

UNITED WE STAND

CELEBRATING AMERICA SINCE 1847

Annin[®]
FLAGMAKERS

American Flags ★ American Made

Welcome to Annin Flagmakers. We are a family-owned business that has been making our country's symbol since 1847. We are very proud to have members of the 6th generation of the Annin family at the helm. Over the years, we've learned a bit about making flags – from the creation of long lasting fabrics and inks to the dense embroidery of our rich star fields. Our flags have flown over the White House and on foreign fields of battle. We were there at the Argonne Offensive and the Battle of Guadalcanal. From the top of Mt. Suribachi on Iwo Jima to the surface of the moon, Annin flags have been there to represent the core ideals of our great country.

The Largest Most Advanced Flagmaking Technology

Today Annin Flagmakers embraces the best of 21st century technology. In Annin's three domestic factories, U.S. flags are manufactured with advanced stand-up sewing production techniques; state, international and custom flags are digitally printed and screen-dyed to exact color specifications; in-house research and testing laboratories, together with the art department, are constantly monitoring dye formulas. Annin's distribution systems are in real-time compliance with customer requirements.

The Experience & Dedication of Traditional Flagmakers

We strive to honor our legacy by investing in the most advanced technologies and processes to ensure that our flags remain the benchmark of the flag industry. Most importantly, Annin Flagmakers is a dedicated team of the finest workers with a shared vision of crafting the highest quality products.

Made With Pride with U.S. Labor and Materials

We are proud to say that Annin flags are produced in the United States, with American labor and materials. We operate three manufacturing facilities in Virginia and Ohio.

Is Your American Flag Made in the USA?

Annin Flagmakers is one of the founding members of the Flag Manufacturers Association of America (FMAA). The FMAA proudly sponsors the "Certified Made in the USA" certification program to ensure the American flags you purchase are homegrown with pride. "Certified Made in the USA" certifies that your flag has been made in the USA of materials that are domestic in origin and that all processes in every step of its manufacture were completed in USA facilities with USA labor. US law requires every flag be labeled with its "country of origin." Only the FMAA "Certified Made in the USA" Certification label assures the standards and continued compliance as monitored by a professional association and its domestic members.

For more information about the FMAA
"Made in the USA" certification program
go to <http://www.fmaa-usa.com>.

Our 150,000 sq. ft. plant in Coshocton Ohio is one of our three U.S. facilities and is the home of our residential Stars & Stripes operation.

Annin
FLAGMAKERS

Celebrate America... with America's Best-Made Flags

We have been making our country's symbol since 1847 and have become known as one of the premier flag manufacturers in the United States. Annin Flagmakers is a 6th generation family owned and operated company. All of our flags are made to the highest standards by the most experienced flag makers in the industry. Today, Annin Flagmakers embraces the best of 21st century technology. In Annin's three domestic factories we use U.S. materials and employ over 500 U.S. workers.

Tough-Tex® Polyester Flags

The Strongest, All-Weather Flag

For institutional and commercial flag displays, nothing beats the performance of a Tough-Tex® flag. Made from an exclusive, open-weave spun polyester material, this time-tested standard has been America's best U.S. Flag for over 30 years.

Tough-Tex® flags provide extra-long life in high-winds & heavy use.

Premium Nylon Flags

ColorFast Durability for Flags & Banners

Annin Flagmakers dyes its own Nylon ColorFast U.S. Flags. Outdoor flag displays require materials with superior durability and weather-resistance. Annin flags are made from our exclusive SolarGuard® material, a remarkably strong, lightweight nylon weave.

Annin's nylon flags are weather & fade resistant and suitable for daily use.

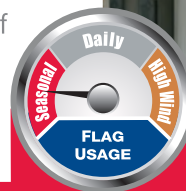

Polycotton Flags

Traditional Holiday Flags & Banners

Homeowners who tend to fly the flag on weekends and holidays love the combination of quality and economy they get in a Polycotton flag. Annin flags are made of dyed and treated materials designed to resist fading during the course of normal use.

Polycotton flags offer traditional beauty for light, holiday use.

TOUGH-TEX® U.S. FLAGS

For Daily and Long-Term Display

Tough-Tex® flags have long been the first choice for businesses, government, military institutions and private citizens who are committed to proudly flying the U.S. flag on a daily basis.

When flown on a continuous or daily basis flags are exposed to the harsh and damaging effects of wind and weather. Tough-Tex® flags are designed to fly long and proud under these conditions.

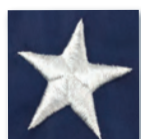

Commercial Grade Open-Weave Polyester

Open weave, 2-ply polyester material reduces fabric stress for longer flag life in daily and high-wind flag flying conditions.

Double-Stitched Sewn Stripes

Tough-Tex® flags feature stripes comprised of individually dyed fabric, with double stitched, folded seams.

Bright-Shining Embroidered Stars

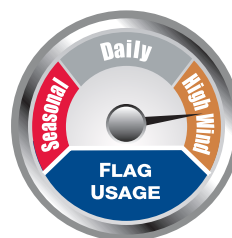

Star field features embroidered stars, densely woven in bright white polyester on a deep blue background.

