CAMO

EDGE PRO™

COLLATED HIDDEN DECK FASTENING SYSTEM

FASTENER-FREE SURFACE
QUICK AND EASY TO USE
NO-GAP INSTALLATION

THE CAMO EDGE PRO

Installing a fastener-free deck surface is fast and easy with the CAMO Collated Hidden Deck Fastening System.

Designed for no-gap installation of treated wood decking, the CAMO Edge Pro can also be used with a wide variety of wood, composite, and PVC deck boards and secondary spacers.

The CAMO Edge Pro and CAMO Hidden Fasteners attach boards directly to the joist using a secure side-angle entry that reduces the splitting, cracking and fastener pops inherent with face-fastened deck boards.

No matter which deck material you choose, the Edge Pro provides a beautiful deck surface that will be enjoyed for years to come.

CHANGING THE FACE OF DECKING.®

From the deckboards to the substructure, trim and beyond, CAMO® provides easy and affordable fastening options. CAMO Fasteners are designed to work with solid or grooved treated lumber, hardwood, cedar, composite or PVC deckboards; and whether you prefer to blend into the surface with color-matched face fasteners, or desire hidden fasteners for a fastener-free deck surface, **CAMO HAS YOU COVERED.**

CAMO fastening solutions include:

- Hidden Deck Fastening System
- Collated Hidden Deck Fastening System
- Exterior Screws
 - Premium Deck
 - Composite
 - Stainless
 - Structural

All CAMO Fasteners are ACQ-compatible in ProTech coated carbon steel and 305 or 316 Stainless Steel; and each fastener package includes CAMO Bits.

CAMO Fasteners come with a Limited Lifetime Warranty that guarantees against rust and corrosion for the life of the project.

CAMO®

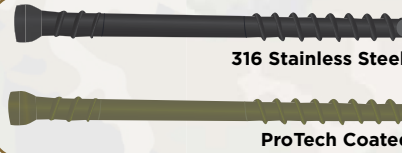

HIDDEN DECK FASTENING SYSTEM

CHANGING THE **FACE** OF DECKING®

HIDDEN FASTENERS

Hidden in the side of the board, patented CAMO Hidden Fasteners create a beautiful, fastener-free deck surface. Great for wood decks, CAMO Hidden Fasteners offer a high-end look for less than \$0.30/sq.ft. - and they also work in solid and grooved composite, capstock or PVC deck materials.

Lengths:	Board Thickness:
1-7/8"	3/4" - 1"
2-3/8"	1" - 1-1/2"

Easy to install using a CAMO tool, CAMO Hidden Fasteners secure deckboards directly to the joist to reduce board movement, and they back out easily in the event a board needs to be replaced. No pre-drilling typically required.

Available in ACQ-compatible ProTech coated carbon steel that passes a 1500 hour salt spray test (in accordance with ASTM B117) and 316 Stainless Steel (recommended for marine environments), CAMO Hidden Fasteners come with a Limited Lifetime Warranty that guarantees against rust and corrosion for the life of the project.

CAMO Hidden Fasteners have been independently tested and exceed ICC-ES Acceptance Criteria for Deck Board Span Ratings and Guardrail Systems (Guards and Handrails) (AC174) (Section 4.1.4) in all wood, composite and PVC boards tested.

COLLATED HIDDEN FASTENERS

- 50 CAMO Collated Hidden Fasteners/strip
- 2-3/8" CAMO Hidden Fasteners
- For use with the CAMO Edge Pro only

DRIVER BITS

- **CAMO Driver Bit** - For use with solid, ungrooved deckboards
- **CAMO Grooved Board Driver Bit** - Higher shoulder for deeper penetration when using grooved deckboards
- **CAMO Pre-Drill Bit** - Recommended for use on hardwood installations
- **CAMO Collated Driver Bit** - For use with the CAMO Edge Pro

CAMO TOOLS

CAMO tools position CAMO Hidden or Collated Fasteners for side-angle entry to the deckboard. Designed for use with CAMO Hidden Fasteners or CAMO Collated Hidden Fasteners only.

