Broil King® Model Comparison	34

Proudly made in North America and sold and loved worldwide, Broil Kings are designed for great cooking performance and authentic barbecue flavour. Broil King NZ is a family-owned business with a BBQ-loving team based in sunny Nelson. More BBQ'ing means more quality time and more social connections forged, so we're here to give you all the inspiration and support needed to make this happen. Buy your Broil King from one of over 70 retailers New Zealand-wide. Find yours at broilking.co.nz

WHY CHOOSE Broil King®

Broil Kings are designed to eliminate typical barbecue problems.

So you can enjoy more time socialising with your friends and family, sharing delicious BBQ food they'll absolutely rave about.

*Porta-Chef and Gem models have standard tube burners. Features like rear rotisserie burner, backlit control knobs, side burner and condiment shelves vary by model.

OPTIMUM COOKING CONDITIONS.

Incredibly Hot

- Broil Kings retain heat because there are no large gaps in the cookbox for wind to enter or heat to escape
- Designed for lid-down cooking to keep heat in and to infuse food with more moisture and flavour

Even Heat Distribution

Achieved through Broil King's patented Dual-Tube™ burners, which feature:

- Unique inner tube that ensures gas flows and ignites evenly along the entire length of the burner for even heat front to back
- Two rows of flames (one on each side) instead of the typical single row on top to create even heat side to side and to prevent fats and juices dripping into the burner ports

No Hot or Cold Spots

- Because the burners produce incredible heat, and distribute it evenly, you can cook anywhere on your grill surface
- No more food shuffling. No more inconsistent results

MOUTHWATERING FLAVOUR.

Reversible Grids for Searing and Basting

- Use the pointed side to create perfect steakhouse sear marks
- Use the grooved side to collect marinade so you can continuously baste your meat

Flav-R-Wave™ System for Authentic BBQ Flavour

- Underneath the grids sits the phenomenal Flav-R-Wave™ system
- It vaporises all the delicious fats and juices as they drip down, infusing flavour and moisture back into your food

Easy Clean

- Due to the Flav-R-Wave™ system vaporising fats and juices, very little residue makes it into the cookbox or fat tray. It's why the fat trays are so small!

BUILT TO LAST.

Made in North America. Superior Warranties

- Constructed from high quality materials
- Supported by generous warranties and a NZ-based support team

BBQ at Home or Away.

Enjoy your favourite barbecue food at the beach, the campground, on the boat or at your favourite picnic spot.

Porta-Chef™ BBQs deliver Broil King's famous cooking performance and flavour and convenient portable features.

Ready-to-go in seconds, with legs that fold down quickly, and a built-in carry handle for easy transport.

When you're not grilling on-the-go, the Porta-Chef™ 320 can be placed on the 320 cart (\$199) for a compact permanent set up with wheels and gas bottle shelf.

Compact Style & Value.

Don't let the size fool you, the Gem™ comes with three burners and delivers big flavour. Great for apartment living or outdoor living areas tight on space.

If a four or five burner BBQ is more than you need, the Monarch™ series provides all the features of Broil King's legendary cooking system in a stylish and compact three burner package.

The 390 model adds a side burner and rotisserie kit, perfect for cooking up delicious side dishes and flame-kissed meat.

Everyday BBQ'er.

Four and five burner barbecues are the go-to choice for many avid grillers. Having ample cooking space for your sausages, steak and roasts plus the option to add features like rotisserie and side burner are must-haves!

Barons feature greater heat output, storage and cooking area than the Monarch™ range plus the addition of North American stainless steel cookbox, drop-down side shelves and handles.

The Baron™ 490 and 590 models come complete with a side burner and a rotisserie kit with a dedicated rotisserie burner.

COOKING METHODS

1 Direct Grilling

The direct grilling method is quite simple; it involves cooking the food on the grids directly over the flame. We recommend direct grilling for most single-serving items such as steaks, chops, fish, burgers, kebabs and vegetables, or any other quick-cooking foods.

For the best results: (fig 1)

1. Preheat the grill on HIGH for 5-10 minutes.
2. Remove any debris on the cooking grids with a wire grill brush.
3. Spray or brush on vegetable oil to prevent food from sticking.
4. Reduce the heat to your required temperature.
5. Place whatever you're cooking on the grids.
6. That's it. We told you it was simple.

2 Indirect Method

The indirect method of grilling is a technique for cooking larger cuts of meat such as roasts or poultry. As the name implies, the food is not grilled directly over the heat but by hot air circulating around the food. This set up means there is no need to turn or baste the food. The result is delicious, worry-free barbecuing with little chance of flare-ups.

Indirect: Drip Pan Method (fig 2)

Juices and drippings fall and mix with the contents of the drip pan. This mixture will vapourize, impart delicious flavours and ensure a moist and succulent roast, chicken or turkey.

To use the drip pan method:

1. Remove the grids and place the drip pan on top of the Flav-R-Waves™.
2. Pour water or other cooking liquid, such as fruit juice or wine, into the drip pan. Continue adding liquids while grilling, making sure the drip pan does not go dry.
3. Replace the cooking grids.
4. Preheat the grill on HIGH for 10 minutes then adjust the heat to MEDIUM or MEDIUM/LOW.
5. Spray or brush the grids with cooking oil, then place the meat directly on the grids above the drip pan.
6. Close the lid and sit back and relax as your food becomes infused with delicious flavour.

Indirect: Burner Method (fig 3)

1. Place a drip pan over the Flav-R-Waves™, under the cooking grids, on the side of the grill where you will be turning off at least one burner.
2. Preheat the grill on HIGH and then turn off at least one burner.
3. Brush or spray the cooking grids with cooking oil.
4. When grilling beef or pork sear the meat on all sides using the lit side of the grill and then transfer it over to the unlit side.
5. Regulate the heat setting to maintain your desired temperature (generally MEDIUM).
6. This method is wonderful not only for roasts but also for thicker steaks, chops and bone-in cuts of chicken.

3 Rotisserie Method

The constant turning of the meat while cooking allows it to self-baste, resulting in exceptionally moist and tender meals.

Helpful hints: (fig 4)

1. Fix the meat securely in the middle of the spit.
2. With poultry, the wings and legs should be tied in tightly to avoid burning.
3. Place a drip pan under the meat to collect extra juices for making gravy.

4 Planking

Another unique and delicious way to grill food is by using a wooden plank. This is a surefire way to get delicious results and wow your dinner guests. The smoke created from the plank sitting directly above a lit burner infuses the meat with unsurpassed grilled flavour.

Using a plank is simple: (fig 5)

1. Soak it in water for at least an hour and pat it dry.
2. Pre-heat your grill on HIGH for 10 minutes.
3. Coat one side of the plank with olive oil then place the seasoned meat on it.
4. Place the plank on the grill directly over the lit burner and reduce the heat to MEDIUM-LOW.
5. Cook the meat to your liking.
6. Cedar planks are ideal for salmon but don't be afraid to try other meats with it.

NOTE

Bone-in cuts take slightly longer. Times may be affected by thickness of meat and temperature of meat prior to cooking. Bring steak close to room temperature before cooking. Always rest steak before serving.

NOTE

Always barbecue with your lid closed to maintain a constant temperature and achieve the best possible results.
