This photo, taken in 1923, captures the humble beginnings of this family business. During the day, Frank Meguiar Sr. (the company's founder) would demonstrate and sell the product that was made the night before.

As you can see the whole family was involved mixing, bottling and packaging.

Greetings Everyone:

When asked why I love the Car Hobby so much, I find my thoughts going in 16 different directions. It seems there's no end to the reasons that come to mind.

On an individual basis, all of us have become better people and we have better friends because we're Car Guys. It's like the Car Hobby is a natural screening process that only attracts those who are inherently good people. I often say if there were more Car Guys in the world, there would be less wars.

The common attraction, of course, is this universal passion we have for our cars . . . and the respect we share for each other's dedication to making our cars look 'show car' perfect. While expensively rare cars are due their respect, Car Guys appreciate how much work and perseverance is required to take any car to show car status. That's the common bond that breaks down all the social barriers and unites us.

It is this intrinsic value of the Car Hobby that has driven our passion to help grow it from its earliest days into what it is today. And it is this same passion that has driven us to create the amazing products that you'll find in this catalog.

Barry J. Meguiar

2014 PRODUCTS

Pride Passion Performance

Three simple words that drive the Meguiar's team. For over 100 years, we've shared our passion for cars and the products that help you restore a faded paint finish, bring life back to an old set of mags or just show off that deep, glossy shine!

Every year we work to raise the bar higher and this year is no different. We challenged our scientists to create our longest-lasting, highest performance tire dressing resulting in ULTIMATE BLACK TIRE COATING. And, building on our successful Ultimate Black Plastic Restorer, we're introducing ULTIMATE BLACK TRIM SPONGES to conveniently and quickly restore exterior plastics, vinyl & rubber. For the inside of your ride, we have ULTIMATE INTERIOR DETAILER providing incredible cleaning and UV protection with a sophisticated, matte sheen. Lastly, a revolutionary way to eliminate odors and keep your car smelling fresh with WHOLE CAR AIR REFRESHERS available in three uniquely blended fragrances.

DA Power System

DRILL ACTIVATED • DUAL ACTION

THE POLISHING REVOLUTION

With any job, the right tool can make all the difference in reducing time, producing better results and generally making the overall experience more rewarding. Meguiar's® DA Power System is a patented tool that attaches to your household drill to make compounding, polishing and waxing not only faster, but with results that approach those of a trained professional.

The heart of the tool is its Dual Action ("DA") motion, which has been available to professional detailers in specialized power tools for years. By spinning and oscillating the pad at the same time (similar to the earth's rotation as it orbits around the sun), this dual action motion in Meguiar's® DA Power System is able to quickly remove oxidation, swirls and scratches, yet do it safely and without worry of damaging the surface, even for the first time user.

STEP 1 **WASH**

In automotive paint care, washing and cleaning are not the same. While they sound similar, they are vastly different procedures. Washing removes loose contaminants from your finish like dust, road grime, and fresh bird droppings. (We'll cover cleaning in Step 2.)

A common misconception is that dishwashing detergent is safe to use as car wash. Absolutely not!

Detergents are formulated to strip everything off of the surface, leaving it squeaky clean. A squeaky paint finish tells you that it has no protection. With repeated use, dishwashing detergents remove everything from your paint finish including waxes, silicones and polymers. Once this is accomplished, they then proceed to remove the life giving oils in your paint finish, actually accelerating the oxidation process.

All of Meguiar's car wash products are pH balanced and specifically formulated to enhance the appearance and protection of automotive paint finishes.

2014 Chevy Camaro ZL1 Convertible

• 6.2 L supercharged V8 • 580 HP; 556 lb.-ft. torque • Brembo brakes • Magnetic ride control suspension

ULTIMATE WASH & WAX ANYWHERE

- No Water? No Worries! Our proprietary formula removes grime without scratching!
- Unique polymers provide gloss & protection for weeks

24 oz Product code: **G3626**

- Gently foams away dirt & grime while conditioning your paint
- Conditioners reveal color & clarity

64oz Product code: **G7164**

DEEP CRYSTAL® CAR WASH

- Special sudsing ingredients safely remove dirt & grime
- Will not strip wax protection like dishwashing detergents

64oz Product code: **G10464**

STEP 2

CLEAN/PREP

CLEANING, or Surface Preparation, consists of first removing any bonded above-surface contaminants, and then eliminating below-surface defects, like stains, blemishes and oxidation.