• CEDAR	• TREATED	• HARDWOOD	• COMPOSITE / PVC
---------	-----------	------------	-------------------

MARKSMAN EDGE™ ● ●

- No gap between deckboards, or, use secondary spacers for multiple gap options
- Attaches to any drill
- Heavy-duty, contractor-grade tool

CAMO

HIDDEN FASTENERS

CAMO Hidden Fasteners are an innovative, easy-to-install alternative to face fastening, clips and other hidden fasteners. Great for wood decks, CAMO Hidden Fasteners deliver a high-end look at an affordable price. They work beautifully in solid and grooved composite or PVC materials; and with a Limited Lifetime Warranty, CAMO stands the test of time.

WHAT MAKES THIS HIDDEN FASTENER INNOVATIVE?

Lengths: 1-7/8" 2-3/8"	Board Thickness: 3/4" - 1" 1" - 1-1/2"	Fastener Types: ProTech Coated Carbon Steel or 316 Stainless Steel
-------------------------------------	---	---

Versatile - Secure solid or grooved treated lumber, hardwood, cedar, composite or PVC deckboards.

Affordable - Priced like a deck screw, CAMO Hidden Fasteners cost less than \$.30/sq.ft. when using the 1-7/8" ProTech Coated carbon steel screws.

Easy - No pre-drilling is required* and Marksman® tools provide automatic spacing or a no gap installation. It's as easy as SET - LOAD - DRIVE.

Secure - Attaches deckboards directly to the joist reducing board movement. CAMO Hidden Fasteners have been independently tested and exceed ICC-ES Acceptance Criteria for Deck Board Span Ratings and Guardrail Systems (Guards and Handrails) (AC174) (Section 4.1.4) in all wood, composite and PVC boards tested.

Removable - Screws back out easily if board replacement is necessary - just put the drill in reverse.

ACQ Compatible - CAMO's proprietary ProTech coating provides three protective layers that pass a 1500 hour salt spray test in accordance with ASTM B117 and guards against corrosion when used with chemically treated wood. 316 Stainless Steel offers ultimate corrosion resistance and is recommended for coastal environments.

