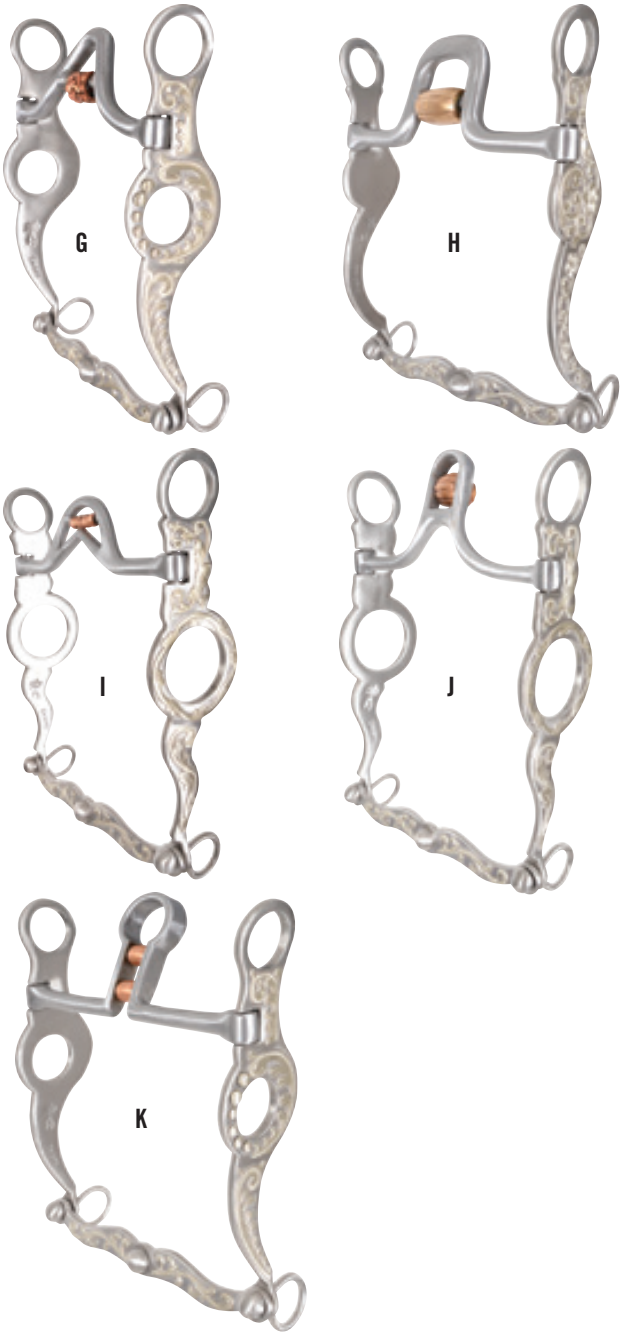
Shank: 8"; Leverage Position: 2-1/2. 4:1 leverage ratio drops the neck and delivers perfect head position for precision performance. Great all around bit for most horses.

J. LVCH5 $149.99

2-3/4" Keyhole with Double Roller

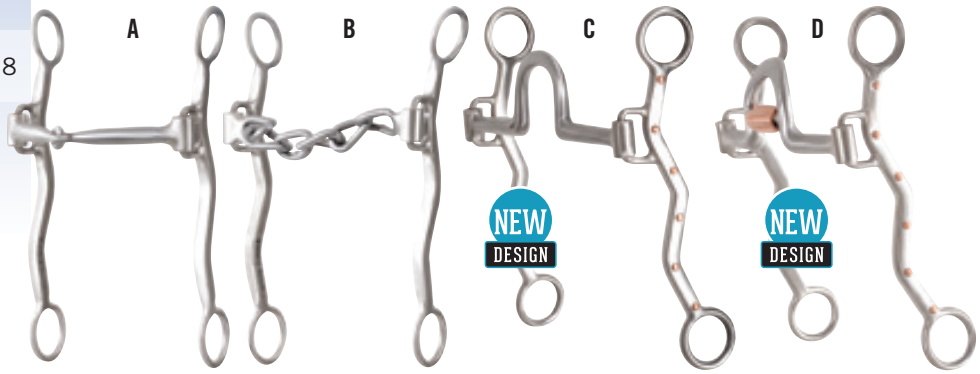
Shank: 8"; Leverage Position: 3. Provides ample feel with palate and tongue pressure for respect. Easy to use and great for tougher horses.

