100 million Black Jack brand impressions annually!

Black Jack continues to build its industry-leading Roof & Driveway Coatings and Sealers brand with a broad array of advertising and media activities that deliver more than 100 million brand impressions to our target end users.

And these numbers don't reflect hundreds of millions of additional brand impressions registered from customers using the products, looking up information on our website and our customers' websites, our store merchandising, and advertising our retailer partners provide on our behalf.

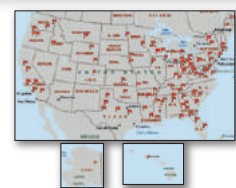

Black Jack continues its campaign with the nation's #1 home improvement radio program, **At Home with Gary Sullivan**. Broadcast on over **260+** radio stations and 24/7 on the **At Home with Gary Sullivan** iHeartRadio channel, Black Jack garners millions of impressions highlighted by a live interview at the National Hardware Show.

In addition to national DIY programming, Black Jack uses targeted ads in major asphalt markets to build the brand among heavy users. Another highlight of the Black Jack radio campaign included a spot airing in the Chicago Cubs live broadcast on WGN Radio.

TARGETED DRIVEWAY RADIO MARKETS

Chicago Boston Pittsburgh New Jersey DC/Maryland
New York Philadelphia Charlotte Indianapolis Virginia

3.8 million key market homeowner & 3.5 million avid do-it-yourself impressions!

Nationwide coverage with the Gary Sullivan radio network

If a picture is worth a thousand words, a video is priceless. There's no better way to showcase the best application techniques than through short educational videos. Black Jack promotes a variety of videos that highlight features and benefits, application tips and customer testimonials. Visit our YouTube channel to see for yourself.

Known for Quality Products Since 1913, the Black Jack brand continues to support that strong position with an aggressive contractor trade advertising campaign.

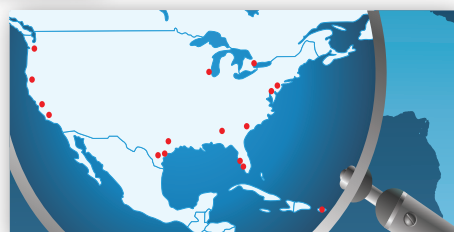

Roofing Contractor

Contractors know they can trust Black Jack to deliver quality and dependability. Black Jack makes it easier for pros to connect with building owners and that brings more jobs and repeat business. Go Black Jack!

USA, CANADA, PUERTO RICO & INTERNATIONAL distribution

Black Jack has a strong and growing reputation with Hispanic contractors. Black Jack is fully bilingual with our literature, labels, signage, and even our website available in multiple languages.

Driving Your Profitability

**TV SPONSORSHIP
ADVERTISING**

Black Jack also sponsors a fishing team for the **Madfin Tournament** series on **Outdoor Channel**. Brand exposure includes TV, Web and Social Media.

**SOCIAL MEDIA
MARKETING**

Black Jack has a growing presence across the world of social media in multiple languages. This allows us to reach our audience in a highly targeted and direct manner. Whether scoping out new product innovations or getting tips for future projects, end users follow Black Jack to keep up with the latest.

**INTERNET
ADVERTISING**

Black Jack banner ads have been featured on some of the highest-rated DIY sites on the web, including HGTV.com, DIYnetwork.com and DoItYourself.com.

The launch of **Driveway-Coatings.com** and **Roof-Coatings.com** as DIY destinations created thousands of new brand impressions.

More than 5 million actively searching DIYer impressions!

**MAGAZINE ADS
DO-IT-YOURSELF
SEGMENT**

Black Jack is the enduring choice professionals rely on to seal and protect roofs and asphalt driveways for more than a century. The DIYers count on Black Jack too. The Black Jack brand continues to engage with the DIYers segment through targeted advertising.

**MOBILE APP
TECHNOLOGY**

Consumers spend more than 3 hours per day on mobile devices, greater than the time spent on traditional computers. Users access Black Jack's mobile app to quickly find product data, locate the closest store to buy our products, and calculate just how much product is needed for projects. Download our app on the Google Play or Apple App Store to learn more.