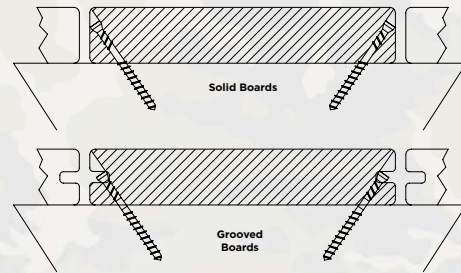

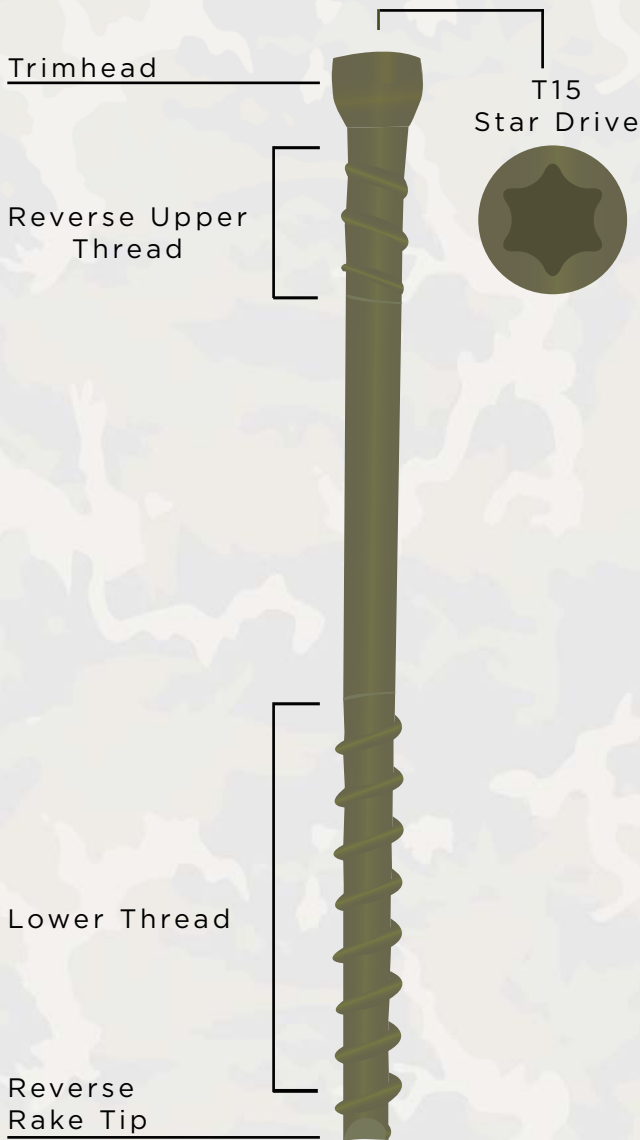

Deckboard Material	Recommended CAMO Hidden Fastener
Pressure Treated Lumber	Stainless Steel or ProTech Coated
Composite or Capped Composite	Stainless Steel or ProTech Coated
PVC	Stainless Steel or ProTech Coated
Cedar	Stainless Steel
Redwood	Stainless Steel
Hardwood or Imported Hardwood	Stainless Steel

*When using Stainless Steel CAMO Hidden Fasteners with hardwood decking, pre-drilling is recommended.

HIDDEN DECK FASTENING SYSTEM

CHANGING THE FACE OF DECKING.®

Available in 1-7/8" and 2-3/8" ProTech coated carbon steel and 316 Stainless Steel

- > Reduced **Trimhead** design provides a less visible point of entry
- > **Star Drive** offers more points of contact for better performance and reduces bit slippage and wear
- > **Reverse Upper Thread** pulls the board tight to the joist and provides a clean, finished entry
- > Aggressive **Lower Thread** pattern provides superior holding power
- > **Reverse Rake Tip** removes deck material as it bores, allowing the screw to penetrate the board without splitting

DRIVER BITS

- Driver Bit - For use with solid, ungrooved deckboards

- Grooved Board Driver Bit - Higher shoulder for deeper penetration when using grooved deckboards

- Pre-Drill Bit - Recommended for use with the CAMO Hidden Deck Fastening System on hardwood installations

CAMO Driver Bits are engineered specifically for use with the CAMO Hidden Deck Fastening System. The built-in shoulder sets automatic depth of drive for maximum holding power, and prevents over-driving the screw.

900 CT. | 500 SQ. FT.

Secure outside the starter board and begin.

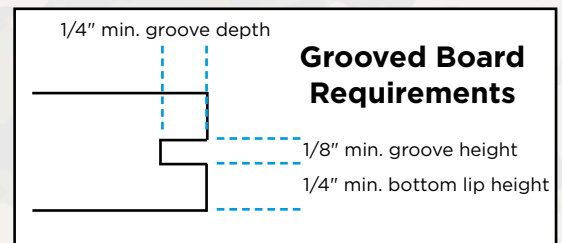

Hold clip in place while partially driving the screw into the joist.

Continue to next joist and repeat until all clips along the board are partially driven.

Slide the next board up against the clips allowing the CAMO clip to provide 1/4" built in spacing.

CAMO[®]

EXTERIOR SCREWS

VERSATILITY

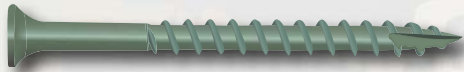

From the substructure to the deckboards and trim, CAMO Exterior Screws offer effective and affordable fastening solutions for all aspects of a deck. CAMO provides a secure substructure; and whether the material is wood, composite or PVC, CAMO blends into board surfaces with color-matched deck, composite and painted head stainless steel fasteners.

PREMIUM PROTECTION

CAMO Exterior Screws have provided premium protection and performance for over a decade. Whether ProTech or Stainless is selected for the project, all CAMO Fasteners are ACQ-compatible; and with a Lifetime Limited Warranty, **CAMO HAS YOU COVERED.**

ProTech coated carbon steel: Two ProTech coatings over a layer of zinc dichromate passes a 1500 hour salt spray test in accordance with ASTM B117.

