

HOSE & ACCESSORIES CATALOG
Agricultural, Consumer, & Industrial Products

QUALITY

FROM BURST TESTS TO TENSION CHECKS, YOU CAN BE CONFIDENT THAT EVERY PRODUCT FROM OUR ISO-CERTIFIED FACILITIES WILL MEET THE ROUGHEST STANDARDS OF ALL – YOUR CUSTOMER'S.

TOUGH

OUR HOSES CAN TAKE THE PRESSURE. THEY'RE MADE OF HIGH-GRADE POLYMERS AND RUBBER WITH HIGH QUALITY COUPLINGS TO ENSURE MAXIMUM STRENGTH AND SAFETY.

PROVEN

REGARDLESS OF WHETHER PRODUCTS COME FROM ACROSS THE STREET OR HALFWAY AROUND THE WORLD, NO PRODUCT EARNS THE RIGHT TO BE CALLED APACHE UNTIL IT'S BEEN TESTED TO ENSURE IT MEETS OUR RIGOROUS STANDARDS.

SERVICE

ONE LEAKING HOSE CAN BRING THINGS TO A HALT. WHEN STAKES ARE HIGH WE HAVE PRODUCT TO GET THINGS UP AND RUNNING.

HOSE

We are Apache ... an organization run by hard-working people dedicated to helping you succeed.

Our goal is to work as your partner to add value to your bottom line. Whether it's providing a product off the shelf or developing a custom solution, we're committed to delivering the best quality products and service – anytime and anywhere.

After more than 50 years in business, we've grown from a small Midwestern distributor to a highly driven, global organization providing the hoses, belts, and cut and molded rubber products that keep your business moving forward.

We source solutions from around the globe, which

means we always stay on top of growing trends and new products.

We have the distinct advantage that each and every employee is directly tied to the success of our business. Pride in a job well done go into everything we do.

It's for these reasons and more that Apache can claim some of the lowest return rates in the industry. That means more profit, and less headache, for you.

AT APACHE, WE KNOW THE COST OF DOWNTIME AFFECTS YOUR BOTTOM LINE, THAT'S WHY WE'RE COMMITTED TO PROVIDING PRODUCTS THAT SIMPLY WORK.

Apache is a partner you can count on. We use our experience in a range of industries to bring new ideas, new innovations, and new solutions. And it shows. We build our products tough and smart. Which means they can handle the toughest challenges, and strengthen your business.

We are proud to be a participating distributor in the NAHAD Listed Members Program. As a NAHAD member, Apache utilizes and follows the association hose assembly guidelines to ensure safer and higher-quality assemblies. That's just one more reason why Apache is the premier provider of hose products.

AIR / WATER / MULTIPURPOSE HOSE	
DESCRIPTION	PAGE #
MULTIPURPOSE RUBBER HOSE	15-20
200 PSI Multipurpose (AG 200) – Bulk/Uncoupled	
200 PSI Multipurpose (AG 200) – UPS Size Reels	
200 PSI Multipurpose (AG 200) – Boxed	
200 PSI Multipurpose (AG 200) – Shrinkwrap Packaged Coils	
300 PSI Multipurpose (Ag 300) – Bulk/Uncoupled	
300 PSI Multipurpose (Ag 300) – UPS Size Reels	
300 PSI Multipurpose (Ag 300) – Boxed	
300 PSI Multipurpose (Ag 300) – Shrinkwrap Packaged Coils	
Oil Resistant Multipurpose – Bulk/Uncoupled	
500 PSI Multipurpose Hose – Bulk/Uncoupled	
500 PSI Multipurpose Hose – Assemblies	
Wire Braid Air Hose – Bulk/Uncoupled	
JACKHAMMER AIR	20
Wire Braid Air Hose – Assemblies	
300 PSI Rubber Jackhammer Air Hose – Assemblies	
PVC AIR HOSE	21
300 PSI Premium PVC Air Hose – Bulk/Uncoupled	
300 PSI Premium PVC Air Hose – Assemblies	
300 PSI Air Hose Extension/Pigtail – Assemblies	
URETHANE AIR HOSE	21
200 PSI Reinforced Urethane Roofing Air Hose – Assemblies	
RUBBER AIR HOSE	22
XtremeFlex Rubber Air Hose - Assemblies	
300 PSI Premium Rubber Air Hose – Assemblies	
300 PSI Rubber Whip Air Hose With Ball Swivel – Assemblies	
THERMOPLASTIC AIR HOSE	23
300 PSI XtremeFlex Low Temperature Air Hose – Assemblies	
NYLON AIR HOSE	23
Nylon Recoil Hose – Assemblies	
PUSH-ON HOSE & FITTINGS	23
Push-On Hose – Bulk/Uncoupled	
Brass Push-On Fittings – Hose Barb x Hose Barb Mender	
Brass Push-On Fittings – Male Pipe Thread x Hose Barb	
AIR HOSE REELS	24
Auto-Rewind Poly Hose Reel With PVC Air Hose	
Auto-Rewind Steel Hose Reel With Rubber Air Hose	
Manual Rewind Steel Hose Reel With Rubber Air Hose	
BRASS HOSE FITTINGS	25
Brass Hose Fittings – Male & Female	
Brass Hose Fittings – Hex Reducer	
AIR ACCESSORIES	26 – 27
Quick Disconnect Socket – Brass Socket x Female Pipe Thread	
Quick Disconnect Socket – Brass Socket x Male Pipe Thread	
Quick Disconnect Socket – Brass Socket x Hose Barb	
Quick Disconnect Plug – Steel Plug x Female Pipe Thread	
Quick Disconnect Plug – Steel Plug x Male Pipe Thread	
Quick Disconnect Plug – Steel Plug x Hose Barb	
Quick Disconnect Plug – Lincoln Style Plug x Female Pipe Thread	
Quick Disconnect Plug – Lincoln Style Plug x Male Pipe Thread	
Quick Disconnect Socket – Lincoln Style Socket x Female Pipe Thread	
Air Hose Repair Kit	
In-Line Lubricator	
INDUSTRIAL WATER HOSE	28
Heavy-Duty Industrial Rubber Water Hose – Assemblies

AIR / WATER / MULTIPURPOSE HOSE & ACCESSORIES

MULTIPURPOSE RUBBER HOSE

200 PSI MULTIPURPOSE (AG 200) – BULK/UNCOUPLED

Versatile general purpose hose which is excellent for air, water, and many agricultural chemicals including LASSO® herbicide. The EPDM tube and cover resists heat, sunlight, ozone, and weathering. Its RMA Class C tube makes it suitable for oil mist lubricating air lines
Do not use for transferring petroleum products.

- ▶ Tube/Cover Material: EPDM
- ▶ Reinforcement: Spiral Textile Cord
- ▶ Maximum PSI: 200
- ▶ Temperature: -40°F to 212°F

DESCRIPTION ABBREVIATION KEY

EPDM = Ethylene Propylene Diene Monomer

200 PSI MULTIPURPOSE (AG 200) – UPS SIZE REELS

Versatile general purpose hose which is excellent for air, water, and many agricultural chemicals including LASSO® herbicide. The EPDM tube and cover resists heat, sunlight, ozone, and weathering. Its RMA Class C tube makes it suitable for oil mist lubricating air lines
Do not use for transferring petroleum products.

- ▶ Tube/Cover Material: EPDM
- ▶ Reinforcement: Spiral Textile Cord
- ▶ Maximum PSI: 200
- ▶ Temperature: -40°F to 212°F
- ▶ Cover Color: Black

DESCRIPTION ABBREVIATION KEY

MOR = Moderate Oil Resistance

MSHA = Mine, Safety, and Health Administration

NBR = Acrylonitrile Butadiene Rubber (BUNA-N)

PVC = Poly Vinyl Chloride

SBR = Styrene Butadiene Rubber

OIL RESISTANT MULTIPURPOSE – BULK/UNCOUPLED

Mainliner® is designed to handle the oily mists used to lubricate pneumatic tools. It features a medium oil-resistant tube, reinforced with multiple polyester spirals that keeps it flexible in extreme temperatures. The durable EPDM cover resists abrasion, cracking, and affects of ozone. **Do not use for handling petroleum products.**

- ▶ Tube Material: MOR/EPDM/Class C
- ▶ Cover Material: EPDM
- ▶ Cover Color: Red
- ▶ Reinforcement: Spiral Polyester Yarn
- ▶ Temperature: -40°F to 200°F

500 PSI MULTIPURPOSE HOSE – BULK/UNCOUPLED

This 500 PSI hose is engineered for extra heavy-duty pneumatic use or for transferring oils, fats, kerosene, and many petroleum based products. Its fluorescent yellow carboxylated nitrile cover is super abrasion resistant and static conductive.

- ▶ Tube Material: NBR/PVC/Nitrile
- ▶ Cover Material: Carboxylated Nitrile
- ▶ Cover Color: Yellow
- ▶ Reinforcement: 4 Spiral Polyester Cord
- ▶ Temperature: -40°F to 212°F
- ▶ MSHA Approved

500 PSI MULTIPURPOSE HOSE – ASSEMBLIES

This 500 PSI hose assembly is constructed specifically for use as a flexible connector between an air supply and an air tool. It includes a universal hose fitting on one end and a bent stem on the other, both attached with two smooth I.D. preformed clamps. Its fluorescent yellow carboxylated nitrile cover is super abrasion resistant and non-conductive.

- ▶ Tube Material: NBR/PVC/Nitrile
- ▶ Temperature: -40°F to 212°F
- ▶ Maximum PSI: 500
- ▶ Reinforcement: 4 Spiral Polyester Cord
- ▶ Cover Color: Yellow
- ▶ Minimum Ben Radius (in): 3
- ▶ Cover Material: Carboxylated Nitrile
- ▶ MSHA Approved

WIRE BRAID AIR HOSE – BULK/UNCOUPLED

A premium grade air hose specifically designed for the most severe applications in mining, quarries, and heavy construction. It has a specially compounded oil resistant black nitrile tube, reinforced with a high tensile wire braid, and an abrasion resistant yellow SBR cover.

- ▶ Tube Material: Nitrile
- ▶ Cover Material: SBR
- ▶ Cover Color: Yellow
- ▶ Reinforcement: High Tensile Wire Braid
- ▶ Temperature: -20°F to 212°F
- ▶ Standard Reel: 100'

WIRE BRAID AIR HOSE – ASSEMBLIES

A premium-grade air hose specifically designed for the most severe applications in mining, quarries, and heavy construction. It has a specially compounded, oil resistant, black, nitrile tube, reinforced with a high tensile wire braid. Hose fittings attached with 2 or 4-bolt boss clamps, great for connecting to jackhammers or air compressors.

- ▶ Tube Material: Nitrile
- ▶ Cover Material: SBR
- ▶ Cover Color: Yellow
- ▶ Reinforcement: High Tensile Wire Braid
- ▶ Temperature: -20°F to 212°F
- ▶ Length: 50'

300 PSI RUBBER JACKHAMMER AIR HOSE – ASSEMBLIES

The red jackhammer hose is our most popular jackhammer hose assembly. Its synthetic reinforcement provides a 300 PSI working pressure, while its EPDM cover is abrasion resistant. Universal couplings are either permanently crimped on both ends or attached with double bands for easier fitting replacement.

- ▶ Tube Material: EPDM
- ▶ Temperature: -40°F to 212°F
- ▶ Fittings: Universal Air
- ▶ Reinforcement: 4 Spiral Textile Cord
- ▶ Cover Color: Red
- ▶ Length: 50'

JACKHAMMER AIR HOSE

See p. 149–152 for Universal and Boss™ Couplings.

PVC AIR HOSE

300 PSI PREMIUM PVC AIR HOSE – BULK/UNCOUPLED

Premium red PVC air hose features an oil resistant tube and cover, flexible kink-proof construction, and a good temperature range. An assortment of brass fittings and ferrules are available for custom sized hose assemblies.

- ▶ Tube/Cover Material: PVC
- ▶ Reinforcement: Synthetic Spiral Cord
- ▶ Temperature: -40°F to 150°F

300 PSI PREMIUM PVC AIR HOSE – ASSEMBLIES

Premium PVC air hoses feature an oil resistant tube and cover, flexible kink proof construction, and a good temperature range. Assemblies come complete with 1/4" male national pipe thread machined brass fittings.

- ▶ Tube/Cover Material: PVC
- ▶ Reinforcement: Synthetic Spiral Cord
- ▶ Temperature: -40°F to 150°F
- ▶ Fittings: 1/4" Male National Pipe Thread x 1/4" Male National Pipe Thread

300 PSI AIR HOSE EXTENSION/PIGTAIL – ASSEMBLIES

Extension/pigtail assemblies are constructed of our premium blue PVC air hose, which features an oil resistant tube and cover, flexible kink-proof construction, and a good temperature range. Ideal as a portable air tank replacement hose, or for a workbench/short hose extension. Assemblies come complete with machined brass fittings.

- ▶ Tube/Cover Material: PVC
- ▶ Reinforcement: Synthetic Spiral Cord
- ▶ Temperature: -40°F to 150°F

200 PSI REINFORCED URETHANE ROOFING AIR HOSE – ASSEMBLIES

Reinforced urethane roofing/ framing assemblies are lightweight, weather resistant, kink resistant, and stay extremely flexible in sub-zero temperatures. For prolonged service life, assemblies are coupled with reusable brass swivel fittings and bend restrictors on both ends. Ideal hose for pneumatic nailers, staplers, and portable air compressors.

- ▶ Tube/Cover Material: Urethane
- ▶ Reinforcement: 2 Spiral Textile Cord
- ▶ Temperature: -40°F to 165°F
- ▶ Cover Color: Blue

300 PSI XTREMEFLEX PREMIUM RUBBER AIR HOSE ASSEMBLY

Apache's rubber air hose provides an ultra-light hose ideal for workshops, construction, and other demanding applications. With an all-rubber construction, this hose provides high durability at 40% the weight, while also maintaining usability and flexibility in extreme temperatures. The ozone resistant cover protects hose from extreme conditions, abrasions, and kinks.

- ▶ Tube Cover Material: Oil Resistant Rubber RMA Class A
- ▶ Reinforcement: Polyester Braid
- ▶ Temperature: -40°F to 212°F
- ▶ Fittings: Female Male National Pipe Thread x Male National Pipe Thread

RUBBER AIR HOSE

DESCRIPTION ABBREVIATION KEY

EPDM = Ethylene Propylene Diene Monomer

300 PSI PREMIUM RUBBER AIR HOSE – ASSEMBLIES

This premium quality rubber air hose has an all rubber hose with machined brass male national pipe thread fittings and bend restrictors on both ends. Its EPDM tube and cover make the hose weather resistant, abrasion resistant, and keeps it flexible at low temperatures.

- ▶ Tube/Cover Material: EPDM
- ▶ Reinforcement: Spiral Textile Cord
- ▶ Temperature: -40°F to 212°F
- ▶ Cover Color: Red
- ▶ Fittings: Male National Pipe Thread x Male National Pipe Thread

300 PSI RUBBER WHIP AIR HOSE WITH BALL SWIVEL – ASSEMBLIES

Our whip hose assembly is constructed of our premium rubber air hose, and is coupled with a 1/4" male national pipe thread 360° ball swivel and 1/4" female national pipe thread swivel. Assembly is commonly used between a supply hose and a pneumatic tool to relieve stress at the hose fittings, while improving operator comfort. The 360° ball swivel allows the operator to freely move the tool in all directions without twisting and kinking the hose.

- ▶ Tube/Cover Material: EPDM
- ▶ Reinforcement: 2 Spiral Textile Cord
- ▶ Temperature: -40°F to 212°F
- ▶ Cover Color: Red
- ▶ Fittings: 1/4" Male National Pipe Thread 360° Ball Swivel x 1/4" Female National Pipe Thread Swivel

THERMOPLASTIC AIR HOSE

300 PSI XTREMEFLEX LOW TEMPERATURE AIR HOSE – ASSEMBLIES

XtremeFlex air hoses with XtremeFlex technology are constructed of a specially formulated thermoplastic compound which provides extreme flexibility in severely cold weather, and it is non-marking. Tighter fabric reinforcement provides a stronger wall and greater kink resistance, while retaining great flexibility. Assemblies come complete with male national pipe thread fittings and molded bend restrictors on both ends.

- ▶ Tube/Cover Material: Thermoplastic
- ▶ Temperature: -40°F to 150°F
- ▶ Fittings: Male National Pipe Thread x Male National Pipe Thread
- ▶ Reinforcement: Tightly Woven Synthetic
- ▶ Cover Color: Blue

NYLON RECOIL HOSE – ASSEMBLIES

Yellow nylon recoil assemblies are self-retracting with 4" pigtails, reusable 1/4" male national pipe thread brass swivel fittings, and spring guards. Used in horizontal and vertical applications to remove the hazard of hoses sprawling across work areas.

