PILOT
POWER TO THE PEN!

PILOT

WE BELIEVE IN THE POWER OF THE WRITTEN WORD.

WE BELIEVE IN THE *Power of the Pen.*

Pilot Corporation of America was established in the United States in 1972, and is recognized as a premier manufacturer of quality writing instruments. Our parent company, Pilot Corporation, is the oldest and largest writing instrument manufacturer in Asia. It is headquartered in Tokyo, Japan, where it was founded in 1918. Pilot's ongoing growth has been driven by the consistent development of highly innovative products that deliver unsurpassed quality and an exceptional writing experience.

Pilot's diverse line of pens has been created in a culture that has revered the art of writing for over a thousand years. Namiki, our luxury line of pens, are handmade works of art that are recognized globally for their beauty, craftsmanship and excellent writing capabilities. This heritage of art, design and quality can be seen throughout Pilot's entire range of product offerings, in our everyday pens — G2, FriXion, Precise and Acroball, in our new Ensō Collection — a line of artful writing tools and also in our finer writing instruments — Axiom and Pilot MR Collections.

Pilot's spirit of innovation has always focused on serving consumers' unmet writing needs, and on making writing a pleasure with exceptionally-designed, smooth-writing pens. In a digital age where we have gained immediacy but lost intimacy, Pilot helps you express yourself effortlessly and connect through the written word.