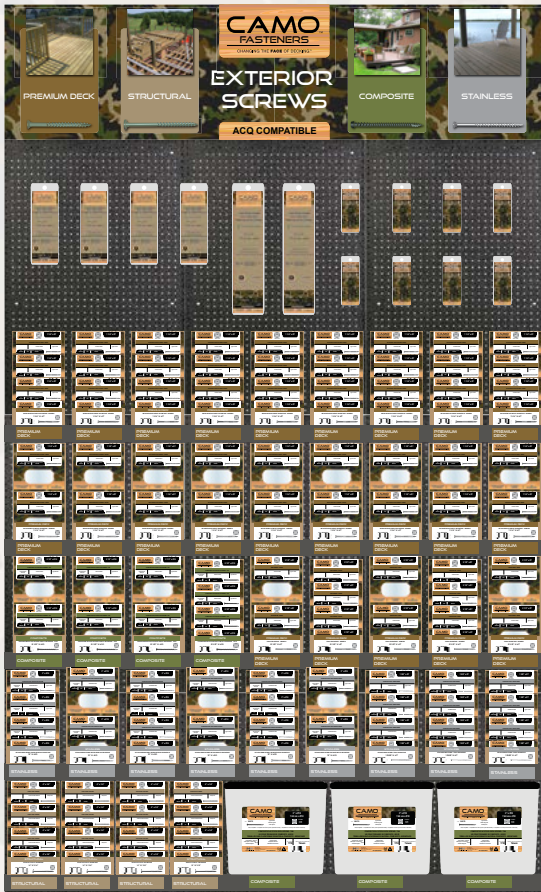

305 or 316 Stainless Steel: Offer superior corrosion resistance. 316 Stainless recommended for marine and coastal environments.

SMART PACKAGING

Small master counts reduce inventory investment and increase turns. Narrow box width allows flexible shelf placement - 10 facings out of the master or 9 facings in the display master; and with fastener count and square foot coverage (where applicable) on the label, and a Power Bit in each package, consumers know exactly what they're buying to get the job done.

4 foot set

MERCHANDISING

Bold merchandising with a clean look, color-coded trilingual labeling, display masters and informative POP make your fastener aisle pop and product easy to locate.

EXTERIOR SCREWS

PREMIUM DECK SCREWS

For your next exterior project, CAMO HAS YOU COVERED. From wood decks to exterior trim and fencing, CAMO premium buglehead and trimhead deck screws blend in with wood surfaces and secure your project for a lifetime.

WHAT MAKES THESE DECK SCREWS PREMIUM?

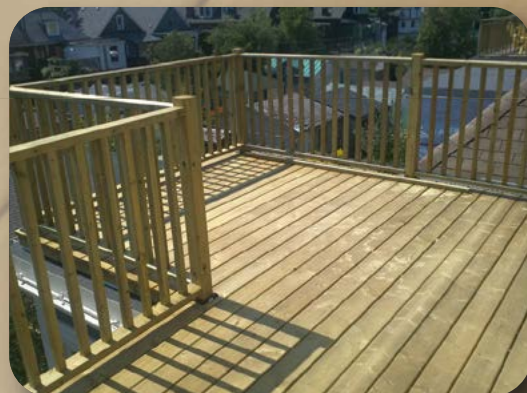

Screw Design - Head style and 2/3 thread design combine to draw the board tight without cutting into the board, leaving a flush finish.

Star Drive - Provides more points of contact to reduce cam-out and eliminate excessive wear on the screw head and bit.

Type 17 Slash Point - Starts fast and makes it easier to drive the screw.

ACQ Compatible - CAMO's proprietary ProTech coating provides three protective layers that pass a 1500 hour salt spray test in accordance with ASTM B117 and guards against corrosion when used with chemically treated wood. Also available in 305 or 316 Stainless Steel.

Limited Lifetime Warranty - CAMO guarantees against rust and corrosion for the life of the project.

EXTERIOR SCREWS

CAMO[®]

EXTERIOR SCREWS

COMPOSITE SCREWS

For your next wood alternative deck project, CAMO HAS YOU COVERED. These Composite Screws deliver unsurpassed performance and a beautiful flush finish in composite and PVC deckboards, including the latest capstock materials.

WHAT MAKES THESE COMPOSITE SCREWS PERFORM?