- ▶ Tube/Cover Material: Nylon
- ▶ Temperature: 14°F to 176°F
- ▶ Fittings: 1/4" Male National Pipe Thread x 1/4" Male National Pipe Thread
- ▶ Reinforcement: Non-Reinforced
- ▶ Cover Color: Yellow

15026021	5/8	9.53	0.5	12.7	330	25'	0.9	EA

PUSH-ON HOSE – BULK/UNCOUPLED

Push-on hose is constructed with a unique fabric reinforcement that "locks" onto the barb of push-on style fittings without the use of tools or clamps. This hose has a high quality oil resistant tube and cover, allowing the hose to be flexible, kink resistant, and abrasion resistant. Ideal for applications involving petroleum based oils, water, glycol anti-freeze, hot lubricating oils, or air. **Do not recommend for unleaded gasoline or diesel fuels. Use with push-on fittings only.**

- ▶ Tube Material: Nitrile/RMA Class A
- ▶ Cover Material: Nitrile/PVC
- ▶ Cover Color: Black
- ▶ Reinforcement: 2 Polyester Plies
- ▶ Temperature: -20°F to 180°F

BRASS PUSH-ON FITTINGS – HOSE BARB X HOSE BARB MENDER

Push-on brass hose menders are designed specifically for use in push-on hose, and are used to replace damaged areas of hose. Their larger than normal directional hose barbs will insert easily into your hose, but will not back out under pressure. No hose clamp is required when used in combination with push-on hose.

AUTO-REWIND POLY HOSE REEL WITH PVC AIR HOSE

Completely enclosed poly hose reel is the lightweight version of hose reels. The reel can be mounted in any direction, and the auto-rewind mechanism automatically locks the hose at one's desired working length.

- ▶ Single bracket mounting
- ▶ 3/8" x 30' PVC Air Hose
- ▶ Stationary mounting bracket with hose guide arm & hose stop
- ▶ 3-ft lead-in/connection hose
- ▶ 1/4" Male Standard Pipe Thread Inlet

AUTO-REWIND STEEL HOSE REEL WITH RUBBER AIR HOSE

This heavy-duty reel is all-steel constructed and has a corrosion resistant black powder coated finish. Its maintenance free rewind mechanism holds hose at desired length. It comes complete with a 300 PSI rated 3/8" x 50' reinforced rubber hose with 1/4" Male Pipe Thread brass fittings, a bend restrictor, and an adjustable hose stop. Also includes a 36" connection hose.

- ▶ 3/8" x 50' Rubber Air Hose
- ▶ Bend Restrictor
- ▶ 36" Connection Hose
- ▶ 1/4" Male Pipe Thread Brass Fittings
- ▶ Adjustable hose stop

MANUAL REWIND STEEL HOSE REEL WITH RUBBER AIR HOSE

This manual, heavy-duty all-steel hose reel has a corrosion resistant black powder coated finish, an easy-to-turn hand crank for quick hose rewinding, and a spring tension brake to prevent extra hose from unwinding.

- ▶ 3/8" Rubber Hose Air
- ▶ Bend Restrictor
- ▶ 1/4" Male Pipe Thread Brass Fittings
- ▶ 1/4" x 36" Connection Hose

AIR HOSE REELS

BRASS HOSE FITTINGS

See p. 101-104 for additional brass fittings.

BRASS HOSE FITTINGS

Brass fittings and adapters are commonly used in low to medium air, water, and gas applications where corrosion resistance is a necessity. Hose barbed fittings are machined brass fittings with tapered male pipe thread.

51040306	1/4	1/4	250°F	300	0.24	EA

AIR HOSE REPAIR KIT

Make emergency repairs to an air hose while you're in the shop or on the road. Kit includes:

PART#	HOSE ID (IN)	WEIGHT (LBS)	U/M
51040860	1/4	0.42	EA
51040862	3/8	0.46	EA

- ▶ Male Pipe Thread x Hose Barb
- ▶ Female Pipe Thread x Hose Barb
- ▶ Worm-gear Clamp
- ▶ Hose Barb to Hose Barb Hose Mender

IN-LINE LUBRICATOR

The in-line lubricator protects air powered tools by injecting a predetermined amount of oil into the air source before entering the tool. The lubricator has a sight gauge for oil level visibility, a screw adjustment to vary the oil injection, and has a minimum flow rate. **Do not recommend for constant flow applications.**

PART#	FEMALE PIPE THREAD (IN)	FLOW RATE	MAX. PSI @ 70 F	WEIGHT (LBS)	U/M
43128652	1/2	30 SCFM @ 70 PSI	500	0.82	EA

43128656	3/4	71 SCFM @ 70 PSI	300	2.38	EA
43128658	1	100 SCFM @ 70 PSI	250	4.53	EA

HEAVY-DUTY INDUSTRIAL RUBBER WATER HOSE – ASSEMBLIES

Industrial quality water hose assemblies are built to last in tough environments. The hose is constructed with an EPDM tube and cover, which gives it resistance to abrasion, heat, sunlight, ozone, and weathering. It is coupled with high quality machined brass garden hose thread fittings and has a bend restrictor on the inlet end to prevent damage from kinking at the coupling. **Do not use to transport pressurized steam. Do not use to transport water for human consumption.**

- ▶ Tube/Cover Material: EPDM
- ▶ Temperature: -40°F to 185°F
- ▶ Reinforcement: Spiral Textile Cord
- ▶ Maximum PSI: 200
- ▶ Fittings: Male x Female Brass Garden Hose Thread

INDUSTRIAL WATER HOSE

DESCRIPTION ABBREVIATION KEY

EPDM = Ethylene Propylene Diene Monomer

GHT = Garden Hose Thread

GARDEN HOSE ADAPTERS – QUICK DISCONNECTS

Brass garden hose quick disconnect adapters are used to convert a garden hose to a quick disconnect system, allowing for faster adapter change-outs.

SOCKET

PART#	THREAD	MAX. PSI	WEIGHT (LBS)	U/M
44048660	3/4" Garden Hose Thread	100	0.15	EA

PLUG

PART#	THREAD	MAX. PSI	WEIGHT (LBS)	U/M
44048662	3/4" Garden Hose Thread	100	0.15	EA

WATER ACCESSORIES

GARDEN HOSE ADAPTERS – QUICK DISCONNECT SET

Brass garden hose quick disconnect set includes a brass socket with recessed washer for no-leak fit, and a brass plug.

PART#	THREAD	MAX. PSI	WEIGHT (LBS)	U/M
44048664	3/4" Garden Hose Thread	100	0.3	EA

GARDEN HOSE GASKETS

Garden hose gaskets fit all 3/4" garden hose threaded connections. Use to provide a tight seal between connectors.

PART#	MAX. PSI	WEIGHT (LBS)	U/M
44029965	100	0.05	PACKAGED of 10 EA
44030000	100	0.002	EA

DESCRIPTION ABBREVIATION KEY

SCFM = Standard Cubic Feet per Minute

WATER ACCESSORIES

See p. 47 for additional fire suppression accessories.

100 PSI FOG NOZZLE

Fire hose style nozzle is constructed of red polycarbonate with a rubber bumper guard and brass stem. It adjusts from straight stream to fog and has a 100 PSI maximum working pressure (water only) at 70°F. Used for washdown, construction, industrial, agricultural, and municipal applications.

PART#	THREAD	GALLONS PER MINUTE	SPRAY	WEIGHT (LBS)	U/M
46045013	3/4" Female Garden Hose Thread	8 @ 100 PSI	90°	0.3	EA

100 PSI CONSTANT-FLOW FOG NOZZLE

Constant-flow fog nozzle is constructed of red polycarbonate with black plastic and steel stem, and includes a rubber bumper guard. The tip twist adjustment provides consistent volume at any spray angle and adjusts from straight stream to fog. 100 PSI maximum working pressure (water only) at 70°F. Used for washdown, construction, industrial, agricultural, and municipal applications.

PART#	THREAD	GALLONS PER MINUTE	SPRAY	WEIGHT (LBS)	U/M
46045506	1-1/2" National Pipe Straight Thread	75 @ 100 PSI	90°	0.44	EA
46045507	2" National Pipe Straight Thread	75 @ 100 PSI	90°	0.44	EA

100 PSI PISTOL GRIP WATER NOZZLE

Pistol grip water nozzle is constructed of a heavy-duty zinc metallized body, brass valve and adjusting nut, stainless steel spring with lifetime packing, and rubber handle guard. Its easy squeeze on/off lever clip locks to any spray pattern.

PART#	THREAD	MAX. TEMP	WEIGHT (LBS)	U/M
44048596	3/4" Garden Hose Thread	140°F	0.47	EA

100 PSI INSULATED PISTOL GRIP WATER NOZZLE

Insulated pistol grip water nozzle is constructed of a chrome plated all-zinc body, heavy-duty brass valve and adjusting nut, industrial strength nylon handle, a rubber handle guard, and rubber covered head with garden hose thread. Its easy squeeze on/off lever clip locks to any spray pattern.

PART#	THREAD	MAX. TEMP	WEIGHT (LBS)	U/M
44048631	3/4" Garden Hose Thread	140°F	0.48	EA

ACID & CHEMICAL HOSE

HIGH PRESSURE SPRAY

HIGH PRESSURE PVC SPRAY HOSE – BULK/UNCOUPLED

High pressure PVC spray hose for fertilizers, herbicides, and insecticides in the agricultural and lawn care industries. Lightweight PVC cover is compounded for abrasion resistance for long life and low friction for easy handling.

- ▶ Tube Material: PVC
- ▶ Cover Material: Ribbed PVC
- ▶ Reinforcement: 1 Braid Synthetic Cord
- ▶ Temperature: 25°F to 150°F

ANHYDROUS AMMONIA HOSE

ANHYDROUS AMMONIA (NH3)

ANHYDROUS AMMONIA HOSE

Apache wants to ensure all anhydrous ammonia (NH3) assemblies shipped to our customers are of the highest quality, and provide the greatest level of safety and reliability for this demanding service. As a leader in offering innovative performance products to the agricultural industry, we have raised the bar with products designed to improve both performance and safety.

PREASSEMBLED FOR YOUR SAFETY

Many accidents involving NH3 have occurred by using the wrong hose or using an improperly installed fitting.

The preferred method for coupling NH3 hose is a permanent, crimped-on fitting, which is the safest method and requires the least amount of maintenance. Reusable fittings have been used on NH3 hose assemblies, however they are inherently unsafe unless the clamp bolt holding these fittings is retightened regularly.

Apache has partnered with Parker to introduce a program where only pre-coupled NH3 hoses are sold. All assemblies are fabricated using Parker hoses and couplings that are permanently crimped with manufacturer certified coupling procedures.

PRODUCT DISTINCTIONS

- ▶ Seven year warranty – the longest in the industry
- ▶ All Apache NH3 hose is coupled at our ISO 9001:2008 certified production facility
- ▶ Apache is an audited Parker Certified Coupler ensuring a safe and consistent system (only Parker couplings are installed on Parker anhydrous ammonia hoses, using Parker coupling machines)
- ▶ High-quality, synthetic construction ensures safety by reducing permeation and offering better resistance to oil, weather aging, and abrasion
- ▶ Nylon or stainless wire braids embedded between rubber plies create a higher safety factor (hose won't delaminate due to low adhesion)
- ▶ Prep equipment ensures uniform pin-pricking, with 6 uniform rows around the hose, spaced every 1/2". Pin pricking prevents cover separation.
- ▶ All hose meets or exceeds RMA IP11-2/TFI standards as well as ANSI K61.1 and CGA G-2.1
- ▶ Precise record keeping by Apache and Parker ensure complete traceability of every assembly

PRECAUTIONS WHEN IN USE

Due to potential dangers involved in handling NH3, special care is required to ensure the safety of those working with it. Education about the procedures and personal protective equipment required to safely handle this product – including the hoses used to transport it – is extremely important.

Contact with anhydrous ammonia will burn skin, and is especially damaging to the eyes and lungs. This is true in either its liquid or gas/vapor state.

NH3 hose has a limited life and the user must be alert to signs of impending failure. Periodic inspection and testing is recommended to detect signs indicating hose deterioration or loss of performance before conditions leading to malfunction or failure are reached.

All new hose assemblies should be inspected prior to use to determine if they have been damaged in storage or shipment. Hose subjected to severe usage – for example: dragged over sharp rock surfaces, sharply bent in storage or continually exposed to weather – will deteriorate more rapidly than carefully handled hose. The hose should be visually inspected each day before use.

ANHYDROUS AMMONIA (NH3) NYLON BRAID REINFORCED – ASSEMBLIES

Designed to handle anhydrous ammonia to 350 PSI working pressure with a 5:1 safety factor (1750 PSI minimum burst). Degradation resistant, nylon reinforcement provides flexibility with high tensile strength. High quality synthetic compound cover provides excellent ozone and abrasion resistance. Compatible with N-Serve® when used in recommended concentrations. All assemblies have crimped and certified male pipe thread fittings attached to both ends, plus pin-pricked covers to prevent delamination. Meets or exceeds RMA/TFI/ANSI. Do not use Anhydrous Ammonia hose in LP Gas, Natural Gas, or refrigeration applications.

- ▶ Tube/Cover Material: EPDM
▶ Reinforcement: 2 Nylon Braids
▶ Fittings: Male Pipe Thread x Male Pipe Thread Crimped
▶ Temperature: -40°F to 180°F
(2" has 3 Nylon Braids)

Table with columns: PART#, ID (IN), ID (MM), OD (IN), OD (MM), MAX. PSI, MIN. BEND RADIUS (IN), COVER COLOR, LENGTH, WEIGHT (LBS), U/M. Lists various hose assemblies and their specifications.

DESCRIPTION ABBREVIATION KEY

EPDM = Ethylene Propylene Diene Monomer

NH3 = Anhydrous Ammonia

Apache is an authorized Parker NH3 Coupler / Assembler.

See p. 36 for Anhydrous Ammonia Care & Maintenance instructions.

See p. 178 for anhydrous ammonia pressure gauge.

Table with columns: PART#, ID (IN), ID (MM), OD (IN), OD (MM), MAX. PSI, MIN. BEND RADIUS (IN), COVER COLOR, LENGTH, WEIGHT (LBS), U/M. Lists various hose assemblies and their specifications.

Apache is an authorized Parker NH3 Coupler / Assembler.

2" hose is reinforced with 3 nylon braids.

XLPE CHEMICAL HOSE

MODIFIED XLPE CHEMICAL HOSE – BULK/UNCOUPLED

This hose is great for cleaning with open end 50 PSI steam or in a bath containing 10% Sodium Hydroxide at 212°F. Its modified cross-linked polyethylene tube is "Best in Class" for maintaining a tight seal with stainless steel crimped fittings.

- ▶ Tube Material: Modified XLPE
- ▶ Cover Material: Corrugated EPDM
- ▶ Negative Pressure (in/HG): 30
- ▶ Reinforcement: 2 Textile Plies with Dual Steel Helix Wires
- ▶ Temperature: -40°F to 250°F*
- ▶ Apache Branded

EPDM CHEMICAL TRANSFER PUMP HOSE – ASSEMBLIES

General purpose EPDM chemical transfer pump hose assemblies are for agricultural chemicals and pesticides. Comes complete with male pipe thread x male pipe thread polyethylene fittings attached with smooth bore preformed clamps, or male pipe thread x male pipe thread die cast steel fittings crimped with aluminum ferrules as designated. Below are the industries most common sizes.

- ▶ Tube/Cover Material: EPDM
- ▶ Reinforcement: Spiral Textile Cords
- ▶ Temperature: -40°F to 212°F
- ▶ Black Hose Fittings: Crimped Metal Male Pipe Thread x Male Pipe Thread
- ▶ Red Hose Fittings: Banded Poly Male Pipe Thread x Male Pipe Thread

DUCTING & VACUUM HOSE

DUST COLLECTION

NEOPRENE COATED FABRIC WITH WIRE HELIX (CW-GP) – BULK/UNCOUPLED

This rubber ducting hose is constructed of a 2-ply, black neoprene coated, polyester fabric reinforced with a steel spring wire. The neoprene coating provides excellent flexibility, durability, abrasion resistance, chemical resistance, and weather resistance, while the steel spring wire provides crush resistance. This hose handles both positive and negative pressures, and is listed as UL 94V-0 flame retardant. It is a great low pressure hose for air handling, dust collection, fume control, and ventilation.

- ▶ Tube/Cover Material: Neoprene
- ▶ Temperature: -40°F to 250°F
- ▶ Standard Length: 25'
- ▶ Reinforcement: 2-ply Fabric with Steel Spring Wire
- ▶ UL 94V-0 Flame Retardant
- ▶ Cover Color: Black

Negative Pressure also commonly referred to as Vacuum Rating

30 in/HG = Full Vacuum

RUBBER FLEXIBLE DUCTING HOSE – BULK/UNCOUPLED

This versatile, general purpose thermoplastic rubber ducting hose features cuffed ends and provides resistance to chemicals, abrasion, and UV. This highly compressible hose is great for many applications including cotton harvesting, fume removal, lawn/lead/dust collection, seeding, and ventilation.