To begin, after washing your car pass your fingertips over the surface. Do you feel roughness like micro speed bumps on your paint? If so, these are above-surface, bonded contaminants. Over time, these contaminants will dull your paint and rob your car of its shine.

Fortunately, Meguiar's® Smooth Surface™ Clay Kit includes everything that you need to safely, and easily, remove bonded contaminants, leaving the surface as smooth as glass!

After removing bonded contaminants that you can feel, examine the paint finish from different angles and light sources to reveal any visible, below-surface defects like oxidation (dullness), stains/blemishes and fine scratches. Meguiar's offers a range of clear-coat safe products to remedy below surface defects. You can either visit us on-line or call our Customer Care Center 800-347-5700 if you have questions or need specific advice.

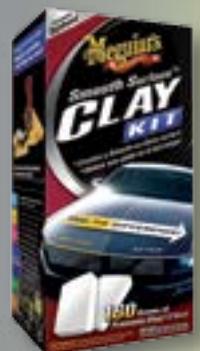

1970 Pontiac Trans Am

• Single Original Owner • Custom paint by: Charlie Mutton • Custom Ride-Tech suspension • Custom body work featuring integrated metal wheel flares & rear spoiler

SMOOTH SURFACE™ CLAY KIT

- Makes waxing easier & longer lasting
- Contains 2-80g clay bars, 16oz. Quik Detailer® & Supreme Shine® Microfiber Towel®

Kit Product code: **G1016**

QUIK DETAILER®

- Removes harmful contaminants before they damage your paint finish
- Keeps a waxed car looking "just waxed"

16oz Product code: **A3316**
32oz Product code: **A3332**

SUPREME SHINE® MICROFIBER TOWELS

- Premium woven material traps & isolates particulates, preventing swirls
- Super plush weave absorbs two times more than traditional terry towels

3 Pack Product code: **X2020**

WATER SPOT REMOVER

- Clear Coat safe!
- Great on paint, glass, chrome & hard plastics

14oz Product code: **A3714**

ULTIMATE COMPOUND

- Cuts fast, and removes swirl marks but will not scratch
- Use by hand or with Dual Action (DA) Polisher

16oz Product code: **G17216**

CLEAR COAT SAFE RUBBING COMPOUND

- Produces a clean surface without scratching like traditional tub products
- Safe on ALL glossy paints & clear coats

16oz Product code: **G18016**

SCRATCHX™ 2.0

- Clear Coat safe!
- Quickly removes fine scratches, fingernail marks, paint transfer & parking lot scuffs

7oz Product code: **G10307**

STEP 3 **POLISH**

Polishing is an optional step, and is different from waxing. While some modern-day marketers have caused confusion by naively misusing the terms, the definitions are clear. As in polishing a diamond, the sole purpose of polishing is to create brilliant high gloss. For car show enthusiasts who are obsessed with having perfectly clear reflections, Meguiar's® Ultimate Polish is the perfect choice. Others may be looking to remove the last hints of swirl marks while maximizing the gloss. In this case, a Cleaner/Polish like Meguiar's® Polishing Compound is a good solution.

Waxing falls under the larger heading of protecting the paint finish, which we'll discuss in Step 4.

2014 Tesla Model S

• T Sportline customized • 21" one piece forged wheels • Carbon fiber sport package: front apron, 2 piece rear diffuser, trunk wing spoiler • Custom Bespoke interior upholstery upgrade

ULTIMATE POLISH

- Rich polishing oils add a deep, rich wet look to paint
- Eliminates fine swirls, perfecting the paint prior to waxing

16oz Product code: **G19216**

CLEAR COAT SAFE POLISHING COMPOUND

- For hand application to restore brilliance to dull surfaces
- Removes light scratches & hazing

16oz Product code: **G18116**

SHOW CAR GLAZE

- Superior shine for single stage enamel & laquer paints
- Restores a dazzling, deep, wet shine

16oz Product code: **M0716**

STEP 4 **WAX/ PROTECT**

Waxing protects the paint finish from the elements by coating it with waxes, polymers, resins and silicones. In addition to protecting, waxing can also “lock-in” the gloss to create brilliance, deepen/enrich dark colors and offer other benefits, such as water beading and light swirl removal depending on the formulation.

