THE BIG GREEN EGG EXPLAINED

Solid quality. Superior ceramics. Serious outdoor cooker!

ANCIENT WISDOM & INNOVATIVE TECHNOLOGY

To find out more about the idea behind the Big Green Egg we have to travel back in time for many centuries. More than 3,000 years ago it was already used in East Asia as a traditional, wood-fired clay oven. That is where it was discovered, embraced and taken along by the Japanese, who lovingly referred to it as 'kamado', meaning oven or fireplace. American soldiers discovered the kamado in Japan at the beginning of the previous century and took it home as a souvenir. In the course of time, the ancient model was further refined in Atlanta (Georgia, USA) in accordance with contemporary knowledge, production technologies and innovative materials. Even the revolutionary ceramic technology from NASA contributed to the realisation of this exceptional outdoor cooking appliance: the Big Green Egg.

THE SECRET BEHIND THE BIG GREEN EGG

The Japanese, the Americans, the Europeans: everyone who tastes dishes prepared on a Big Green Egg is forever a fan due to the unparalleled great taste. What is the secret behind the EGG? It is actually a combination of several things. It is the ceramic that reflects the heat, generating an airflow that makes the ingredients and dishes exceptionally tender. It is the perfect circulation of air, which ensures that food cooks evenly and at just the right temperature. And it is the fact that the temperature can be controlled and maintained down to the finest degree. As a result of the high-quality heat-insulating ceramic, even external temperatures do not affect the temperature inside the EGG. And – last but not least - its spectacular appearance!

ENJOYING THE ULTIMATE TASTE EXPERIENCE TOGETHER

Enjoying the good life together - that's what the Big Green Egg is all about. Surrounded by family, friends and loved ones, and the most delicious dishes you have ever tasted. Because the Big Green Egg has a temperature range of 70°C - 350°C, you can apply all sorts of cooking techniques, such as grilling, baking, boiling, stewing, smoking and slow-cooking. Do you want to make it more versatile than it already is? There are clever accessories available for each Big Green Egg model which make cooking on the EGG even more easy and fun with even more flavour. The multifunctional EGG and good company are a great recipe for unforgettable moments.

LIFELONG QUALITY

At Big Green Egg we fully support our product. Which is why we give consumers a limited lifetime guarantee on the materials and structure of all the ceramic parts of the EGG. It is made of a very high quality ceramic material. This material has exceptional insulating properties and makes the EGG, in combination with its various patented parts, quite unique. The ceramic can withstand extreme temperatures and temperature fluctuations. You can really use your EGG numerous of times without any loss in quality. So it's really not that strange that we, the entire company, stand behind our EGGs.

INDIRECT COOKING WITH THE CONVEGGTOR

In addition to grilling, baking, steaming, flash frying and smoking, the Big Green Egg is also suitable for the slow-cooking of larger pieces of meat or delicate ingredients such as shellfish, crustaceans and fish fillets. Using the ceramic convEGGtor, you can easily convert the Big Green Egg into an oven. The convEGGtor functions as a heat shield that prevents the charcoal from radiating direct heat to the food. Which, in its turn, ensures a slow cooking process. Adding the Baking Stone (also referred to as the pizza stone) allows you to easily bake the best bread and pizzas with an authentic crispy crust. The possibilities of the EGG are endless! Try them all and give your creativity free reign.

Big Green Egg has been modernised

The innovation of a classic.

- ✔ The best ceramics
- ✔ Innovative details

At first glance, there seems to be little difference between this Big Green Egg and the model that we introduced in 1974. However, appearances are deceptive. Since then we have implemented quite a number of technological innovations, and we will continue to do so. Because we not only want to be the best kamado today but also in the future. Take a look at the Big Green Egg innovations on our website.

XL-size Dome Thermometer, for a better temperature overview, with shock-resistant glass.

The patented rEGGulator is extremely accurate and comfortable to use due to the heat-insulated handle. With optional Rain Cap.

Patented "easy to lift" system. The ingenious operation allows the ceramic lid to be opened and closed using minimal force.

New high-tech gasket, resistant to the highest temperatures.

Improved wheels with low rolling resistance, suitable for any flat terrain.

Two in one! The new Nest with integrated handle provides a solid base for the Big Green Egg and allows you to move the EGG safely and without any risk.

YOU AND BIG GREEN EGG; IT'S A MATCH!

As a foodie there's one thing you know for certain: with a Big Green Egg you'll bring the premium quality kamado into your home (oh well, in your garden or on your terrace or balcony). In addition to grilling, the Big Green Egg is perfect for baking, smoking, steaming and (slow) cooking. Because an EGG is more than just a barbecue, it is a complete outdoor kitchen in which you can bake pizzas, smoke fish, slow-cook meat and do all sorts of things you can also do in a regular oven. The culinary possibilities of the Big Green Egg are limitless. So, the question is not why you want an EGG, but which of the 7 models suits you best. For this reason we have given a brief description of the models. Discover for yourself that there is always a matching EGG, no matter how small or big your family, your circle of friends, and your garden (or terrace) may be!