- ▶ Tube/Cover Material: Thermoplastic Rubber
- ▶ Temperature: -60°F to 275°F
- ▶ Cover Color: Black
- ▶ Reinforcement: Steel Spring Wire Helix/Spring Wire
- ▶ Standard Length: 25'

MANHOLE VENTILATION DUCTING HOSE – WITH CUFFS

This ducting hose is designed for transferring large volumes of low pressure air for ventilation. It is constructed from 1-ply neoprene coated synthetic fabric, with an enclosed wire helix, vinyl wearstrip, and a built-in sleeve on both ends for ease of connecting to equipment.

- ▶ Tube/Cover Material: Neoprene
- ▶ Temperature: -40°F to 250°
- ▶ Reinforcement: 1-ply Fabric with Steel Spring Wire
- ▶ Cover Color: Yellow

PART#	ID (IN)	ID (MM)	MAX. PSI	MIN. BEND RADIUS (IN)	LENGTH	WEIGHT (LBS)	U/M	NEGATIVE PRESSURE (IN/HG)

POLYETHYLENE DUCTING HOSE – BULK/UNCOUPLED

This lightweight, very flexible polyethylene hose is reinforced with an integral polyethylene helix. It is most suitable for light vacuum applications, fume extraction, and low pressure air movement. Its crush resistance and moderate abrasion resistance also makes it an economical choice for woodworking and dust collection applications.

- ▶ Tube/Cover Material: Polyethylene
- ▶ Temperature: -40°F to 140°F
- ▶ Reinforcement: Integral Polyethylene Helix
- ▶ Cover Color: Black

PART#	ID (IN)	ID (MM)	MAX. PSI @ 75°F	MIN. BEND RADIUS @ 68°F	WEIGHT (LBS)	U/M	NEGATIVE PRESSURE (IN/HG)

CBS VACUUM HOSE – BULK/UNCOUPLED

This highly flexible vacuum hose is constructed of an interlocking, self supporting design created for maximum crush resistance and durability. This hose works well for vacuum cleaning, dust collection, chemical venting, and light material handling.

- ▶ Tube/Cover Material: EVA
- ▶ Temperature: -65°F to 140°F
- ▶ Reinforcement: EVA Helix
- ▶ Cover Color: Gray

PART#	ID (IN)	ID (MM)	OD (IN)	OD (MM)	MAX. PSI	MIN. BEND RADIUS @ 68°F	WEIGHT (LBS)	U/M	NEGATIVE PRESSURE (IN/HG)

DESCRIPTION ABBREVIATION KEY

EVA = Ethyl Vinyl Acetate

PVC = Poly Vinyl Chloride

For heavy-duty applications see additional material handling hose on p. 74

LAWN & LEAF

URETHANE DUCTING – BULK/UNCOUPLED

This urethane ducting hose provides excellent resistance to abrasion, chemicals, ozone, and weathering, while the steel spring wire helix provides crush resistance and helps the hose hold its shape during operation. A great low pressure hose for more demanding applications like lawn/leaf/dust collection, straw blowing, fertilizer broadcasting, and bulk material handling.

- ▶ Tube/Cover Material: Urethane
- ▶ Temperature: -65°F to 200°F
- ▶ Standard Length: 25'
- ▶ Reinforcement: Steel Spring Wire Helix
- ▶ Cut Piece Available: No
- ▶ Wall: 0.035" / 0.89 mm

AIR SEEDER DUCTING – BULK/UNCOUPLED

This ducting hose is commonly used on air seeder applicator equipment in the agricultural industry. Its EPDM tube gives it more abrasion resistance than most air seeder hoses, and the rigid external poly helix provides excellent protection from machine vibration.

- ▶ Tube Material: EPDM
- ▶ Cover Material: Polyethylene
- ▶ Cover Color: Gray/Black
- ▶ Reinforcement: External Poly Spiral Helix
- ▶ Temperature: -30°F to 140°F

DESCRIPTION ABBREVIATION KEY

EPDM = Ethylene Propylene Diene Monomer

FIRE SUPPRESSION

FIRE HOSE

SINGLE JACKET – ASSEMBLIES

A 100% polyester woven, single jacket hose with a single-ply extruded EPDM rubber lining. Hose comes coupled with internally expanded male and female, national standard thread, aluminum rocker lug couplings. This hose meets NFPA 1961 requirements and is good for Emergency Fire Protection when your water source does not exceed 135# pressure. It coils tight for easy storage and is mildew resistant.

- ▶ Tube Material: EPDM
- ▶ Reinforcement: 100% Polyester Fabric
- ▶ Meets NFPA 1961 requirements
- ▶ Cover Material: 100% Polyester Jacket
- ▶ Temperature: -40°F to 200°F
- ▶ Maximum PSI: 135
- ▶ Fittings: Male x Female Aluminum Rocker Lug

16004014	2-1/2	63.5	2.81	71.45	150	White	50'	300	19	EA

DESCRIPTION ABBREVIATION KEY

EPDM = Ethylene Propylene Diene Monomer

NFPA 1961 requirements apply to attack hose, supply hose, occupant use hose, forestry hose, and suction hose. Types of tests include kink, burst, adhesion, ozone resistance, cold bending, as well as flexibility and compressibility.

DOUBLE JACKET – ASSEMBLIES

The best 100% polyester woven double jacket hose with a high grade single-ply extruded EPDM rubber lining. Hose comes coupled with internally expanded, male and female, national standard thread aluminum rocker lug couplings. This hose meets NFPA 1961 requirements for attack grade fire hose, and is therefore a great choice for Emergency Fire Protection. It coils tight for easy storage and is mildew resistant.

- ▶ Tube Material: EPDM
- ▶ Reinforcement: 100% Polyester Fabric
- ▶ Meets NFPA 1961 requirements
- ▶ Cover Material: 100% Polyester Jacket
- ▶ Temperature: -40°F to 200°F
- ▶ Maximum PSI: 270
- ▶ Fittings: Male x Female Aluminum Rocker Lug

NITRILE COVER HOSE – ASSEMBLIES

A rubber industrial fire suppression or washdown hose with 100% synthetic reinforcement. This hose provides abrasion, oil, and heat resistance, as well as long service life. It is coupled with internally expanded, male and female, national standard thread extruded, aluminum rocker lug couplings.

- ▶ Tube Material: Nitrile Rubber
- ▶ Reinforcement: 100% Synthetic Fabric
- ▶ Cover Material: Nitrile Rubber
- ▶ Temperature: -40°F to 200°F
- ▶ Maximum PSI: 225
- ▶ Fittings: Male x Female Aluminum Rocker Lug

16014052	2-1/2	63.5	2.75	69.85	250	Red	50'	500	20	EA

See p. 132 for fire safety and other water transfer kits.

BRASS HYDRANT ADAPTERS

Brass hydrant adapters are machined from solid brass castings. They are designed to adapt standard fire hydrants to smaller fire hose couplings, and to couplings with other thread types, like national pipe thread and garden hose thread. Other styles and sizes are available upon request.

PART#	THREAD	WEIGHT (LBS)	U/M
46036523	1-1/2" Female National Standard Thread x 1-1/2" Male National Pipe Thread	1.15	EA
46038550	2-1/2" Female National Standard Thread x 3/4" Male Garden Hose Thread	1.31	EA
46036018	2-1/2" Female National Standard Thread x 1-1/2" Male National Standard Thread	1.25	EA
46038509	2-1/2" Female National Standard Thread x 1-1/2" Male National Pipe Thread	1.25	EA
46041011	2-1/2" Female National Standard Thread x 2" Male National Pipe Thread	1.38	EA

46040007	2-1/2" Female National Standard Thread x 3" Male National Pipe Thread	2.58	EA

FIRE ACCESSORIES

See p. 127 for layflat washdown hoses.

HYDRANT WRENCHES

Hydrant wrenches are multi-functional tools designed specifically for the fire protection industry. They have:

- ▶ Durable, malleable iron head
- ▶ Steel handle
- ▶ Plated finish that resists rust and corrosion

The standard wrench is lightweight and will adjust 3/4" through 3" rocker and pin lug fittings. The heavy-duty wrench will adjust 1-1/2" through 6" rocker and pin lug fittings, pentagon hydrant nuts up to 1-3/4", and is notched to fit 1-1/4" square hydrant nuts.

PART#	STYLE	WEIGHT (LBS)	U/M
46045715	Standard Wrench	2.7	EA
46045710	Heavy-Duty Wrench	4.7	EA

THERMOPLASTIC FOG NOZZLE

The thermoplastic fog nozzle is lightweight and fully adjustable from fog to stream. This nozzle has a rubber bumper to protect it from damage if dropped, and comes complete with a gasket.

PART#	THREAD	MAX. PSI (LBS)	GALLONS PER MINUTE	SPRAY	WEIGHT (LBS)	U/M
46045007	3/4" Female National Straight Thread	100	30.9 @ 100 PSI	120°	0.33	EA
46045008	1" Female National Straight Thread	100	11.4 @ 100 PSI	120°	0.48	EA
46045505	1-1/2" Female National Straight Thread	100	83.6 @ 100 PSI	90°	0.57	EA
46045009	1-1/2" Female National Standard Thread	100	83 @ 100 PSI	90°	0.57	EA

BRASS FOG NOZZLE

This brass industrial fog nozzle is the best choice when a highly durable, adjustable nozzle is needed. It shuts off completely, and will deliver a fog pattern of 30/60/90 degree or a straight stream. FM Approved.

PART#	THREAD	MAX. PSI (LBS)	GALLONS PER MINUTE	SPRAY	WEIGHT (LBS)	U/M	U/L LISTED
46045574	1" Female National Pipe Straight Thread	175	32 @ 100 PSI	90°	1.2	EA	Yes
46045578	1" Female National Standard Thread	175	32 @ 100 PSI	90°	1.2	EA	Yes

46045580	2-1/2" Female National Standard Thread	175	205 @ 100 PSI	90°	3.3	EA	No

ALUMINUM FORESTRY FOG NOZZLE

This aluminum forestry fog nozzle is fully adjustable from fog to stream. Contains a flow rate of 25 to 70 gallons per minute (GPM).

PART#	THREAD	MAX. PSI (LBS)	GALLONS PER MINUTE	WEIGHT (LBS)	U/M
46045511	1-1/2" Female National Standard Thread	600	25 & 70 @ 100 PSI	0.91	EA

FOOD SERVICE HOSE

See p. 29 for additional water nozzles.

FM approval is a third-party certification from Factory Global. It assures products meet the highest standards for safety and property loss prevention.

RUBBER

FOOD SUCTION – BULK/UNCOUPLED

This gray food hose is designed for transferring liquid food products, including edible oils. Its constructed of multiple synthetic fabric plies, smooth FDA approved NBR tube, and abrasion resistant NBR/PVC cover. Its dual wire helix and corrugated cover make it very flexible compared to similar products.

- ▶ Tube Material: NBR
- ▶ Cover Material: NBR/PVC
- ▶ Cover Color: Gray
- ▶ Reinforcement: Synthetic Textile with Dual Helix Wire
- ▶ Temperature: -30°F to 200°F

PART#	ID (IN)	ID (MM)	OD (IN)	OD (MM)	MAX. PSI	MIN. BEND RADIUS (IN)	WEIGHT (LBS)	U/M

FLOUR DISCHARGE – BULK/UNCOUPLED

Our dry food discharge hose is constructed of a white FDA approved natural rubber tube, making it ideal for the transfer of flour, sugar, and other dry edible food products. It has an abrasion resistant and weather resistant SBR cover. An internal static-dissipating wire prevents electrical shock and explosion when grounded properly.

- ▶ Tube Material: Natural Rubber
- ▶ Cover Material: SBR
- ▶ Cover Color: Blue
- ▶ Reinforcement: Polyester Tire Cord
- ▶ Temperature: -40°F to 160°F

PART#	ID (IN)	ID (MM)	OD (IN)	OD (MM)	MAX. PSI	MIN. BEND RADIUS (IN)	WEIGHT (LBS)	U/M

BULK COMMODITY DISCHARGE (610W) – BULK/UNCOUPLED

The bulk commodity hose is designed for pneumatic transfer of flour and other dry food products requiring a sanitary FDA tube. It has a high tensile synthetic reinforcement with static conductor, a 3/16" thick natural rubber tube for long service life, and a gray non-marking natural rubber cover for abrasion resistance.

- ▶ Tube Material: Natural Rubber
- ▶ Cover Material: Natural Rubber
- ▶ Cover Color: Gray
- ▶ Reinforcement: High Tensile Synthetic Cord with Static Conductor
- ▶ Temperature: -40°F to 150°F

DAIRY WASHDOWN – BULK/UNCOUPLED

Food washdown hose is designed for washdown service in dairies, creameries, packing houses, and food processing plants. It has a white EPDM cover that is abrasion resistant and scuff resistant. Its black EPDM tube will handle 200°F water up to 50 PSI.

- ▶ Tube Material: EPDM
- ▶ Cover Material: EPDM
- ▶ Cover Color: White
- ▶ Reinforcement: Spiral Polyester Yarn
- ▶ Temperature: -40°F to 180°F

OIL RESISTANT WASHDOWN – ASSEMBLIES

Food washdown hose is designed for washdown service in dairies, creameries, packing houses, and food processing plants. It has a white NBR/PVC cover that is oil resistant and scuff resistant. Its black SBR tube stands up to hot water and steam. It also resists saturated steam pressure up to 287°F at 40 PSI or less, in open end service.

- ▶ Tube Material: SBR
- ▶ Cover Material: NBR/PVC
- ▶ Cover Color: White
- ▶ Reinforcement: Multiple Fabric Plies
- ▶ Temperature: -40°F to 160°F
- ▶ Fittings: Male x Female Brass GHT

SBR = Styrene Butadiene Rubber

PVC

PVC

CLEAR FOOD HOSE – BULK/UNCOUPLED

The heavy-duty clear PVC food hose is constructed of an extruded PVC tube and cover with a rigid polypropylene helix. Its clear wall allows visibility of product flow and works well in milk handling or other food processing applications. This hose is 3A and FDA compliant and is acceptable in USDA inspection environments.

- ▶ Tube/Cover Material: PVC
- ▶ Temperature: -4°F to 130°F
- ▶ Negative Pressure (in/HG): 30 @ 68°F
- ▶ Reinforcement: Rigid PVC Helix
- ▶ Cover Color: Clear

HYDRAULIC HOSE & ACCESSORIES

DESCRIPTION ABBREVIATION KEY

FDA = Food and Drug Administration

PVC = Poly Vinyl Chloride

USDA = United States Department of Agriculture

Negative Pressure also commonly referred to as Vacuum Rating

30 in/HG = Full Vacuum

3A Dairy is a voluntary organization that provides standards of construction for the processing equipment of milk, cheese, butter, and ice cream.

HYDRAULIC HOSE

100R1AT & 100R2AT HYDRAULIC HOSE – BULK/UNCOUPLED

High pressure hydraulic lines meet SAE standards.

- ▶ Tube Material: NBR ▶ Cover Material: SBR/CR/BR ▶ Cover Color: Black
▶ Reinforcement: High Tensile Steel Braids ▶ Temperature: -40°F to 212°F ▶ Standard Reel: 165'

Table with columns: PART#, ID (IN), ID (MM), OD (IN), OD (MM), MAX. PSI, MIN. BEND RADIUS (IN), SAE, WEIGHT (LBS), U/M. Sub-sections for SAE 100R1AT and SAE 100R2AT.

DESCRIPTION ABBREVIATION KEY

BR = Butadiene Rubber

CR = Chloroprene Rubber

NBR =Nitrile Butadiene Rubber (Buna-N)

SBR = Styrene Butadiene Rubber

2-WIRE 100R2AT HYDRAULIC HOSE – ASSEMBLIES

Assemblies meet SAE 100R2AT standards. They are coiled and sleeved for easy storage, and labeled with size and specification for easy identification.

- ▶ Tube Material: NBR ▶ Cover Material: SBR/CR/BR ▶ Temperature: -40°F to 212°F
▶ Reinforcement: 2 High Tensile Steel Braids ▶ Fittings: Male Pipe Thread x Male Pipe Thread ▶ Cover Color: Black

Table with columns: PACKAGED PART#, UNPACKAGED PART#, ID (IN), ID (MM), OD (IN), OD (MM), MIN. BEND RADIUS (IN), LENGTH, WEIGHT (LBS), U/M. Sub-sections for 5000 MAX. PSI, 4000 MAX. PSI, and 2250 MAX. PSI.

SAE standard provides general, dimensional, and performance specifications for the most common hoses and couplings used in hydraulic systems.

Main table with columns: PACKAGED PART#, UNPACKAGED PART#, ID (IN), ID (MM), OD (IN), OD (MM), MIN. BEND RADIUS (IN), LENGTH, WEIGHT (LBS), U/M. Sub-sections for 4000 MAX. PSI CONTINUED, 3500 MAX. PSI, and 2250 MAX. PSI.

LENGTH CHANGE TIPS

When hose installation is straight, allow enough slack in hose line to provide for length changes which will occur when pressure is applied.

To allow for length changes when the hose is pressurized, do not clamp at bends so that curves will absorb changes. Do not clamp high and low pressure lines together.

