Featured New Product

Reflective Hard Hat

Decal Kits

Improve the safety of your employees with our selection of reflective hard hat decals. The reflective and colorful properties of these adhesive markers will help get your employees noticed both day and night.

Superbrite

High Intensity product has a reflective value of over 4 times that of our standard engineer grade products. Product meets or exceeds ASTM D-4956 Type III. Simply peel from liner and apply.

Each decal kit contains the following: 16 pcs (4" x 1")

ENGINEER Grade

The material is an ASTM D-4956-99 Type 1 reflective sheeting with a permanent adhesive. Simply peel from liner and apply.

Each decal kit contains the following: 2 pcs (6" x 1"), 2 pcs (2.5" x 1"), 3 pcs (2" diam circles).

Custom printing and designs available to suit your specific applications.

Premium Grade

Anti-Slip Tape

Gator Grip® Traction Tape is our premium brand anti-slip system to help ensure an OSHA compliant workplace. Constructed from a thick PVC base layer impregnated with an aggressive 60-grit mineral abrasive compound. The backing has an aggressive acrylic adhesive system for longevity that will form a strong, water-proof bond to most any clean, dry surface while still being temporarily repositionable during the application process.

Gator Grip® is a great choice for both indoor and outdoor environments offering our highest wear resistance and weatherability. Recommended product for long term and OEM applications. Gator Grip® Traction Tape is certified by the National Flooring Safety Institute 101-A “High- Traction”, and meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1. Gator Grip® offers excellent chemical and oil resistance for a wide variety of applications.

Cleats

GATOR GRIP[®] traction
tape

Our Gator Grip[®] die cut shapes are made from the same material as our other Gator Grip[®] products, but pre-cut to give a finished look on your floor or equipment. All cleats come with rounded corners to reduce tape lifting and flagging. The acrylic adhesive system forms a strong bond to most any clean, dry surface. Gator Grip[®] cleats work well in both indoor and outdoor applications. Water, chemical and oil resistant for indoor and outdoor usage. Custom die cut shapes and printing are available to suit your application.

Gator Grip[®] cleats are NFSI certified as a "High Traction" surface and meet or exceed OSHA 1910.24 and 1910.26

Anti-Slip Tape

TrueGRIP®
TRACTION TAPE

True Grip® Traction Tape is an excellent choice for most general purpose applications. The tape is constructed of a durable 46-grit mineral abrasive compound for excellent longevity in both indoor & outdoor applications.

We employ the use of a solvent based acrylic adhesive system to allow for adhesion over a wide variety of surfaces, while offering good water and chemical resistance.

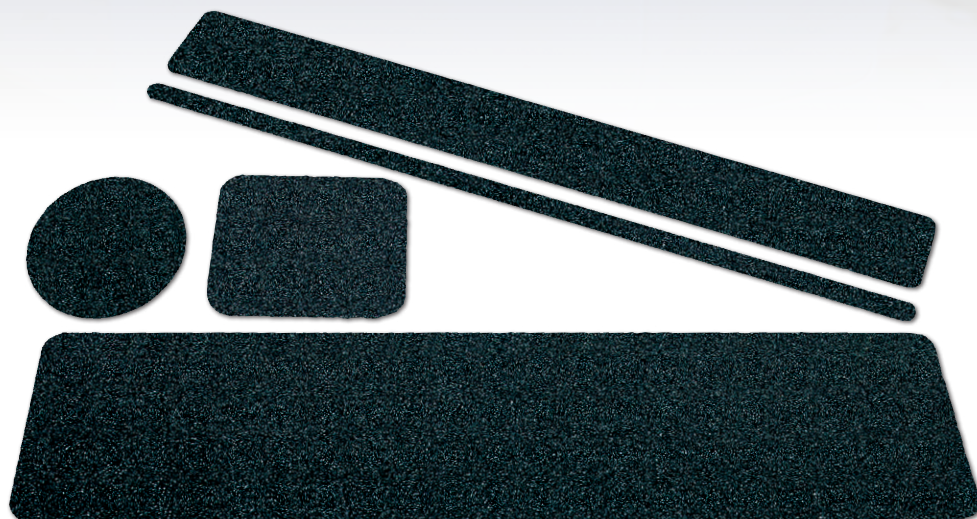

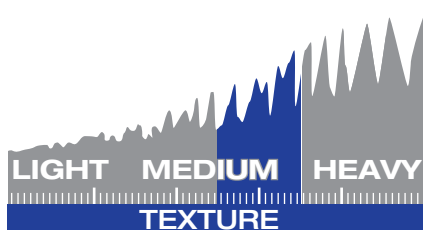

Our adhesive system allows for good initial bonding, yet still removes cleanly for replacement. Custom slit widths and die-cut cleats also available. Meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1.

Anti-Slip Cleats

True Grip® Traction Tape is available in pre-cut cleats to give a professional look to any installation. These cleats are made from the same quality product as our tape substrate and are available in a variety of stock sizes. All cleats come with rounded corners to reduce tape lifting and flagging.

We also offer custom die cutting and printing for your specific application. Suitable for indoor & outdoor applications.

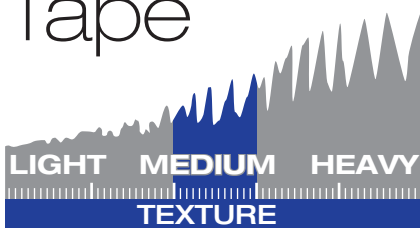

Our True Grip® cleats meet or exceed OSHA 1910.24, 1910.26 and ANSI B101.1.