Head Design - The leading edge of the head is designed to cut cleanly through the board surface to provide a smooth finish and small reveal. A T20 star drive offers more points of contact to reduce cam-out and eliminate excessive wear on the screw head and bit.

Screw Design - The unique trilobular shank reduces material displacement and allows higher torque. The sharp thread profile easily drives through the board, while the reverse thread design at the top captures displaced material and increases pull down power.

Type 99 Double Slash Point - Augers material for a fast start and easy penetration.

Color-Matched - To complement most leading manufacturer's composite, capstock and PVC deckboards.

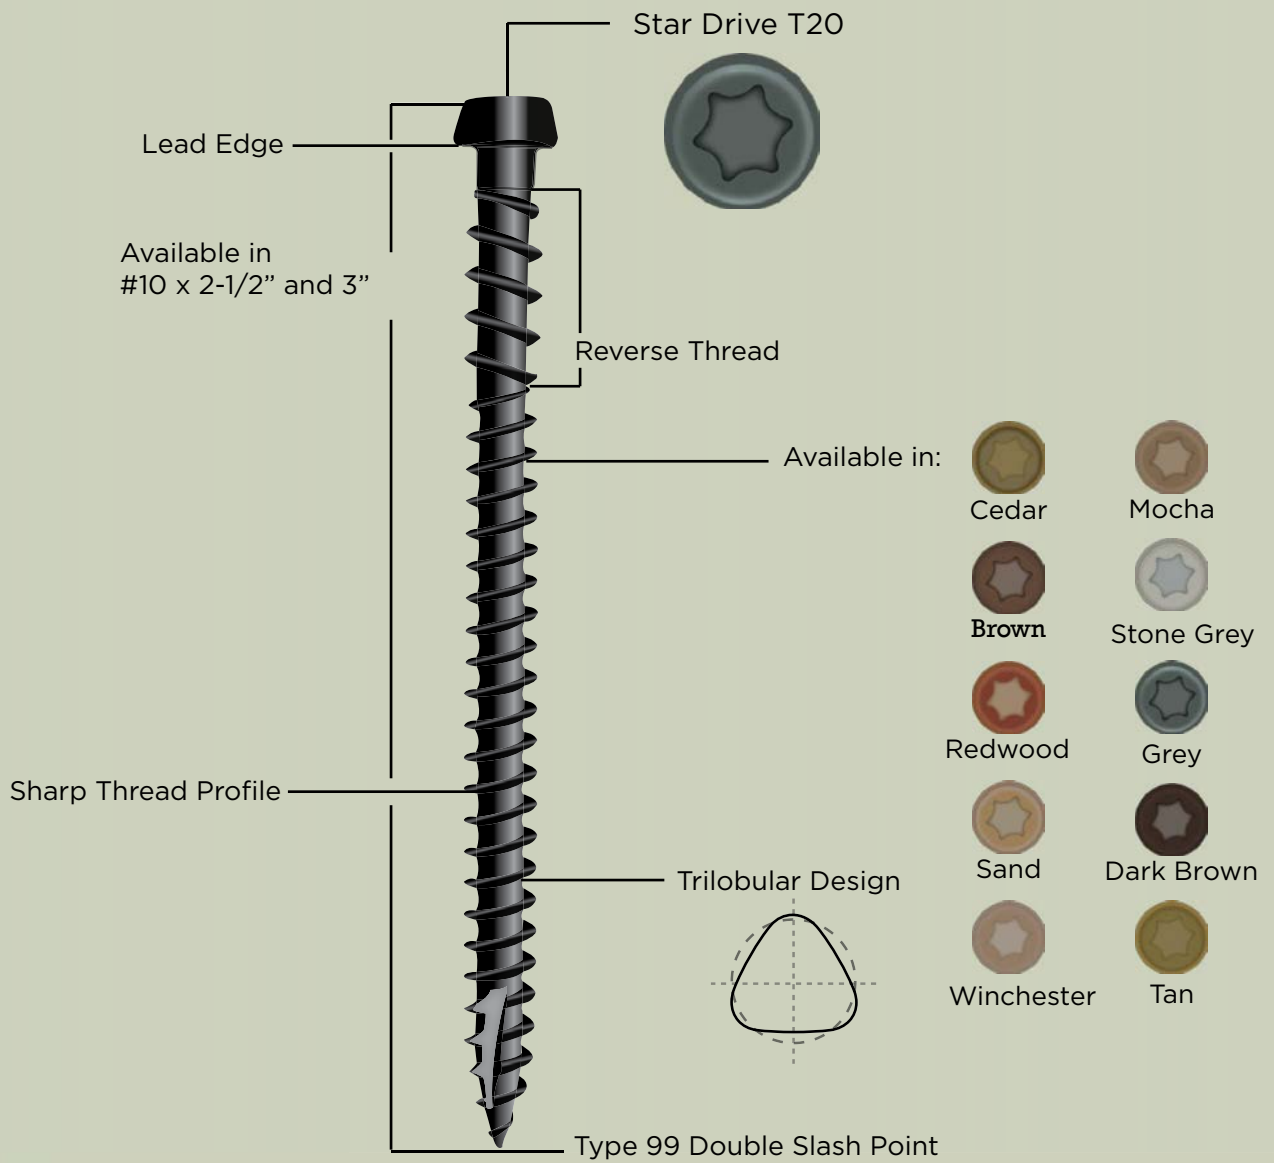

ACQ Compatible - CAMO's proprietary ProTech coating provides three protective layers that pass a 1500 hour salt spray test in accordance with ASTM B117 and guards against corrosion when used with chemically treated wood. Also available in 305 or 316 Stainless Steel.

Limited Lifetime Warranty - CAMO guarantees against rust and corrosion for the life of the project.

CAMO HAS YOU COVERED.

CAMO[®]

EXTERIOR SCREWS

STRUCTURAL SCREWS

For your next exterior project where strength and durability are required, **CAMO Structural Screws HAVE YOU COVERED.** From deck substructure to landscape timbers, CAMO multi-purpose structural and ledger screws are an easy, code compliant way to replace 3/8" and 1/2" lag screws.

WHAT MAKES THESE STRUCTURAL SCREWS SECURE?

Independently Tested - Meet or exceed 2012 IRC requirements for 3/8" and 1/2" lag screws in specific applications.

Versatile - Wide variety of lengths for many structural applications.

Flat Head - Large surface area of the washer-style head provides stronger holding power.

ACQ Compatible - CAMO's proprietary ProTech coating provides three protective layers that pass a 1500 hour salt spray test in accordance with ASTM B117 and guards against corrosion when used with chemically treated wood.

Star Drive - More points of contact to reduce cam-outs and deliver higher torque.

Sharp Point - Enables fast start and easy drive.

Limited Lifetime Warranty - CAMO guarantees against rust and corrosion for the life of the project.