45° ADAPTERS

Hydraulic adapters are key components in any hydraulic system. They create an effective means of connecting hydraulic hoses to control valves, cylinders, and other stationary components. Proper use of adapters will reduce system costs by reducing space requirements, allowing shorter hose lengths, and improving the availability of replacement parts.

Table with columns: PACKAGED PART#, BULK PART#, TYPE, END, WEIGHT (LBS), U/M. Rows include part numbers 39039000 and 39039004.

3000 PSI SET WITH FEMALE THREADS

These high quality, quick disconnect sets have a ball valve style and a one-way sleeve design which allows implement break-away when the coupling is clamp mounted. Interchangeable half-for-half with: Parker/Pioneer 4000, Aeroquip® FD42, and Snap-tite™ 60 series couplers.

Table with columns: PART#, SIZE, VALVE STYLE, MAX. PSI, WEIGHT (LBS), U/M. Rows include part numbers 39042900, 39042905, 39042910, and 39042915.

ONE-WAY SLEEVE/DOUBLE SHUT-OFF (S20 SERIES)

Sets have an ISO 5675 body and include a coupler/plug combination primarily used on agricultural and construction equipment. If the coupler is permanently mounted, the one-way sleeve design allows implement break-away without hose damage. The double shut-off design is available with either a rugged ball valve or leak-free, high flow poppet valve. Critical parts are hardened for long service life, and all poppet valve models are 100% leak tested prior to leaving the factory. Couplers interchangeable with Parker/Pioneer 4200 Series.

Table with columns: PART#, TYPE, BODY SIZE, THREAD, VALVE STYLE, MAX. TEMP, GALLONS PER MINUTE, MAX. PSI, WEIGHT (LBS), U/M. Rows include part numbers 39040900, 39040910, 39040920, 39040955, 39040915, and 39040925.

TWO-WAY SLEEVE/DOUBLE SHUT-OFF (S40 SERIES)

Sets have an ISO 5675 body and include a coupler/plug combination primarily used on agricultural and construction equipment. If the coupler is permanently mounted, the one-way sleeve design allows implement break-away without hose damage. The double shut-off design is available with either a rugged ball valve or leak-free, high flow poppet valve. Critical parts are hardened for long service life, and all poppet valve models are 100% leak tested prior to leaving the factory. Couplers interchangeable with Parker/Pioneer 4200 Series.

Table with columns: PART#, TYPE, BODY SIZE, THREAD, VALVE STYLE, MAX. TEMP, GALLONS PER MINUTE, MAX. PSI, WEIGHT (LBS), U/M. Row includes part number 39041235.

ONE HAND HOOK-UP – TWO-WAY SLEEVE/DOUBLE SHUT-OFF (S70 SERIES)

Sets have an ISO 5675 body and include a S75 coupler and S71 plug combination. The unique internal valving automatically opens the hydraulic circuit after connection, if the system is in operating mode. When mounted to a bulkhead, the two-way double acting sleeve allows one-hand operation under full pressure, and implement break-away. The double shut-off design is available with either a rugged ball valve or leak-free, high flow poppet valve. Critical parts are hardened for long service life, and all poppet valve models are 100% leak tested prior to leaving the factory. Interchangeable with Parker/Pioneer 8200 Series.

Table with columns: PART#, TYPE, BODY SIZE, THREAD, VALVE STYLE, MAX. TEMP, GALLONS PER MINUTE, MAX. PSI, WEIGHT (LBS), U/M. Rows include part numbers 39041400 and 39041425.

QUICK DISCONNECTS

One way quick coupler set (Ball)

RESTRICTED FLOW FITTINGS

Restricted flow fittings have a small opening on one end of the fitting. This small hole reduces the amount of fluid running through the line. By reducing the amount of fluid, the flow is slowed down, which gives the hydraulic system a smoother, and more controlled response.

Two way sleeve quick coupler set (ball)

FLAT FACE BULKHEAD FITTING & LOCK NUT (STYLE 2706FF)

Bulkhead fitting and lock nut is a stationary mounting adapter. Combine this adapter with either the FE491 or FE495-4 to replace the following fittings: Pioneer Coupler FEM-501-10BMF NL; Pioneer Nipple/Tip FEM-502-10BMF-NL; Case® 410, 420, 430, 435, 440, 445, 450, 465; GEHL® 4640, 4840, 5640, 6640; New Holland® LS140, LS150, LS160, LS170, LS180, LS185, LS190.

FLAT FACE MALE O-RING X MALE PIPE (STYLE 2404FF)

Hydraulic adapters creates versatility in adapting your equipment to different quick disconnect ends and hoses. This adapter replaces the following fittings: Pioneer FEM-501-10BMS Nipple/Tip; Pioneer FEM-501-10BMS NL Coupler; Caterpillar® 216B, 226B, 232B, 236B, 242B, 246B, 248B, 252B, 262B, 268B; John Deere® 317,320.

FLAT FACE MALE TIP ADAPTER (FAE 49 SERIES)

Flat (flush) face coupler to ISO 5675 male tip adapter provides an effective method of interchanging agricultural and industrial machines and equipment. ISO 16028 to ISO 5675. Allows connection of FAE491-4 or FAE491-6 male flush face tip to a 1/2" body S56, S20, or S40 series ISO female half. Replaces Pioneer #EAS-500.

ACCESSORIES

SKID STEER ADAPTERS

ACCESSORIES

QUICK DISCONNECT DUST CAP

Dust caps have a molded rubber body. Cap keeps male tip clean, and protects your hydraulic system while not in use. Comes with two in a package.

PART#	END 1	MAX. TEMP	WEIGHT (LBS)	U/M
39041827	1/2" Body	250°F	0.75	EA

QUICK DISCONNECT DUST PLUG

Dust plug has a molded rubber body. Plug keeps female coupler clean, and protects your hydraulic system while not in use. Comes with two in a package.

PART#	END 1	MAX. TEMP	WEIGHT (LBS)	U/M
39041852	1/2" Body	250°F	0.13	EA

NYLON PROTECTIVE HOSE SLEEVE

Hose sleeve is constructed of tightly woven nylon filament and is resistant to abrasion, cuts, heat, and UV/Ozone deterioration. Sleeving extends hose life and safely deflects high pressure oil spray in the event of a hose leak. Sleeves are also commonly used to protect wiring, cables, and chain from external damage. Easy to install, and can be held in place with nylon cable ties or banding. Available in 15' lengths.

PART#	SIZE (IN)	MAX. TEMP	WEIGHT (LBS)	U/M
39020508	1.14	250°F	0.55	EA
39020518	1.59	250°F	0.6	EA

BRASS BREATHER VENT PLUGS

Breather vent plugs have a hex head brass body with male pipe threads, and a 40 micron filter end. It is designed to provide vacuum relief on gear boxes, oil tanks, and reservoirs. It is also used to convert double action cylinders into single action cylinders, and prevent foreign matter from entering the unused opening. This vent plug can be easily removed and cleaned.

▶ Maximum PSI: 3000

99019237	3/8	250°F	0.75	EA
99019240	1/2	250°F	0.75	EA

FILTER SERVICE INDICATOR GAUGE

Filter service indicator gauge is a low pressure, return line oil gauge designed to show when a system needs service (operating normally, will need service soon, or filter and fluid need serviced or replaced). The 1/8" back center mount fit, return line filter head contains castings with a 1/8" female national pipe thread gauge port.

99019342	2	25	0.2	EA

HIGH PRESSURE THREAD SEALER

This high pressure thread sealer is a fast curing, high strength, anaerobic sealant for hydraulic and pneumatic fittings up to 2" in diameter. Additional applications include servomechanisms and fine filtration systems. Thread sealant is applied directly onto threaded parts to assist in resisting high pressures and vibrational loosening. Includes excellent solvent resistance, and withstands pressures up to 10,000 PSI, and temperatures up to 300°F. Bottle contains 10 ml of sealant.

MATERIAL HANDLING HOSE

See p. 177 for additional hose gauges.

See p. 175 for 600 PSI, brass ball valves.

POLY RUBBER

BULK MATERIAL HANDLING HOSE – BULK/UNCOUPLED

This bulk material handling hose is constructed of an abrasion resistant, rubber compound that is also static-dissipative. Specifically designed for products that can be moved by air, such as rock wool, saw dust, and fiberglass, this hose is great for use in ventilation systems where dust is a work hazard, like grain elevators and cement plants. Hose is also ideal for material vacuuming applications like grain vacs.

- ▶ Tube Material: Static-dissipating Rubber
- ▶ Cover Material: PVC Corrugated
- ▶ Cover Color: Black
- ▶ Reinforcement: Black Rigid PVC Helix
- ▶ Temperature: -30°F to 140°F
- ▶ Negative Pressure (in/HG): 28

BULK COMMODITY HOSE (688SB) – BULK/UNCOUPLED

The bulk commodity hose is designed for transferring bulk materials via suction, gravity, or pneumatic systems where abrasion-resistance is the primary requirement. Its 3/16" thick tube is not only abrasion resistant, but is also static conductive. Excellent for feed, grain, cement, sand, and slurries.

- ▶ Tube Material: 3/16" Static Conductive Natural Rubber
- ▶ Cover Material: Corrugated SBR Rubber
- ▶ Cover Color: Black
- ▶ Reinforcement: Synthetic High Tensile Textile with Steel Wire Helix
- ▶ Temperature: -40°F to 150°F

CEMENT DISCHARGE HOSE – BULK/UNCOUPLED

Cement discharge hose is designed for pneumatic transfer of bulk cement and other dry bulk materials. Its SBR cover and natural rubber tube provide abrasion and ozone resistance.

- ▶ Tube Material: Natural Rubber
- ▶ Cover Material: SBR
- ▶ Cover Color: Black
- ▶ Reinforcement: Synthetic Fabric
- ▶ Temperature: -40°F to 150°F

REINFORCED NATURAL RUBBER BOOT (ELEPHANT TRUNK)

Reinforced natural rubber discharge sleeves are designed for low pressure discharge of wet or dry materials. It has a 1/8" thick black, static dissipating natural rubber tube and SBR cover, making it abrasion resistant as well as ozone resistant. Its multi-ply reinforcement adds strength and durability.

- ▶ Tube Material: Gum Rubber
- ▶ Cover Material: SBR Rubber
- ▶ Cover Color: Black
- ▶ Reinforcement: 3 Synthetic Plies
- ▶ Temperature: -20°F to 160°F

HOT TAR & ASPHALT

HOT ASPHALT RUBBER PATCHING HOSE – BULK/UNCOUPLED

This rugged rubber hose is designed specifically to withstand the harsh environment of transferring hot tar and asphalt. Its superior grade nitrile tube can withstand intermittent temperatures up to 350°F, and the high quality abrasion resistant nitrile cover will hold up to rough, abrasive surfaces.

- ▶ Tube Material: Nitrile
- ▶ Cover Material: Nitrile
- ▶ Cover Color: Black
- ▶ Reinforcement: Multiple Poly Tire Cord Plies & Dual Helix Wire
- ▶ Temperature: -40°F to 350°F

STAINLESS STEEL OVERBRAID METAL HOSE – ASSEMBLIES

Our high performance annular corrugated stainless hose assemblies are ideal for applications requiring greater flexibility, corrosion resistance, and extreme temperature resistance, or where permeation precludes the use of rubber, PTFE, or plastic hose. Its constructed of hydroformed 321 stainless steel, annular corrugation with a 304 stainless steel outer braid, and is coupled with carbon steel welded-on schedule 80 male pipe thread fittings. **Pressure ratings are reduced as temperatures exceed 300°F. Contact us for assistance.**

- ▶ Internal: 321 Stainless Steel Annular Corrugation
- ▶ Outer: 304 Stainless Annular Overbraid
- ▶ Maximum PSI: 300
- ▶ Temperature: -300°F to 1,200°F Intermittent
- ▶ Fittings: Male Pipe Thread x Male Pipe Thread Schedule 80

PETROLEUM HOSE

TRANSPORT HOSE

PETRO SMOOTH – BULK/UNCOUPLED

Petro smooth transport hose has a high grade nitrile tube, which is suitable for the transfer of bulk petroleum products, hydrocarbons with 55% aromatic content, hydraulic oil, grease, vegetable oil, and animal fat. It has a NBR/PVC cover which is oil resistant and weather resistant.

- ▶ Tube Material: High Grade Nitrile RMA Class A
- ▶ Cover Material: NBR/PVC, RMA Class B
- ▶ Negative Pressure (in/HG): 30
- ▶ Temperature: -40°F to 200°F
- ▶ Coil Length: 100'
- ▶ Reinforcement: Multiple Polyester Plies with Dual Carbon Steel Helix
- ▶ Maximum PSI: 150

DESCRIPTION ABBREVIATION KEY

NBR = Nitrile
PVC = Poly Vinyl Chloride

30 in/HG = Full Vacuum

Negative pressure also commonly referred to as vacuum rating.

Apache is a certified coupler of aircraft refueling hose.

PETRO CORRUGATED – BULK/UNCOUPLED

Petro corrugated transport hose is constructed specifically for the transfer of gasoline up to 50% aromatic, petroleum based oils, and other petroleum based products. Its special rubber compounds and construction make it exceptionally lightweight and extremely flexible.

- ▶ Tube Material: High Grade Nitrile RMA Class A
- ▶ Cover Material: NBR/PVC, RMA Class B
- ▶ Negative Pressure (in/HG): 30
- ▶ Temperature: -40°F to 200°F
- ▶ Coil Length: 100'

AVIATION REFUELING – BULK/UNCOUPLED

Aircraft refueling hose is a high pressure hose for top deck reel and platform type aircraft refueling equipment. The hose construction and materials provide a path for static electrical charge to ground for safety and minimizes permeation. The premium nitrile tube will not contaminate product going through the hose and the nitrile cover is resistant to abrasion, oil, and weathering. This hose is also suitable for defueling service at low pressures (suction/vacuum rating to 8 in/HG). Meets industry standards API/IP 1529, NFPA 407, and BS EN 1361.

- ▶ Tube Material: Nitrile
- ▶ Temperature: -40°F to 180°F
- ▶ Standard Reel: 200'
- ▶ Reinforcement: Multiple Textile Plies
- ▶ Maximum PSI: 300
- ▶ Negative Pressure (in/HG): 8
- ▶ Cover Material: Static Conductive Nitrile

COLD TEMPERATURE AVIATION REFUELING – BULK/UNCOUPLED

Cold temperature aircraft refueling hose is a high pressure hose for top deck reel and platform type aircraft refueling equipment. The hose construction and materials provide a path for static electrical charge to ground for safety and minimizes permeation. The premium nitrile tube will not contaminate product going through the hose and the nitrile cover is resistant to abrasion, oil, and weathering. This hose is also suitable for defueling service at low pressures (suction/vacuum rating to 8 in/HG). Meets industry standards API/IP 1529, NFPA 407, and BS EN 1361.

JAC-RISER AVIATION REFUELING – BULK/UNCOUPLED

Jac-Riser aircraft fueling hose is a flexible connector hose ideal for aviation fuel supplied through an adjustable elevated aircraft service platform, called a Jac-Riser, which is connected to a mobile dispenser cart supplied by an in-ground hydrant system. The hose construction and materials provide a path for static electrical charge to ground for safety, and the dual wire helix provides flexibility, kink resistance, and full suction capability for both fueling and defueling/unloading service. The premium nitrile tube will not contaminate product going through the hose, and the nitrile cover is resistant to abrasion, oil, and weathering. Meets industry standards API/IP 1529, NFPA 407, and BS EN 1361.

- ▶ Tube/Cover Material: Nitrile
- ▶ Temperature: -40°F to 180°F

BIOFUEL FARM TRANSFER HOSE – ASSEMBLIES

Biofuel farm transfer hose is designed for dispensing unleaded gasoline, E85 ethanol, B10/B20 biodiesel, and kerosene. This high quality hose is constructed with a built in "static wire" to dissipate static electricity generated by 12 volt and 110 volt "electric" pumps. It is coupled with zinc chromate fittings on each end, as well as internal spring guards which prevent kinking at the fitting and dramatically extends the life of the assembly. Cover is "Diesel" green for easy identification.

- ▶ Tube Material: NBR/RMA Class A
- ▶ Reinforcement: 2 Spiral Textile Cord
- ▶ Cover Material: NBR/PVC, RMA Class A
- ▶ Temperature: -20°F to 160°F
- ▶ Fittings: Male Pipe Thread x Male Pipe Thread Crimped

DIESEL EXHAUST FLUID (DEF) – BULK/UNCOUPLED

Diesel Exhaust Fluid (DEF) dispenser hose is designed specifically for the emerging segments of the mobile equipment and transportation markets. It is constructed of a specially compounded peroxide-cured EPDM tube that will not contaminate DEF. Available in full reels. Only available in 400' full reels.

