Your steps matter.

3M™ Safety-Walk™ Slip Resistant Tapes and Treads are designed to provide traction on slippery surfaces where potential slips and falls can occur or where safety may be a concern. Walking and working surfaces that are generally slippery due to wet, oily and dirty operations can cause painful slip-and-fall accidents.

The solution is durable, long-lasting slip resistant tapes and treads that help prevent slip-and-fall accidents and help meet OSHA and ADA coefficient of friction requirements. 3M™ Safety-Walk™ products have proven durability for long life and are resistant to abrasion. The self-adhesive backing allows for quick and easy application without wrinkling, curling, tearing, shrinking or lifting.

The 3M™ Safety-Walk™ Brand is introducing a reinvigorated portfolio with trilingual packaging and a new addition to the line: 3M™ Safety-Walk™ Slip Resistant Conformable Tapes and Treads, launching in 2016.

Perfect for work, home or play, 3M™ Safety-Walk™ Slip Resistant Tapes and Treads are designed for indoor, outdoor, dry and wet conditions to help keep you safe in any environment. So when you're taking the next step in safety, think 3M™ Safety-Walk™ Brand.

Introducing NEW 3M™ Safety-Walk™ Slip Resistant Conformable Tapes and Treads — Available in 2016

This new addition to the 3M™ Safety-Walk™ line features a conformable foil layer designed to mold to irregular surfaces. It's great for diamond plating, ladder rungs and flat surfaces.

Ideal for:

- ▶ Athletic areas
- ▶ Decks
- ▶ Campers
- ▶ Construction equipment
- ▶ Exercise equipment
- ▶ Indoor and outdoor steps
- ▶ Industrial vehicle steps
- ▶ Ladders
- ▶ Step stools
- ▶ Trucks