A 3 ft. x 5 ft. Flag

Item #182005 | Case Pack: 3

UPC Code: 0 26427 82005 2

Tough-Tex® Flags Are Rated for Use in High Wind Conditions

The Strongest, Weather-Resistant Flag

For institutional and commercial flag displays, nothing beats the performance of a Tough-Tex® flag. Made from an exclusive, open-weave spun polyester material, this time-tested standard has been America's best U.S. Flag for over 30 years.

State & Territorial flags are often displayed daily and exposed to the prolonged effects of wind and weather, so we make them with durable SolarGuard® nylon. Together, this material with our very highest flag manufacturing specifications insure that your State flag will provide unmatched durability and long life.

- Official State & Territorial Flag Designs
- Sturdy Construction with 4 Rows of Stitching
- Canvas Heading with Brass Grommets
- Brilliant Dyed Colors

Case Pack: 3 | Weight: 2.6 lbs
Dimensions: 6" x 12" x 7 1/2"
Cubic Ft: 0.31

*Note: Texas Flags Case Pack 6

The Texas Flag and a complete Texas Flag Set are also available in a Polycotton blend fabric.
This material is lighter in weight than nylon and makes an ideal flag for the homeowner or casual flag flyer who wants to show their state pride.

- Veterans Day
November 11
- Thanksgiving Day
4th Thursday in November

DECEMBER

- Pearl Harbor Remembrance Day
Dec. 7 - Half-Staff, Sunrise to Sunset
- Christmas Day - December 25

FLAG DISPLAY ETIQUETTE

It is the universal custom to display the flag only from sunrise to sunset on buildings and on stationary flagstaffs in the open. However, when a patriotic effect is desired, the flag may be displayed twenty-four hours a day if properly illuminated during the hours of darkness.

1. When displayed either horizontally or vertically against a wall, the union should be uppermost and to the flag's own right, that is, to the observer's left. When displayed in a window, the flag should be displayed in the same way, with the union or blue field to the left of the observer in the street.

No other flag or pennant should be placed above, or, if on the same level, to the right of the flag of the United States of America, except during church services conducted by naval chaplains at sea; for personnel of the Navy; when the church pennant may be flown above the flag.

No person shall display the flag of the United Nations or any other national or international flag equal, above, or in a position of superior prominence or honor to, or in place of, the flag of the United States at any place within the United States or any Territory or possession thereof; Provided, that nothing in this section shall make unlawful the continuance of the practice heretofore followed of displaying the flag of the United Nations in a position of superior prominence or honor and other flags in positions of equal prominence or honor, with that of the flag of the United States at the headquarters of the United Nations.

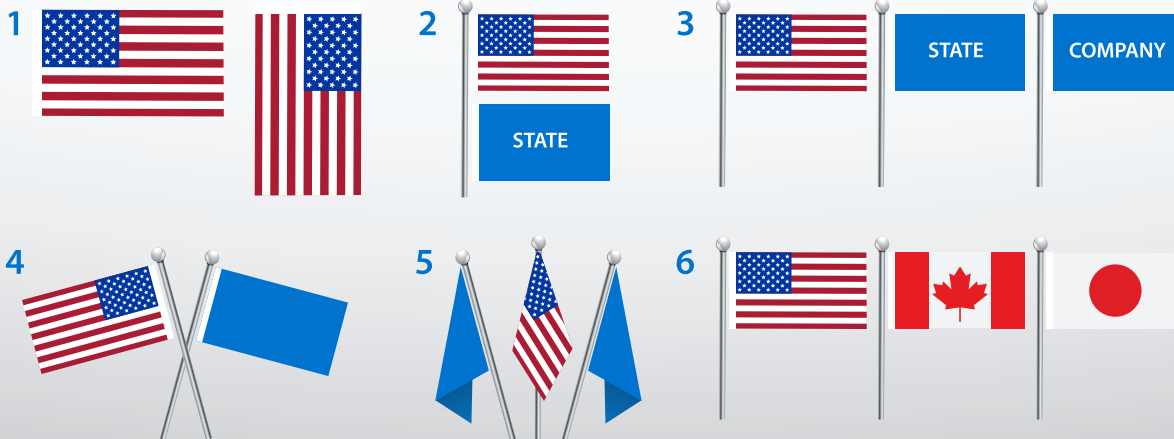

2. When flags of the States, cities, or localities, or pennants of societies are flown on the same halyard with the flag of the United States, the latter should always be at the peak.

3. When the flags are flown from adjacent staffs, the flag of the United States should be hoisted first and lowered last. No such flag or pennant may be placed above the flag of the United States or to the the United States flag's right.

4. The flag of the United States of America, when it is displayed with another flag against a wall from crossed staffs, should be on the right, the flag's own right, and its staff should be in front of the staff of the other flag.

5. The flag of the United States of America should be at the center and the highest point of the group when a number of flags of states or localities or pennants of societies are grouped and displayed from staffs.

6. When flags of two or more nations are displayed, they are to be flown from separate staffs of the same height. The flags should be of approximately equal size. International usage forbids the display of the flag of one nation above that of another nation in time of peace.

*For full details regarding flag-flying etiquette please visit our website.