**FLEET VEHICLE
ADVERTISING**

Black Jack's Fleet Vehicle Advertising Program creates tremendous brand exposure with more than 250,000 daily brand impressions in the nation's largest DIY markets.

70 million+ consumer impressions each year!

#99 NEOPRENE™

Super Flash® Cement

- Seals and protects a variety of surfaces
- Elongation - 250%
- Use in wet or dry conditions
- Flexible and watertight up to 30 years
- Outperforms plastic roof cement
- Repairs EPDM roofing

Black Jack® Neoprene™ Super Flash® Cement is a unique high-performance 100% rubber flashing and repair cement that cures to a long-lasting elastic seal. This product remains flexible through extreme temperature ranges. Its non-sag properties and exceptional adhesion guarantee that Super-Flash® is the ideal cement for the construction and repair of all roofs, flashings, parapet walls, coping and chimneys.

10 fl. oz.	#99 Neoprene™ Super Flash® Cement	1010-9-66	0-27134-10106-9
------------	-----------------------------------	-----------	-----------------

RUBR-SEAL

Rubberized Roof & Flashing Cement

- Stops leaks fast
- Longest lasting rubberized seal
- Best stick in wet or dry conditions
- Best for extreme weather conditions
- Ideal on flat vertical surfaces

Black Jack® Rubr-Seal Rubberized Roof & Flashing Cement is our best quality roof cement. This highly flexible product can be used year round in any weather conditions to stop and seal leaks. This high performance product provides an exceptionally long-lasting seal formulated to repair cracks, seams and holes in roofing materials. It is also designed to be used in new construction and in setting flashings, drip edges and other roofing edges. It seals and provides a rubberized layer of waterproofing protection. Dries black.

#57 RUBR-COAT

Premium Rubberized Fibered Coating

- Rubberized for superior performance
- Flexes to resist cracking
- Lasts twice as long as standard coatings
- Low odor, water clean-up

Black Jack® Rubr-Coat #57 is a premium rubberized coating for covering worn roofs or below grade foundations. This liquid applied asphalt coating has a blend of rubber and reinforcing fibers to provide a strong, flexible, weatherproof finish. Rubr-Coat has exceptional adhesion to most existing roofing membranes, masonry surfaces, wood, foam board insulation and metal surfaces. The addition of rubber enhances performance by improving crack resistance and life expectancy, and increases protection from the elements. Product is black in color. For roofs, this product is an ideal base coat for reflective white or aluminum coatings to be used over this product. On foundations, this product can also be used as a protective coating/adhesive for use on top of or under foam board insulation.

ETERNA-KOTE® ROOF COATING

Silicone+ Roof Coating

- Permanent leakproof seal
- Protects, reflects and cools roofs
- Rain safe in 15 minutes
- 100% Silicone rubber
- Primer and coating in one

Black Jack® Eterna-Kote® 100% Silicone Roof Coating is formulated to deliver superior waterproofing protection across many types of roof surfaces. This moisture-cure rubber coating forms a chemical bond to the roof surface, delivering exceptional adhesion and a permanent waterproof seal to almost any type of roof. Black Jack® Eterna-Kote® is a permanent solution on flat roofs and/or for areas that may pond water. The elastic finish will not crack and will last where other coatings fail. Ideal for hot or cool environments, Black Jack® Eterna-Kote® dries to a bright white finish which reflects UV rays and keeps roof surfaces cooler to help reduce cooling costs. Additionally, the high solids formula is quick setting, low odor and can be applied in a wide range of temperatures to allow for more application opportunities.

