

SPRINGSTAR<sup>®</sup> UZ

YOUR SUPPLIER OF THE  
**FINEST INSECT CONTROL PRODUCTS**

FOR YOUR  
HOME,  
GARDEN,  
& GREENHOUSE

## WHY SPRINGSTAR?

- ✓ Unique product lines that work better than the competition
- ✓ Double-digit sales increase throughout stores
- ✓ Products in the top 5 sales at key retailers
- ✓ Manufactured in the Pacific Northwest

**SpringStar is growing 30%+ annually with grassroots, end-customer support.**

SpringStar's vision is to change the way people think about pest control. Developed and tested by our own R&D team, SpringStar brings safe, high quality products to your home and garden. Our rigorous product testing has created the most complete line of nontoxic insect traps.

SpringStar's BioCare® and Trap-N-Kill® brands can be trusted to eliminate pests without fear of toxic side effects or damage to the environment.

All of our products are manufactured right here in the USA, at our own facility in Woodinville, WA. We follow strict quality standards, while meeting world class worker safety, environmental, and operating standards.

SpringStar's customer support extends through the value chain. We are here to assist distributors, retailers, and everyday customers. SpringStar guarantees that every commercial and retail customer will love our products, our service, and the value of our brands.

**Insect traps are not just an add-on to our lines. We Are The Trapping Experts.**

### Programs Include:

- Promotions
- Co-op Programs
- Retail Training
- Plan-O-Grams
- Scale Down Programs
- POP Merchandising
- Trade Advertising
- National Advertising
- Stock Balancing

Our research and design team has received multiple grants from the US Military, Washington Global Health, and the National Institute of Health for innovations in mosquito traps and other technologies. Our team has been awarded numerous patents and has published their results in peer-reviewed scientific journals. We collaborate with leading research universities around the world.

Reducing the impact of pesticides on the environment by developing biologically based control solutions and empowering community engagement.

**KEEP MOSQUITOES UNDER CONTROL  
SO VIRUSES DON'T GET OUT OF CONTROL**

Our 90+90+90+90 program = 360 degrees of mosquito control.  
People that spend 90 minutes in their yard with our products  
and programs, that get 90% of their neighbors involved,  
will get 90% mosquito control within 90 days.  
Nothing else does that.

**WE BECOMES MORE POWERFUL THAN ME**

We partner with communities worldwide, both online and on the ground, to support, educate, and provide tools for maximum impact. Our goal is to create a long lasting commitment to mosquito vector control.

# MOTH TRAPS

## Flour & Pantry Moth Traps

Item S202 - 2 units

- Attracts male moths that feed on grains and cereals
- Pheromone lure technology
- 2 traps cover up to 2,500 square feet
