Saint-Gobain ADFORS. A History of Strong Solutions

Saint-Gobain ADFORS' parent company, Saint-Gobain, has emerged as the world's largest building materials firm.

A continuous commitment to product innovation has led to over \$590 million invested annually in R&D and more than 400 new patent applications filed each year. And the technology and knowledge Saint-Gobain has gained through OEM experience are directly transitioned to retail product solutions.

As a retailer, you can take advantage of the same product advancements and quality that have made Saint-Gobain ADFORS such a valued resource to industrial manufacturers for centuries.

FibaTape® is a complete line of drywall finishing solutions backed by industry leading innovation.

A Stronger Future for Your Business

Selling the complete project to your customers – that's the smarter way to sell. And that's why the FibaTape family of products includes a complete range of innovative drywall joint tapes and reinforcing products for both professionals and DIYers.

Designed to help ease customer confusion at shelf level, the FibaTape line encourages add-on sales by offering a more complete range of project solutions. More than just drywall tape, the line includes patch and wall repair, as well as sanding and specialty products so customers are assured of a more complete project every time. Plus, a full line of products encourages a full market basket.

You can count on Saint-Gobain ADFORS as a valuable, long-term retail partner. Whether it's new construction, renovation, or at-home repairs, our wall-to-wall project solutions have you and your customers covered.

Merchandising Solutions

You know what's best for your store. That's why we collaborate with you on the development of customized merchandising tools designed to optimize your sales opportunities. This includes a variety of planogram options like patch and repair centers, as well as color-coded shelf displays, free-standing merchandisers and useful dump bins.

Our display solutions are designed to make products easier to shop, maximize real estate and create a "one-stop project center." Because bringing products together is the smart way to set your store apart.

FibaFuse
Paperless Drywall Tape

Drywall Tape

The FibaTape® and FibaFuse® families include a complete range of ground-breaking drywall joint tapes for professionals and DIYers. These lines include self-adhesive fiberglass mesh tapes, FibaFuse paperless drywall tape and corner tapes in a full range of sizes. These high performance products, designed to be easier, faster and stronger, deliver excellent value and performance.

Patch and Wall Repair

FibaTape offers a complete line of rugged, easy-to-use wall repair fabrics, patches and accessories that allow customers to permanently repair damaged walls and ceilings. Complete all-in-one kits encourage on-the-spot purchases for project simplification and “pick-up and go” point-of-purchase sales. The line also includes FibaFuse Wide products for patch repair and wall reinforcement.

Sanding Products

The FibaTape line includes a variety of sanding products to complete drywall installation and repair jobs. From hand sanders, pole sanders and sandpaper sheets to sanding screens and a two-in-one sanding block, we offer a solution for every project so you can make a sale on every project.

Specialty Products

The FibaTape line includes products to help complete drywall installation and repair jobs. Both the glass mesh tape applicator and the pre-mixed, ready-to-use wall patching compound encourage add-on sales by offering a more complete project solution. We also offer a line of roof repair products designed to provide reinforcement for a variety of roof systems.

Specialty Tapes Designed for Maximum Performance in Specific Applications

Perfect Finish™

- 33% thinner for a flatter joint
- Thinner profile requires less compound for easier finishing
