# CUSTOM WOOD

STOCK AND CUSTOM SIZES AVAILABLE

## STEP 1

### YOUR WOOD

Select from 39 different species of wood that our craftsman will personally use to create your new grille. All wood grilles are shipped unfinished and include staining and finishing instructions.

#### STANDARD

#### PREMIUM

## STEP 2

### YOUR STYLE

**Surface Mount** - Fit into the existing duct opening and rest on top of finished surfaces. They are used for floor, wall and ceiling applications.

**Flush Mount with Frame** - Are used in conjunction with the installation of new wood floors. The frame is positioned over the duct opening and secured with nails. The face of the register is placed into the frame.

**Slab** - this is a square edge register 3/4 inches thick and is generally used as a cold air return when used on the wall or resting on the floor with the trim coming up to it.

## STEP 3

### YOUR DESIGN

All three styles are beautifully handcrafted and made from solid wood.

#### Horizontal

#### Vertical

#### Eggcrate

# CUSTOM METAL

STOCK AND CUSTOM SIZES AVAILABLE

## STEP 1

### 1 YOUR DESIGN

10 different patterns of decorative metal.

## STEP 2

### 2 YOUR FINISH

5 different enamel colors or 5 different plated finishes.

### HOW TO MEASURE

Custom Wood | Custom Metal

Our craftsmen will custom fabricate a grill to fit your supply/return duct opening.

1. Remove the old register or grille from the floor, ceiling, or wall to expose the actual duct opening.
2. Measure the inside dimensions of the duct opening.
3. The width will always be listed first, followed by the length.

PLATED	PAINTED	PATTERNS	
Bright Brass	White	Mosaic	Square - 1/4" x 1/4"
Brushed Nickel	Black	Square - 1/2" x 1/2"	Temple
Copper	Cappuccino	*Horizontal Slotted	Grecian
Antique Brass	Light Grey	Chain Link	*Square - 3/4" x 3/4"
Brite Chrome	Walnut Brown	Octagon Cane	Cloverleaf

\*Cannot custom order these patterns larger than 24" x 12" size.

## STEP 3

### 3 YOUR STYLE

**Flat Grilles** - These will fit over your existing opening and are designed for wall or ceiling applications. These are typically used for return air applications and will be drilled with the appropriate amount of mounting holes determined by the size that is ordered.

**Drop-In Grilles Wall/Ceiling** - these will fit into your existing opening and will rest on top of your surface. These are designed for wall or ceiling applications and will be drilled with the appropriate amount of mounting holes determined by the size that is ordered. Air flow controls are not available with custom made metal grilles.

**Drop-In Grilles Floor** - these will fit into your existing opening and rests on top of your floor surface. This grill is designed specifically for the floor. Air flow controls are not available with custom made metal grilles.