The essential Big Green Egg collection: AN EASY START

Especially for the novice EGGer, we have compiled a starter pack containing the most important basics. This also takes care of your birthday wish list.

2XL

Large, larger, largest. The Big Green Egg 2XL is the biggest member of the Big Green Egg family and the largest kamado available on the market. Everything about this model is impressive: the weight, the size, the height and the cooking surface. The 2XL is an eye catcher in each and every way. And with a performance to match. With the aid of an EGG Nest and Nest Handler the 2XL can still be easily moved. And thanks to a clever hinge mechanism it is also easy to open the EGG. Magnanimous in size and culinary possibilities, but without putting on airs.

XLarge

Do you have a big family and/or group of friends? Do you cook professionally? Or do you do the catering for large groups? Then the Big Green Egg XLarge is your perfect partner in crime. It will enable you to serve tasty cooked ingredients and dishes to loads of people simultaneously. With a cooking surface of 61 centimetres, big chunks of meat, fish or several pizzas are no longer a fantasy but a reality. And if 61 centimetres is just a tad too small? Just expand the cooking surface with the special 2 and 3 Level Cooking Grids that are available for the XLarge and raise the level of your cooking.

Large

The Big Green Egg Large is the most popular model of the Big Green Egg family. You can easily prepare all your favourite dishes and those of your family and friends on the cooking surface of the Large - all at the same time if need be, because the Large provides enough space to cook for 8 people. And with all that available space it is also very easy to prepare all-inclusive three-course menus. Do you want to get the maximum out of your EGG? Then the Large would be a perfect match for you as it is the model with the most matching accessories. Which is why this all-rounder was given the name Large, as the possibilities are extensive.

Specifications

Medium

The Big Green Egg Medium is sufficiently compact to fit a small city garden, a patio or a balcony, and yet it is big enough to grill, smoke, stew or bake for 6 to 8 people. With a Medium in your garden, you can very easily invite your family or friends to enjoy great food together. This is one of the reasons why this EGG is one of our most popular models. With the matching convEGGtor and Baking Stone, you can immediately convert the Big Green Egg Medium into a pizza oven in which you can bake the best pizzas ever. It may be a Medium, but it is certainly not average!

MiniMax

Although its size may not be impressive, the Big Green Egg MiniMax more than makes up for that with its performance. It is only 7 centimetres taller than the Big Green Egg Mini, but has a far larger cooking surface which is comparable to that of the Big Green Egg Small. This will give you more than enough space to cook for 4 to 6 people. Planning an outing? You don't have to be a professional weightlifter to bring the MiniMax along as it only weighs 35 kilograms. This will not be a problem if you use the EGG Carrier, which is included as a standard accessory!

Including

Small

Do only those that have a garden enjoy the privilege of outdoor cooking? Absolutely not! The Big Green Egg Small is the favourite housemate of city folk with a balcony or small patio. The Small may be compact, but you can easily cook meals that are out of this world for 4 to 6 people. As the grid of the Small is placed lower than that of the MiniMax, the Small is more suitable for larger preparations, even though the cooking surface of both is the same. The Big Green Egg Small may be small, but its performance is big!

Specifications

Mini

The Big Green Egg Mini is the smallest and lightest member of the Big Green Egg family. It is ideal for camping or to take on a boat trip or picnic. Or just use it at home, on your table. But let's be frank here; once you have acquired this EGG model, you'll probably want to take it everywhere you go. Thanks to its weight the Mini is very easy to carry. And even easier to carry if you purchase an EGG carrier for your Mini. Do you usually cook for 2 to 4 people? Then this travel-friendly lightweight would be your ideal Big Green Egg model.

ACCESSORIES

For every food lover the Big Green Egg is the holy grail. And the more often you use it, the happier you will be about all the possibilities, the results and the reactions. Do you want to raise the bar even higher, create more cooking surface or make things easier for yourself? Then go to town with our huge collection of accessories.

Portable Nest

If you're going camping, to a park or a beach party, there's no reason not to do that in style. Simply take your MiniMax with you in its portable nest. Simply unfold and your multifunctional outdoor cooking appliance will stand at a comfortable cooking height (the base is 60 cm!). Done EGGing? Simply fold up and go!

MiniMax 120649

Nest®

Every Big Green Egg feels at home in an EGG Nest. When you place your EGG in the frame, you can see it grow. As it is positioned a bit higher, it will be at your ideal working height. Your back will be grateful. The EGG Nest is made of powder-coated steel and its 4 sturdy castors make it easy to move.