- ▶ Tube Material: EPDM
- ▶ Reinforcement: Multiple textile plies
- ▶ Temperature: -40°F to 212°F
- ▶ Maximum PSI: 150
- ▶ Negative Pressure (in/HG): Full
- ▶ Cover Color: Black

FUEL TRANSFER ACCESSORIES

AUTOMATIC SHUT-OFF FUEL NOZZLES

Automatic shut-off fuel dispensing nozzles are compatible with most fuel hoses without the use of adapter fittings. Their vinyl covered handles provide improved operator comfort and product identification while protecting the vehicle from scratches and knicks. **Nozzle designed for pump driven fuel systems with a minimum of 15 PSI and a maximum of 43 PSI. Do not use on gravity flow systems. A minimum of 15 PSI is required to operate the auto shut-off.**

PART#	THREAD	SPOUT (IN)	SPOUT ID (IN)	SPOUT OD (IN)	COLOR	WEIGHT (LBS)	U/M

99000247	1" Female Pipe Thread	1	0.964	1.19	Green	3.5	EA

MANUAL GRAVITY FLOW FUEL NOZZLES

Manual gravity flow nozzles with spout, hanging clip, and female pipe thread swivel inlet. The swivel inlet helps protect your hose from twisting and kinking, making it easier to dispense fuel. Units are UL approved.

PART#	THREAD	SPOUT (IN)	WEIGHT (LBS)	U/M
99000232	3/4" Female Pipe Thread	13/16	2.1	EA
99000229	1" Female Pipe Thread	15/16	2.15	EA

FUEL PRODUCTS KITS

These fuel dispensing kits have everything you need except a pump. The automatic nozzle kits come with a live swivel and the manual nozzle has a built-in swivel nut.

- ▶ Fuel nozzle
- ▶ Fuel swivel (Automatic only)
- ▶ Splash guard
- ▶ Swivel nut & guard
- ▶ 14' Static dissipating farm fuel hose with spring guard.

FUEL HOSE BREAKAWAYS (SINGLE USE)

Fuel Saver - Safety Breakaways are an important part of any fuel dispensing system. They immediately stop fuel flow in case of drive off. Package kit comes complete with a 9" fuel hose assembly that installs between the dispenser and the breakaway. For one-time operation.

PART#	THREAD	SEPARATION FORCE RATING (LBS)	U/M
PACKAGED (Breakaway & 9" fuel hose assembly)			
99000235	3/4"	250	EA
99000236	1"	300	EA
UNPACKAGED (Breakaway only)			
99000235-C	3/4"	250	EA
99000236-C	1"	300	EA

FUEL NOZZLE HEX ADAPTER

Fuel nozzle hex reducer bushing adapters connect fuel nozzles to fuel hoses.

PART#	THREAD	WEIGHT (LBS)	U/M
99000270	1" Male Pipe Thread x 3/4" Female Pipe Thread	0.31	EA
99000271	3/4" Male Pipe Thread x 1" Female Pipe Thread	0.4	EA

NOZZLE HOOKS

Fuel nozzle hooks are designed to attach to fuel nozzle spouts for easy storing when not in use. Secured with a set screw.

PART#	NOZZLE OD (IN)	WEIGHT (LBS)	U/M
99000241	3/4	0.08	EA

FUEL LINE HOSE

DESCRIPTION ABBREVIATION KEY

NBR =Nitrile Butadiene Rubber (Buna-N)

PVC = Poly Vinyl Chloride

RMA = Rubber Manufacturers Association

SAE 30R7 FUEL LINE HOSE – BULK/UNCOUPLED

This durable high quality hose is similar to SAE 30R7 specifications. It provides excellent service for original equipment manufacturers, wholesalers, and aftermarket packagers. The 100' option is packaged on a plastic reel making it perfect for retailers, while the 700' reel is available for cut-to-length pieces.

- ▶ Tube Material: NBR/RMA Class A
- ▶ Cover Material: NBR/PVC, RMA Class B
- ▶ Cover Color: Black
- ▶ Reinforcement: 2 Synthetic Plies
- ▶ Temperature: -29°F to 257°F

LP GAS

350 PSI SMALL DIAMETER LP GAS HOSE – BULK/UNCOUPLED

This hose is specifically designed for transferring liquefied propane gas. It has an abrasion resistant cover that is pin-pricked to permit gas diffusion and prevent cover separation, so it must be used in well-ventilated environments. **Do not use reusable couplings on this hose.**

- ▶ Tube Material: NBR/RMA Class A
- ▶ Cover Material: NBR/PVC, RMA Class B
- ▶ Temperature: -40°F to 180°F
- ▶ Reinforcement: 4 Spiral Textile Cord

LOW TEMPERATURE LP GAS HOSE – ASSEMBLIES

This hose assembly is specifically designed for transferring liquefied propane gas, but is rated 10 degrees lower than most LP gas hoses. It has an abrasion resistant cover, and is coupled with non-sparking brass fittings on both ends. This hose must be used in well-ventilated environments.

- ▶ Tube Material: NBR/RMA Class A
- ▶ Cover Material: CM/RMA Class B
- ▶ Fittings: Male Pipe Thread x Male Pipe Thread Crimped - Non-Sparking Brass Fittings
- ▶ Reinforcement: Multi-Ply Textile Spirals
- ▶ Temperature: -50°F to 180°F

LP GAS SMART-HOSE™ – ASSEMBLIES

The Smart-Hose™ safety system makes this the safest method of transferring liquid propane gas to and from bulk storage tanks. It features a unique, patented design that eliminates the potential for catastrophic consequences resulting from the uncontrolled release of product due to coupling ejection, hose stretching to an unsafe condition, and/or hose separation. Every Smart-Hose™ assembly utilizes a plunger, wedge, and flapper valve to instantly shut off the flow of product in both directions should a problem occur.

- ▶ Tube Material: NBR/RMA Class A
- ▶ Cover Material: CM/RMA Class B
- ▶ Fittings: Female Pipe Thread x Female Pipe Thread Smart Fitting
- ▶ Reinforcement: 2 Synthetic Braids
- ▶ Temperature: -40°F to 180°F

RMA = Rubber Manufacturers Association

VAPOR RECOVERY HOSE

URETHANE VAPOR RECOVERY HOSE – BULK/UNCOUPLED

Urethane vapor recovery hose is constructed of non-permeable polyurethane and is compatible with gasoline, diesel, most biofuels, such as Ethanol (up to E98), and biodiesel vapors (B100 meeting ASTM D-6751). It has an external, rigid, yellow PVC helix for strength and ease of handling, plus an embedded anodized copper wire that provides static dissipation when grounded to fittings.

- ▶ Tube Material: Urethane
- ▶ Reinforcement: Rigid PVC Helix
- ▶ Cover Color: Clear/Yellow
- ▶ Cover Material: Urethane with Spiral Helix
- ▶ Temperature: -40°F to 150°F
- ▶ Negative Pressure (in/HG): 29.8

WELDING HOSE

TWIN LINE/TORCH WELDING HOSE – ASSEMBLIES

Our twin line oxygen/acetylene assemblies are designed for portable or production line welding in factories, construction, and agricultural applications. This hose meets or exceeds RMA and Compressed Gas Association specifications for Grade R welding hose. The green oxygen and red acetylene smooth cover hoses are vulcanized together, ensuring long life and easy handling.

- ▶ Tube/Cover Material: EPDM
- ▶ Temperature: -20°F to 200°F
- ▶ Cover Color: Red/Green
- ▶ Reinforcement: Multiple Textile Spirals
- ▶ Maximum PSI: 200
- ▶ Fittings: Female Brass Fittings

Grade R welding hoses used for acetylene fuel gas only. Tube and cover are not flame or oil resistant.

PRESSURE WASHER HOSE

TPR HOSE

2600 PSI / 3700 PSI – FEMALE METRIC X FEMALE METRIC ASSEMBLIES

Thermoplastic Rubber (TPR) pressure washer hose is 60% lighter weight and more flexible than rubber hoses, and works well in most cold water applications. It is constructed of a fabric reinforced, thermoplastic compound, which gives it increased strength, weather resistance, and chemical resistant. Both ends have permanently attached female metric couplings with bend restrictors for extended service life, and the assembly comes with a male metric adapter.

- ▶ Tube Material: Thermoplastic Rubber
- ▶ Cover Material: Thermoplastic Rubber
- ▶ Fittings: Female Metric x Female Metric
- ▶ Reinforcement: High Tensile Synthetic Cord
- ▶ Temperature: -4°F to 140°F
- ▶ Adapter: Male Metric

3100 PSI XTREMEFLEX – FEMALE METRIC X FEMALE METRIC ASSEMBLIES

Apache pressure washer hose with XtremeFlex technology hose combines flexibility, durability, and reduced weight. Engineered as a hybrid polymer, it combines the best qualities of urethane and rubber. XtremeFlex stays flexible when pressurized and offers minimal coil memory when depressurized, which allows the hose to lay flat. Its advanced formulation cover is twice as abrasion resistant as rubber or thermal plastic rubbers and is non-marking.

- ▶ Tube Material: Nylon Blend
- ▶ Cover Material: Engineered Polymer
- ▶ Fittings: Female Metric x Female Metric
- ▶ Reinforcement: Synthetic Fabric
- ▶ Temperature: -40°F to 140°F

3000 PSI – MALE PIPE THREAD X MALE PIPE THREAD SWIVEL ASSEMBLIES

3000 PSI rubber pressure washer hose is designed for hot and cold water applications where a heavy-duty rugged hose is required. Its synthetic rubber cover is abrasion resistant and has medium oil resistance. Blue hose is also non-marking. This assembly is coupled with male pipe thread x male pipe thread swivel, and has one bend restrictor.

- ▶ Tube Material: Nitrile
- ▶ Cover Material: Synthetic Rubber
- ▶ Fittings: 3/8" Male Pipe Thread x 3/8" Male Pipe Thread Swivel
- ▶ Reinforcement: 1 Steel Wire Braid
- ▶ Temperature: -4°F to 200°F

4000 PSI – MALE PIPE THREAD X MALE PIPE THREAD SWIVEL ASSEMBLIES

4000 PSI rubber pressure washer hose is designed for hot and cold water applications where a heavy-duty rugged hose is required. Its synthetic rubber cover is abrasion resistant and has medium oil resistance. This assembly is coupled with male pipe thread x male pipe thread swivel, and has two bend restrictors.

- ▶ Tube Material: Nitrile
- ▶ Cover Material: Synthetic Rubber
- ▶ Fittings: 3/8" Male Pipe Thread x 3/8" Male Pipe Thread Swivel
- ▶ Reinforcement: 1 Steel Wire Braid
- ▶ Temperature: -4°F to 200°F

4000 PSI – SOCKET X PLUG QUICK DISCONNECT ASSEMBLIES

4000 PSI rubber pressure washer hose is designed for hot and cold water applications where a heavy-duty rugged hose is required. Its synthetic rubber cover is abrasion resistant and has medium oil resistance. This assembly is coupled with 3/8" quick disconnect socket x plug, and two bend restrictors.

- ▶ Tube Material: Nitrile
- ▶ Cover Material: Synthetic Rubber
- ▶ Fittings: 3/8" Quick Disconnect Socket x Plug
- ▶ Reinforcement: 1 Steel Wire Braid
- ▶ Temperature: -4°F to 200°F

PART#	ID (IN)	ID (MM)	OD (IN)	OD (MM)	MIN. BEND RADIUS (IN)	COLOR	LENGTH	WEIGHT (LBS)	U/M

10085574	3/8	9.5	0.71	18.03	6	Black	50'	12.9	EA

See p. 104 for pressure washer hose reels.

GUNS & GUN KITS

See p. 105 for Inlet Filter & O-ring Set (99023468) for a pair of red 15 mm O-rings

Use Teflon™ pipe sealant tape on all male pipe threads to ensure a leak free connection. See p. 158.

2000 PSI ELECTRIC GUN KIT

This economical gun kit is a great way to replace or upgrade your electric pressure washer gun and high pressure hose. Can be used with electric or gas cold water units up to 2000 PSI with metric fittings. **Some nonstandard electric pressure washer units require a red, 15 mm O-ring on the hose end that attaches to the unit.**

- ▶ Inlet: Male Metric
- ▶ Outlet: Bayonet

PACKAGED PART#	MAX. TEMP	GALLONS PER MINUTE	WEIGHT (LBS)	U/M
99023701	140°F	3	3.84	EA
- Metric Gun - 3/16" x 25' 2000 PSI hose with metric fittings - Wand with turbo nozzle - Drawstring bag				

2600 PSI GUN & VARIABLE WAND

The 2600 PSI gun kit adjusts from 0° to 80° for both low pressure soaping and high pressure cleaning. For use with most cold water pressure washers rated up to 2600 PSI.

- ▶ Inlet: Male Metric
- ▶ Outlet: Female Metric

PACKAGED PART#	MAX. TEMP	GALLONS PER MINUTE	WEIGHT (LBS)	U/M
99023801	140°F	7	2.6	EA
- Metric gun with a detachable wand - Variable spray nozzle with male metric inlet				

2600 PSI GUN KIT

The 2600 PSI gun kit is for use with most gas and electric cold water pressure washers.

- ▶ Inlet: Male Metric
- ▶ Outlet: Female Metric

PACKAGED PART#	MAX. TEMP	GALLONS PER MINUTE	WEIGHT (LBS)	U/M
99023677	140°F	7	4.72	EA
- Metric gun with trigger lock - 1/4" x 25' 2600 PSI hose with female metric on both ends - Male metric x 4.0 variable nozzle (0-80°) with soap function wand - Male metric x male metric adapter				

3000 PSI METRIC GUN

This gun is designed for use with metric pressure washers and metric accessories. The male metric inlet accepts hoses with female metric fittings, and the female metric outlet connects directly to metric wands. It has a safety trigger lock which helps prevent accidental spraying.

- ▶ Inlet: Male Metric
- ▶ Outlet: Female Metric

UNPACKAGED PART#	MAX. TEMP	GALLONS PER MINUTE	WEIGHT (LBS)	U/M
UNPACKAGED				
99023678	140°F	7	2.5	EA
PACKAGED				
99023671	140°F	7	2.5	EA

3700 PSI ERGONOMIC GUN

This gun has a bottom hinged ergonomic trigger for improved operator comfort. It has a 3/8" female pipe thread inlet and a female metric outlet. The safety trigger lock helps prevent accidental spraying.

- ▶ Inlet: 3/8" Female Pipe Thread
- ▶ Outlet: Female Metric

PART#	MAX. TEMP	GALLONS PER MINUTE	WEIGHT (LBS)	U/M

UNPACKAGED				
99030691-C	140°F	7	1.26	EA
- 3700 PSI Gun Only				

3700 PSI GUN KIT

The 3700 PSI gun kit is for use with most gas and electric cold water pressure washers with standard metric connections. Kit includes:

- ▶ Inlet: Female Metric
- ▶ Outlet: Female Metric

PACKAGED PART#	MAX. TEMP	GALLONS PER MINUTE	WEIGHT (LBS)	U/M
99023676	140°F	7	6.4	EA
- 5/16" x 25' 3700 PSI hose with female metric fittings on both ends - 4000 PSI gun with female metric outlet & 3/8" female pipe thread inlet and safety trigger - Male metric x quick disconnect socket wand - Male metric x male adapter - Male metric x 3/8" quick disconnect socket adapter - Female x 3/8" quick disconnect plug adapter - 5 quick disconnect spray tips - 0°, 15°, 25°, 40°, and 65° low pressure soap/chemical tip				

4000 PSI GUN KITS

The 4000 PSI gun is designed for use with metric pressure washers and metric accessories. This gun has a 3/8" female pipe thread inlet for easy adaptability and a safety trigger lock that helps to prevent accidental spraying.

- ▶ Inlet: 3/8" Female Pipe Thread
- ▶ Outlet: Female Metric

PART#	MAX. TEMP	GALLONS PER MINUTE	WEIGHT (LBS)	U/M
PACKAGED				
99023686	140°F	7	2.6	EA
- 4000 PSI Gun - Male Metric Adapter - 3/8" Quick Disconnect Socket Adapter - 1/4" Male Pipe Thread Adapter - 3/8" Male Pipe Thread Adapter				
99023802	140°F	7	2.6	EA
- 4000 PSI Gun - 18" Metric Wand - 5 Quick Disconnect Spray Tips - 0°, 15°, 25°, 40°, & 65° Low Pressure Soap/Chemical Tip - 3/8" Quick Disconnect Plug x Male Pipe Thread Adapter - Metric x Male Pipe Thread Adapter				

UNPACKAGED - REPLACEMENT GUN				
99023741	140°F	7	2.5	EA
- 4000 PSI Gun Only				

4500 PSI PISTOL GUN KIT

This lightweight gun is designed for high pressure units. It has a 3/8" female pipe thread inlet and a 1/4" female pipe thread outlet. The safety trigger lock helps prevent accidental spraying.

- ▶ Inlet: 3/8" Female Pipe Thread
- ▶ Outlet: 1/4" Female Pipe Thread

PART#	MAX. TEMP	GALLONS PER MINUTE	WEIGHT (LBS)	U/M

METRIC QUICK DISCONNECT WAND

The metric quick disconnect wand contains a male metric x 1/4" Easy-Lock QD socket for a quick and easy "tool free" connection to other wands and accessories. The Easy-Lock QD with lock down collar allows for "one-handed" quick disconnect connections.