Colored Anti-Slip Tape

"WATCH YOUR STEP" Anti-Slip Tape
Stock No. SG8903PT Size 3" x 60'

Our line of Gator Grip® Colored anti-slip products are an effective way to offer visual warning of a slip and fall hazards, while offering the same aggressive premium grit features found on our Gator Grip® products.

The surface is an aggressive mineral abrasive compound on a thick PVC liner. Tape will adhere to most any clean, dry surface with an acrylic adhesive system. Tape and adhesive are water, chemical and oil resistant for use in both indoor & outdoor applications.

Try our popular yellow/black hazard striped tape for maximum visual warning and anti-slip protection on stair nosings.

Tape meets NFSI 101-A "High Traction" and meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1.

Foil Backed

Anti-Slip Tape

Our conformable foil backed anti-slip tape is designed specifically for heavy duty textured surface and stair nosing applications. The foil carrier allows for excellent conformability and will hold its shape to most any embossed or textured surface with its aggressive adhesive.

This product works great on metal tread plate, stair nosing, uneven concrete and most uneven surfaces. Tape has an coarse 46-grit surface.

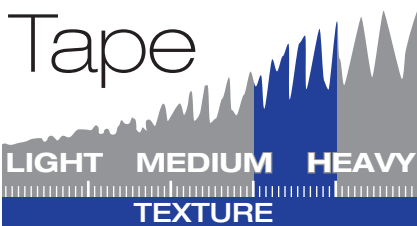

Great for indoor and outdoor applications with excellent weatherability and water resistance.

Custom slit widths and die cut applications also available. Meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1.

Water-Proof Construction • Chemical & Oil Resistance • Long Term Durability
Durable Aluminum Oxide • Indoor/Outdoor Product • Extreme Traction
• Premium Quality Construction • Extra Coarse 36-Grit • Ideal For Heavy
Soiled Conditions • Aggressive Adhesive System

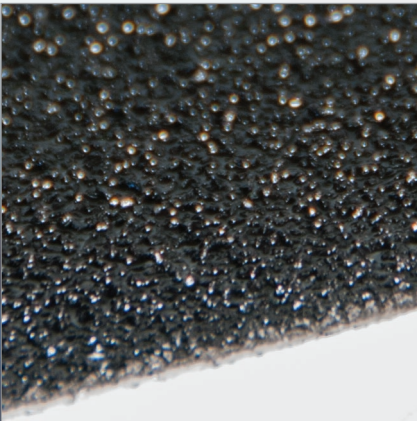

Heavy Duty 36-Grit Anti-Slip Tape

Heavy foot traffic and dirty work environments can clog up standard grit products with mud, oil, saw dust, liquids and grease. Our Extra Coarse Gator Grip® offers a very deeply textured (36-grit) surface to continue to offer non-slip protection, even in the dirtiest conditions. Tape can even be spray painted and still maintain a anti-slip surface.

Tape is water-proof for both indoor and outdoor applications, and offers excellent hydrocarbon resistance. This tape has a very aggressive grit surface and is recommended for areas with heavy debris only.

Custom slitting and die cut shapes for OEM applications also available. Great for mud, saw dust, snow and other outdoor applications. Meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1.

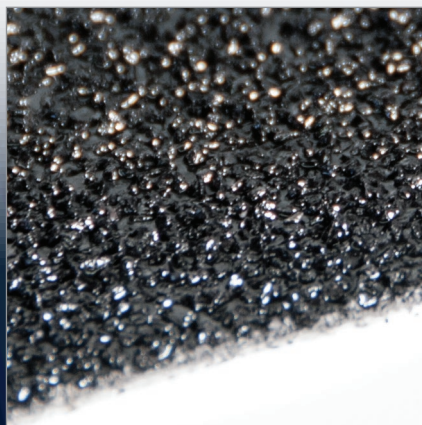

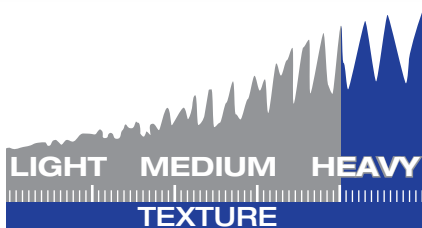

| Stock No. | Description | Size |
|------------------|---|-------------|
| SG6502B | Black Heavy Duty Gator Grip® Anti-Slip Tape (36-grit) | 2" x 50' |

24-Grit mineral abrasive surface offers our highest level of traction on virtually any surface. Great choice for applications where standard grit profiles do not offer the required level of surface friction for safety.

Super Coarse XP

24-Grit Anti-Slip Tape

GATOR GRIP traction tape 

Looking for the ultimate in high traction? Choose our Super Coarse XP non-skid. This product has a large (24-grit) mineral abrasive surface offering a high level of slip resistance.

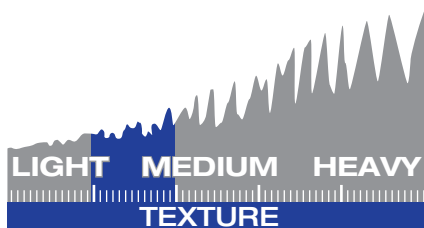

Super Coarse XP is a great choice for areas where large amounts of debris are present resulting in reduced surface traction. Tape is suitable for both indoor and outdoor applications and has an aggressive permanent pressure sensitive adhesive system.

Meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1.

| Stock No. | Description | Size |
|-----------|---|-----------|
| SG2402B | Black Gator Grip® Super Coarse XP (24-grit) | 2" x 40' |
| SG2404B | Black Gator Grip® Super Coarse XP (24-grit) | 4" x 40' |
| SG2406B | Black Gator Grip® Super Coarse XP (24-grit) | 6" x 40' |
| SG2412B | Black Gator Grip® Super Coarse XP (24-grit) | 12" x 40' |

Water-Proof Construction • Excellent Durability • Chemical & Oil Resistance • Medium Traction Surface • “Mop Friendly” Product • Aggressive Adhesive System

‘Mop Friendly’ Slip-Resistant Tape

Looking to provide an enhanced level of anti-slip protection, but still need to mop the surface for cleaning? Choose our “Moppers Friend” slip-resistant product. We have taken our premium grade anti-slip tape and modified the grit particles to allow a mop to pass over without “catching” strings.

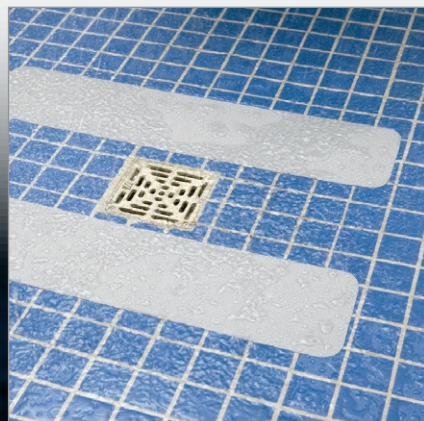

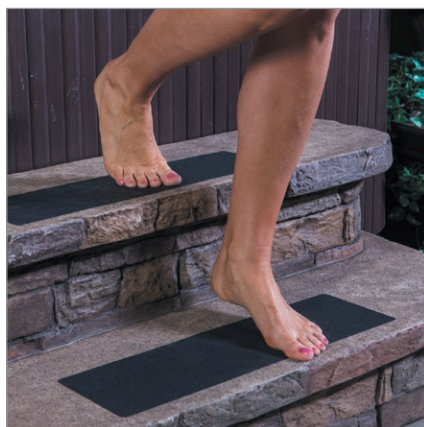

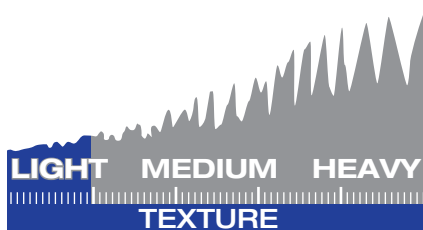

Tape has an aggressive acrylic adhesive system that will bond to most any clean, dry surface and offers a virtually water-proof long term bond.

An excellent product choice for marine and boating industries, or areas where frequent cleaning by mopping is common.

| Stock No. | Description | Size |
|-----------|--|----------|
| SG5102MB | Black Moppers Friend Slip-Resistant Tape | 2" x 60' |
| SG5104MB | Black Moppers Friend Slip-Resistant Tape | 4" x 60' |
| SG5106MB | Black Moppers Friend Slip-Resistant Tape | 6" x 60' |

Virtually Water-Proof • Bare Foot Applications • Mop Compatible Surface
• Resilient PVC Texture • Semi-Flexible Surface • Aggressive Adhesive
• Deeply Embossed Non-Abrasive

Soft Coarse Resilient Slip-Resistant Tape

SOFT***TEX*****XX**
RESILIENT

SoftTex Coarse Resilient Slip-Resistant Tape works great in the office, plant, locker room or areas with bare foot traffic.

This product is not like bath products you would see at the hardware store. This surface has a deep embossed surface that will perform in heavier duty applications while still being comfortable for bare foot traffic.

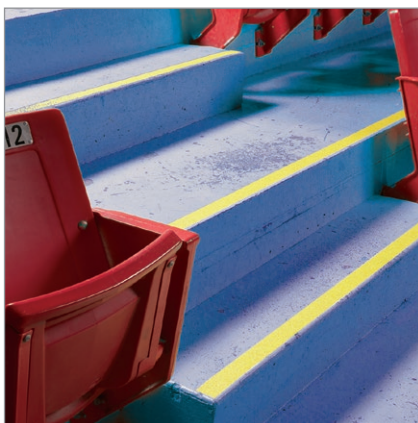

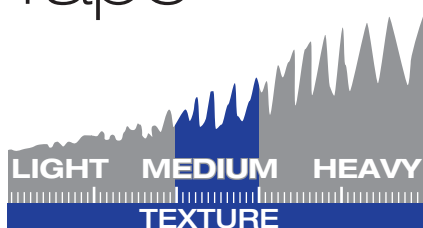

We recommend this product in office environments and light plant uses, it can be very easily cleaned and will not trap dirt the way normal grit products can.

| Stock No. | Description | Size |
|------------------|---|-------------|
| PFX2302K | Black Resilient Slip-Resistant Tape | 2" x 60' |