MODULAR EGG WORKSPACE New

L XL 2XL

Because Rome wasn't built in a day either, you should take the time to customise your outdoor kitchen 100% as well. Do you have a Big Green Egg Large or XLarge perhaps with a MiniMax alongside it? Begin with the framework and slowly expand it with Expansion Frames, Inserts and other Add-ons. Let's make it bigger!

EXCLUSIVE BIG GREEN EGG DESIGN

The new Modular EGG Workspace is a kind of Lego for adults. It is designed in such a way that all the components can be combined and you can continue to expand.

If you want a large work surface, this modular system is just as versatile as the EGG itself. The configuration or style of your outdoor workspace can also be adapted to meet your taste and requirements.

EGG Frame

Start with the base: the EGG Frame. This includes a stainless steel grid level, hooks for your tools and 4 table leg levellers to stabilize the system on irregular surfaces. The top and legs are made of aluminium. To provide extra strength, the lower shelf frame and crossing beams are made of steel. You can also attach 10 cm castors underneath the legs.

76x76x77 cm	
2XL	121837
XLarge	120229
Large	120212

Expansion Frame

If you EGG regularly and are short on workspace, expand your working area using Expansion Frames, which you can embellish with all kinds of beautiful intermediate layers (inserts). Aside from the frame itself, it contains a Connector Pack (see chapter Add-Ons) and 4 levellers. Decide for yourself what intermediate layers you want to add. You can also attach 10 cm castors underneath the legs.

76x76x77 cm	
	120236

Expansion Frame Inserts

All inserts have the same dimensions, allowing you to organise your work-space to your own requirements and style. Stainless steel below and Acacia above? It's up to you. You can choose from a stainless steel grid insert, a stainless steel insert or an acacia insert. Too much choice? You can always switch after a while.

Stainless Steel Grid Insert

120243

Stainless Steel Insert

120274

Acacia Wood Insert

120250

Add-Ons: Connector Pack, Caster Kit and Tool Hooks

You can expand your workspace by using the Connector Pack, for instance, which you can use to attach your EGG Frame to your Expansion Frames. The Caster Kit contains two casters (1 locking) that you can use to raise your workspace 10 cm, as well as making it more mobile. And the Tool Hooks is a stainless steel rack with three hooks that you can attach to your frames, which means you have all your tools at hand. Let your creativity run wild!

Tool Hooks	120281
Caster Kit	120410
Connector Pack	120298

Table Nest

When using a Table Nest you are literally placing the Big Green Egg on a pedestal. It was specifically designed to support your EGG and to protect your table, cooking island or self-built outdoor kitchen against the release of heat. As an additional advantage, using the Table Nest will safeguard your table against burn marks.

Acacia Table

Nature will always do its own thing. Take the Acacia Table, for instance. This handmade table is made up of solid acacia planks with a natural grain and unique colouring. This means that every table is different. The Acacia Table will transform your Big Green Egg into a complete outdoor kitchen with sufficient space for your tools and dishes. Use the Table Nest to fit the EGG in the table and provide the necessary air circulation.

Tuck into Enjoy! magazine

Has the new ENJOY! arrived yet? This is what Big Green Egg fans eagerly look forward to every six months. Our Enjoy! Magazine is simply the tastiest magazine there is. The spring/summer and autumn/winter editions have managed to acquire quite a fan base and we hope that you will become one as well. In reading this magazine you will meet domestic and international chefs and taste their local flavours, devour themed reports and become acquainted with innovative cooking techniques that you can immediately put into practice. Be surprised by the tastiest recipes in which seasonal ingredients of the very best quality play the leading role. And have we already mentioned the breathtaking photography? Go and collect Enjoy! Magazine from Big Green Egg points of sale or enjoy reading the magazine digitally on your iPad via biggreenegg.eu. And be inspired!

ONLY THE BEST FUEL FOR YOUR EGG

The charcoal you use greatly affects the flavour of the dishes cooked in the Big Green Egg. For many top chefs, charcoal is one of the secret ingredients that contribute to the unequalled and characteristic Big Green Egg flavour. Which is why we had our very own Big Green Egg mix created. Premium Lump Charcoal is made of oak and hickory, and you can taste the difference. The 100% eco-friendly coals (with no chemical ingredients, aromas or flavourings) will quickly reach and maintain a high combustion temperature. The large pieces of charcoal burn slowly, generating very little ash - unlike many other types of charcoal - and they provide a subtle smoky flavour. One load of charcoal is enough to use the EGG at a constant temperature for an average of 8 to 10 hours. Can't wait to get started? Use the Charcoal Starters. These fire starters consist of compressed wood fibre which makes them clean, safe, odourless and easy to use.

Premium Lump Charcoal

Mission accomplished: our quest to find the perfect charcoal for the Big Green Egg. Premium Lump Charcoal is made of oak and hickory and you can taste this in the dishes you prepare. The coals will quickly reach a high temperature and remain at that temperature for a long time.

