SCIENCE-BASED SOLUTIONS

TRIPLE ACTION

LAWN FERTILIZER **PLUS**

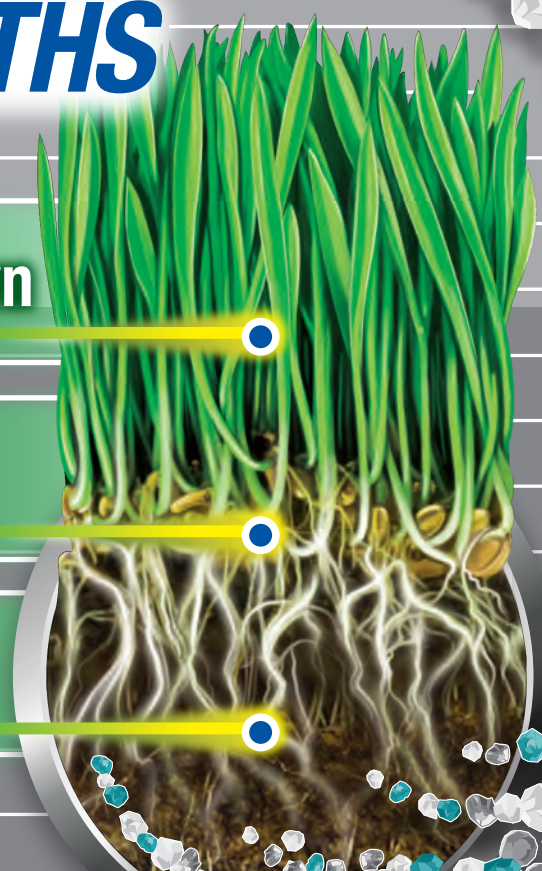

MEJORA LA NUTRICIÓN DEL CÉSPED EN TODOS LOS NIVELES HASTA 3 MESES

Improves Turf Nutrition
at EVERY LEVEL
up to 3 MONTHS

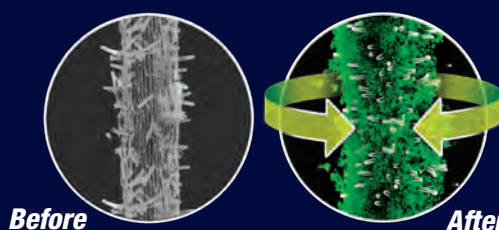

GRASS Greens, Thickens Lawn

ROOTS Builds Strong Roots

SOIL Feeds & Fortifies Soil

PLUS
MICRO-FEED ACTION™

TREATS UP TO
5,000 Sq Ft
NET WT 12 Lbs (5.45 kg)

30-0-4

USE ON **ANY TURF TYPE**

quickFACTS

HOW IT WORKS

- Nourishes & strengthens lawn at every level – grass, roots & soil
- Proprietary Micro-Feed Action™ improves turf nutrient uptake during and between feedings
- Provides quick green up
- Keeps feeding for up to 3 months
- Guaranteed not to burn

WHEN TO APPLY

- Apply to any type of grass when grass is actively growing
- Apply to wet or dry lawns

COVERAGE

- This bag treats up to 5,000 sq. ft.

BioAdvanced™ Triple Action Lawn Fertilizer Plus does more than meet your turf's basic nutritional needs. It feeds your lawn at every level. Plus, our Micro-Feed Action™ creates a more nutritious, resilient root zone environment. So your lawn will be better nourished during and between fertilizer applications. Use it on any turf type – Spring, Summer or Fall – to support more efficient feeding and greening that lasts up to 3 months. At BioAdvanced™ we put the science in your hands to more easily maintain a lawn that grows stronger and more beautiful over time.

**Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.*

DIRECTIONS FOR USE

BEFORE YOU USE

- Mow lawn first to ensure tall grass doesn't interfere with proper functioning of the spreader.

HOW TO USE

- **ADJUST** spreader to the proper setting (see Spreader Settings).
- **FILL** spreader.
- **APPLY** granules evenly over the lawn. To be sure you cover lawn areas uniformly, first treat the border of the lawn then fill in the center.
- If using a broadcast spreader, make sure each strip overlaps the previous strip to ensure complete coverage. (See Fig A.)
- If using a drop spreader, make sure the wheels overlap the wheel marks in the grass from the previous strip to ensure complete coverage. (See Fig. B)
- **SWEEP**, brush or blow any accidentally applied material off driveways, sidewalks etc. back on to the lawn.

Apply only to actively growing turf. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk, or street, back onto your lawn.

FOR BEST RESULTS

- To ensure uniform coverage on your lawn do not spread by hand.
- To speed plant absorption, lightly water the lawn after application.
- During extended periods of hot (above 90°F), dry weather, your lawn can become stressed and susceptible to burning. Watering after application is recommended under these conditions.
- For sustained feeding apply once every 3 months.