Stadium Track

High Visibility
Anti-Slip
Tape

GATOR GRIP traction
tape 

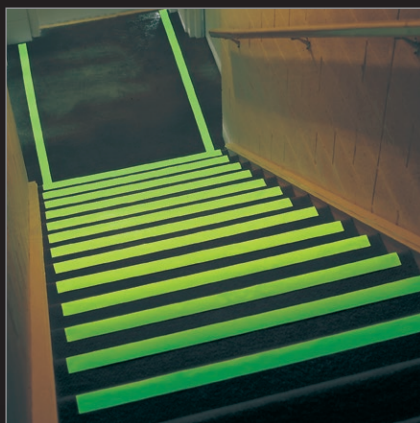

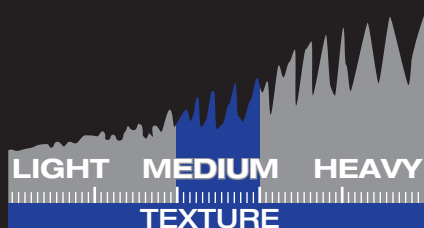

Public buildings, stadiums, arenas and parking garages are major areas of concern for slip and fall accidents. Our Stadium Track Tape was developed for these high traffic, high visibility applications. The tape has a muted yellow appearance that adds a visible safety feature, and it maintains its appearance because of the black particles mixed in with the yellow surface. Even after heavy foot traffic the tape will still not look dirty.

The 46-grit anti-slip surface offers a high level of traction and durability. If public safety is part of your program, this is a great product choice. Great for both indoor and outdoor applications and offers excellent water and weather resistance. Meets or exceeds ANSI B101.1.

| Stock No. | Description | Size |
|-----------|---------------------------------------|----------|
| SG6202Y | Yellow Gator Grip® Stadium Track Tape | 2" x 60' |
| SG6204Y | Yellow Gator Grip® Stadium Track Tape | 4" x 60' |

46-Grit Anti-Slip Construction • Aggressive Adhesive • Glow-In-The-Dark
• Adds Safety In Low-Light • High Traction

Photo- luminescent Anti-Slip Tape

This product has a similar surface and adhesion to our colored and black Gator Grip® anti-slip products, but with an added safety glow feature.

Our tape offers a "GLOW" that is readily visible to the light adjusted eye for up to 6 hours, with the strongest results in the first 60-minutes.

Product has an aggressive acrylic adhesive system that will bond to most any clean dry surface.

Hazard & Safety

Glow Tape

Protect your workers during blackouts and evacuations. Our Glow-in-the-Dark Tapes will "GLOW" 6+ hours. This product comes with an aggressive permanent pressure sensitive adhesive that will adhere to most any clean, dry surface.

Tape absorbs any ambient or UV light source, then releases this stored energy in darkness. Our Glow-In-The-Dark tape offers 6+ hours of Glow to the light adjusted eye. Please see data sheets on our website for complete details of specifications and standards.

Barricade Tape

Choose the grade for your Barricade Tape job. All rolls are 3" x 1,000' and sold full case only (12 rolls per case). Check our website for product specifications www.incomdirect.com

PRIMEGUARD

Sold full cases only

VALUE

Our best value thinner gauge film for general purpose usage. 3" x 1,000' and packaged 12 rolls per case.

CONTRACTOR

A great blend of performance and value for the contractor markets. 3" x 1,000' and packaged 12 rolls per case.

+PLUS

A medium thickness film built for extended stability in windy conditions. 3" x 1,000' and packaged 12 rolls per case.

HD HEAVY DUTY

Our thickest grade poly film for the best durability in a wide range of applications. 3" x 1,000' and packaged 12 rolls per case.

REINFORCED

Our Toughest Barricade Tape. Our reinforced PrimeGuard barricade tape offers the ultimate in durability on the jobsite. Printed on a material similar to that used in manufacturing sandbags, these tapes do not stretch or break under normal stress conditions. PrimeGuard reinforced will keep their shape in the rain and can withstand very strong winds. Currently available in both CAUTION and DANGER legends. Rolls sold in full case only, 3" x 500' 12 rolls/case.

Woven Polypropylene

Barricade Tape

Woven polypropylene barrier tape offers a strong, reusable product to help mark safety hazards in the workplace. This tape is made from a thick woven polypropylene scrim that will withstand high winds and offer long-term durability in outdoor applications. Material complies with UL 723, data sheet available on request.

Due to the strong nature of this product it can be reused to save cost and reduce environmental impact.

Product is available in an assortment of sizes and colors.

| Stock No. | Description | Size |

Long Term Durability • Indoor/Outdoor Product • High Visibility Color

Reflective Fiberglass

Property Markers

Our line of markers and reflectors are made with high visibility reflective for easy identification of hazards and boundaries both day and night from all directions.

These rods are made from extra strong rigid fiberglass with an engineer grade reflective for extended outdoor use. Markers come with a protective cap plus pointed tapered end for easy installation. Reflective band is viewable from 360°.

Used for: walkways, parking lots, location for underground sprinklers, driveways snow removal areas.

WARNING: Cancer and Reproductive Harm -
www.P65Warnings.ca.gov.

Pipe banding enhances durability of pipe markers and improves worker safety. Durable vinyl construction with over-laminated print.

Directional Flow Arrow Tape

Use our directional flow arrow tape to easily and effectively mark pipe flow direction. Our arrow tape is made from a durable vinyl base stock with an aggressive adhesive and clear over-lamination to protect the printed surface and offer years of service.

All our banding tape has a continuous print design with no white line every foot, which allows for a professional looking installation.

All colors meet the ANSI 535.1 and Z535.1 Safety Color Chart. They also comply with ANSI / ASME A13.1 standard for pipe markings including the new colors introduced under ANSI/ASME A13.1-2007.