9 kg 390011
4,5 kg 110503

Charcoal Starters

You are off to a flaming start with Charcoal Starters when cooking on the EGG. You can safely ignite the charcoal in your Big Green Egg with them and they contain no lighter fluid or chemical additives. These fire starters are made from compressed wood fibres to avoid any penetrating taste or smell of petroleum.

24 pieces 120922

New

Charcoal EGGniter®

Brand new and already indispensable to every EGGer. The Big Green Egg Refillable Butane Charcoal EGGniter is a powerful mix of an adjustable burner and a blower. You ignite and boost the fire in the coals within a few minutes. This BBQ starter is quick, easy and safe. Baby, you can light my fire!

120915

SMOKING ON YOUR EGG? TALK ABOUT ADDICTIVE...

The technique of smoking takes Big Green EGGing into a totally new dimension. Once you've tasted that characteristic smoky and lightly wooded flavour, you'll be a fan for life. With the aid of a few tools you will quickly master smoking. Opt for Wooden Grilling Planks to place your ingredients on. First soak the cedar or alder plank in water, before placing it in your EGG. The heat combined with the moisture is what creates the smoky effect. Add an extra touch to your dishes by using the original Wood Chips. Mix the (soaked) wood chips into your charcoal or sprinkle a handful over it. Dependent on the dishes you prepare, you can opt for either hickory, pecan, apple or cherry. New to our assortment are the 100% natural Wood Chunks. These sturdy wood chunks have been extensively tested and approved by top chefs. Thanks to their size they are highly suited for the longer low and slow sessions. Opt for Apple, Hickory or Mesquite and move to the next gastronomic level.

Wood Chips

Each Big Green Egg chef has his own style. Give all your dishes a characteristic smoky flavour using the original Wood Chips. Mix the (soaked) wood chips into your charcoal or sprinkle a handful over it. Or do both; it's all a matter of taste. The same applies to the type of Wood Chips you may choose: hickory, pecan, apple or cherry.

Content- 2,9 L

- Hickory 113986
- Pecan 113993
- Apple 113962
- Cherry 113979

Wood Chunks

Extensively tested by Big Green Egg chefs. This premium range of 100% natural Wood Chunks is perfect for smoking and will continue to add a delightful aroma and rich flavour for quite some time. Opt for apple, hickory or mesquite and add a new and tasteful dimension to everything you prepare on the Big Green Egg.

Content - 9 L

- Apple 114617
- Hickory 114624
- Mesquite 114631

Apple: Fish, pork, white meat and poultry such as chicken and turkey.

Cherry: Fish, lamb, all kinds of game, duck and beef.

Pecan: Spicy smoked foods, especially classic American barbecue dishes.

Hickory: Fruit, nuts, beef and all types of game.

Wooden Grilling Planks

By using our Wooden Grilling Planks you can raise your cooking to the next level. Place the ingredients on the (water soaked) plank and then lay the plank on the grid of the Big Green Egg. The moisture will create a smoke effect. You can choose from cedar or alder wood Grilling Planks, each of which adds its own particular flavour.

Large 120731

EXPAND YOUR EGGSPANDER

The accessories with the EGGspander icon can be used in countless variations. Create your own perfect combinations!

Cast Iron Half Grid New
Are you a serious griller? Using the Cast Iron Half Grid, you can prepare salmon steaks, beef steaks and vegetables showing an enviable grill pattern. Perfectly seared on the outside, super tender on the inside. Half the cooking surface but all the taste.

XLarge 121233
Large 120786

Half convEGGtor Stone New
The Half convEGGtor Stone is nothing if not versatile. It can be used as an intermediate layer together with the one-piece convEGGtor basket if you want to cook directly and indirectly at the same time, or it can be used as a complete convection shield by placing two next to each other.

XLarge 121820
Large 121035

Perforated Half Grid New
Do you like to EGG delicate ingredients such as seafood and fish? Keep them intact with the Perforated Cooking Grid. Also ideal for finely chopped vegetables or asparagus, for example.

XLarge 121240
Large 120717

convEGGtor®

The convEGGtor functions as a natural barrier between your dishes and the open fire of your Big Green Egg. The special design of the convEGGtor ensures a good air flow and excellent heat conductivity. The indirect heat that passes through the ceramic heat shield transforms your EGG into a fully fledged outdoor oven. This is ideal for low & slow cooking where ingredients are gently cooked at a low temperature.

Cast Iron Satay Grill Expected

Satay is everybody's friend on the Big Green Egg. Therefore this Cast Iron Satay Grill has come along at just the right time. Marinate and skewer your favourite ingredients and put them on the specially designed half grid. No wobbling, half-cooked or flaming skewers, but nice and evenly cooking satay ... or kebab, or yakitori. Whatever you feel like!

