WILDLIFE

ARTISTS

Welcome to the New Us!

After two decades of celebrating wildlife by creating plush that are “the closest thing to the real thing,” it has become clear that wildlife today needs advocates more than fanatics. We are proud to say that, moving ahead, Wildlife Artists, Inc. will honor wildlife through education and conservation initiatives. Our mission is to use our business to forward conservation efforts by creating plush with authenticity and artistry that inspire an appreciation for nature and adventure.

This year we’re excited to announce we’ve rededicated our Conservation Collection® brand. Hubas™ will be our first plush line launched under the Conservation Collection®. “Huba” means “love” in Swahili and the proceeds will go towards Zambezi Elephant Fund’s efforts to save African Elephants (see page 18).

The Zambezi Valley has a special meaning to our family. It’s where we fell in love with animals and conservation over 40 years ago. It’s a place we regularly visit to follow our passion for wildlife photography.

Also check out our new Little Ndaba line. These beautiful plush are handmade with organic cotton and provide a source of income for Zambian women; lessening their need for family members to illegally poach surrounding Zambezi Valley wildlife (see page 58).

What hasn’t changed? Our commitment to high quality products and great service. That will never change. Join us in making a positive difference in the world!

Sincerely,
James, Caroline and Gerry Ward

Price List (contact us to inquire about volume discounts)

The Ward family in Serengeti National Park, Tanzania in 1989. Flip through to see how the Wards make sure each plush is designed with conservation and wildlife in mind.

Conservation Critters® is our largest line, founded on our desire to celebrate wildlife with realistic yet adorable plush. We often say this line is “the closest thing to the real thing™”. We have a large assortment of Zoo, Aquarium and North American wildlife at multiple sizes and retail price ranges under \$10, \$10 to under \$20 and \$20 and up.

The first line being introduced under the Conservation Collection® brand are Hubas™. Meaning love is Swahili, the sales of these plush benefit the Zambezi Elephant Fund. Even more important to you, Hubas™ are cute, soft and collectable, with a suggested retail of only \$4.99. Ask us about our free display program. See page 18 for more information.

Wild and Wonderful®. The name of this revitalized line is self-explanatory. These plush animals bring new and exciting elements to what we offer. This year’s Wild and Wonderful® new offerings are Babies and Callers. They are unique, extremely cute and educational.

Farm Critters® are just that. Much like our Conservation Critters® that retail under \$10, this collection focuses on kids’ favorite farm animals. They are realistically cute and children will want to collect them all to create their own barnyards.

Play Critters™ is our popular line of finger puppets. With a suggested retail price of \$7.00, the quality and realism are unmatched. We have Zoo, Aquarium and North American animals from the sea, land and air. Ask us about our free display program.

Our Small of the Wild® plush are minis that can be collected and taken anywhere to be played with. They come as stand-alone plush, pouches and clips, which are very popular with kids (and adults)!

Our Camo Wild® line is popular with lovers of both camo fashion and the great outdoors. Our line is developed through relationships with the popular Realtree and Mossy Oak brands.

These amazing plush toys are handcrafted in Zambia. They provide a vital source of income for women who have limited opportunities to earn money and we have the exclusive rights to sell in North America. See page 59 for more information.

We also have dinosaurs and other mythical and extinct creatures, along with dolls/figures and accessories such as pouches and headbands.

Our smaller critters are both realistic and cute!

ZAMBEZI ELEPHANT FUND

Conservation Spotlight

Our new Hubas plush are saving elephants one Huba at a time. Proceeds from the sales benefit the efforts of the Zambezi Elephant Fund (ZEF) to end poaching in the Zambezi Valley region of Zambia. The African elephant population has declined by over 50% in this area since 2001. ZEF's vision is for the Zambezi Valley, in its entirety, to one day be a safe environment in which elephants and other wildlife can thrive, for the benefit of Zimbabwe and global biodiversity.

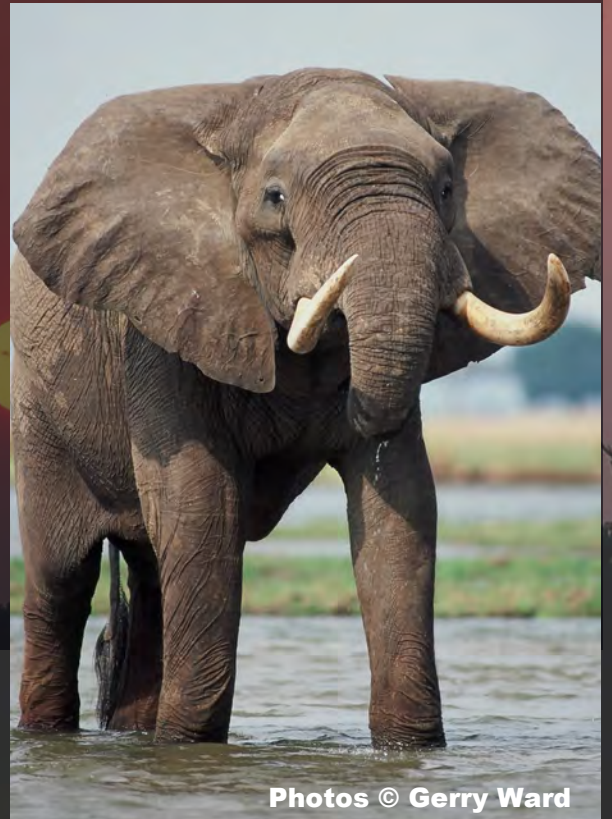

The Zambezi Elephant Fund (ZEF) works collaboratively with the Zimbabwean government, other organizations and the private sector to develop, implement and manage:

- Anti-poaching operations
- Field equipment and supplies for rangers and support teams
- Anti-poaching ranger training
- Conservation security planning and implementation
- Information systems and networking
- Technology and systems for anti-poaching operations

For over 40 years, the Ward family has been visiting this region, photographing the beautiful landscape and its wildlife. The African elephants have special meaning to them and the Wildlife Artists, Inc. logo was inspired by them.

If you would like to help, in addition to buying our Hubas™, you can make a donation [here](#).

Little Ndaba

Little Ndaba

We're breaking with tradition, for a good cause. Our new Little Ndaba line is the first line that has been crafted for us, but not by us.

Wildlife Artists was introduced to Little Ndaba during one of our sourcing trips to Africa. Little Ndaba creates toys with a mission. Groups of women from Zambia gather to knit and crochet these gorgeous animals which are designed to help raise awareness and where possible funding for the conservation of many endangered animals.

The plush animals provide a vital source of income for women who have limited opportunities to earn money. Increasing opportunities for women, while decreasing the dependence on poaching for income, Little Ndaba is changing many lives for the better. Over 65 more women were hired to support Wildlife Artists' orders and we hope that's just the beginning.

View the video to learn more about Little Ndaba and buy these wonderful plush animals to become part of this success story. Your customers will love the quality artistry and will want to support the cause!

Click the arrow in the photo on the right to watch a video.

Please note: production of this line is all handcrafted, so availability is limited.