- ▶ Length: 19"

PLATED STEEL WAND

This wand consists of zinc plated steel with 1/4" male pipe thread threaded ends. It can be threaded directly into standard guns, and a quick disconnect can be added to create a "tool free" connection for nozzles and accessories.

- ▶ Length: 24"

PART#	MAX. TEMP	MAX. PSI	WEIGHT (LBS)	U/M
UNPACKAGED				
99023543	210°F	3600	0.7	EA

TELESCOPING WAND

The telescoping wand extends from 6' to 18' for fast, easy access to those hard to reach places without using ladders. The main body is constructed of fiberglass with two aluminum telescoping extensions. Wand is coupled with a 3/8" male quick disconnect plug inlet and a female metric outlet, and includes a 15" extension wand coupled with male metric and 1/4" quick disconnect socket for quickly changing attachments.

- ▶ Length: 18'

INSULATED WAND WITH HANDLE

Insulated wand consists of zinc plated steel with an insulated grip. Adjustable wand handle is insulated for increased comfort and control when using pressure washers for extended periods of time. Wand can be threaded directly into standard guns, and a quick disconnect can be added to create a tool free connection for nozzles and accessories.

- ▶ Max Temperature: 210°F
- ▶ Male Pipe Thread: 1/4"

SPRAY TIPS & NOZZLES

QUICK DISCONNECT SPRAY TIPS

Individual quick disconnect, high pressure spray tips are constructed of a high quality stainless steel body with composite insert. They are available in four different spray patterns and are colored coded for easy identification. Tips are available in three common orifice sizes 3.0 GPM, 3.5 GPM, and 4.0 GPM @ 4000 PSI. The gallons per minute (GPM) output will increase or decrease based on the applied pressure rating. Refer to the flow rate chart.

LOW PRESSURE QUICK DISCONNECT SOAP TIP

Low pressure soap tip is constructed for low pressure soap application. It has a large orifice with 65° angle designed to create a low pressure spray pattern, and is colored black for easy identification. Quick disconnect sockets are required on the wand end to complete the connection.

PACKAGED PART#	UNPACKAGED PART#	SPRAY PATTERN	COLOR	ORIFICE SIZE	WEIGHT (LBS)	U/M
99023499	99023499-C	65°	Black	3.5	0.52	EA

VARIABLE NOZZLE

The variable nozzle has a convenient push/pull mechanism which changes the spray pattern from low pressure soap dispensing to a high pressure fan pattern. The spray pattern can be adjusted by turning the nozzle body. Nozzle has a 1/4" female pipe thread that can be attached to a standard wand or female quick disconnect plug.

PACKAGED PART#	UNPACKAGED PART#	SPRAY PATTERN	COLOR	FEMALE PIPE THREAD (IN)	MAX. PSI	MAX. TEMP	ORIFICE SIZE	WEIGHT (LBS)	U/M

VARIABLE NOZZLE WITH WAND

Variable nozzle and wand has a convenient push/pull mechanism which changes the spray pattern from low pressure soap dispensing to high pressure fan pattern. The spray pattern can be adjusted from 0 to 40° fan by turning the nozzle body. Includes permanently attached 21" wand with a male metric end that can be easily attached to bayonet wands.

UNPACKAGED PART#	SPRAY PATTERN	COLOR	THREAD	MAX. PSI	MAX. TEMP	ORIFICE SIZE	WEIGHT (LBS)	U/M
99023670-C	0° to 40°	Black	Male Metric	3000	300°F	3.5	0.8	EA

SPRAY TIPS

WHAT TO KNOW BEFORE YOU BUY:

Spray tips connect directly to wands with 1/4" quick-disconnect sockets. Select the specific spray pattern for your application.

3000 PSI – TURBO NOZZLE

Apache's turbo nozzles increase cleaning efficiency by 200% compared to standard spray tips, and can clean a larger area more quickly. This turbo nozzle has a 1/4" female pipe thread inlet that can be screwed directly onto a wand or it can be converted to a 1/4" quick disconnect plug. A turbo nozzle filter (99030576-C) is recommended for protection from debris damage.

- ▶ Max. Temp: 212°F
- ▶ Orifice Size: 3.5

- ▶ Orifice Size: 4.5

PART#	FEMALE PIPE THREAD (IN)	WEIGHT (LBS)	U/M
99023575	1/4	0.95	EA

TURBO WAND

Turbo wand combines the power of a 0° stream, and a 25° wide-angle spray pattern to improve cleaning efficiency up to 200%. It has a 14" built-on wand extension with a 1/4" male pipe thread that will screw into a pistol grip gun, or can be adapted to attach to a bayonet gun.

PART#	MALE PIPE THREAD (IN)	MAX. PSI	MAX. TEMP	WEIGHT (LBS)	U/M
PACKAGED

TURBO NOZZLE FILTER

Filter should be attached to the inlet of all turbo nozzles to filter debris particles and prevent damage to the nozzle. It has a 1/4" quick disconnect plug on one end, and a 1/4" male pipe thread on the other end that will screw into most turbo nozzles. The use of this filter requires a quick disconnect socket on the wand outlet. The filter is easily cleaned by unscrewing the quick disconnect plug and then unscrewing the filter.

SOAP/CHEMICAL INJECTOR TUBING KIT

Tubing kit attaches to the inlet of factory or aftermarket soap injectors. It comes with a 1/4" ID x 4' long vinyl tubing with poly strainer, to reduce clogging.

PART#	WEIGHT (LBS)	U/M
PACKAGED		
98023468	0.25	EA
UNPACKAGED		
98023468-C	0.25	EA

INLET FILTER & O-RING SET

The filter and O-ring set replaces worn or damaged parts that commonly fails on pressure washers.

PART#	WEIGHT (LBS)	U/M
PACKAGED		
99023468	0.05	EA
- A 50/60 mesh inlet water filter		
- Red 15 mm O-ring for female metric fittings		
- Yellow 14 mm O-ring for female metric fittings		
- Blue O-ring for 3/8" quick disconnects		
- Green O-ring for 1/4" quick disconnects		

PUMPS, FILTERS, & INJECTORS

ADJUSTABLE SOAP/CHEMICAL INJECTOR

Soap injector installs between the pressure washer pump and the pressure washer hose, injecting soap/chemical downstream from the pump to prevent seal damage. By simply turning the adjustable knob, the siphon rate adjusts from "off" to 10:1 ratio. Under low pressure the soap or chemical is drawn into the water flow, but is automatically shut off under high pressure.

- ▶ 3/8" Male Pipe Thread x 3/8" Female Pipe Thread
- ▶ Max. Temperature: 200°F

PART#	MAX. PSI	WEIGHT (LBS)	U/M
PACKAGED

UNPACKAGED			
44048770-C	3600	0.3	EA

HIGH PRESSURE SOAP APPLICATOR

The high pressure soap applicator provides high pressure soap at the turn of a dial. Soap is stored in the handle of the applicator. Just turn the dial for the needed amount of soap for the job. It has a male metric inlet and a female metric outlet so it adapts easily to your current system. Use as an attachment between gun and wand to draw soap in place of chemical tubing.

- ▶ Male Metric Inlet
- ▶ Female Metric Outlet

- Filter Only			

2700 PSI HORIZONTAL AXIAL PUMP

Pump is designed for industrial high pressure washing applications. It operates at 3400 RPM and mounts on 3/4" hollow diameter shafts found on most horizontal shaft gasoline engines. Pump features a female garden hose inlet and a male metric outlet. Key (stock = 3/16") is not included with pump comes with synthetic oil inside pump.

- ▶ Max. Temperature: 140°F

PART#	GALLONS PER MINUTE	WEIGHT (LBS)	U/M
99023597	2.5	8.55	EA

PUMP DEFENDER

Pump Defender is an engineered spray that protects, winterizes, and extends pressure washer pump life by removing mineral buildup, lubricating the piston and seals, and preventing freeze damage. The 4 oz. pressurized can will screw directly onto the water inlet fitting. **Warning: Contents under pressure. Do not store in an area over 120°F. Keep out of the reach of children. Do not inhale contents as the risks could be fatal. Dispose of can according to local, state, and federal law. Do not burn or puncture during disposal. This product contains propylene glycol, mineral oil, propane, and butane.**

PART#	WEIGHT (LBS) EA	U/M
ORDER MULTIPLE OF 6		
99002125	0.45	EA

PUMP OIL

Pump oil is a 16 oz. bottle of 30W non-detergent ISO 100 lubricant engineered to keep your pressure washer pump operating at peak performance during high pressure, high RPM operation. It is specially formulated to resist foaming and aeration, protect against rust and oxidation, and prevent formation of sludge and varnish inside the pump. **Warning: Avoid prolonged contact with used fluid. Thoroughly wash exposed areas with soap and water. This product is not for use with internal combustion engines. Keep out of the reach of children. Don't pollute. Conserve resources. Return used fluid to collection centers.**

PART#	WEIGHT (LBS) EA	U/M
ORDER MULTIPLE OF 4		
99002126	0.09	EA

Pump oil also works well with air compressor pumps.

For ready to-use and concentrate chemicals see p. 108-109.

READY-TO-USE CHEMICALS

Product is Non-UPSable and cannot be shipped to Canada.

MULTIPURPOSE DEGREASER

Penetrates grease, grime, and gunk commonly found on concrete buildings, driveways, walkways, and shop floors. No mixing or measuring required, simply insert your chemical injector tube in the bottle of cleaner, and you are ready to wash.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99002106	9	EA

DECK & SIDING

Cleans caked on dirt, dust, grime, mold, and mildew found on decks, siding, and fences. No mixing or measuring required, simply insert your chemical injector tube in the bottle of cleaner, and you are ready to wash.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99002108	9	EA

VEHICLE / BOAT WASH & WAX

Great for cleaning most motor vehicles found both over the road and off. Pre-mixed wax adds ultimate shine and protection to your vehicle. No mixing or measuring required, simply insert your chemical injector tube in the bottle of cleaner, and you are ready to wash.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99002110	9	EA

MULTIPURPOSE DEGREASER

Penetrates grease, grime, and gunk commonly found on concrete buildings, driveways, walkways, and shop floors. One part cleaner and four parts water combine to make this cleaner ready to run through your pressure washer for the ultimate cleaning combination.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99002100	9	EA

DECK & SIDING

Cleans caked on dirt, dust, grime, mold, and mildew found on decks, siding, and fences. One part cleaner and four parts water combine to make this cleaner ready to run through your pressure washer for the ultimate cleaning combination.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99002102	9	EA

VEHICLE & BOAT SOAP WAX

Great for cleaning most motor vehicles found both over the road and off. Carnauba wax adds ultimate shine and protection to your vehicle. One part cleaner and four parts water combine to make this cleaner ready to run through your pressure washer for the ultimate cleaning combination.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99002104	9	EA

WOOD-AS-NEW

Cleans and brightens old wood, returning it to a new wood look. Great for unpainted nonwood posts, fences, decks, barns, siding, furniture, and more. One part cleaner and four parts water combine to make this cleaner ready to run through your pressure washer for the ultimate cleaning combination.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99002101	9	EA

MULTI-TASK CLEANER

A great all around cleaner for most exterior cleaning applications – works great on concrete, siding, decks, fences, tools, kennels, and more. One part cleaner and four parts water combine to make this cleaner ready to run through your pressure washer for the ultimate cleaning combination.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99002114	9	EA

MOLD & MILDEW REMOVER

Helps remove exterior stains caused by mold and mildew. This bleach-free concentrate is for use with pressure washers equipped with an injection nozzle, a foaming gun, or by manual application. Covers up to 25,000 square feet and is commonly used for concrete surfaces including walkways, patios, driveways, and sidewalks -as well as siding and decks.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99033924	9	EA

SCRUBLESS CAR WASH

A true touchless car wash – simply spray the solution on, and rinse off. No scrubbing required during wash. One part cleaner and four parts water combine to make this cleaner ready to run through your pressure washer for the ultimate cleaning combination.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99002119	9	EA

AG & INDUSTRIAL EQUIPMENT WASH

The ultimate wash for use with household, agricultural, and industrial outdoor power equipment, including: lawnmowers, trimmers, tractors, combines, planters, skid steers, back hoes, log splitters, and more! One part cleaner and four parts water combine to make this cleaner ready to run through your pressure washer for the ultimate cleaning combination.

PART#	WEIGHT (LBS)	U/M
ORDER MULTIPLE OF 4		
99002122	9	EA

Must order chemicals in multiples of 4.

SUPER CONCENTRATE 1:5 CHEMICALS

See p. 105 for soap/chemical injectors.

WHERE DO YOU USE YOUR PRESSURE WASHER?

Whether your project is big or small, Apache's Pressure Washer Accessories are designed to fit most makes and models.

- ▶ Implements
- ▶ Vehicles & Engines
- ▶ Tools
- ▶ Exterior Maintenance
- ▶ Livestock Facilities
- ▶ Outbuildings
- ▶ Kennels
- ▶ Graffiti Removal

EQUIPMENT / IMPLEMENTS

- Tractors
- Plows
- Combines
- Mowers
- ATVs
- Tillers
- Backhoes
- Loaders
- Trucks
- Trailers

OUTBUILDINGS

- Barns
- Feed lots
- Livestock pens
- Machine sheds
- Stables
- Kennels
- Dairy barns
- Farrowing pens
- Shop floors

EXTERIOR MAINTENANCE

- Siding
- Decks
- Retaining walls
- Driveways
- Fences
- Garage doors
- Steps
- Awnings
- Patio furniture
- Windows
- Gutters

STEAM HOSE

REFINERY STEAM HOSE

REFINERY STEAM HOSE – BULK/UNCOUPLED

This steam hose is designed for steam service to 406°F and super-heated service to 450°F. The cover has medium oil resistance and can be used in applications encountering petroleum products. This hose has an EPDM cover and is reinforced with two braids of carbon steel wire, providing flexibility and abrasion resistance.

- ▶ Tube/Cover Material: EPDM
- ▶ Temperature: -40°F to 450°F
- ▶ Standard Length: 50' Coil
- ▶ Reinforcement: Multiple Wire Braids
- ▶ Maximum PSI: 250

50' and 100' lengths are standard. Other lengths available upon request.

XTREMEFLEX SUCTION HOSE – PIN LUG ASSEMBLIES

Apache suction and discharge hoses with XtremeFlex technology provides a strong, flexible solution for applications that require tight quarters. Its smooth interior resists material blockage, while the clear PVC wall provides visibility of material flow. With increased ease of handling, this hose is ideal for large volume transfer of water in agricultural, construction, industrial, municipal, and government applications. Complete assembly with male x female aluminum pin lug short shank couplings with brass spinner nut.

- ▶ Tube/Cover Material: Plasticized PVC
- ▶ Reinforcement: PVC Spiral
- ▶ Temperature: 5°F to 122°F
- ▶ Cover Color: Clear/Clear Blue
- ▶ Fittings: Male x Female Aluminum Pin Lug
- ▶ Negative Pressure (in/HG): 21 to 24

XTREMEFLEX SUCTION HOSE – CAM LOCK ASSEMBLIES

Apache suction and discharge hoses with XtremeFlex technology provides a strong, flexible solution for applications that require tight quarters. Its smooth interior resists material blockage, while the clear PVC wall provides visibility of material flow. With increased ease of handling, this hose is ideal for large volume transfer of water in agricultural, construction, industrial, municipal, and government applications. Complete assembly with male x female poly cam and groove couplings with push button locking arms. Attached with smooth ID preformed bands to ensure a tight seal.

- ▶ Tube/Cover Material: Plasticized PVC
- ▶ Reinforcement: PVC Spiral
- ▶ Temperature: 5°F to 122°F
- ▶ Cover Color: Clear/Clear Blue
- ▶ Fittings: Male x Female Poly Cam Locks
- ▶ Negative Pressure (in/HG): 21 to 24

XTREMEFLEX SUCTION HOSE – CAM LOCK X KING NIPPLE ASSEMBLIES

Apache suction and discharge hoses with XtremeFlex technology provides a strong, flexible solution for applications that require tight quarters. Its smooth interior resists material blockage, while the clear PVC wall provides visibility of material flow. With increased ease of handling, this hose is ideal for large volume transfer of water in agricultural, construction, industrial, municipal, and government applications. Complete assembly with female polypropylene "C" cam and groove coupling with push button locking arms, and polypropylene nipple male pipe thread. Both attached with preformed bands for strength and durability.

- ▶ Tube/Cover Material: Plasticized PVC
- ▶ Cover Color: Clear/Clear Blue
- ▶ Negative Pressure (in/HG): 21 to 24
- ▶ Reinforcement: PVC Spiral
- ▶ Fittings: Female Poly Cam Lock x Poly Male Pipe Thread
- ▶ Temperature: 5°F to 122°F

PART#	ID (IN)	ID (MM)	OD (IN)	OD (MM)	MAX. PSI @ 68°F	MIN. BEND RADIUS (IN) @ 68°F	STANDARD LENGTH	WEIGHT (LBS) PER WEIGHT UNIT	U/M
98106503	2	50.8	2.36	60.05	58	8	20'	9.7	EA

LOW TEMPERATURE REINFORCED – BULK/UNCOUPLED

A low temperature PVC suction and discharge hose ideal for transferring liquid manure, sludge, light chemicals, and water. Widely used in agriculture, construction, marine, and irrigation industries. Its smooth bore provides maximum flow and its PVC helix gives it increased flexibility and abrasion resistance.

