BIRDWELL CLEANING PRODUCTS, INC.

A Brief History....

Established in 1945, Birdwell Cleaning Products began as a manufacturing source and supplier to the grocery trade exclusively. Brooms and mops were the only products.

The product line increased to include sponges, scrubbers, dustpans, dusters, mop heads, and vacuum bags/belts in 1978. The HUMMINGBIRD logo was designed and adopted as a *"Symbol of Quality."*

Birdwell became a pioneer in merchandising broom displays, incorporating other cleaning items, and developing a complete cleaning product section. Rack jobbing and custom displays were included in this program. Direct Store Delivery and Warehouse Programs remain an integral part of the business today. In DSD we continue to offer the highest level of customer service, and in the Warehouse Program, the same customer service is reflected in excellent response time and high percentage of complete shipments.

With the success in the cleaning products industry, the expansion to other markets was a natural progression. Birdwell expanded manufacturing and now supplies the hardware, industrial, and janitorial markets. The success in the hardware market surpassed the earlier success enjoyed by Birdwell in the grocery trade. Next, Diamond B was developed with a slogan reflecting our experience, *"Birdwell, a brand you can trust."*

Ever responsive to customer needs, Birdwell added *"Brandywine,"* an Equine Product Line in 2002. We continue to offer variety in several product lines, and we have never substituted quantity for quality.

Birdwell proudly boasts American-made products from the plant located in Burleson, Texas. Birdwell Cleaning Products remains a family-owned and operated corporation. We have continued to grow in sixty plus years, but did not leave behind the basic principles on which the company was founded...

We are large enough to handle your business, but small enough to treat you as our only customer!