Large	700485
-------	--------

Half Plancha Griddle

A cast iron plate with a dual roll: you can grill delicate or smaller ingredients on the ribbed side, whilst the smooth side is ideal for pancakes, crêpes or eggs. You still have one half available. Does anyone have any further wishes?

XLarge	116406
Large	104090

Cast Iron Plancha Griddle

Do you sometimes have ingredients fall through the gaps in the grid when cooking in your Big Green Egg? For this our range features the Cast Iron Plancha Griddle. You can grill small, delicate ingredients on the ribbed side of this cast iron plate, and pancakes or eggs on the smooth side.

2XL, XLarge, Large
 Ø35 cm [117656](#)

Cast Iron Plancha Griddle - Small

A new addition to the collection: the Cast Iron Plancha Griddle especially developed for the Big Green Egg MiniMax. You can grill delicate ingredients such as herb crusted fish fillets on the ribbed side. The other side is smooth and perfectly suited for pancakes and eggs. Do you have a Cast Iron Skillet or are considering getting one? You can also use the Cast Iron Griddle for the MiniMax as a lid for roasted, braised or stewed dishes prepared in the Skillet.

Available from the MiniMax onward
 Ø26 cm [120137](#)

Perforated Cooking Grid

The Perforated Cooking Grid prevents small or cubed vegetables, mushrooms or fruits de mer from falling through the openings of the grid of your Big Green Egg. Just place it on your grid. The small perforations ensure that the ingredients will still acquire that unequalled EGG flavour.

Cast Iron Skillet

With the Cast Iron Skillet it doesn't matter how much time you have on your hands. This cast iron all-rounder is perfect for quickly sealing meat or letting it braise or stew for hours on end. You could make sirloin steaks, Indonesian Rendang, a potato gratin or a casserole. Time to spare? You could also prepare a lovely dessert, such as a cobbler or clafoutis, in the Cast Iron Skillet.

2XL, XLarge, Large
 Ø36 cm [118233](#)

Cast Iron Skillet - Small

It was already part of the collection for its bigger brothers, but now, by popular request, there is also a Cast Iron Skillet for the Big Green Egg MiniMax. It is ideal for time-consuming dishes such as stews, braised meat and roasts, but also for sealing meat at lightning speed to preserve all the tasty juices. The Cast Iron Skillet is the perfect match for the Cast Iron Griddle. Here the Griddle functions as a lid for your roasting or braising pan.

Available from the MiniMax onward
 Ø27 cm [120144](#)

Cast Iron Sauce Pot with Basting Brush

You can heat up sauces and marinades or melt butter quickly and easily in the Cast Iron Sauce Pot on your Big Green Egg's grid. The silicon Basting Brush fits perfectly into the handle to prevent your table from becoming a mess. Are you planning to use your Cast Iron Sauce Pot in the EGG? Don't forget to remove the Basting Brush.

Cast Iron Dutch Oven

This cast iron all-rounder can be used for almost anything. The Big Green Egg Cast Iron Dutch Oven is ideal for stews, bubble and squeak, soups and one-pan dishes. The cast iron distributes the heat over the entire pan and the heavy lid of the Cast Iron Dutch Oven will prevent the liquid from escaping. Or use it without the lid to give all your ingredients that unique Big Green Egg flavour. No matter which option you choose, the braised meat will remain delightfully juicy and tender. Curious? Come back in about 4 hours...

5.2 L: 2XL, XLarge, Large, Medium
Ø27 cm [117052](#)

Half Moon Raised Grid

If space is what you need, you should go for it. And you do that with the Half Moon Raised Grid. When you place this raised grid on the grid of your Big Green Egg, you can enlarge your grilling surface in one go. It also increases the distance between the glowing charcoal and your dish, making the heat less direct. When using the Half Moon Raised Grid, place the included drip tray under the grid to collect the cooking liquid of the dishes on the grid.

Medium, Small
[101075](#)

Ribs and Roasting Rack

This multifunctional Ribs and Roasting Rack is ideal for cooking large roasts. In the upright position it's a V rack, suitable for large pieces of meat or (stuffed) poultry which needs to cook slowly. When you turn it around, it becomes the ideal rack for cooking spareribs. What gives great results here is the constant airflow around the rack. An absolute must for carnivores.

Dual Probe Remote Thermometer

Information is power. The wireless Dual Probe Remote Thermometer accurately measures the core temperature of your ingredients down to the finest degree, as well as the interior temperature of your Big Green Egg. The Dual Probe has 2 probes and a receiver that you keep with you. Once the desired temperature has been reached, the receiver will automatically alert you (up to a distance of 91 metres).