- ▶ Tube/Cover Material: Low Temp PVC
- ▶ Temperature: -13°F to 140°F
- ▶ Negative Pressure (in/HG): 29
- ▶ Reinforcement: Rigid Poly Helix
- ▶ Cover Color: Clear/Orange

6200 SERIES REINFORCED – BULK/UNCOUPLED

Our toughest braid reinforced PVC suction and discharge hose for pumping water, liquid animal waste, and sludge. Its clear PVC wall provides visibility of product flow and its external PVC helix gives it added flexibility and abrasion resistance. A good choice for the agricultural and constructions industries.

- ▶ Tube/Cover Material: PVC
- ▶ Temperature: -4°F to 150°F
- ▶ Cover Color: Clear
- ▶ Reinforcement: Rigid PVC Helix/Fabric Braid
- ▶ Negative Pressure (in/HG): 28

TIGER TAIL LIQUID SUCTION & PUMPING HOSE – ASSEMBLIES

This rugged, poly helix reinforced suction hose assembly has a smooth interior for maximum material flow, and an exterior that reduces drag for easy maneuverability. It is crush proof, will not kink, and remains highly flexible in sub-zero temperatures. A great hose for the removal of fluids and waste material in marine sanitation, septic cleaning, and municipal pumping.

- ▶ Tube Material: Polyethylene Copolymer
- ▶ Temperature: -40°F to 140°F
- ▶ Fittings: Polyweld Cuffs
- ▶ Reinforcement: Integral Polyethylene Helix
- ▶ Cover Color: Black/Yellow
- ▶ Negative Pressure (in/HG): 29

RUBBER SUCTION – BULK/UNCOUPLED

A tough, flexible, abrasion resistant, weather resistant hose for suction and discharge applications. It has a steel wire helix which makes it crush resistant and will handle full suction. Its EPDM tube makes it resistant to agricultural herbicides and other light chemical solutions.

- ▶ Tube Material: EPDM
- ▶ Cover Material: SBR/EPDM
- ▶ Cover color: Black
- ▶ Reinforcement: Synthetic Cord/Dual Wire Helix
- ▶ Temperature: -22°F to 185°F
- ▶ Negative Pressure (in/HG): 30

RUBBER SUCTION – CAM LOCK X KING NIPPLE ASSEMBLIES

Complete assemblies with female "C" cam and groove coupling and plated steel nipple Male Pipe Thread. Both attached with preformed bands for strength and durability.

- ▶ Tube Material: EPDM
- ▶ Reinforcement: Synthetic Cord/Dual Wire Helix
- ▶ Cover Material: SBR/EPDM
- ▶ Temperature: -22°F to 185°F
- ▶ Cover Color: Black
- ▶ Fittings: Female Cam Lock x Male Pipe Thread
- ▶ Negative Pressure (in/HG): 30

HEAVY-DUTY PVC LAYFLAT (BLACK) – BULK/UNCOUPLED

The ultimate heavy-duty nitrile/PVC blended hose designed to withstand the toughest discharge applications in construction, mining, jetting, agriculture, and industrial washdown. Its ribbed cover is resistant to oil, abrasion, and weathering.

- ▶ Tube Material: PVC/NBR
- ▶ Cover Material: Ribbed PVC/Nitrile Rubber
- ▶ Temperature: -20°F to 150°F
- ▶ Reinforcement: Synthetic Fabric

MILL WASHDOWN

MILL WASHDOWN – BULK/UNCOUPLED

A lightweight single jacket hose ideal for water washdown and discharge applications. Its tough 100% polyester cover will not mildew or decay with age and is very abrasion resistant.

- ▶ Tube Material: Natural Rubber
- ▶ Cover Material: Polyester Fabric
- ▶ Cover Color: White
- ▶ Reinforcement: Mildew Resistant Polyester
- ▶ Temperature: -25°F to 185°F

RUBBER DISCHARGE

DESCRIPTION
ABBREVIATION
KEY

EPDM =
Ethylene
Propylene Diene
Monomer

MEDIUM-DUTY RUBBER DISCHARGE – BULK/UNCOUPLED

Medium-duty rubber discharge hose is designed for light industrial and agricultural applications where a thicker wall and external abrasion resistance is important. EPDM tube is great for transferring diluted chemicals.

- ▶ Tube/Cover Material: EPDM
- ▶ Temperature: -40°F to 190°F
- ▶ Cover Color: Black
- ▶ Reinforcement: 2 Synthetic Plies

PART#	ID (IN)	ID (MM)	OD (IN)	OD (MM)	WALL (IN)	WALL (MM)	MAX. PSI	STANDARD LENGTH	WEIGHT (LBS)	U/M

HEAVY-DUTY RUBBER DISCHARGE – BULK/UNCOUPLED

Heavy-duty rubber discharge hose with a high quality EPDM tube and cover that resists abrasion and weathering. Great for abusive applications in the construction, agricultural, mining, and industrial applications.

- ▶ Tube/Cover Material: EPDM
- ▶ Temperature: -40°F to 190°F
- ▶ Cover Color: Black
- ▶ Reinforcement: 4 Synthetic Plies

TRANSFER PUMP KITS

WATER TRANSFER KITS

For large volume transfer of water in agricultural, construction, industrial, municipal/government, and rental applications. Also used for dewatering excavations, flood water removal, trash applications, and field irrigation. Ideal for pumping out basements, and garden pond/swimming pool maintenance.

1" KIT WITH POLY FITTINGS & ADAPTER

PART#	WEIGHT (LBS)	U/M
98128609	9.25	EA

- 20' PVC (Green) suction hose with female standard pipe thread fittings
- 25' blue PVC layflat hose with poly male pipe thread x female standard pipe thread fittings
- Poly strainer

2" KIT WITH POLY FITTINGS & ADAPTERS

PART#	WEIGHT (LBS)	U/M
98128600	25	EA

- 20' PVC (Green) suction hose with poly "C" female cam lock and king nipple
- 25' blue PVC layflat hose with poly female cam lock (one end only)
- Straight poly "F" adapter
- 90° poly "F" adapter
- Poly strainer

2" KIT WITH ALUMINUM FITTINGS & POLY ADAPTERS

PART#	WEIGHT (LBS)	U/M
98128604	25	EA

- 20' PVC (Green) suction hose with aluminum male x female pin lug fittings
- 25' blue PVC layflat hose with aluminum male x female pin lug fittings
- Short male x male poly nipple
- 90° male x female poly elbow
- Poly strainer

3" & 4" KITS WITH ALUMINUM FITTINGS & STEEL STRAINER

PART#	WEIGHT (LBS)	U/M
3"		
98128660	42	EA
4"		
98128665	54	EA

- 15' PVC (Green) suction hose with aluminum male x female pin lug fittings
- 25' blue PVC layflat hose with aluminum male x female pin lug fittings
- Round hole steel strainer

TRASH TRANSFER KITS

For large volume transfer of water in agricultural, construction, industrial, municipal/government, and rental applications. Also used for dewatering excavations, flood water removal, trash applications, and field irrigation. Large square holes of strainer allow for larger items to pass through.

PART#	SIZE (IN)	WEIGHT (LBS)	U/M
98128652	1-1/2	14.8	EA
98128657	2	21.5	EA
98128662	3	38	EA

- 15' PVC-G (Green) suction hose with aluminum male x female pin lug fittings
- 20' blue PVC layflat hose with aluminum male x female pin lug fittings
- Plated square hole strainer

XTREMEFLEX WATER TRANSFER KITS

Apache suction and discharge hoses with XtremeFlex technology provides a strong, flexible solution for applications that require tight quarters. Its smooth interior resists material blockage, while the clear PVC wall provides visibility of material flow. With increased ease of handling, this hose is ideal for large volume transfer of water in agricultural, construction, industrial, municipal, and government applications.

2" KIT WITH POLY FITTINGS & ADAPTERS

PART#	WEIGHT (LBS)	U/M
98106500	18.95	EA

- 2" x 20' XtremeFlex suction hose with poly "C" female push button cam lock and king nipple
- 2" x 25' blue PVC layflat hose with poly female cam lock (one end only)
- Straight poly "F" adapter
- 90° poly "F" adapter
- Poly strainer

2" & 3" KIT WITH ALUMINUM FITTINGS & STEEL STRAINER

PART#	WEIGHT (LBS)	U/M
2"		
98106508	21.35	EA

- 20' XtremeFlex suction hose with aluminum male x female pin lug fittings
- 25' blue PVC layflat hose with aluminum male x female pin lug fittings
- Round hole steel strainer

PART#	WEIGHT (LBS)	U/M
3"		
98106502	32	EA

- 15' XtremeFlex suction hose with aluminum male x female pin lug fittings
- 25' blue PVC layflat hose with aluminum male x female pin lug fittings
- Round hole steel strainer

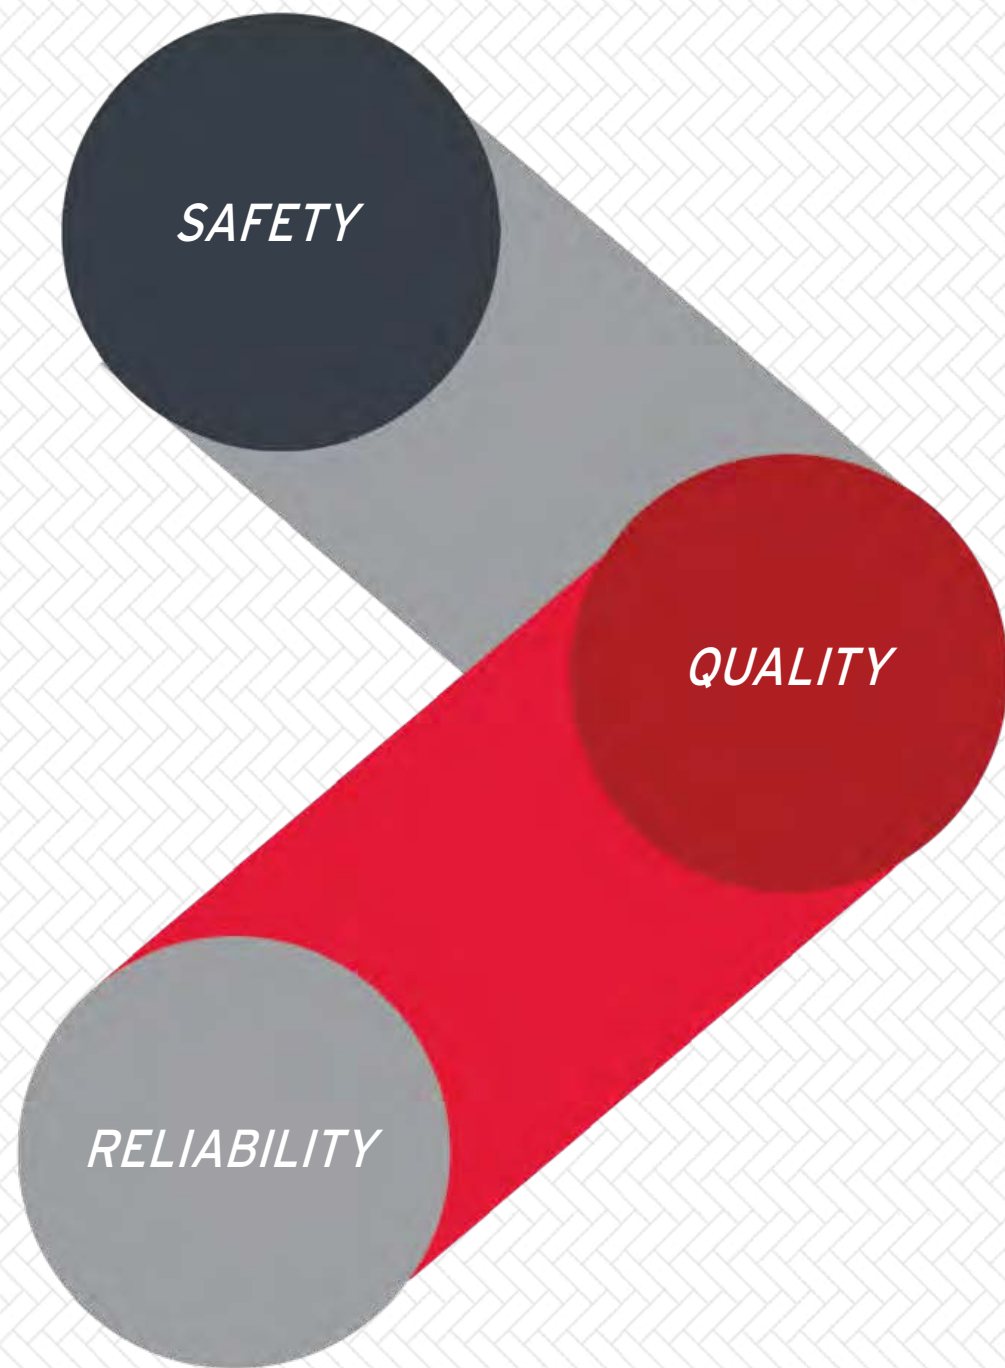

XTREMEFLEX FIRE SAFETY KITS

Use your pump to turn almost any water supply into your own fire safety system – protecting yourself and your investments. With increased ease of handling, this hose kit is ideal for large volume transfer of water. For best results use with auto priming or air-operated double diaphragm (AODD) pumps that have been designed to continue to operate as intended under start-and-stop deadhead conditions without any adverse effects to the pump itself. **Not intended for commercial use.**

PART#	SIZE (IN)	WEIGHT (LBS)	U/M
98128673	2	22.92	EA

- 2" x 20' XtremeFlex suction hose with aluminum male x female pin lug fittings
- 2" x 50' mill washdown hose with aluminum male x female pin lug fittings
- 75 gallons per minute constant-flow nozzle
- Poly short male x male nipple
- 90° poly street elbow
- Poly strainer

TUBING & ACCESSORIES

NON-REINFORCED CLEAR VINYL – REELS

Clear, flexible, and lightweight polyvinyl chloride tubing provides full view of flowing product and is great for sight gauges on storage tanks. Tubing is FDA approved. Rated good to excellent for acids, fair to excellent for alkalies, and excellent for most solvents. **Do not use for ketones, esters, and some aromatic hydrocarbons.**

▶ Tube/Cover Material: Vinyl ▶ Temperature: -20°F to 150°F ▶ Cover Color: Clear

LOW DENSITY POLYETHYLENE – BULK

This black polyethylene tubing is extruded to precise standards from high quality, 44 Shore D "low density polyethylene" resin. It has superior environmental stress crack resistance that greatly exceeds ordinary polyethylene tubing as measured by ASTM D 1963/IGEPAL tests. It is tasteless and odorless, and available in a variety of colors upon request. All colors, except red, are approved for food handling and are compliant with NGS 51/FDS. Polyethylene tubing is the most used and cost effective of all pneumatic tubing on the market.

- ▶ Tube/Cover Material: Low Density Polyethylene
- ▶ Reinforcement: Non-Reinforced
- ▶ Temperature: -50°F to 125°F
- ▶ Cover Color: Black

LOW DENSITY POLYETHYLENE – REELS

Low density polyethylene is used where higher tensile strength, higher burst pressure, and more stress resistance is desired. It has a 50 Shore D hardness which makes it suitable for push-in and compression fittings.

- ▶ Tube/Cover Material: Low Density Polyethylene
- ▶ Reinforcement: Non-Reinforced
- ▶ Temperature: -50°F to 125°F
- ▶ Cover Color: Natural Translucent

LOW DENSITY POLYETHYLENE – BOXED

Low density polyethylene is used where higher tensile strength, higher burst pressure, and more stress resistance is desired. Clear polyethylene has a 50 Shore D hardness which makes it suitable for push-in and compression fittings. It has superior environmental stress crack resistance that greatly exceeds ordinary polyethylene tubing as measured by ASTM D 1963/IGEPAL tests. It is tasteless and odorless, and available in a variety of colors. All colors, except red, are approved for food handling and are compliant with NGS 51/FDS. Polyethylene tubing is the most used and cost effective of all pneumatic tubing on the market.

MALE POLY FITTINGS AND ADAPTERS

Push-in and push-on tube fittings are made from acetal copolymer and are used with various types of tubing, such as polyethylene, nylon, and polyurethane. The push-in fittings have a stainless steel collet, ensuring superior clamping. These fittings are NSF 51 and 61 approved, and are typically used in pneumatic applications like robotics, conveyor systems, and any system requiring the transfer of low pressure compressed air and water.

UNIVERSAL COUPLINGS – BLANK ENDS

Apache's universal air couplings are great for pneumatic lines and spray service within air and water applications. They are recommended where fast, frequent connections must be made. Includes safety clip and rubber gasket. Do not use with steam service.

UNIVERSAL COUPLINGS – GASKETS

Easy to install, rubber replacement gaskets/washers for universal air couplings.