K. LVCH3 $149.99



Rickey Green lost his battle with a rare form of leukemia in 2018, and the entire team roping industry was deeply saddened by the loss of one its most influential leaders. Rickey had a passion for the sport of team roping that was both unsurpassed and contagious. His eternal goal was to make the sport better for all. Rickey truly loved people, and he lived to teach. He was an inspiring and gifted coach who was able to help and connect with everyone from the top pros to the most novice.

Rickey was an 11 Time NFR Qualifier and NFR Champion. He trained seven horses that were ridden at the National Finals Rodeo, including three PRCA World Championships, four NFR Championships, two BFI Championships, and the USTRC Open Championship.



Rickey Green Bits

by Classic Equine®

The Rickey Green bit collection was designed for team ropers to train, practice and compete. It features a 7" loose-cheek shank and an assortment of mouthpieces for collection and lateral flexion, giving ropers the control and balance needed for proper horse position and consistent loop delivery.

Rickey recommended using a firm leather curb strap or flat chain with these bits to allow the horse to feel and work off the bit rather than react to the feel and pressure of a biting curb.

Long Shank Snaffle

Contoured shape makes the mouthpiece comfortable, and the 3" purchase provides leverage to lift the horse's head and shoulder, keeping the hindquarters collected.

A. RGBIT18 $76.99

Chain

Pinchless mouthpiece shaped to lay flat across the mouth and tongue, attaches to the shank and softly cues when pressure is applied. Allows for collection, breaking at the poll and lifting of the shoulder in preparation to stop.

B. RGBIT30 $76.99

Sharp Setter

Encourages rate quickly under speed. Port reaches the top of the mouth and signals flexion at the poll, bringing the horse into your hand. Preferred on aggressive horses to maintain control.

C. RGBIT240 $76.99

Setter with Roller

Unique mouthpiece rolls back when engaged, slowing contact and allowing time for collection and response to pressure. Develops the horse's proper headset and teaches him to carry the bit correctly. Under speed, helps rate smoothly and build consistency.

D. RGBIT241 $76.99

Joe Beaver BITS by Classic Equine®

7-1/2" Shank Low Port

Allows the horse to push into the roper's hands. Length of the shank helps maximize the function of the jerk line. Its port style is shaped to be forgiving to a sensitive horse. Doesn't lock on and hold a horse's mouth, so it is a good bit for kids or novice ropers.

E. JBBIT2 $76.99

7-1/2" Shank High Port

Offers more control on a horse that drops in the front and helps the roper keep his horse's weight shifted to the hind end. Offers more control on horses with a hard mouth. Increased "get back" action on horses that don't want to get back or yield to the jerk line on their own.

F. JBBIT1 $76.99

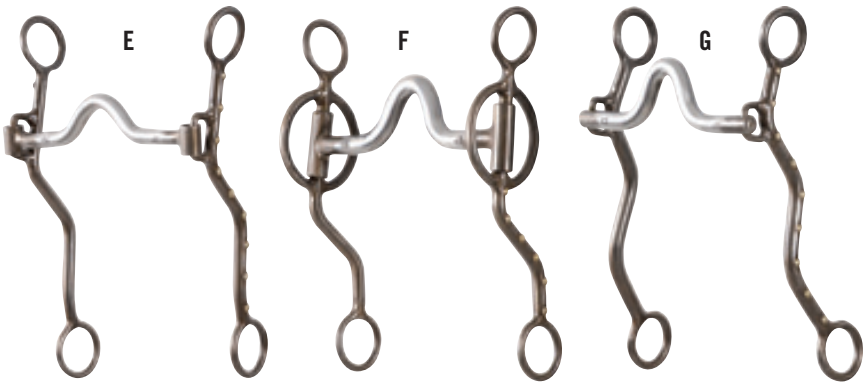
8" Shank High Port

For the seasoned, veteran calf horse. Provides more control in the box and in the corner. 8" shanks provide maximum jerk line action. Works well for ropers with light hands or helps compensate for size and strength of the roper.