116383

Infrared Cooking Surface Thermometer

How about some laser gaming while you EGG? The Infrared Cooking Surface Thermometer has a precision laser that accurately measures the temperature of the cooking surface. Point the laser at the Baking Stone, Cast Iron Grid or Perforated Grid, for example, to check the temperature before adding the ingredients. This wireless infrared thermometer has a temperature range of 0°C to 427°C.

114839

Instant Read Digital Thermometer

You can't tell from the look of a chicken whether it's done or not. The Instant Read Digital Thermometer will eliminate any risks and you will always serve a properly cooked (and therefore safe) chicken dish. The same applies to other ingredients, of course. Insert the stainless steel probe of the Instant Read Digital Thermometer into the meat, fish or poultry and within seconds the core temperature will be displayed on the large LCD screen.

112002

New

Instant Read Digital Thermometer

Do you want your steak rare or medium? The Big Green Egg Instant Read Thermometer measures the core temperature so precisely that even medium rare is no longer a lucky guess. Because you don't want too much heat escaping from your Big Green Egg, you can read the temperature (up to 232°C) within 3 to 4 seconds. And if you turn the Big Green Egg Instant Read Thermometer while you measure the temperature, the display will turn along with you. Useful, covetable pouch included.

119575

EXACTLY THE RIGHT TEMPERATURE SECURES THE ULTIMATE FLAVOUR

New

Quick-Read Thermometer

Officially it is called the Big Green Egg Quick-Read Digital Food Thermometer. Which pretty much says it all. In a few seconds, it digitally reads the temperature of your leg of lamb or stuffed chicken. Accurate to the degree (up to 300°C!). Handy pocket size, and the handle serves as a storage case.

120793

2 Level Cooking Grid

Are you short of cooking surface? Then take things up a notch! That is the principle of the 2 Level Cooking Grid. This two-tier cooking grid made of chrome-plated steel doubles the cooking capacity of your Big Green Egg XLarge. This means twice as many delicious creations.

XLarge 201317

Folding Grill Extender

The key question: duck breast or short ribs? As there is no right or wrong answer, you can just go for both. The special Folding Grill Extender for your Big Green Egg will provide you with more than enough space. Before using it, simply attach this foldable stainless steel raised grid to the stainless steel grid of your EGG. And when you're done, you fold it back in.

EGGmitt®

Come on baby, light my fire (but use an EGGmitt). This extra long grill glove protects your left or right hand up to a temperature of 246°C. It has soft cotton on the inside and fire-resistant fibres on the outside, the type they also use in aviation. The silicon print ensures a great grip.

One size 117090

Silicone Grilling Mitt

The Silicone Grilling Mitt is a fully waterproof grill glove providing a non-slip grip thanks to the silicon print. The cuff and lining are made of a soft cotton-polyester. The Silicone Grilling Mitt can withstand temperatures up to 232°C.

One size 117083

Kitchen Towels

Being a true Big Green Egg perfectionist lies in the small details. The original Kitchen Towels, for instance, have an EGG green colour and display the text Big Green Egg. Apart from looking stylish, these towels are highly absorbent and are 100% fluff-free. Soft enough for the most delicate glassware yet tough enough to wipe your hands with.

3 x 116840

START YOUR OWN PIZZARIA AT HOME

Pizzas will become Italian masterpieces when baked in the Big Green Egg. Especially if you enlist the help of a number of tools that will make all pizza bakers go green with envy. Roll out your homemade pizza dough on the dough mat to create a perfect base and then bake it on a pizza stone for the tastiest result (including a crispy crust!). Do you like calzone pizzas? By using the Calzone Press you can fill your (homemade) pizza dough with your favourite stuffing and fold it double in one go. We also have very clever accessories for the presentation, such as tools to effortlessly cut the crispy baked and richly filled dough and place the slices on the plates just like the professionals do. Mangiare!

Measuring Cups

What are your favourite measures? The Big Green Egg set with Measuring Cups consists of 4 different measures, making it the ideal gift for every foodie. You can measure your ingredients perfectly with these stainless steel cups and make all your dishes picture-perfect. You can hang the Measuring Cups on the practical ring.

4x [119551](#)

Calzone Press

Gift-wrapped in a pizza calzone. How about that? You can make this folded Italian classic using the official Big Green Egg Calzone Press. Place your favourite filling on (homemade) pizza dough, fold double in the Calzone Press and let the EGG take care of the rest. You can also use it for filled pastries such as empañadas or mince pies.

Beer Can Chicken Roaster

Beer can chicken is one of those American classics where you place the chicken over an open and half full can of beer. While the chicken is cooking, the beer in the can evaporates, keeping the chicken tender and juicy inside. Does this sound difficult? Not when you use the Beer Can Chicken Roaster! This robust metal wire holder hugs the beer can in such a way that it can't tip over.