All of Meguiar’s waxes are clear coat safe, with choices available in paste, liquid or spray depending on your needs and preferences. Note that every car and car owner is different, as are the environments in which they live and how they are cared for. All of these variables affect how long a wax lasts. Generally speaking, we recommend waxing your car 3-4 times per year, but more frequent waxing is OK!

1961 Chevy Impala

• Custom built vehicle by: Steve Cook • 2000+ HP custom engine built by: Mike Moran • Fully custom interior by: Gabe Lopez • Custom 1-off wheels & steering wheel by Billet Specialty

ULTIMATE WAX

- Our most advanced, pure synthetic hydrophobic wax
- New ThinFilm technology makes application the easiest, even in full sun!

16oz Liquid Product code: **G18216**
11oz Paste Product code: **G18211**

ULTIMATE QUIK WAX®

- Revolutionary, synthetic, non-whitening formula produces amazing results in just minutes
- Spray on, wipe off, and then marvel at the shine!

15.2oz Product code: **G17516**

11oz Paste Product code: **A1214**

QUIK WAX®

- Won't whiten on trim & can be applied in full sun
- Use on either wet or dry surfaces

16oz Product code: **A1616**

STEP 5 **MAINTAIN**

Once a car is waxed, the best ongoing protection for your car's finish is regular attention, or maintaining the finish. Regardless of whether your car is parked or being driven, it's in a hostile environment.

Everything that flies, from a gnat to a 747, expels contaminants that are determined to bond to and then etch into your car's finish. Add to this acid rain, industrial fallout and those unavoidable UV rays (the No. 1 cause of paint degradation), and you can see how your car is constantly under attack. The more your car is exposed to the elements, and the harsher the environment is where you live, the more attention your paint finish will require.

Fortunately, Meguiar's has made it easy for you with our mist and wipe detailers. Meguiar's® Quik Detailers allow you to safely and easily remove contaminants before they have time to bond to your paint finish. These products form the missing link between washing and waxing, allowing you to greatly extend the protective qualities of your car wax.

1950 Chevy Deluxe 2 Door Sedan

• 5.7 ltr. Chevy V8 • Custom reverse 4-link rear air-ride suspension • Chopped 4.5" • Custom tuck & roll interior • Custom air brushed & pin-stripped paint

ULTIMATE QUIK DETAILER®

- Safely removes dust and surface contaminants in-between washing
- Hydrophobic Polymer Technology darkens the finish, adding protection and water beading

- Long-lasting shine remains even through rain!
- Controlled application with no overspray, runs or drips

16oz Product code: **G7516**

HOT SHINE™ TIRE SPRAY & COATING

- Gives your tires that black, wet look
- Highly water-resistant polymers keep tires looking shiny, longer

24oz Product code: **G12024**

15oz Product code: **G13815**

HOT SHINE™ TIRE FOAM

- The thick, active foam clings to tires, dissolving away build-up to leave a clean, shiny black tire
- Simply spray and walk away

19oz Product code: **G13919**

WHEELS & **TIRES**

Arguably one of the most important and defining features of a car is its wheel & tire package. What used to be limited to paint, chrome and aluminum has expanded into a variety of finishes from custom wheel manufacturers who are constantly driving advances in design and materials. Similarly, car makers have also added a diverse offering of wheels. Whether your ride's equipped with custom 3-piece forged rims, factory clear-coated silver alloys, or a trick set of chrome plated wires, Meguiar's® has developed the correct cleaners & polishes to make your wheels look their best.

But clean wheels with dull, dingy tires is just wrong, so Meguiar's® also offers Ultimate, Endurance® & Hot Shine™ tire dressings to make your tires look their best. And in addition to improving your tire's appearance, Meguiar's® tire dressings also protect your tires, helping to prevent browning & premature aging of the rubber.