G. JBBIT3 $76.99

Joe Beaver is an 8 Time World Champion Calf Roper with 22 NFR qualifications in Tie-Down Roping and Team Roping. Joe has dedicated much of his life to growing the sport, coaching the pros and teaching young ropers the fundamentals of Calf Roping. Joe conducts clinics, seminars and roping schools worldwide, in addition to horse training and public speaking appearances.

Classic Equine® is proud to offer his line of time tested Calf Roping bits. They are for everyone from novice and youth competitors to experienced professionals. His bits will help make up ground in horsemanship so the roper can focus on the calf. Ropers can depend on Joe Beaver bits for any style of calf horse, at varying stages of competition.



BitLogic™

In developing BitLogic, we worked with dozens of the industry's top horse trainers. While all trainers have their own "secret" specialty bits, the basic styles of mouthpieces and cheeks used by most respected horsemen are surprisingly similar.

BitLogic is a complete bitting system. Included are essential bits that are common to most every professional horseman's line of equipment in all western disciplines.

Snaffle O Ring

O Ring Snaffles are the most commonly used pieces of equipment by trainers of all disciplines, for everything from starting colts to softening older performance horses. Use them to introduce a horse to a bit for the first time, teach a horse to follow his nose, lateral flexion exercises and drills, establish proper headset or soften older horses. These O Rings have a weighted feel for greater sensation during the pickup and release of pressure.

Smooth Snaffle

The softer of the two O Ring styles. 3/8" diameter, 5" wide and curved to shape the mouth. Inlaid copper promotes salivation and greater sensitivity to the bars.

A. TBBIT40R20 $61.99

Twisted Wire Snaffle

3/8" x 5" stainless steel twisted wire mouthpiece. Creates greater sensitivity in the mouth. Great for training and softening older horses' mouths.

B. TBBIT40R25 $61.99

Snaffle D Ring

The D Ring Snaffle has a nice weight, balance and feel. Its slightly heavier design not only makes it durable, but it takes a deliberate action to cue the horse. When released, the bit returns quickly to a resting state, providing release of pressure and adding consistency to your hands.

Smooth Snaffle

The softer of the two D ring styles. 5" wide and curved to shape the mouth. Inlaid copper promotes salivation and greater sensitivity to the bars.

C. TBBIT3DR20 $86.99
D. TBBITDR20 $61.99

Twisted Wire Snaffle

5" stainless steel twisted wire mouthpiece creates greater sensitivity in the mouth. Great for training and softening older horses' mouths.

E. TBBIT3DR25 $86.99

Square Snaffle

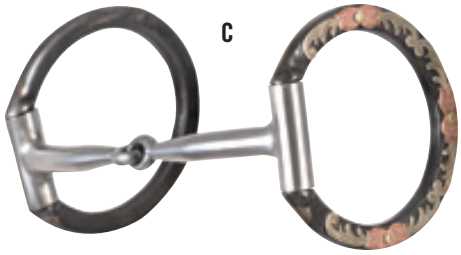
5" stainless steel square mouthpiece is designed for training, softening your horse's mouth, and building sensitivity.