Pipe Marker Rolls

Our pipe markers are made from durable adhesive backed synthetic stock with a protective overlamination. These markers are perforated every 9" inches between each legend for easy use as singles, or allowing larger strips for longer applications. Once applied to a clean, dry surface, these markers will offer a long term marking solution for your facility. Required directional flow arrows sold separately.

Available in 1" x 54' and 2" x 54' rolls.

Safety Floor Signs

Anti-Slip

These high visibility graphic floor signs provide a constant reminder to your employees about important Workplace Hazard, Safety Requirement and General Notice information details.

Constructed from a high quality adhesive vinyl, we laminate a thick textured vinyl to these signs for added durability as well as slip resistance. The sub-surface printed images provide extended durability and will stand up to heavy pedestrian traffic. The aggressive adhesive will adhere to most smooth, clean and dry floors.

17" maximum diameter.

Ultra Durable Floor Signs

ARMOR
S I G N S

Armor Stripe offers an extremely durable system to aid in floor safety signage. These products are made from an ultra durable plastic without the use of print. This special process ensure that the image will remain legible through the entire life of the floor signing system.

These floor signs are made from a through-color solid 0.055" thick rigid polyethylene surface with an ultra tacky heavy coat weight adhesive backing. They will adhere to most any clean smooth surface with a very high tack bond while offering a low residue removal from most applications. Complies with ANSI B101.1 SCOF (Dry) and ANSI A137.1 (Dry) for use in dry floor applications.

Edges for signs have been tapered to reduce wheel impact from forklift and pallet jack traffic.

Available in an assortment of stock sizes and colors with custom options available.

Withstands Forklift Traffic • Abrasion Resistant • Low Profile • Easy to Install
• Cleans Easily • Pedestrian Friendly • Removes Cleanly

Ultra Durable Floor Marking Tape

Tuff Mark® provides a long lasting solution for marking floors, aisles, walkways and work flow in your facilities. This extra-tough, low profile, easy to apply Floor Marking product is made with heavy duty materials making this tape highly durable, as well as abrasion and chemical resistant.

The rigid construction makes this tape easy to install as well as easy to clean and maintain. The aggressive adhesive will bond to most floors making this tape resistant to tearing, wrinkling or lifting even under heavy forklift traffic. Once applied, the low profile design makes this tape a great choice for use in areas with forklift, hand truck or pedestrian traffic. Removes from most floor surfaces cleanly without chipping, tearing or leaving unsightly adhesive residue.

Tuff Mark® is available in a wide selection of sizes and can be customized with a printed message or specific color.

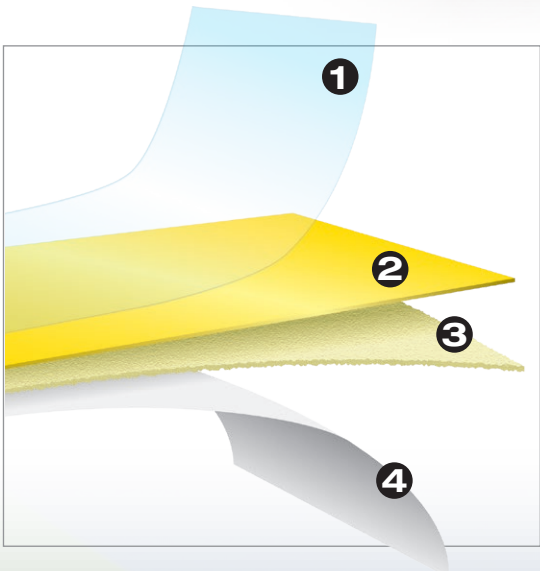

***Tuff Mark® Standards:**

- ANSI Standard Z535.1 for color
- Average dry BPN: 125 (Dynamic slip resistance using ASTM E303-93 (2013) pendulum test method)
- Average dynamic coefficient of friction: Overall average: Dry 0.60 (ANSI A137.1 flooring slip resistance test)

*See Data Sheet for complete details.

TUFFMARK®

Aisle Marking

Conformable Tape

We offer a wide selection of quality aisle marking and pipe banding tapes. Our Aisle Marking PVC (vinyl) Tapes are made from a durable vinyl film with a rubber adhesive system that will adhere to most any clean, dry surface.

Vinyl offers a matte smooth conformable tape that is great for marking hazards on floors, walls and equipment. Commonly used in aisle demarcation, color coding and pipe banding applications. All tapes are made in a wide array of OSHA colors that meet ANSI Z535.1 and offer excellent durability and chemical resistance.

For added durability and a slip resistant surface, see our Clear Over-Lamination tape on the opposite page.

| COLOR | DESIGNATION | APPLICATIONS |
|----------------------|---------------------|--|
| RED | FIRE | To designate the location of protection equipment and apparatus, including fire-alarm boxes, fire-blanket boxes, fire extinguishers, fire-exit signs, fire hose locations, fire hydrants and fire pumps. |
| | ANGER | To identify safety cans or other portable containers of flammable liquids, lights at barricades and at temporary obstructions, danger signs. |
| | STOP | To mark emergency stop bars on hazardous machines, stop buttons. |
| ORANGE | HAZARDOUS/BIOHAZARD | To mark dangerous parts of machines and equipment that may cut, crush, shock or otherwise injure. Intermediate level of hazard. Fluorescent orange or orange-red are used to signify biological hazards. |
| YELLOW, YELLOW/BLACK | CAUTION | To mark physical hazards which might result in stumbling, falling, tripping, striking against or being caught between. |
| GREEN | SAFETY | To mark the location of first aid and safety equipment. |
| BLUE | WARNING | To warn against starting, using or moving equipment under repair. Also used for designating information such as informational signs and bulletin boards. |
| BLACK/WHITE | BOUNDARIES | To designate traffic aisles, housekeeping markings, stairways (risers, direction and border limit lines) and directional signs. |

Clear Over-Lamination

Looking for additional durability for your aisle marking project? Our Floor Tape Lamination will extend the life of your floor markings, while enhancing slip resistance. This product provides a slip resistant surface in compliance with UL 410-COF For Floor Graphics.