1 gallon	Silicone White Waterproofing Coating	5576-1-20	0-27134-55761-3
5 gallon	Silicone White Waterproofing Coating	5576-1-30	0-27134-55765-1

ETERNA-KOTE® ROOF PATCH

Silicone+ Roof Patch

- Seals and stops leaks
- Excellent flexibility
- Permanent waterproof seal
- Heavy duty repair

Black Jack® Eterna-Kote® Silicone Roof Patch is a heavy duty, white rubber sealant that provides the ultimate waterproofing protection from the elements. Use to make repairs and stop leaks on damaged roof areas. This product has exceptional adhesion and flexibility and is compatible with most building materials. In hot or cold climates, this waterproof seal will permanently stretch to prevent cracking and peeling.

1 quart	Silicone White Waterproofing Patch	5586-1-02	0-27134-55864-1

WATERPROOFING & SEAM TAPE

Permanently Stops Leaks

- Ideal waterproofer
- Seals seams & cracks on TPO, EPDM & Metal
- Bonds to wood, metal, masonry, plastic & roofing
- Fabric top is designed to be coated

Black Jack® Waterproofing & Seam Tape is a versatile and easy to use repair material for residential, commercial and industrial applications. Ideal for use on roofs, gutters, skylights, windows, doors, flashings, walls, foundations and many other surfaces, Black Jack® Waterproofing & Seam Tape seals immediately. This high tack material adheres to almost anything including metal, wood, fiberglass, plastic, HVAC, structural concrete, concrete block, brick, smooth BUR, smooth SBS, smooth APP, EPDM, TPO, Hypalon and PVC surfaces. Black Jack® Waterproofing & Seam Tape has a fabric-backed top and is designed to be coated with any roof coating or patch. This repair combination will provide a permanent repair.

----------	---------------------------	-----------	-----------------

SILVER-SEAL® 300

Fibered Aluminum Roof Coating- Solvent-based

- Provides solar protection, reflecting the sun’s rays
- Helps reduce roof temperatures
- Preserves and protects
- Brilliant aluminized finish

Black Jack® Silver-Seal® 300 is a liquid applied coating that forms a reflective and protective finish to roofs. This blend of asphalt and aluminum forms a bright silver finish that reflects heat and UV rays. (Restricted from use in CA and some other areas).

1 gallon	Silver-Seal® 300 Aluminum Coating	5175-A-34	0-27134-51751-8
5 gallon	Silver-Seal® 300 Aluminum Coating	5175-A-30	0-27134-51755-6

ALL-WEATHER ROOF CEMENT

Asphalt Cement for Roofs

- Use in wet or dry conditions
- Seals cracks and splits on worn roofs

Black Jack® All-Weather Roof Cement is an asphalt-based roof patch designed to repair cracks, seams and holes in roofing materials. It seals damaged areas and gives a layer of waterproof protection. Dries black.

10 fl. oz.	All-Weather Roof Cement	2172-9-66	0-27134-21726-5

ROOF & FOUNDATION COATING

Fibered Liquid Asphalt Coating - Water-based

- Coats roof and masonry surfaces
- Renews worn roof surfaces
- Great for foundations
- Odorless, water cleanup

Black Jack® Roof & Foundation Coating is a liquid applied, asphalt-based coating. It is designed to penetrate and seal worn roof surfaces, foundation block walls, above or below grade and other masonry roof surfaces. Coating will weatherproof and help seal surfaces. Can also be used to coat and protect underground wood footings and metal surfaces. Dries black in color.

1 gallon	Roof & Foundation Coating (water-based)	6190-9-34	0-27134-61901-4
5 gallon	Roof & Foundation Coating (water-based)	6190-9-30	0-27134-61905-2

ROLL ROOFING ADHESIVE

Cold Process Liquid Adhesive

- For adhering built-up roofing sheets
- Excellent for bonding selvedge edge roofing
- Brush/notched squeegee application

Black Jack® Roll Roofing Adhesive is designed for capping old roofs or installing new roofs. It is used to bond the asphaltic layer of roofing membranes to the base layer, or second ply, of asphaltic roofing membranes. It is also used to adhere roofing sheets and non-rubber membranes to properly prepared old roofs or to the roofing deck. This cold process asphalt adhesive may be used with smooth surface roofing membranes. It is also recommended for laying fiberglass roofing sheets and is excellent for bonding selvedge edge or half lap roofing. Do not use with 15 and 30 lb. roofing felts.

