BOERBOEL®
Gate Solutions

Solid. Simple. Secure.™

BOERBOEL®
Gate Solutions

Behind the Dog

Like a loyal friend, our products are solid, simple and secure and can be just as trusted to keep your home safe. Boerboel® is the dependable choice to complete your gate project, making security easy while maintaining an aesthetic balance.

Boerboel® is Always on Duty.

The Trusted **Companion**

Quality
Boerboel® products are strong and secure, and performance tested for long term use.

Each hinge undergoes vigorous cycle testing to ensure it can withstand a lifetime of openings at full self-closing weight.

Our superior performance coatings are salt spray tested to meet or exceed ASTM B117 standard requirements.

Ease of Installation
With DIY-friendly products that are easy to install and operate, Boerboel has everything you need to turn any fence panel into a fully operating gate. Products featuring Tension Control Technology offer easy adjustability for gate functionality.

Versatile
Product options available for use with many different material choices: vinyl, aluminum, steel, wood, chain link and farm fencing.

Multi-Faceted Designs
Each hinge works with different gate uprights, post sizes and gate widths and heights.

Aesthetically-Pleasing
On-trend designs with hidden fasteners will make your gate look great. Unique product features, like decorative covers on the heavy-duty hinges, allow you to customize the look of your gate to your personal style.

Strength
Boerboel products are designed to hold the heaviest gates and to withstand a lifetime of openings.

BOERBOEL®
Gate Solutions

Use these guidelines to help select the appropriate gate solution for your needs. Boerboel® products are offered in a variety of ranges to support various sizes and weights of gates. The table on page 5 is a great tool that shows all the products we offer. This at-a-glance chart shows which gate material works best with our products.

Choosing your **Gate Solution**

Factors to Consider

There are a few factors to keep in mind when purchasing your Boerboel® Gate Solution. To ensure the correct selection, please consider the width and weight of the gate itself, the type of material the gate is made of and the upright and post sizes that will be supporting your gate.

Grades

Our products are listed below and categorized by which type of gate material they work best with. Our products are also categorized by grade: Heavy-Duty, Standard and Compact; refer to the type of resistance the product will support from the gate itself.

BOERBOEL®
Gate Solutions

Use these steps to help select the appropriate gate solution for your needs. Boerboel® products are offered in a variety of ranges to support various gate materials and styles.

Boerboel products feature technologies which allow them to adapt to and enhance any fencing project.

Steps to help **Start Your Project**

1 Hinge Options:

Consider Gate Weight

0-25 lbs | 25-50 lbs | 50-75 lbs | 75+ lbs

Consider Fence Material

Vinyl

Wood

Metal

2 Latch Options:

Latches can feature one or more of the following features:

- Self-closing
- Self-latching
- Key locking
- Accepts padlock
- Meets pool safety codes
- Two-sided entry

3 Accessories:

Add gate springs, handles and more as needed.

Identifying The **Technology**

Tension Control
Horizontal Adjustment
Vertical Adjustment

Boerboel® hinges offer 3 way adjustability, including Tension Control Technology, to control the speed at which your gate swings closed.

Self-Closing
Self-Latching

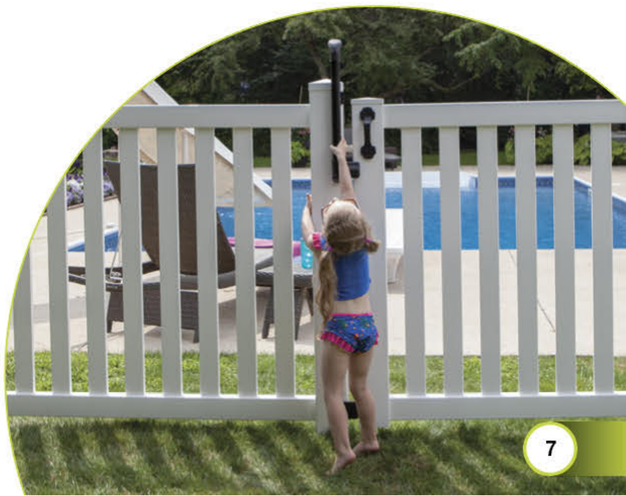
Self-closing hinges and self-latching latches are a worry-free way to ensure your gates securely close and latch behind you, every time.

Key-Lockable
Accepts Padlock

Lockable latches provide extra safety and security to your yard.

Meets Pool Safety Codes

Must be used with a pool code approved latch, self-closing hinges and installed at required height specified per local building code. Always refer to all local building codes prior to use.



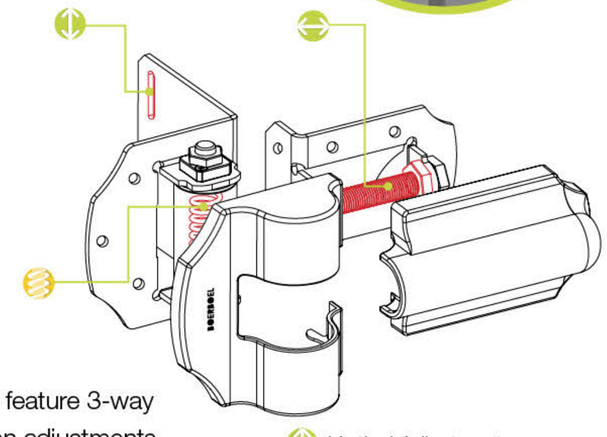
Wrap Hinges

BOERBOEL®

Innovation

TENSION CONTROL TECHNOLOGY,
the Boerboel® advantage that allows you to customize the resistance and speed of your gate closure.

Boerboel wrap and chain link/farm hinges feature 3-way adjustability: vertical, horizontal and tension adjustments. It's the perfect solution for a balanced gate.



- Vertical Adjustment
- Horizontal Adjustment
- Tension Control Technology
- Self-Closing
- Meets Pool Safety Codes*

*Must be used with a pool code approved latch, self-closing hinges and installed at required height specified per local building code. Always refer to all local building codes prior to use.