Tape Dispenser

Use our aisle tape dispenser to quickly install large aisle marking projects. Maximum 4" wide rolls.

Hazard Warning

Conformable
& Laminated
Tape

Our most popular conformable PVC Hazard Warning Tapes. These tapes will quickly bring attention to any workplace hazard. Made of conformable vinyl film with an rubber adhesive system, these tapes will adhere to most any clean, dry surface. Tape has a smooth, semi-matte surface. Great product for use on floors, walls, pipes and equipment.

We take our PVC Hazard Marking Tape and apply a durable, clear laminating film on top. The smooth gloss finish will resist wear and is easily cleaned. The over lamination improves the ability of the tape to withstand heavy abrasion. The gloss surface also adds a premium “finished” look to your application.

Heavy Duty

Outdoor Safety Marking Tape

ARMADILLO
TAPE®

Looking for the long term safety tape solution? Try our Heavy Duty Armadillo® floor marking tape. Designed with both safety and durability in mind, Armadillo® tape is constructed on a thick reinforced carrier with an aggressive permanent weather-proof adhesive system. Suitable for indoor and outdoor applications. The surface is mildly abrasive to offer slip resistance that is still easy to clean. The tape's vibrant color and low level reflective surface also provides an effective warning of potential hazard areas.

Tape will adhere to a wide variety of industrial surfaces including smooth concrete, asphalt, wood and steel. The low profile design of the tape makes it a great option in areas with fork truck traffic or pedestrians. Tape can be easily cleaned with standard industrial cleaning machines and procedures.

Engineer Grade Reflective Tape

ENGINEER
Grade

Looking for increased awareness? Try our line of Engineer Grade Reflective Tapes. These tapes offer vibrant daytime visibility with reflective properties for nighttime use.

All solid color tape is rated for use outdoors for a 7-year life span. Tape has an aggressive adhesive that will adhere to almost any clean, dry, smooth surface and meets ASTM D-4956-99 type 1.

Hazard striped products have a protective lamination to ensure the printed stripe will not wear off. Tape comes with removable release liner. These tapes are not intended for vehicle application, please refer to our vehicle grade product on page 40.

Custom printing and conversion also available. We also offer our entire range of reflective products in large format rolls. Striped product is not intended for long-term outdoor applications.

Flexible Vehicle

Grade

Reflective Tape

Flexible
ENGINEER
Grade

Our Flexible Engineering Grade (RVG) Retro-Reflective sheeting is a product manufactured primarily for use as fleet markings, vehicle markings, stickers & decals, etc. However, it can also be used on commercial signs and various labels and highly resistant against the extremes of hot, cold, dry, and humid weathering conditions. The sheeting is formulated specifically to have greater flexibility but still capable of offering high retro-reflective surface. The tape comes with a release liner to allow easier handling and to protect the pressure sensitive permanent adhesive. Best results are obtained when applied to flat surfaces, but it can be applied successfully to corrugated materials. When the RVG series retro-reflective sheeting is handled and applied properly it will have a performance life of 7 years when exposed vertically.