**HOT RIMS™
ALUMINUM WHEEL CLEANER**

- Xtreme Cling™ foam grabs the wheel's surface, dissolving dirt, grime & brake dust
- Our safest, least-aggressive cleaner

24oz Product code: **G14324**

- Quickly restores brilliant shine to any uncoated metal
- Unique formula cuts through oxidation and polishes at same time

4oz Product code: **G15204**

FINISHING METAL POLISH

- Our brightest shine!
- High lustre formula removes fine blemishes that can limit shine

5oz Product code: **G15605**

INTERIOR

Just because Meguiar's is best known for polishes and waxes, doesn't mean we forgot about the inside of your car. Meguiar's has developed an extensive line of products to clean, restore and protect the interior of your car.

Starting with Meguiar's® Quik Interior Detailer™ you can quickly and easily freshen up all the surfaces of your car, leaving behind a clean detailed look. To add shine and protection to your vinyl and rubber surfaces, Meguiar's line of Protectants will do the job. Meguiar's® Ultimate Protectant will keep your sensitive vinyl dash board looking like new with superior, long lasting, UV protection.

And for the very best in luxury, Meguiar's® Gold Class™ Leather cleaners and conditioners are #1 in the industry! Meguiar's® Gold Class™ Rich Leather products are perfect to maintain the look & feel of your vehicles leather surfaces.

- Permanent Odor-Eliminating Technology finds odors wherever they are
- Sweet take on summertime

2oz Product code: **G16602**

OTHER *SURFACES*

Detailing your vehicle always comes down to the finer details. Now that you've restored and protected your paint, what do you do with all the non-painted surfaces? Like Vinyl cladding, headlights & glass? Well, Meguiar's has you covered!

Meguiar's® Ultimate Black will bring back to life any faded and tired looking rubber, plastic or vinyl trim. This special formula will also last through rain storms and multiple washing, without leaving those ugly black streaks that run down the side of your car like other trim restoring products.

And have you noticed all those yellowed and hazy headlights on the road? Plastic Headlights take a lot of abuse, whether it's damaging UV rays, fine scratches or road grime, they also need attention. Meguiar's full line of headlight restoration products can restore even the most severely oxidized headlights; or prevent your new cars lenses from ever fading in the first place.

1948 Austin London Taxi Cab Rat Rod

- Custom 4-link front / 3-link rear air ride suspension system
- Austin FX-3 4 cylinder engine
- Body Mods: 4 door to 2 door, 6" chop top, 6" sectioned body, 3" narrowed body
- Custom metallic tangerine candy paint and airbrushed graphics

HEAVY DUTY HEADLIGHT RESTORATION KIT

- Restores clarity to neglected, heavily oxidized & scratched headlights
- Included Headlight Protectant helps maintain clarity

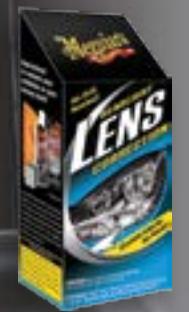

Kit Product code: **G3000**

ONE-STEP HEADLIGHT RESTORATION KIT

PERFECT CLARITY GLASS CLEANER

- Pro-strength for quick & easy cleaning against bugs, tree sap, smoker's film and bird droppings
- Safe for use on all tinted windows