1 gallon	Roll Roofing Adhesive	6150-9-34	0-27134-61501-6

ROOF & FOUNDATION COATING

Fibered Liquid Asphalt Coating - Solvent-based

- Resaturates, penetrates and protects dried-out asphalt roofing
- Dampproofs and protects foundations

Black Jack® Roof & Foundation Coating is a fibered liquid applied, brushable, asphalt-based coating designed to seal and protect worn roof surfaces. This coating can also be used to dampproof and protect exterior foundation walls. (Restricted from use in CA and some other areas).

1 gallon	Roof & Foundation Coating (solvent-based)	6125-9-34	0-27134-61251-0
5 gallon	Roof & Foundation Coating (solvent-based)	6125-9-30	0-27134-61255-8

FOUNDATION & ROOF COATING

Non-Fibered Asphalt Coating - Solvent-based

- Dampproofs - provides a barrier against moisture
- High penetrating
- Ideal for masonry surfaces

Black Jack® Foundation & Roof Coating is an asphalt-based coating that helps protect exterior below grade surfaces from moisture penetration. This product has a “paint-like” consistency so it can be used on below grade concrete block and poured foundations, fence and deck posts, retaining walls, and metal surfaces. This coating can protect and prolong the life of these objects, offering protection to help resist damage and deterioration due to moisture. Proper application of this product can add lasting protection and preservation to many below grade surfaces. Product dries to a black color. (Restricted from use in CA and some other areas).

5 gallon	Foundation & Roof Coating (solvent-based)	6025-9-30	0-27134-60255-9

SUPER CLEAR

Clear Flexible Sealant

- Stops leaks and seals
- Flexible rubber seal
- Clear, invisible repair
- Use in wet or dry areas
- Interior/exterior
- Wide application range, 0 °F to 110 °F

Black Jack® SUPER CLEAR is a crystal clear, flexible sealant and adhesive. It is an extremely versatile product and has tremendous adhesion to most building materials. The cured seal is extremely durable, elastic, UV stable and 100% waterproof. Stops water, moisture and air leaks. Use on most projects including roofs, gutters, siding, doors, windows, RV's, HVAC, PVC, fiberglass, masonry and metal. Adheres to wet/damp surfaces and is paintable.

10 fl. oz.	Super Clear	0299-GA	0-25056-02990-4
1 quart	Super Clear	0294-GA	0-25056-02944-7

DYNO-WHITE

Heavy Duty Fibered White Roof Cement

- Bright white finish
- Stops roof leaks
- Tough flexible repair
- Fiber reinforced for strength

Black Jack® Dyno-White is an extra tough, flexible repair compound designed to patch splits, cracks and holes in roof surfaces. This thick water-based patch dries quickly to a rubberized surface which offers great adhesion to all coatings applied over it. It is designed to repair cracks and holes up to 2" in width. Dyno-White remains flexible while it expands and contracts with your repair, making it ideal to use with waterproofing seam tape and all reflective roof coatings.

1 gallon	Dyno-White Heavy Duty Roof Cement	5228-1-20	0-27134-52281-9
----------	-----------------------------------	-----------	-----------------

ROOF-PATCH

White Elastic Crack Sealer & Repair

- Stops leaks
- Long-lasting flexible repair
- Best patch for white or aluminum coatings
- Use with reinforcing fabric

Black Jack® White Roof-Patch is a flexible repair compound designed to patch splits, cracks and holes in roof surfaces. This water-based patch dries quickly to a non-tacky surface which offers great adhesion to all coatings applied over it. It is designed to repair cracks and holes up to 1" in width. Roof-Patch should be used with seam and repair fabric. Roof-Patch remains flexible while it expands and contracts with your repair, making it ideal to use with all reflective roof products.