2XL, XLarge, Large, Medium, Small
[002099](#)

Vertical Poultry Roaster

Give your Poulet Noir or Bresse Chicken pride of place in your Big Green Egg by using the Vertical Poultry Roaster. The stainless steel Vertical Poultry Roaster keeps the chicken or turkey in a vertical position so it can baste itself with its own fat. This makes the meat incredibly juicy on the inside while creating a tasty and crispy crust on the outside. Now how cool is that? The Vertical Poultry Roaster is available for chicken (Chicken Roaster) or turkey (Turkey Roaster).

Chicken [117458](#)

Turkey [117441](#)

Ceramic Poultry Roaster

This turns a tasty chicken into an absolutely delicious chicken. Place a whole chicken or turkey on the Ceramic Poultry Roaster and it will obtain a crispy and golden brown skin on the outside, while becoming delightfully juicy on the inside. Would you like to add an extra touch of flavour? Fill the ceramic holder with some beer, wine, cider and/or spices. The result? Sheer perfection. The Poultry is available for chicken (Chicken Roaster) or turkey (Turkey Roaster).

FireWire Flexible Skewers

When using the FireWire Flexible Skewers, preparing satay or skewering other ingredients is a piece of cake. These flexible grill skewers allow for the quick skewering of pieces of meat, fish, poultry and vegetables without the risk of anything dropping off on the other side. Ready? Soak them in the marinade for a short while to add some extra flavour.

68 cm - 2x 201348

Bamboo Skewers

Preparing kebab, satay or yakitori on your Big Green Egg must be one of your favourite pastimes. Present your meat, fish, vegetable or fruit using these stylish Bamboo Skewers. Bamboo is eco-friendly, and therefore better for the environment. First soak the skewers in cold water for 30 minutes to achieve the best grill result.

25 cm - 25x 117465

Corn Holders

This is one of those inventions that puts a smile on your face. These Corn Holders will help you eat grilled corncobs when they are still warm. The Big Green Egg Corn Holders have double stainless steel pins and a soft-grip handle that you can easily hold without getting grubby fingers. No mess, just fun.

4 pair 117335

Grill Rings

Using the Grill Rings will prevent your (stuffed) peppers, tomatoes or onions from tipping over during grilling. The reason being that these stainless steel rings come with a pin to firmly secure your vegetables and fruit. The heat conducting coil in the middle of the Grill Rings ensures the quick and even cooking of the ingredients.

002280

Mini-Burger Slider Basket

Build-up of traffic in front of your Big Green Egg? The Mini-Burger Slider Basket will help you steer a hungry crowd in the right direction quickly and efficiently. This stainless steel slider basket can hold no less than 12 homemade mini-hamburgers or pasties. It also makes it easy to flip the burgers and serve them up.

2XL, XLarge, Large
002105

Stuff-A-Burger Press

Are your hamburgers absolutely delicious, but don't yet deserve a beauty prize? Then the Stuff-A-Burger Press is the perfect accessory to give your homemade burgers that gourmet look. Fill the plastic form with your favourite ingredients, gently press in and start grilling!

Ø 10,5 cm 114082

Teak Cutting Board

The Solid Teak Cutting Board from Big Green Egg is a vital part of any chef's kit. Each chopping board is a work of art: a coproduction between mother nature and a passionate craftsman. Simply cut the entrecôte, whilst the drip channel ensures that the meat juices don't end up on your beautiful tablecloth.

120632

Sauce Mop

Mopping becomes fun again with the Big Green Egg Sauce Mop. A marinade, glaze, rub or flavoured butter is a simple way of adding some extra flavour to all your fish, meat and vegetable dishes. This marinade brush is the ideal tool for spreading your flavours over your ingredients. Just rub it in!

Knife Set

The Knife Set will give each EGG fan a sharp edge. This design is an investment that immediately pays for itself. The ergonomic chef's knife with a 20 cm blade and the office knife with a 9 cm blade take care of both the rough and the refined. Good grip and optimal control.

117687

Meat Claws

Get your claws, sorry, your Meat Claws into the slow-cooked pork and effortlessly pull it apart. Pulled pork has been a Big Green Egg favourite for years, and with these Meat Claws you can do the job in no time at all. They are also extremely useful for handling big chunks of meat.

Set 114099

Stainless Steel Tool Set

You need the right tools for the job. The real Big Green Egg expert always keeps the Stainless Steel Tool Set at hand when EGGing. This stylish, 3-part set, made of stainless steel, consists of tongs, a spatula and a silicon brush. With this trio you can position, turn and marinate food safely and hygienically.

Set 116901
Tongs 116871
Spatula 116888
Brush 116895

Silicone Tipped Tongs

With the Silicone Tipped Tongs you've got everything right where you want it. Thanks to the silicon finish, these multifunctional stainless steel tongs have an excellent non-slip grip. You can effortlessly place your grilled food on your EGG, turn it over and remove it again, without making a mess or dropping anything.