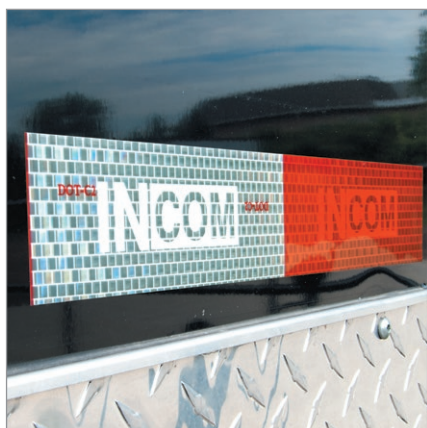

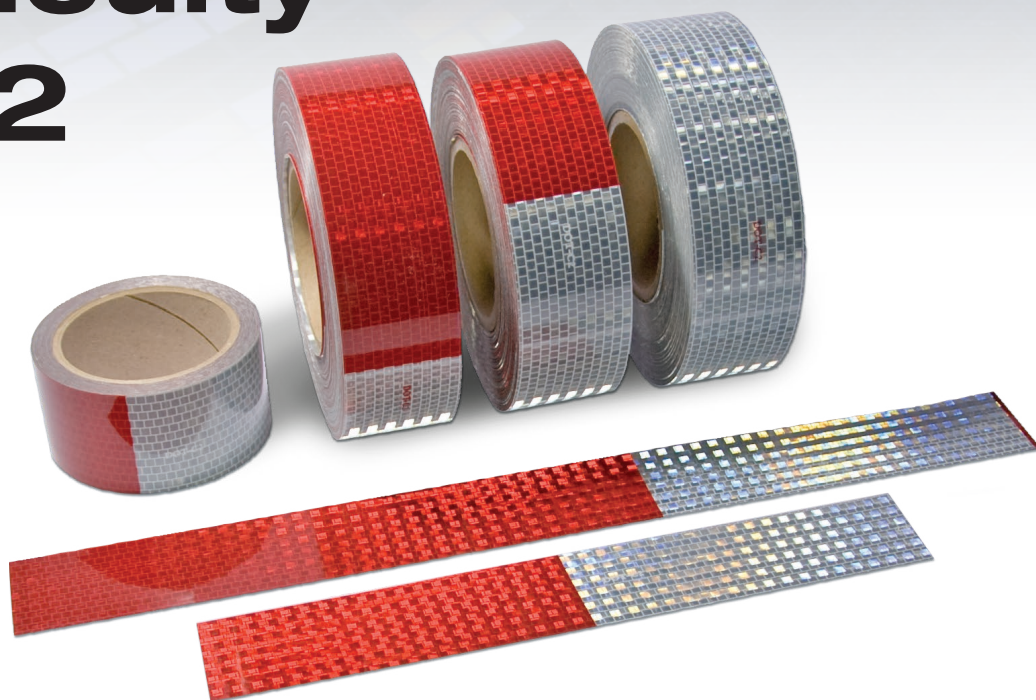

Due to the wide variety of applications, we recommend that only professionals with experience in fleet or vehicle graphics install this product. Once installed it becomes very difficult to remove or augment and may cause damage to the surface applied to. We are not liable for any damages resulting from the use of this product.

Imprint Your Own Logo • Meets DOT-C2 Specifications • 750+ Candlepower
• Highest Night Time Visibility

Conspicuity DOT-C2

Reflective Tape

Require the highest standard in reflectivity on the market? Try our line of Conspicuity reflective tapes. They exceed the requirements of NHTSA (49 CFR 571), and every strip carries the DOT-C2 legal certification for compliance. The modular pattern of reflective prisms allows the tape to be mounted in any position while maintaining reflective performance. Typical brightness of 750+ candlepower. This conspicuity tape meets the industry's highest visibility guidance in wet or dry weather conditions with full reflective strength from distances of 1,000 feet or more. Easy to apply, our tape sticks to a variety of surfaces including fiberglass, aluminum and painted steel (please make sure surface is clean, dry and oil free before application).

Please contact customer service for information on our custom imprint program. We are able to add your company name or logo to any of our conspicuity products.

Stick-on reflectors mount to any clean surface • Low profile - can't be knocked off like molded reflectors • All reflectors marked with SAE A DOT
• Easy application and long term durability

Reflex Reflective

Stick-On Reflectors

Our reflectors are designed with highly prismatic lenses secured to a durable transparent resin base. Produced on a clear poly liner, the rolls are easy to work with and the reflectors peel cleanly for application.

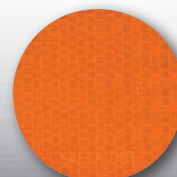

Each reflector is marked with the SAE A DOT certification. These reflectors are easy to install and are a cost effective alternative to plastic models. Meets or exceeds SAE J592 A.

High Intensity Reflective • Fluorescent Day Time • Long Distance Viewing
 • 10 Year Durability • Aggressive Adhesive • Easily Applied • Assorted Colors
 • Custom Color and Size Options

High Intensity Reflective Tape

Superbrite

Super Brite is an excellent choice for marking anything that requires a high level of night time visibility, and a with a long term life cycle. The tape has an excellent entrance angularity and high intensity micro-prismatic surface. An aggressive adhesive system that will adhere to most any clean, dry surface. High Intensity product has a reflective value of over 4 times that of our standard engineer grade products. Intended for application on relatively flat surfaces only. Product meets or exceeds ASTM D-4956 Type III.

Neonbrite

Neonbrite fluorescent reflective is the newest high visibility product from INCOM. This product not only offers the highest levels of night time reflectivity, it is coupled with an extremely fluorescent lime color that stands out in day time applications as well. The tape has an aggressive adhesive backing with 10 year durability. Product meets or exceeds ASTM D-4956 Type VIII.

Abatement Polyethylene Tape

Our PTAK 33-series Poly Tape is designed specifically for the Abatement industry. The thick polyethylene offers a durable working surface while the synthetic rubber adhesive will bond well to most surfaces, even in lower temperatures. Ideal for use with poly sheeting in abatement applications. Tape will also remove cleanly from most surfaces in temporary application. Tape comes with a serrated "pinked" edge for easy tearing, even with gloves on.

ptak
POLY TAPES

High-Tack Polyethylene Tape

Our PTAK 39-series Poly Tape has a natural rubber adhesive with a high initial tack for quick bonding in difficult adherence applications. The tape is ideally suited for hanging or seaming polyethylene sheeting applications. Due to the aggressive nature of the adhesive, it may not remove cleanly after use, leaving some adhesive residue behind on temporary applications. Tape comes with a serrated "pinked" edge for easy tearing, even with gloves on.

ptak
POLY TAPES

Heavy-Duty Polyethylene Tape

Our PTAK 36-series Poly Tape is our most durable and versatile polyethylene tape product. The heavy coat weight of adhesive allows for a high adhesion to surfaces. This tape is effective for general patching as well as heat shrink applications, and is used in truck manufacturing for isolating dissimilar metals. Adhesive is very strong and designed for permanent applications and may leave residue if removed.

ptak
POLY TAPES

Stucco UV Polyethylene Tape

Our PTAK 34-series Poly Tape is a UV stabilized product that offers solid outdoor durability even after prolonged exposure to sunlight. This tape is primarily used in the Stucco industry for building preparation. Once the job is finished, this tape will remove cleanly from most surfaces. Can also be used in winter watercraft storage or temporary storm sealing on buildings.