24oz Product code: **G8224**

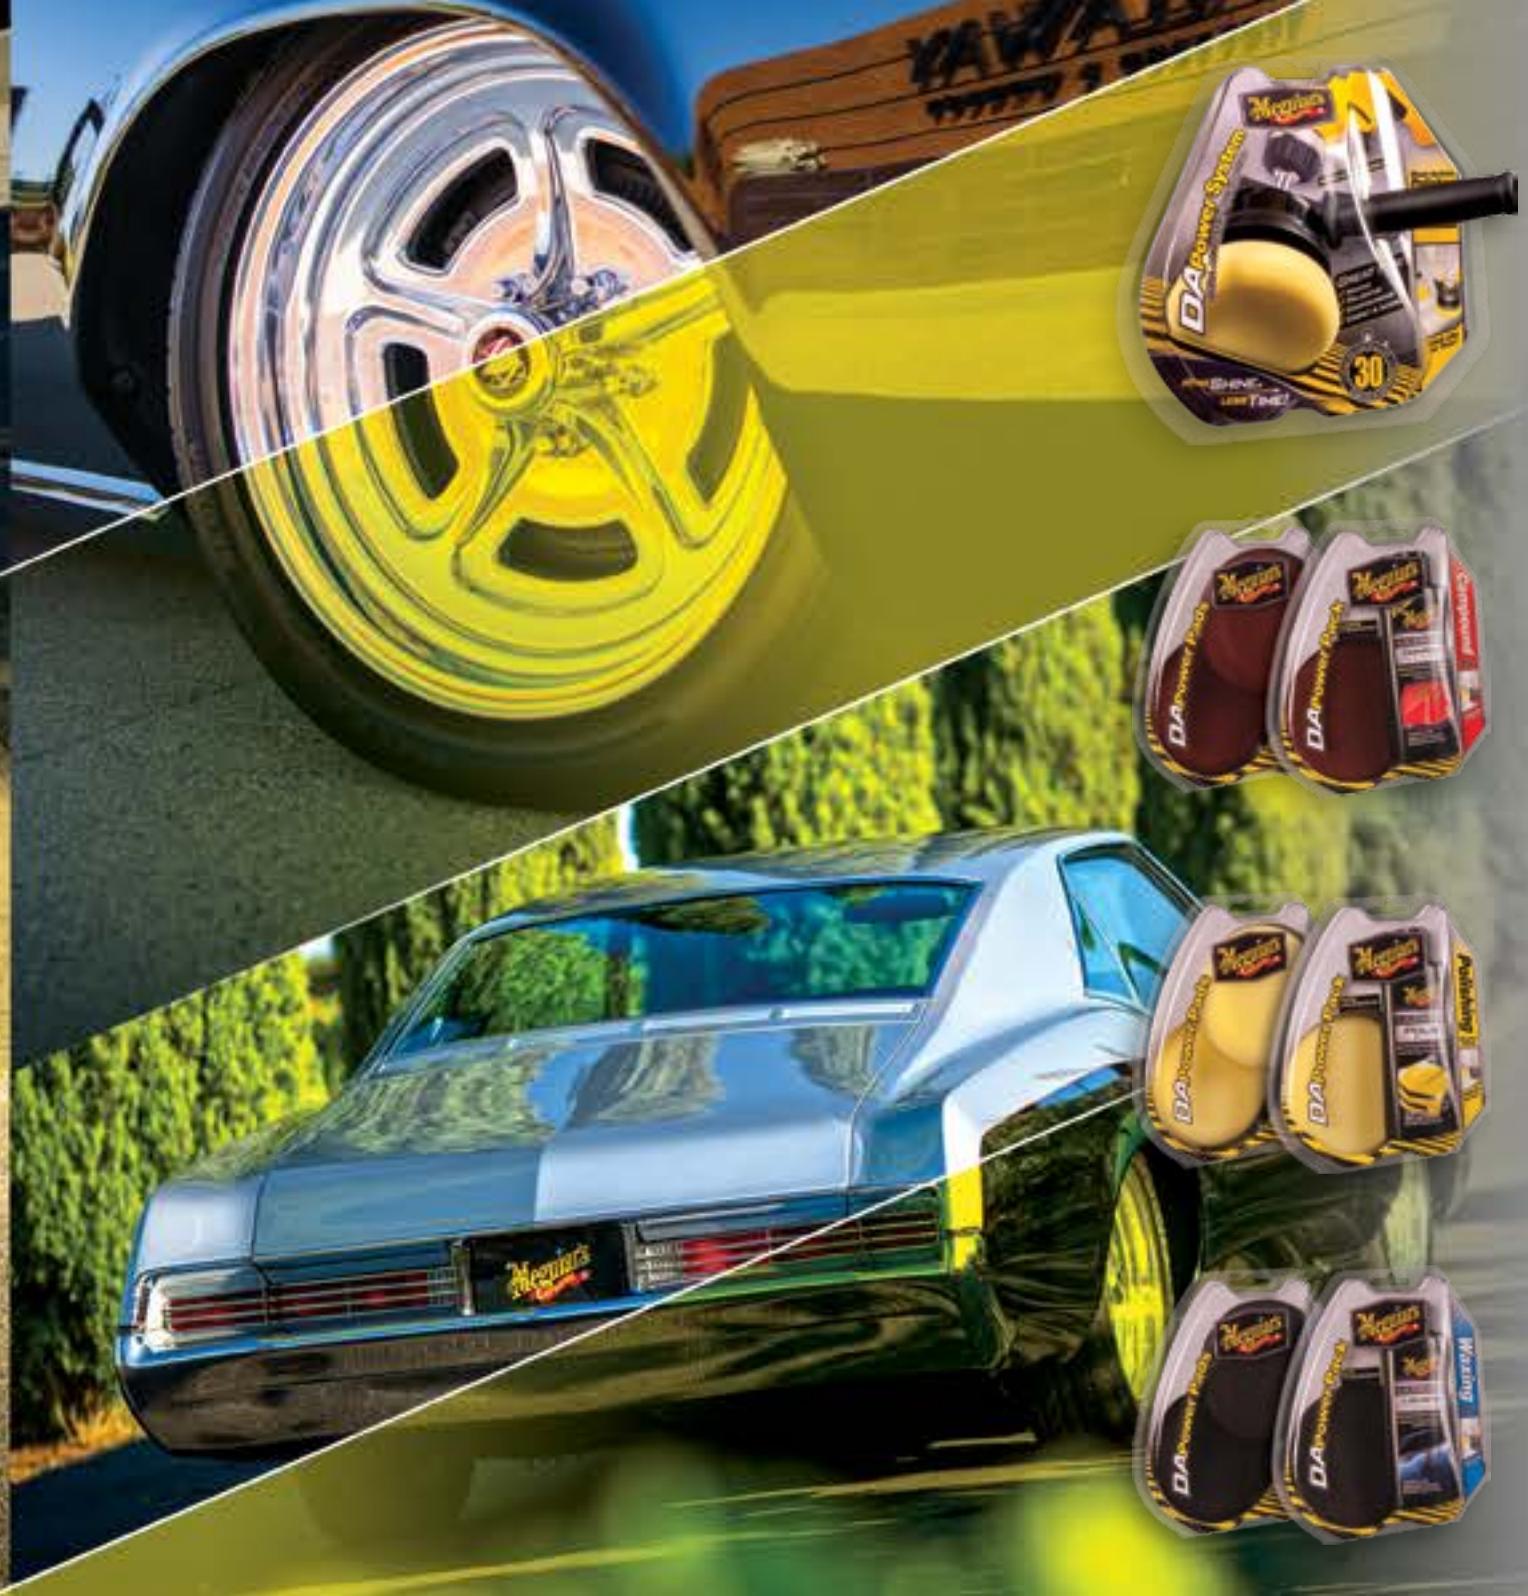

ACCESSORIES

Have you ever heard the phrase, “the right tool for the right job”? At Meguiar’s®, our line of paint, wheel and interior products perform at their peak when used with high quality accessories. Microfiber towels are not all created equal and our Meguiar’s Supreme Shine Microfiber Towel is a cut above the rest, making polishing and waxing even that much more enjoyable.

Plus, if you are ready to move up from hand compounding, polishing and waxing, Meguiar’s offers you two choices for a professional grade, quality finish. With the Meguiar’s DA Power System or Dual Action Polisher you will achieve flawless results that cannot be matched by hand and without the worry of marring the finish. From the first time users to professional detailers we guarantee you will love the results.

 - Helps produce a brilliant, swirl-free finish when washing
- Single Product code: **X3002**

MARINE & RV

Meguiar's offers a comprehensive, high quality line of products designed just for Boats and RV's. These products will give the same brilliant shine and long lasting protection that many enthusiasts have come to expect from Meguiar's line of car care products but are formulated for the special requirements of fiberglass and gelcoats.

There are over 30 million people in the USA who are considered "car crazy". Cars are an exciting part of their life and that's why we wanted to be the first to create multi-media communication platforms that excite and unite Car Guys worldwide. In addition to sponsoring over 9,000 car hobby events a year in America and thousands more overseas.

Additionally, there's Car Crazy TV on the SPEED Channel, Car Crazy radio that airs every weekend in over 90 markets and the car hobby's most important awards event... the Meguiar's Award which honors the Person of the Year for the Car Hobby in the United States and other countries globally.
