# FIRE PIT COVER INSTRUCTIONS

## INSTRUCTIONS

1. Wait until your Breeo® fire pit is completely cool before putting the Breeo fire pit cover on.
2. Pull the cover down over the sides of the fire pit as far as possible.
3. Make sure that the cord section of the cover is down around the rim of the fire pit.
4. Pull the draw string cord tight around the bottom of the fire pit rim. Push on the cord lock to keep the cover secure around the fire pit.

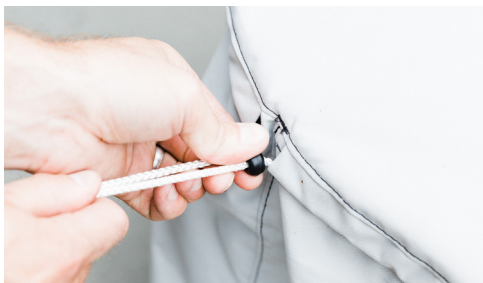

## CARE

While the Breeo® fire pit cover is designed to be easy to maintain, proper care and cleaning are important to the life of all fabrics. Retreating the fabric annually with products such as 303® or NeverWet® to restore water repellency is recommended (but not required) to yield best performance.

### For normal care and cleaning:

1. Add 2 ounces of mild soap dishwashing liquid to 1 gallon of lukewarm water.
2. Clean the fabric with a soft bristle brush.
3. Rinse thoroughly with cold water and air dry.

## FOR YOUR SAFETY

*To avoid any damage to your fire pit cover, we recommend waiting until your fire is out and the Breeco® fire pit is completely cool before putting on the fire pit cover to avoid any melting or damage to the fabric.*

This fire pit cover is designed for outdoor use only.