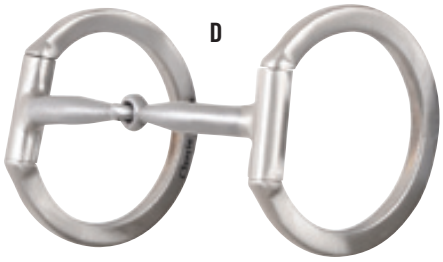
F. TBBIT3DR29 $86.99

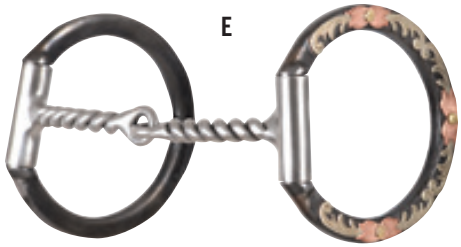
Small Smooth Snaffle

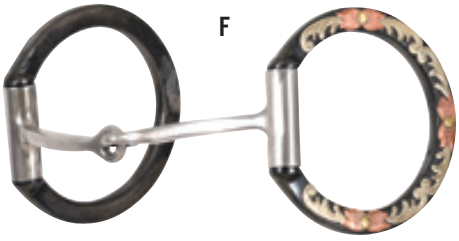
5" stainless steel small smooth mouthpiece is designed for training, softening your horse's mouth, and building sensitivity.

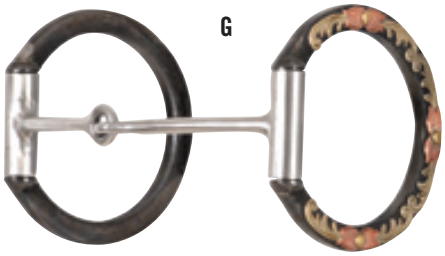
G. TBBIT3DR35 $86.99

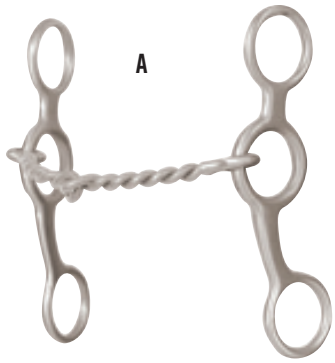


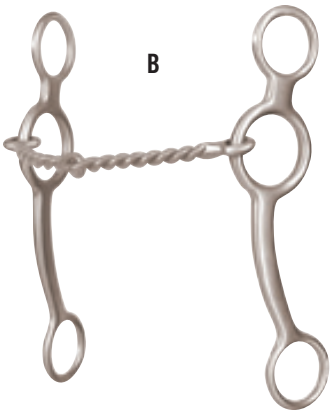


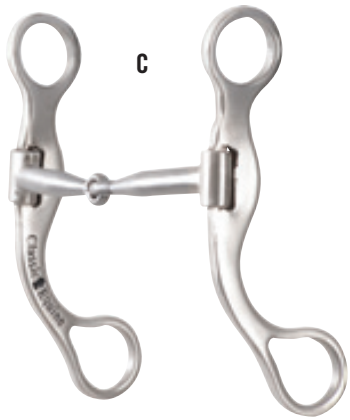


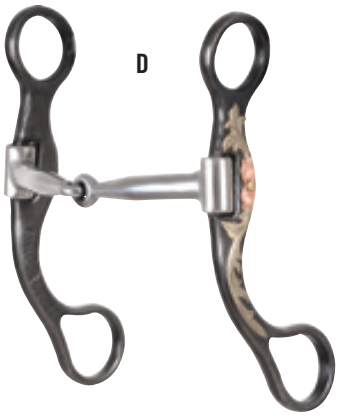


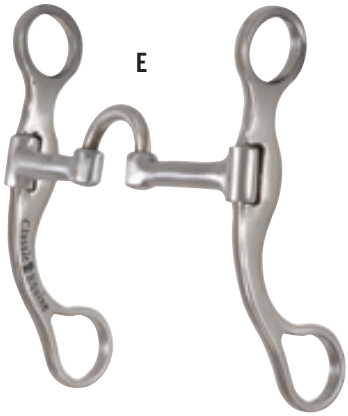


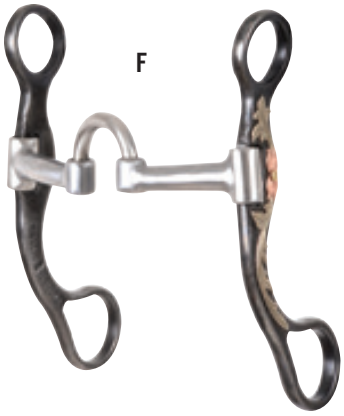












Ring Gag

Ring gag with an inlaid copper twisted wire snaffle mouthpiece. The gag action encourages the horse to respond before the bit is completely engaged. Gags are commonly used in training and competing in all western events.

5-1/2"

This gag action bit helps elevate the horse's shoulders.

A. SSPSBIT5RG25SS $54.99

6-1/2"

Good bit for reinforcing collection and shoulder elevation. Longer shanks give it more leverage for increased control.

B. SSPSBIT65RG25SS $54.99

6" Cheek

The 6" cheek has a 2-1/2" purchase and 3-1/2" shank. This ratio (difference in the length of the purchase and shank) and the swept back shank design make this a mild cheek. Contact with the horse's mouth comes slowly as soft pressure to all points of contact. The main point of contact is the corners of the mouth, familiar from the O Ring. This bit may also be used with a training fork or martingale to encourage collection and poll control. The mouthpiece is inlaid with copper to stimulate salivation. It is 5-1/8" wide, 3/8" in diameter, and curved for soft, evenly distributed pressure to the bars, tongue, and corners of the mouth.

Snaffle

Softest of all shank bit styles. Transition bit for colts moving up from the O Ring. Soft pressure is applied through the curb.

C. SSPSBIT6SS20 $54.99
D. TBBIT36SS20 $86.99

Short Correction

A slight step up from the snaffle. Applies pressure to the chin, bars and corners of the mouth. Gives added pressure to the tongue for more feel.

E. SSPSBIT6SS61 $54.99
F. TBBIT36SS61 $86.99

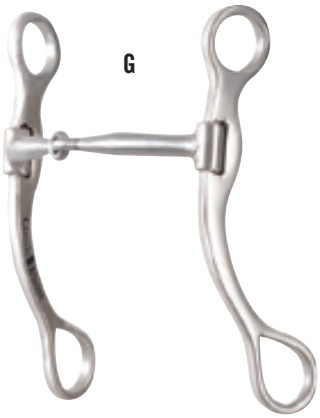
7-1/2" Cheek

This cheek style can be used for training, pleasure riding or competition. It has a 2-1/2" purchase with a 5" shank. The shank is swept back like the 6" style, but to a lesser degree, offering more leverage. When properly adjusted it is still a mild cheek, but has plenty of control at increased speeds.

Snaffle

This is one of the most popular bits with all horsemen. It applies more pressure to the tongue than the dogbone, giving it a quicker response. Offers lateral pull and collection.

G. SSPSBIT7SS20 $54.99
H. TBBIT37SS20 $86.99



Chain

Stainless steel cheek with an inlaid copper chain mouthpiece. Good for reiterating bend and flex. Mild and pinchless sweet iron is comfortable, and applies even pressure to the corners of the mouth and tongue.

I. SSPSBIT7SS30 $54.99

Floating Spade

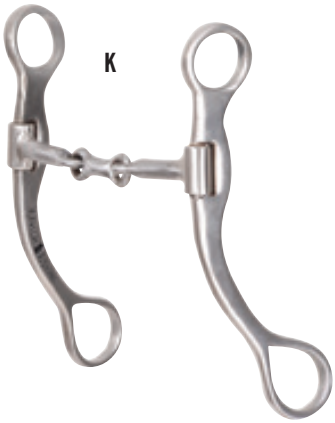
Stainless steel cheek with copper inlaid floating spade mouthpiece that wraps over the tongue with pressure. This is a great bit to introduce a horse to palate pressure as you transition to ported bits.

J. SSPSBIT7SS24 $54.99

Dogbone

This versatile mouthpiece wraps the tongue when pressure is applied. Pressure is also realized on the chin from the curb strap to the bars and corners of the mouth. This bit works well on well broke young horses or light-mouthed older horses.

K. SSPSBIT7SS29 $54.99
L. TBBIT37SS29 $86.99



7-1/2" Cheek

Ported Chain

Stainless steel cheek with a copper inlaid ported chain mouthpiece. This comfortable and pinchless mouthpiece allows for tongue relief while providing flex and bend. It also encourages the horse to break at the poll. Ideal for finished, well broke horses.