PART#	END 1	MAX. PSI	# OF LUGS	WEIGHT (LBS)	U/M
43012509	Universal	150	2	0.32	EA
43013009	Universal	150	4	0.44	EA

UNIVERSAL COUPLINGS – SAFETY CLIPS

Universal air coupling safety clips are used to ensure couplings do not become accidentally disconnected. One clip is required for each connection, and the pin will not connect correctly until couplings are locked in place. Each clip can be used across all universal coupling sizes. Do not use with steam service.

See p. 20 for jackhammer hoses.

BOSS™
COUPLINGS

BOSS™ GROUND JOINT COUPLINGS

Boss™ couplings provide a threaded connection for two lengths of hose or connection to a threaded outlet. Couplings are all purpose and usually recommended for steam hose connections. They also are widely used for low to high pressure air, water, liquid petroleum gas, fluid petroleum products, chemical, and potable fluids. Boss™ couplings attach to all types of material, including rubber, synthetic, plastic, metallic, and semi-metallic hoses.

BOSS™ SPUD COUPLINGS

Boss™ spud couplings are commonly used with female Boss™ ground joint seal couplings. They create a quick and easy connection between two lengths of hose, or as a male/female threaded outlet on any type of equipment. The spud serves as one half of the connection and is usually fixed permanently to the equipment. The other half consists of a stem and wing nut on the hose. This connection provides a mechanical and pressure seal.

CAM & GROOVE COUPLINGS

ALUMINUM CAM & GROOVE COUPLINGS

Aluminum cam and groove couplings have a lightweight cast aluminum body with machined ends, and are designed for low to medium pressure non-corrosive applications. They have locking arms that make easy connection by hand and without the use of a wrench. They come standard with stainless locking arms, stainless pins, and buna gaskets.

POLYPROPYLENE CAM & GROOVE COUPLINGS

Polypropylene cam and groove couplings are manufactured from a glass-filled polypropylene compound, and are designed for use in low to medium pressure applications (1-1/4" through 2" have a Max. 125 PSI, and 3" through 4" have a Max. 90 PSI @ 70°F). They come standard with stainless locking arms, stainless pins, and EPDM gaskets, which makes them ideal for transferring diluted chemical solutions.

▶ Maximum PSI: 125 @ 70°F for 1-1/4" through 2"; 90 @ 70°F for 3" through 4"

BALL & SOCKET COUPLINGS

BALL & SOCKET COUPLINGS

Ball and socket couplings have a higher working pressure rating than typical quick action couplings, including cam and groove. They also have 30% socket flexibility in all directions which allows them to be connected without being perfectly aligned, and makes it easier to install to a pump while putting less stress on the hose assembly. These couplings are precision formed from galvanized steel, providing a long life span and are Bauer compatible.

DOUBLE HOSE END

Ball and socket double hose connection provides a convenient, cost effective method of repairing damaged hoses. Simply cut out the damaged hose section and attach this fitting with bands or bolted clamps. The double hose connection is constructed of heavy galvanized steel and is corrosion resistant.

CLAMPS & TOOLS

WORM GEAR CLAMPS

MICRO WORM GEAR CLAMPS

Micro worm gear clamps are designed for small diameter hose connections in low pressure applications. These small profile clamps are constructed of 300 stainless steel and have a slotted 1/4" hex head screw for flexibility in tightening.

STANDARD T-BOLT CLAMPS

This corrosion resistant T-bolt clamp has a 300 series stainless steel band and bolt. Its nylon insert nut can be easily tightened with a 7/16" socket wrench. This clamp is rated to a maximum 50 inch pounds applied torque.

ULTRA T-BOLT CLAMPS

Ultra T-bolt 304 stainless steel band, bolt, and saddle resist rust and corrosion. The smooth saddle is attached with 4 spot welds for extra strength and uniform seal, and the carbon steel nut with nylon insert eliminates nut and bolt seizure. This clamp is rated to a maximum 75 inch pounds applied torque.

HEAVY-DUTY SUPER T-BOLT CLAMPS – STAINLESS STEEL

Stainless steel heavy-duty super T-bolt clamps are used in applications that require rust resistance and corrosion resistance. They have three spot welds on the tension mechanism for added strength, and a clamp bridge that provides even pressure on 360 degrees of the sealing surface. Each clamp has its size range stamped into the band for easy identification.

HEAVY-DUTY SUPER T-BOLT CLAMPS – ZINC PLATED STEEL

Zinc plated heavy-duty super are used in applications that require rust resistance, but only limited corrosion resistance. They have three spot welds on the tension mechanism for added strength, and a clamp bridge that provides even pressure on 360 degrees of the sealing surface. Each clamp has its size range stamped into the band for easy identification.

SPIRAL CLAMPS (6200 SERIES)

These hose clamps are specifically designed for our series 6200 suction hose and all spiralite corrugated suction hose. It is preformed to perfectly match the pitch of the hose helix to provides a "leak-proof" connection, and its cadmium plated finish resists corrosion.

PART#	BAND WIDTH	MIN. DIAMETER (IN)	MIN. DIAMETER (MM)	WEIGHT (LBS)	U/M

PREFORMED CLAMPS – GALVANIZED CARBON STEEL

The galvanized carbon steel preformed clamp, with a smooth I.D., was developed to prevent leak problems that commonly occur when applying conventional clamps on the thinner, harder covered hoses found in today's market. Clamps are available in a variety of widths, sizes, and materials.

BAND-IT® BANDING

BAND-IT® BUCKLES

See p. 169 for center punch tools.

INSTALLATION TOOLS

BAND-IT® TOOL

The Band-It® tool is used to apply Band-It® bands and buckles, strapping, and free-end clamps. Its many quality features include:

- ▶ Drop forged frame with tensioning capability of over 2400 lbs
- ▶ Zinc plated black chromate finish for superior corrosion resistance
- ▶ Spring loaded gripper lever for improved band tensioning
- ▶ Built-in band cutter with friction held cutoff lever and plastic grip
- ▶ Permanent lubrication on the tension screw for longer tool life and faster operation

PART#	WEIGHT (LBS)	U/M
40047018	4.4	EA

BAND-IT® JUNIOR ADAPTER

The Band-It® junior adapter is an attachment for the Band-It® tool which allows it to apply Band-It junior preformed clamps.

PART#	WEIGHT (LBS)	U/M
40048502	1.4	EA

POK-IT TOOL

The pok-it tool is a small, lightweight tool used to apply 1/4" and 3/8" wide banding, Ear-Lokt, Scru-Lokt, Band-It® junior preformed, and free-end clamps. This tool includes a built-in cutter.

PART#	WEIGHT (LBS)	U/M
40047506	1.1	EA

1/2" & LARGER CENTER PUNCH TOOL

This center punch tool is a ratchet action tensioning tool. It is used for applying 1/2" wide or larger center punch preformed clamps, and center punch open-end clamps containing center punch locking design.

PART#	WEIGHT (LBS)	U/M
40049004	3.15	EA

CENTER PUNCH TOOL ADAPTER

The adapter is an attachment for the 1/2" and larger center punch tool. The adapter allows the tool to apply 3/8" wide center punch preformed clamps, and center punch open-end clamps containing center punch locking design.

PART#	WEIGHT (LBS)	U/M
40049005	0.4	EA

3/8" TO 5/8" CENTER PUNCH TOOL

This center punch tool is a ratchet action tensioning tool. It is used for applying 3/8" to 5/8" wide center punch preformed clamps, and center punch open-end clamps containing center punch locking design.

PART#	WEIGHT (LBS)	U/M
40049509	1.1	EA

STRAINERS, SKIMMERS, & FOOT VALVES

See p. 166–167
for center punch
preformed
clamps.

T-LINE STRAINERS – POLYPROPYLENE

T-line strainers prevent clogging of pumps and spray tips by filtering liquids through 304 stainless wire mesh screens. Screens are interchangeable and are available in 20 through 80 mesh.

Y-LINE STRAINERS – POLYPROPYLENE

Y-line strainers prevent clogging of pumps and spray tips by filtering liquids through 304 stainless wire mesh screens. Screens are interchangeable and are available in 20 through 80 mesh.

PART#	FEMALE PIPE THREAD (IN)	MAX. PSI @ 70°F	WEIGHT (LBS)	U/M

ROUND HOLE SUCTION STRAINERS – PLATED STEEL

Round hole suction strainers are used to decrease the amount of solids entering your pump when foot valves are not required. Their plated steel construction provides rust and corrosion resistance.

PART#	FEMALE PIPE THREAD (IN)	WEIGHT (LBS)	U/M
70000008	1-1/2	1.36	EA
70000504	2	1.78	EA
70000700	2-1/2	2.02	EA
70001500	3	3.08	EA
70002000	4	2.9	EA
70002507	6	6.04	EA

SQUARE HOLE SUCTION STRAINERS – PLATED STEEL

Square hole suction strainers are commonly attached to the pump inlet hose on trash pumps to prevent larger solids from entering your pump, while allowing smaller particles to pass through the pump. Their plated steel construction decreases rust and corrosion.

PART#	FEMALE PIPE THREAD (IN)	WEIGHT (LBS)	U/M
70009700	1-1/2	1.12	EA
70009702	2	1.74	EA
70009704	2-1/2	2	EA
70009706	3	2.5	EA
70009708	4	2.52	EA
70009710	6	3	EA

SUCTION STRAINERS – POLYPROPYLENE

Suction strainers decrease the amount of solids entering your pump, and are used when foot valves are not required. Polypropylene strainers resist the damaging affects of rust, chemicals, and salt water.

PART#	MALE PIPE THREAD (IN)	WEIGHT (LBS)	U/M
70002756	1	0.22	EA

PART#	FEMALE PIPE THREAD (IN)	WEIGHT (LBS)	U/M
70002760	1-1/2	0.25	EA
70002780	2	0.3	EA
70002800	3	0.6	EA

TOP HOLE SUCTION – PLATED STEEL

Skimmer strainers have a lower profile than standard suction strainers, which accommodates shallow pumping situations. These can be used when foot valves are not required.

PART#	FEMALE PIPE THREAD (IN)	WEIGHT (LBS)	U/M
70009740	1-1/2	2.63	EA
70009732	2	3	EA
70009734	3	6.18	EA

BOTTOM HOLE SUCTION – PLATED STEEL

Skimmer strainers have a lower profile than standard suction strainers, which accommodates shallow pumping situations. These can be used when foot valves are not required.

PART#	FEMALE PIPE THREAD (IN)	WEIGHT (LBS)	U/M
70009730	1-1/2	2.63	EA
70009742	2	3	EA
70009744	3	6.18	EA

FOOT
VALVES

Cast iron foot valves must be installed in a vertical position for proper operation.

FOOT VALVE WITH LEATHER FLAPPERS – CAST IRON

Foot valves allow liquids to be strained prior to entering your pump similar to suction strainers, but foot valves have a leather flapper to prevent the pump from losing its prime. The cast iron construction is rugged, and the flapper seal is replaceable. Ideal for irrigation, drainage, and construction projects.

PART#	FEMALE PIPE THREAD (IN)	WEIGHT (LBS)	U/M
70003007	1-1/2	2.75	EA
70003503	2	4.5	EA
70003511	2-1/2	6.73	EA
70004003	3	7.54	EA
70004518	4	20.05	EA
70005018	6	50.75	EA
70005022	8	56.24	EA

REPLACEMENT RUBBER FLAPPER SEALS

Replacement rubber flapper seals are for cast iron foot valves, and are used to prevent back flow while maintaining pump prime.

PART#	SIZE (IN)	WEIGHT (LBS)	U/M
70006027	1-1/2	0.003	EA
70006028	2	0.063	EA
70006030	2-1/2	0.12	EA

70007509	6	0.425	EA
70008009	8	0.72	EA

BALL VALVES

POLY

SINGLE UNION

Single union ball valves are manufactured from glass reinforced polypropylene for strength, durability, and corrosion resistance. Its unique body and flange design allows for low torque operation, and the self-aligning ball rotates freely against Teflon® seats.

PART#	FEMALE PIPE THREAD (IN)	MAX. PSI @ 70°F	WEIGHT (LBS)	U/M
49015050	1/2	125	0.25	EA
49015075	3/4	125	0.38	EA
49015100	1	125	0.54	EA
49015125	1-1/4	125	0.83	EA

49015200	2	125	1.58	EA
49015300	3	125	5.75	EA

STANDARD PORT BOLTED

Standard bolted ball valves are manufactured from glass reinforced polypropylene for strength, durability, and corrosion resistance. Its unique body and flange design allows for low torque operation, and the self-aligning ball rotates freely against Teflon® seats.

PART#	FEMALE PIPE THREAD (IN)	MAX. PSI @ 70°F	WEIGHT (LBS)	U/M
49029965	1	125	0.66	EA
49029985	1-1/4	125	1.17	EA
49030060	2	125	1.79	EA

FULL PORT BOLTED

Full port bolted ball valves are manufactured from glass reinforced polypropylene for strength, durability, and corrosion resistance. Its unique body and flange design allows for low torque operation, and the self-aligning ball rotates freely against Teflon® seats. Used in applications requiring no flow restrictions.

PART#	FEMALE PIPE THREAD (IN)	MAX. PSI @ 70°F	WEIGHT (LBS)	U/M
49027950	1/2	125	0.66	EA
49029950	3/4	125	0.66	EA
49029968	1	125	1.21	EA

49030010	2	125	2.92	EA
49030020	3	125	5.5	EA

COMPACT BOLTED

Compact full port ball valves are manufactured from glass reinforced polypropylene for strength, durability, and corrosion resistance. Its unique body and flange design allows for low torque operation, and the self-aligning ball rotates freely against Teflon® seats. This ball valve is more compact than regular bolted ball valves

- ▶ Size: 2"
- ▶ Maximum PSI: 125 @ 70°F

PART#	PIPE THREAD	WEIGHT (LBS)	U/M

49030144	Male Pipe Thread x Male Cam Coupler	2.42	EA
49030146	Female Pipe Thread x Male Cam Coupler	2.33	EA

FULL PORT

Full port brass ball valves have a forged brass body, hard chromium plated solid ball, heavy-duty plated carbon steel handle with yellow vinyl insulator, and deep tapered female pipe threads for improved connections. They are designed for water, oil, and gas (WOG) at a maximum 600 PSI.

BRASS

GAUGES

DRY
PRESSURE
GAUGES

DRY PRESSURE GAUGE – CENTER BACK INLET

Utility gauge for commercial and industrial markets. Constructed with a black steel case, chrome bezel, copper alloy internal, and a brass 1/8" male national pipe thread center back mount. Includes a 1/4" x 1/8" reducer bushing. Meets or exceeds ASME B40.100 pressure gauge standards.

PART#	INLET (IN)	SIZE (IN)	MAX. PSI (LBS)	WEIGHT (LBS)	U/M
51040842	1/8 Male Pipe Thread	2	160	0.2	EA

DRY PRESSURE GAUGE – LOWER INLET

Utility gauge for commercial and industrial markets. Constructed with a black steel case, chrome bezel, copper alloy internal, and a brass male national pipe thread lower mount. Meets or exceeds ASME B40.100 pressure gauge standard.

PART#	INLET (IN)	SIZE (IN)	MAX. PSI (LBS)	WEIGHT (LBS)	U/M
99019276	1/8 Male Pipe Thread	1-1/2	60	0.15	EA

WORKSHEET

This worksheet is a great way to get started with Apache hose and accessories. Fill it out and give us a call. One of our experienced team members will help identify the best products for your application.

S.T.A.M.P.E.D. HOSE SELECTION WORKSHEET

NAME: _____
 COMPANY: _____
 PHONE #: _____
 EMAIL: _____
 DATE: _____

Here's what we need from you.

- S** - Size
- T** - Temperature
- A** - Application
- M** - Material
- P** - Pressure
- E** - Ends
- D** - Delivery

Selecting the correct hose and fittings reduces the risk of hose failure due to misapplication. Use the S.T.A.M.P.E.D. process for accurate and complete information, and Apache can help you find the solution you need and recommended the proper solution for your application.

Experienced sales team members are just a phone call away, and knowledgeable field representatives are available when a site visit may be necessary.

S - SIZE

- ▶ What size is the hose?
- ▶ Inside Diameter (I.D.):
- ▶ Outside Diameter (O.D.):
- ▶ Cut length or coupled length (OAL):

T - TEMPERATURE

▶ Temperature of product being transferred:	Minimum:	Maximum:
▶ Temperature of the environment:	Minimum:	Maximum:

A - APPLICATION

▶ How is the hose being used: Suction Discharge Pressurized

M - MATERIAL

▶ What material is going through the hose?
 (Please include product that is normally transferred and any cleaning fluids).

P - PRESSURE

▶ What is the maximum pressure (PSI) or suction (in/HG)?

E - ENDS

▶ What fittings do you want on each end or do you want it open ended?

D - DELIVERY

- ▶ When do you want the hose?
- ▶ Quantity:
- ▶ Testing required? Yes No
- ▶ Certification required? Yes No
- ▶ Any other pertinent information about this hose:
