NO LEAD BRONZE ADAPTERS (cont'd)

FEMALE UNION ADAPTERS

- Union connectors for easy installation of inlet line (pump) and discharge (house)
- Available in barbed (poly pipe) and solder configurations
- Insert, pex and solder connections available. The solder connection is designed for 1" Type L copper pipe only (external) and 3/4" Type K, L & M copper pipe (internal)
- American Standard BUNA N O-ring used to ensure watertight connection
- Replacement O-rings available

February 25/19

MARINE GRADE - ALL STAINLESS HOSE CLAMPS - SERIES 87

- 5/16" 305 Stainless Steel Slotted Hex Head Screw
- 300 Series Stainless Steel Band and Housing
- 1/2" Wide Band
- All Packaging Is Bar Coded

NOTE: STAINLESS STEEL CLAMPS MUST BE ORDERED IN BAG/CARTON QUANTITIES. BULK CLAMPS MUST BE ORDERED IN CASE QUANTITIES.

Series 87: 300 SS Band/300 SS Housing/305 SS Screw

The 300 (Series 87) contains a high content of nickel providing strong corrosion resistance and is suitable for outdoor use with no shielding.

305 Screw (Series 87) vs. 410 Screw (Series 67)

The 305 screw (Series 87) has a high content of nickel. The 410 (Series 67) offers no nickel content. Type 305 (Series 87) when finished could be used where a non-magnetic material is required, where as the 410 (Series 67) cannot. The 305 (Series 87) screw rod is resistant to atmospheric corrosion and many organic chemicals and a wide variety of inorganic chemicals, while the 410 (Series 67) typically will resist corrosion in only light industrial and domestic environments.

ALL STAINLESS STEEL HOSE CLAMPS - SERIES 67

- 5/16" 410 Stainless Steel Slotted Hex Head Screw
- 300 Series Stainless Steel Band and Housing
- 1/2" Wide Band
- All Packaging Is Bar Coded

**NOTE: STAINLESS STEEL CLAMPS
MUST BE ORDERED IN
BAG/CARTON QUANTITIES.
BULK CLAMPS MUST BE ORDERED
IN CASE QUANTITIES.**

305 Screw (Series 87) vs. 410 Screw (Series 67)

The 305 screw (Series 87) has a high content of nickel. The 410 (Series 67) offers no nickel content. Type 305 (Series 87) when finished could be used where a non-magnetic material is required, where as the 410 (Series 67) cannot. The 305 (Series 87) screw rod is resistant to atmospheric corrosion and many organic chemicals and a wide variety of inorganic chemicals, while the 410 (Series 67) typically will resist corrosion in only light industrial and domestic environments.

STAINLESS STEEL HOSE CLAMP WITH CARBON STEEL SCREW - SERIES 77

- 5/16" Yellow dichromate plated carbon steel slotted hex head
- 300 Series Stainless Steel Band and Housing
- 1/2" Wide Band
- All Packaging Is Bar Coded

NOTE: STAINLESS STEEL CLAMPS MUST BE ORDERED IN BAG/CARTON QUANTITIES. BULK CLAMPS MUST BE ORDERED IN CASE QUANTITIES.

The combination of the high nickel content of the 300 series stainless steel and the plating of the carbon steel screw allows this hose clamp to be used in above ground outdoor and indoor applications where corrosion is somewhat of an issue. The yellow coloured screw allows for easy identification against an ALL stainless steel clamp. Used for all standard clamp applications.

MARINE GRADE - ALL STAINLESS HOSE CLAMPS - BII SERIES 2-87

- 5/16" 304 Stainless Steel Slotted Hex Head Screw
- 300 Series Stainless Steel Band and Housing
- 1/2" Wide Band
- All Packaging Is Bar Coded

NOTE: STAINLESS STEEL CLAMPS MUST BE ORDERED IN BAG/CARTON QUANTITIES. BULK CLAMPS MUST BE ORDERED IN CASE QUANTITIES.

Series 87: 300 SS Band/300 SS Housing/304 SS Screw

The 300 (Series 87) standard grade of steel is used as a high performance alternative to the 200 (67 Series) standard grade of steel. The 300 (Series 87) contains a high content of nickel providing strong corrosion resistance and is suitable for outdoor use with no shielding.

ALL STAINLESS STEEL HOSE CLAMPS - BII SERIES 2-67

- 5/16" 200 Stainless Steel Slotted Hex Head Screw
- 200 Series Stainless Steel Band and Housing
- 1/2" Wide Band
- All Packaging Is Bar Coded

NOTE: STAINLESS STEEL CLAMPS MUST BE ORDERED IN BAG/CARTON QUANTITIES. BULK CLAMPS MUST BE ORDERED IN CASE QUANTITIES.

Series 67: 200 SS Band/200 SS Housing/200 SS Screw

The 200 standard grade of steel is used as an inexpensive alternative to the 300 standard grade of steel. The 200 series contains less nickel reducing its corrosion resistance when compared to the 300 series. The 200 series is best suited for mild, corrosive environments such as indoor use or shielded areas. User should avoid highly corrosive environments with 200 standard grade of steel.

STAINLESS STEEL HOSE CLAMP WITH CARBON STEEL SCREW - BII SERIES 2-77

- Yellow dichromate plated carbon steel slotted hex head
- 200 Series Stainless Steel Band and Housing
- 1/2" Wide Band
- All Packaging Is Bar Coded

NOTE: STAINLESS STEEL CLAMPS MUST BE ORDERED IN BAG/CARTON QUANTITIES. BULK CLAMPS MUST BE ORDERED IN CASE QUANTITIES.

The combination of the high nickel content of the 200 series stainless steel and the plating of the carbon steel screw allows this hose clamp to be used in above ground outdoor and indoor applications where corrosion is somewhat of an issue. The yellow coloured screw allows for easy identification against an ALL stainless steel clamp. Used for all standard clamp applications.

FLEXIBLE COUPLINGS

Flexible couplings for joining dissimilar pipe materials and/or sizes in utility, municipal and plumbing applications, including sewer, drain, waste and vent (DWV) piping applications. Couplings fit over the ends of plain-end or spigot pipe to form a positive seal against infiltration and exfiltration in non-pressure environments. Excellent dimensional flexibility with a tolerance range of approximately $\pm 5\%$ nominal diameter which allows the coupling to flex with normal earth movement and ensures leak proof seals.

- Flexible elastomeric polyvinyl chloride (PVC) manufactured in compliance with ASTM C564
- Marine Grade 300 series stainless steel clamp UPC Certified to ANSI / SAE J-1670 Standard by IAPMO
- Couplings are marked with both size and pipe materials for easy identification and installation
- Clamps tighten easily with a slotted screwdriver, 5/16" nut driver or socket torque driver set to 60 inch pounds
- Maximum Test Pressure: 4.3 psi (29.6 kPa) • Maximum Operating Temperature: 140°F (60°C)
- UPC Certified to ASTM C1173 & CSA B602 Standards by IAPMO

FLEXIBLE END CAPS

Flexible end caps or test caps are low cost and reusable caps designed to fit schedule 40 nominal pipe sizes in drain, waste and vent (DWV) piping applications. The caps offer a quick and easy way to terminate pipe ends and cleanouts. The convex face allows the cap to withstand greater pressure for testing and minimize ballooning. Available with and without a hose bibb. End caps with hose bibb allow for filling, pressurizing and easy drainage of water in DWV system testing.

- Flexible elastomeric polyvinyl chloride (PVC) manufactured in compliance with ASTM C564
- Marine Grade 300 series stainless steel clamp UPC Certified to ANSI / SAE J-1670 Standard by IAPMO
- Maximum Test Pressure: 4.3 psi (29.6 kPa)
- Maximum Operating Temperature: 140°F (60°C)
- UPC Certified to PS90-2006 & CSA B602 Standards by IAPMO

FLEXIBLE ELBOWS AND TEES

Flexible elbows and tees manufactured from elastomeric PVC provide a quick flexible connection for above ground applications of drain, waste and vent piping. Easily installs in confined spaces and will fit repair jobs where a fitting has been cut out.

- Flexible elastomeric polyvinyl chloride (PVC) manufactured in compliance with ASTM C564
- Marine Grade 300 series stainless steel clamp UPC Certified to ANSI / SAE J-1670 Standard by IAPMO
- Maximum Test Pressure: 4.3 psi (29.6 kPa) • Maximum Operating Temperature: 140°F (60°C)
- UPC Certified to IGC 198-2004 & CSA B602 Standards by IAPMO

FLEXIBLE PLUMBING CONNECTORS

Flexible plumbing connectors offer a quick and economical solution for 1-1/4" or 1-1/2" metal or plastic tubular drain, waste and vent (DWV) piping connections. Can be used to extend, repair or adapt tubular drain pipe to common household drain, waste and vent pipe.

- Flexible polyvinyl chloride (PVC)
- 300 series stainless steel clamp

PART NO.	PART DESCRIPTION/ CONNECTION SIZES	DIMENSIONS				QTY CASE	LIST PRICE-A
		A IN	B IN	C IN	D IN		
Coupling							
FRQTC-15	1-1/2" or 1-1/4" Tub. x 1-1/2" or 1-1/4" Tub.	1.50	1.50	2.36			3.91
Drain and Trap Connector							
FRQDTC-15	1-1/2" C.I./PL x 1-1/4" or 1-1/2" Tub.	1.90	1.50	2.30			4.00

Washing Machine Hose Connector							
FRQWMC-2015	2" or 1-1/2" C.I. / Plastic	2.20	1.50	1.27			3.59

Note: These products are not tested or certified by IAPMO to ASTM, CSA, IGC or PS90 standards.

SHIELDED TRANSITION COUPLINGS

Shielded couplings for joining dissimilar cast iron, copper, plastic and steel pipe and fittings in drain, waste and vent (DWV) piping applications.

- Flexible neoprene gasket manufactured in compliance with ASTM C564
- Maximum Test Pressure: 4.3 psi (29.6 kPa)
- UPC Certified to ASTM C1277 & CSA B602 Standard
- 300 series stainless steel clamp and shield
- Maximum Operating Temperature: 140°F (60°C)

** For 3" Cast Iron to 3" Copper only.

NO HUB - "MJ" MECHANICAL JOINT COUPLINGS

Shielded couplings for joining hubless cast iron pipe and fittings in drain, waste and vent (DWV) piping applications.

- Beaded elastomeric gasket manufactured in compliance with ASTM C564.
- Maximum Test Pressure: 4.3 psi (29.6 kPa)
- UPC Certified to ASTM C1277 & CSA B602 Standard
- 300 series stainless steel clamp and corrugated shield
- Maximum Operating Temperature: 140°F (60°C)