A. SSPSBIT7SS32 $54.99

Low Port Barrel

This highly universal bit works well for anything from training to pleasure or competition. The low port provides tongue relief as slight pressure is applied to the bars of the mouth and the palate. Each side works independently from the port for increased lateral flexion.

B. TBBIT37SS60 $86.99

Ported Twisted Wire

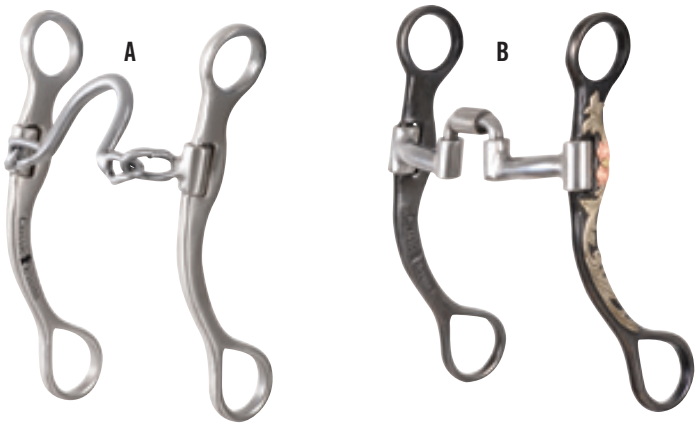
Advanced bit applies pressure to all parts of the mouth and sides of the tongue. Side pieces move independently with enhanced leverage and lift from twisted wire mouthpiece for desired stop and collection.

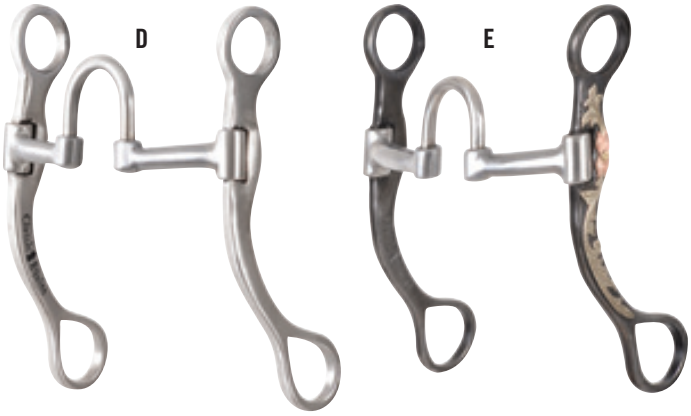
C. TBBIT37SS34 $86.99

Correction

Extremely popular with performance riders and trainers. Taller port creates more palate pressure. Mouthpiece applies increased pressure to the sides of the tongue. Designed for finished, well broke horses of all disciplines.

D. SSPSBIT7SS10 $54.99
E. TBBIT37SS10 $86.99





8” Cavalry Cheek

Designed for more control in finished performance horses. The angled shank causes immediate response. The purchase/shank alignment ratio increases leverage, creating pressure to contact points. Use for competition and schooling, not daily training.

1” x 1-3/4” Correction

Applies increased pressure to all parts of the mouth and sides of the tongue. Used to school horses that need reminded of stopping and collection.

F. SSPSBIT8CS10 $54.99
G. TBBIT38CS10 $86.99

Square Hinge Port

Sides of the mouthpiece move independently for lateral control and flexion for lifting the shoulder, achieving collection, and promoting a level headset.