INDICACIONES DE USO

ANTES DE USAR

- Corte el césped primero para asegurarse que el césped alto no interfiera con el funcionamiento correcto del esparcidor.

CÓMO USAR

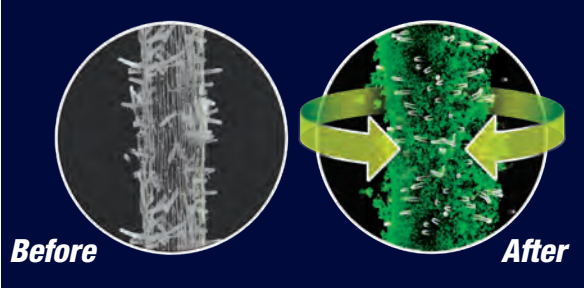

- **AJUSTAR** el rociador en el ajuste correcto (consultar Ajustes del rociador).
- **LLENAR** el rociador.
- **APLICAR** los gránulos de manera pareja sobre el césped. Para asegurarse de cubrir el área de manera uniforme, primero tratar el límite del césped y luego completar en el centro.
- Si usa un rociador rotativo, asegúrese de que cada franja pase por encima de la franja anterior para asegurar una cobertura completa. (Consultar Fig. A)
- Si usa un rociador por goteo, asegúrese de que las ruedas no pasen por encima de las marcas de las ruedas en el pasto de la franja anterior para asegurarse de realizar una cobertura completa. (Consultar Fig. B)
- **BARRA**, cepille o sople todo material aplicado accidentalmente fuera del camino, acera, etc. nuevamente hacia el césped.

Aplicar solo a césped en crecimiento activo. No aplicar cerca del agua, alcantarillas o zanjas de drenaje. No aplicar si se esperan lluvias copiosas. Aplicar el producto solo al jardín y barrer todo producto que quede en la entrada, acera o calle, de nuevo al jardín.

PARA MEJORES RESULTADOS

- Para asegurar una cobertura uniforme en su césped no esparza a mano.
- Para acelerar la absorción de la planta, riegue ligeramente el césped luego de la aplicación.
- Durante periodos extendidos de calor (por encima de 90°F), clima seco, su césped puede estresarse y volverse susceptible a las quemaduras. Se recomienda regar luego de la aplicación en caso de que estas condiciones estén presentes.
- Para fertilización sostenida aplicar una vez cada 3 meses.

PLUS MICRO-FEED ACTION™

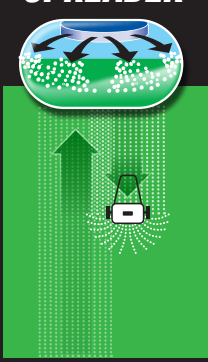

Creates a more nutritious,
resilient root zone
environment

SPREADER SETTINGS

If your spreader is not listed, please call our Consumer Service Hotline toll-free (877) 229-3724 for help.

- Settings are approximate. The condition of your spreader, the speed at which you walk and uneven terrain may affect the rate of application. Calibrate your spreader according to manufacturer's directions.
- **Tip:** 1,000 sq ft = 20 ft x 50 ft
- Do not use a spreader that applies granules in narrow, concentrated or uneven bands. Be sure the spreader works properly and spreads granules evenly.

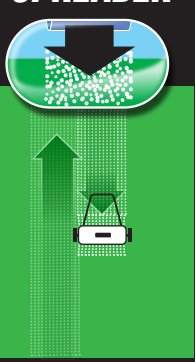

BROADCAST SPREADER

(Fig A.)

Make sure each strip overlaps the previous strip to ensure complete coverage.

DROP SPREADER

(Fig B.)

Make sure the wheels overlap the wheel marks in the grass from the previous strip to ensure complete coverage.

SETTING TO DELIVER 2.4lb/1000 sq. ft.

SPREADER	SETTING
Broadcast/ Rotary Spreaders	
Earthway Ev-N-Spread	16
Sta-Green	4 1/2
Scotts 2000	4 1/4
Scotts Mini	4 3/4
Scotts Deluxe Edge Guard	4 1/4
Scotts Edge Guard Pro	4 1/4

FIRST AID

CAUTION: KEEP OUT OF REACH OF CHILDREN
Eye contact with contents may cause irritation.
Flush eyes with water as soon as possible after contact.

PRIMEROS AUXILIOS

ADVERTENCIA: MANTENER FUERA DEL ALCANCE DE LOS NIÑOS
El contacto de los ojos con el contenido puede causar irritación.
Lavar los ojos con agua tan pronto como pueda luego del contacto.

STORAGE

Tightly close original container and store in a cool, dry place.

ALMACENAMIENTO

Cierre de manera segura el contenedor original y almacénelo en un lugar seco y fresco.
