## Boxo Comfort vs. Leading National Brand

- Almost 4x less airborne dust and residue
- Cleaner more homogenous product
- Almost 50% lighter
- Absorbs double its weight in water
- Dries quicker between wetting and nesting

### BOXO Natural Pulp Fibre Small Animal Bedding A Natural Alternative.

BOXO offers soft, highly absorbent bedding material that provides maximum odour control for you and your pet. Manufactured from natural pulp fibres, BOXO contains no aromatic oils or chemicals, providing a clean and cozy environment for your pet.

#### *It Controls Odours!*

Because of its naturally fine fibres after processing, BOXO is almost twice as absorbent as traditional bedding materials - which means less odour in your pet's home. And because it's more absorbent, it lasts longer than traditional beddings.

#### *It's Recycled!*

BOXO is simply recycled refuse from a consumer paper products facility that was going to be thrown away. First we heat treat it to make sure it's perfectly safe for your furry little friend, then we process it to help make it super soft and cozy. It's environmentally friendly, and pet friendly too!

#### *It's Safe!*

Bedding made from wood shavings can contain natural oil scents that can be harmful to your pet. BOXO is completely odourless, and - thanks to its super absorbency - stays that way!

#### *It's Cozy!*

Nothing beats BOXO for comfort. Right out of the bag, it's guaranteed to give your pet the warmest, coziest and softest place to take a nap. A cozy pet is a happy pet.

*BOXO. The safe, recycled, cozy, odour free bedding that you and your pet will love!*