1 gallon	White Roof-Patch	5227-1-20	0-27134-52271-0

ELASTO-KOOL® 1500

15 yr. White Ceramic Elastomeric Coating

- Brightest white reflective finish
- Enhanced with ceramic beads
- Self-priming
- Superior "cooling effect" in hot climates
- Urethane+ for ultimate durability
- Self-cleaning to stay white longer

Black Jack® Elasto-Kool® 1500 is our best quality white elastomeric roof coating. By enhancing the product with urethane, it's water resistance, adhesion and life expectancy are greatly increased. Then to improve the product further, we added high strength ceramic beads to increase durability and long-term performance. This product is an extra bright white color which reflects the sun's rays and helps block heat gain on roof surfaces. By reflecting the heat gain away from the roof, buildings can become more energy efficient with reduced cooling expenses.

5 gallon	Elasto-Kool 1500 Elastomeric Coating	5532-1-30	0-27134-55325-7
----------	--------------------------------------	-----------	-----------------

ELASTO-KOOL® 1000

10 Year White Siliconized Elastomeric Roof Coating

- Potential to save \$ by lowering cooling costs
- Flexes up to 300% to resist cracking
- Silicone+ improved longevity & adhesion
- Protects roofs for extended life
- Bright finish for improved aesthetics
- Great for metal, tile or BUR roofing

Black Jack® Elasto-Kool® 1000 White Siliconized Elastomeric Coating is our top quality, highly flexible, white acrylic roof coating. By enhancing the product with silicone, water resistance, adhesion and life expectancy are greatly increased. This high performance product resists cracking and peeling while offering tremendous durability and long term life. It expands and contracts up to 300% with the roof's movement to resist damage. The coating provides an excellent, highly protective barrier which reflects the sun's heat and destructive UV rays. In turn, this helps to cool roof surfaces and can lead to a potential reduction of interior temperatures.

1 gallon	Elasto-Kool 1000 Elastomeric Coating	5530-1-20	0-27134-55301-1
5 gallon	Elasto-Kool 1000 Elastomeric Coating	5530-1-30	0-27134-55305-9

ELASTO-KOOL® 700

7 Year White Elastomeric Roof Coating

- Potential to save \$ by lowering cooling costs
- Flexes up to 250% to resist cracking
- Protects roofs for longer life
- Good for metal, tile or BUR roofing

Black Jack® Elasto-Kool® 700 White Elastomeric Coating is a quality, highly flexible, white acrylic latex roof coating. This high performance product resists cracking and peeling while offering tremendous durability and long term life. It expands and contracts up to 250% with the roof's movement to resist damage. The coating provides a protective barrier which reflects the sun's heat and destructive UV rays. In turn, this helps to cool roof surfaces and leads to a potential reduction of interior heat gain.

DRIVE-MAXX® 1000

Premium Filler & Sealer - 10 year

- Extended Application technology, apply 45°F to 99°F
- Advanced gel, faster & E-Z to apply
- Fast dry, foot traffic ready in 1 Hour*
- Urethane enhanced, delivers longest life
- UV protected, stays black longer

Black Jack® Drive-Maxx® 1000 is the best quality rubberized blacktop filler and sealer designed for asphalt pavements. This product renews the look of old worn driveways and contains sand particles to fill in small cracks. Drive-Maxx® 1000 is enhanced with a latex polymer to deliver maximum performance, unmatched durability and the best looking finish. The combination of Gel and Fast Dry Technology provide a fast and easy installation, plus the ability to open your driveway to foot traffic in just one hour (in good drying conditions). Drive-Maxx® 1000 with Extended Application technology accelerates drying time and also allows for product to cure in cooler temps down to 45°F. Under normal drying conditions, (temperatures above 75°F, clear sunny skies, and humidity below 35%) this driveway sealer can be open to foot traffic in just 1 hour after application. (For vehicle traffic, you must allow 24 hours for product to completely cure.)