40 cm 116864
30 cm 116857

Pigtail Meat Flipper

We would walk through fire to get our hands on the Pigtail Meat Flipper. This clever meat hook is ideal for turning over cuts of meat and poultry (such as steaks, cutlets and chicken legs) quickly and easily. The long stainless steel hook even enables you to flip at extremely high temperatures without coming too close to the fire or damaging the ingredients.

48 cm 201515

Kitchen Shears

The Kitchen Shears are ideal for all kinds of tasks related to cooking on the Big Green Egg. For example, you can divide a roasted chicken into neat pieces effortlessly using these stainless steel kitchen shears. You can also use them for cutting fins off your fish, scoring chicken fillets or cutting roulade strings.

120106

Chef's Flavor Injector

The one and only Big Green Egg Chef's Flavor Injector is a unique tool for adding flavour to meat and poultry. This larding needle ensures that marinades penetrate fully into the core of the meat, making it more tender and juicier. Mission accomplished.

119537

Grid Gripper

For a firm grip on the grid of your Big Green Egg you'd best use the Grid Gripper. It will make it easier to lift the grid to place or remove the convEGGtor, for example, or to remove the grid and clean it. It is also the ideal tool for lifting, emptying and replacing searing hot Drip Pans. And all this without dirtying your hands.

118370

Cast Iron Grid Lifter

Lower the grid lifter, rotate a quarter of a turn, clamp and lift. Lifting the hot and heavy Cast Iron Grid of your Big Green Egg, perhaps to place or remove the convEGGtor, is a hot job. However, the handy Cast Iron Grid Lifter will quickly take care of it for you. The plate under the handle of the Cast Iron Grid Lifter protects your hands against any rising hot air.

117205

Grid Scrubber

The Grid Scrubber will help you clean the grids, convEGGtor and Baking Stone of your Big Green Egg in no time at all - even when it's still hot, as the extra long handle will keep the heat at a distance. Although the Grid Scrubber will not make cleaning more fun, it will help you do it a lot quicker.

119469

Replacement

head - 2x 119483

Dual Brush Grid Scrubber

The Dual Brush Grid Scrubber is a handy tool for cleaning your grill grid (Stainless Steel Grid or Cast Iron Grid) and/or Baking Stone. It consists of two stainless steel scourers and an ergonomic handle. The two scourers make it possible to scrub your grid or stone twice as fast, which means that once you've finished cooking on your EGG, you can relax for longer before getting down to the clean up!

119476

Apron - Kids

What's learnt in the cradle lasts till the tomb. Let your mini chef help you with your EGGing and you will have an absolute blast. When wearing the Kids Apron, each child becomes a fully fledged outdoor cooking assistant with not a single grease stain on its clothes. The apron is in Big Green Egg green and will fit young EGGers up to approximately the age of 12.

The Big Green Egg Book

Each Big Green Egg foodie regards The Big Green Egg Book as his culinary bible. This tastefully composed book with a foreword by Dutch top chef Jonnie Boer describes all cooking techniques that can be applied in an EGG: baking, roasting, stewing, grilling, smoking and slow cooking. It covers both the basic preparations as well as the somewhat more challenging recipes that will inspire you to perform at your culinary best.

Wall-Mountable Bottle Opener

It is always Happy Hour at a Big Green Egg party. This makes the Wall-Mountable Bottle Opener made of robust cast iron the ultimate party gift for any EGG fan. You can open one beer after another using this practical wall model beer opener with its quirky EGG shape. It is very easy to screw the Wall-Mountable Bottle Opener onto your work table, outdoor bar or outdoor kitchen. The bar is open!

Tablecloth Weights

A genuine EGG fan will never be daunted by a stiff breeze. But what do you do when the tablecloth blows into the neighbours' garden? Clip the Big Green Egg Tablecloth Weights to the corners of your tablecloth for a firm hold. The tablecloth weights, shaped like mini EGGs, come in a set of 4 and are made from die-cast solid resin.

Magnetic Flexible LED Grill Light

On a mild winter evening or during a late-night EGG party, the Magnetic Flexible LED Grill Light will light up the darkness. This clever LED light is equipped with a flexible stem and a very powerful magnet at the end. Fit the lamp to the lid of your EGG and you will light up the entire grilling surface.

Big Green Egg Travel Trolley

This is how you travel in style like a real EGGer. The hard case suitcase is made from recycled PET bottles. It is a strong and lightweight suitcase, enabling you to take more kilos of luggage on board an airplane! The trolley includes a custom-made lined interior with two compartments, packing belts, 360 degree rotating wheels, and a TSA lock

#FOODBREAK

Do you take photos of your Big Green Egg dishes? You are not alone. More and more foodies are regularly taking food photos, to share these with the masses via Instagram and Facebook, but also to review them at a later date. However, social media is also a good channel for sharing experiences, renewed recipes and news items. Or to ask questions.