H. TBBIT38CS70 $86.99

Ported Twisted Wire

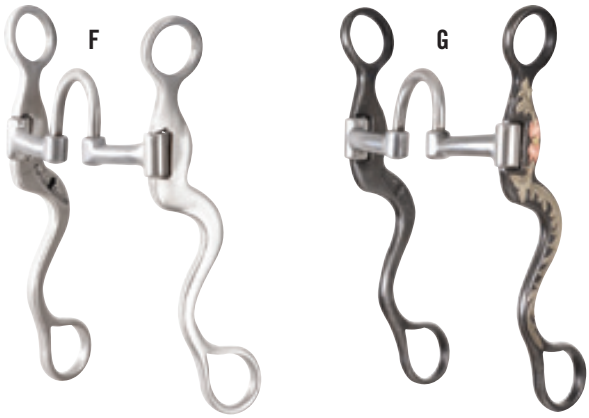
Advanced bit applies pressure to all parts of the mouth and sides of the tongue. Side pieces move independently with enhanced leverage and lift from twisted wire mouthpiece for desired stop and collection.

I. TBBIT38CS34 $86.99

Ported

Inlaid copper mouthpiece with a higher port increases degree of contact with the palate, offering tongue relief with 1-1/2” width. For collection with a finished horse.

J. SSPSBIT8CS43 $54.99



Hackamore

9” cheek with solid noseband and adjustable chain. Pinch free, designed for more control.

German Martingale

3/4" German Martingale is designed to teach the horse to give to bit pressure, flex at the poll, and maintain proper vertical and lateral body position. With four easy adjustment points, it accommodates all types of horses and training maneuvers.

Split Reins
GMART16SR $189.99

Roping Reins
GMART16RR $174.99

String Martingale

Lightweight martingale designed to teach flexion and facilitate consistent rein cues. Adjustable for any headset.

SMART $26.99

Loping Hackamore

Braided noseband with split yacht rope reins that provide good weight and feel in your hands. The Loping Hackamore is an excellent tool to soften the horse's feel in the warm up pen before bridling.

HACKLN $139.99

Jim Edwards Sidepull

A training tool every horseman should own. Great for colt starting or as a hackamore alternative. Used as a stepping stone for a young horse from the halter in preparation for an o-ring, with a similar feel to a halter. It offers a clear signal and is also excellent for softening a horse of any age who needs a break from the bit.

JESIDEPULL $199.99

Bonnet

Goes over the brow and the nose, with a ring to attach the tie down strap. Made of adjustable flat braid rope and high quality leather.

BONNETM $66.99

Colt Rein

Rein your colt without the excess bulk of a long rein. Yacht rope has 3/4" diameter and shorter length for colts. Harness leather slobber straps.

LRN $49.99

Colt Pad

Developed for advanced horsemen and professional trainers when starting colts, the Colt Pad is a safe alternative to using your regular saddle when tying around young horses. Strategically placed D-rings offer multiple tying positions. High quality felt lining is covered with harness leather for durability. Latigos and back cinch included. Front cinch sold separately.

A. COLTPAD $274.99

Kick Chain

Use to prevent a horse from kicking the stall. Closure has an easy on/off application and design includes a heavyweight one-size-fits-all dog chain.

B. KICKCHAIN $51.99

Pawing Chains

Discourage pawing while a horse is trailered or tied. Small chains hang from a leather strap that buckles above the horse's knee. One size fits most. Hermann Oak harness leather.

Phil Haugen Training

Over 30 years, Phil Haugen has developed a method of horsemanship on the foundation of common sense, trust and understanding. A respected trainer and clinician, Phil has developed these tools to help accomplish the training goals of all disciplines.

Martingale

Classic German Martingale with tightly braided rope applies pressure to the bars and corners of the mouth, and provides instant release as the horse gives. This tool is useful to maintain that "softness" in the bridle with added speed and pressure during the transition to higher level training in its desired discipline. Available with split rein or roping reins.

Split Rein
I. PHMARTINGALESR $131.99

Roping Rein
PHMARTINGALERR $123.99

Flexion Rig

Useful in developing vertical and lateral flexion in the horse, as well as introducing colts to girth pressure. The Flexion Rig reinforces softness in horses at any level, encouraging them to move forward behind the bridle for immediate pressure release. Phil has used this tool with great success on numerous horses. Cinch included.