Improve Matting Safety • Reduce Slip, Trip and Fall Hazards

Double Sided Matting Tape

Adheres with a strong adhesive to a wide variety of matting material and floor surfaces.

Tape offers a strong instant bond between most floors and matting, while still removing cleanly in typical applications.

Improve the appearance and safety of your workplace. Use our premium grade high-tack double sided matting tape to help hold your floor mats safely in place. Tape is constructed of a thick heavy cloth carrier with a aggressive adhesive coating on both sides.

Offers a high initial tack to a wide variety of matting materials and floor surfaces, while providing clean removal for most applications.

D.O.T. Shipping Labels

Shipping labels are essential for packages that contain dangerous goods. Our shipping labels are designed to meet and comply with D.O.T. regulations and ensure clear identification of hazardous contents.

D.O.T. shipping labels are printed with fade resistant inks and are available in two materials, paper for indoor applications and vinyl for extended outdoor usage.

Our shipping labels are manufactured to meet specifications under Title 49, Subtitle B, Chapter I, Subchapter C, Part 172 of the CFR.

D.O.T. labels are available in 4" x 4", and sold 500/roll.

Placards

Dangerous Goods

Placards are displayed on vehicles and tanks to identify the risk of products being transported. We manufacture our entire placard line to meet Department of Transport (DOT) guidelines and offer them in your choice of material. Our paper tagboard placards offer a cost effective single use; or rigid plastic placards offer multiple use even under severe weather conditions; and our adhesive backed vinyl placards is perfect for permanent marking.

Other DOT legends and custom UN numbered placards also available, please call for details.

Adhesive Vinyl

Intended for permanent application on the transport vehicle. They are constructed with an outdoor grade 4-MIL vinyl with an aggressive permanent adhesive backing. Once applied these placards provide a permanent DOT marking solution. 100/pack

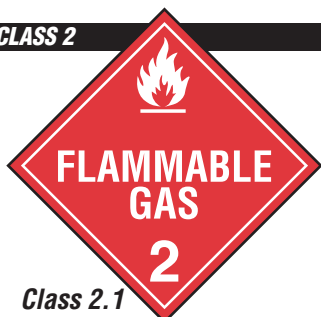

Rigid Plastic

Manufactured on durable plastic able to withstand repeated usage under any weather conditions. The ink is applied using a silk screen process to ensure print quality and resist fading. Intended for use with placard holders. 100/pack

Tagboard

Made from a semi-rigid paper card stock with a water resistant coating on both sides. This material is intended for single trip usage, at an economical price. Intended for use with placard holders. 100/pack

HAZCOM 2012 Worker Training DVD

Our GHS Worker Training DVD is a 30 minute video presentation that focuses solely on GHS and what the changes mean to the end user in your work place. During this DVD, students will learn what GHS is and how it affects them. The video explains the GHS Pictograms, Signal Words, the three main Hazard classes, as well as the Hazard and Pre-Cautionary Statements. It also reviews how the Labeling and Safety Data Sheets (SDS) have changed, what they will look like, and how it will impact the end user in your workplace.

This video is currently available in English and Spanish (each language is sold separately).

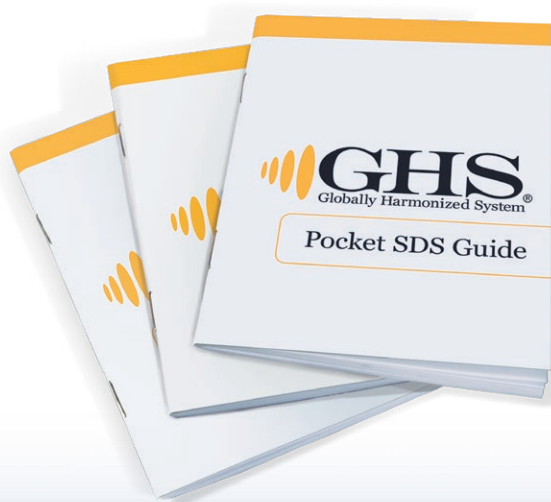

| Stock No. | Description |
|-----------|---------------------------------|
| GHS2011EN | Worker Training Video - English |
| GHS2011SP | Worker Training Video - Spanish |

SDS Pocket Booklet

Our SDS Pocket Booklet is designed as a quick reference guide to the new style Safety Data Sheets (SDS) under GHS. This booklet provides an alphabetical list of terms and definitions for all the relevant GHS terminology, sections of the SDS, GHS symbols as well as a table breakdown of Acute Toxicity Classes. The booklet also provides a full color index of GHS hazard symbols and their meanings. Designed to fit easily in a shirt pocket or desk-top for easy reference.

The booklets are 3-5/8" x 4-7/8" and sold 10/pkg (English edition - 42 pages).

HAZCOM Wallet Cards

Our GHS Wallets Cards are a quick and easy reference to the new GHS pictograms and their meanings. One side of the card provides the complete set of GHS pictograms with a detailed description of each. The other side contains the list of information required to be found on an SDS (Safety Data Sheet) as well as the images of the various Precautionary Statement Pictograms.

Each card is 4-1/4" x 2-1/2". Sold in packages of 50.