J. PHFLEXRIG $193.99

1/2" Braided Rein

Quick pickup and release helps the horse to understand your cues and improves reaction to your hands. The low stretch between the hands and bit keeps the horse from leaning on the bridle and provides immediate release for softness. Use with slobber straps to facilitate a softer feel.

K. PHREIN $42.99

Bungee Tiedown

The Bungee Tiedown makes introducing poll pressure easier in sensitive horses. Headset is encouraged with easy reinforcement without being too harsh. This helps the horse feel more comfortable and willing in his training.

Flank Cinches

All Martin Saddlery flank cinches have biothane keepers for longevity. The contoured ends will not interfere with spurring. They are made of heavy saddle skirting with a latigo liner and sewn together with heavy nylon thread. Then they are hand rubbed and the edges are dyed. Roller buckles are secured with copper rivets.

Cashel® Saddles

Cashel® saddles are made with your security and comfort in mind. We offer versatility in styles great for training, colt starting, pleasure riding, competition, mounted shooting and ranch work.

Cashel® saddles are built on the Axis True Fit tree, with a unique fiberglass seat and the finest kiln-dried South Dakota white pine. The bars distribute weight evenly and allow a full range of motion. Double stirrup leather cutouts and a smooth surface with flared edges create a smooth, balanced ride.

Drover

The Drover is durable and heavy enough for ranching and day work, but comfortable enough for long rides on hunts and trails. It has an association swell with a mule hide wrapped dally horn, and is made of high quality Hermann Oak leather with a full padded seat. Tie rings are woven into each string set with an additional crupper ring. 4" wide Monel stirrups are standard. The AXIS™ tree provides full, even contact to best fit your horse. Made with 100% all natural sheep wool and soft leather latigos. Chocolate roughout leather. Made in the USA.

Cashel® Trail Saddle

The Cashel® Trail has horse and rider's comfort and security in mind. Stirrup fenders are positioned to give the rider a comfortable leg angle for stability. A double padded seat makes a softer ride for long trail rides, and the redesigned larger swells and cantle offer more security. Tie rings are woven into each string set, along with an additional crupper ring. The saddle is 7/8 rigged, and with the AXIS™ tree provides full, even contact to your horse. Weight: 24-1/2 lbs. Chocolate Hermann Oak leather. Made in the USA.

Tree Sizes: 15", 16", 17"

Gullet Sizes: Standard (6-1/2"), Wide (7")

Cowboy Kid Saddles

For the serious competitor, Cashel® is proud to offer a serious youth saddle designed with the young rider in mind. All Cowboy Kid saddles are built to use, with trees and rigging that stand up to ranch work. A secure seat pocket, roughout leather, and kid friendly proportions help the young rider maintain correct position and balance. Available in four styles, you are sure to find a saddle that is the perfect fit for your cowboy kid.

These saddles can fit a wide range of riders by adjusting stirrups and adding a seat shrinker. They are tailored to those who wear girls' or boys' western jeans from size 4 to 14.

Barrel Racer

Narrow ground seat helps the rider balance for tight turns, with a tall, narrow horn for security and leverage. Prominent swells keep the rider in position as the horse drops, and the higher cantle helps keep the rider from falling behind as the horse accelerates.

Seat Sizes: 12", 13"
Gullet Size: 5"

SA-CKBR $999.99

Roper

Tailored to help young ropers as they learn the basics, with a horn that is easy to reach and a seat designed to keep them in position. Blocked fenders help keep balance while delivering the loop.

Cushion Pads

Engineered to provide outstanding back protection and shock absorbency, Cashel® Cushion pads are made with a unique closed cell foam originally designed for the aerospace industry for weight distribution and shock reduction. They will not collapse or absorb moisture and bacteria the way open cell foam pads do, nor will they retain heat or add unnecessary weight the way liquid gel pads do. Extremely lightweight and conforming to your horse's back, Cashel® Cushions will help relieve pressure points and are tapered at the edge to eliminate uncomfortable ridges, allowing closer contact with your horse. They go label side up with your saddle directly on top. Recommended for use over a navajo, felt liner, or quilted pad. Clean with water and store on a smooth surface.