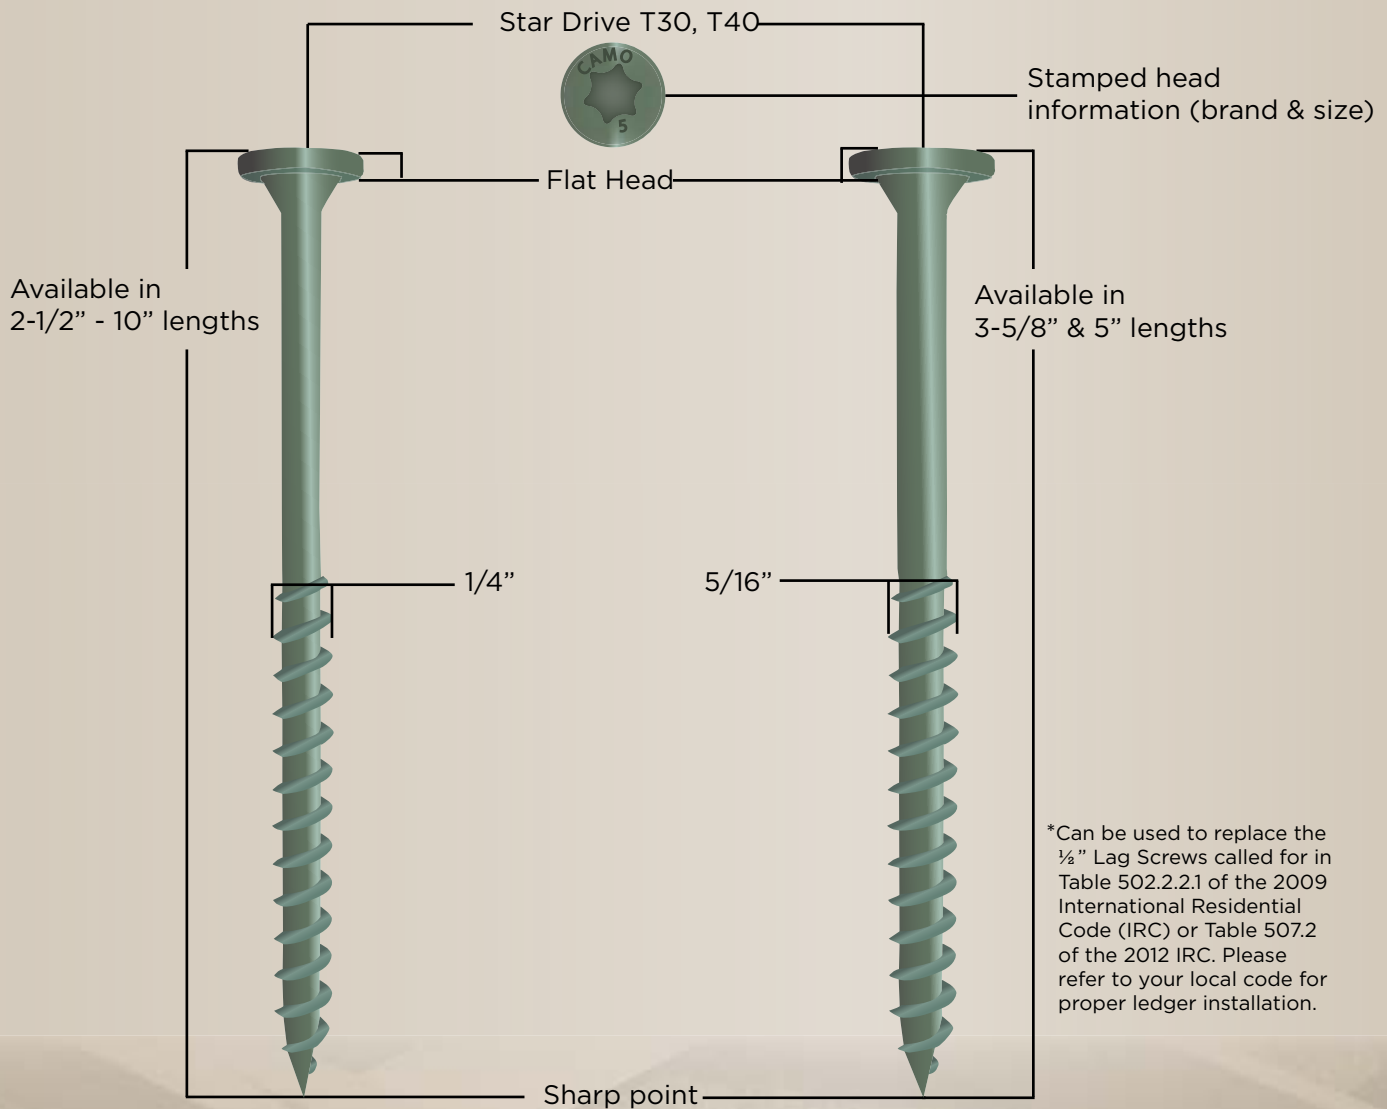

CAMO HAS YOU COVERED.

STRUCTURAL SCREWS

Multi-Purpose Screws

Ledger Screws*

*Can be used to replace the 1/2" Lag Screws called for in Table 502.2.2.1 of the 2009 International Residential Code (IRC) or Table 507.2 of the 2012 IRC. Please refer to your local code for proper ledger installation.

CAMO[®]

EXTERIOR SCREWS

STAINLESS STEEL SCREWS

For your next exterior project where marine-grade corrosion resistance is required, **CAMO Stainless HAS YOU COVERED.** From backyard pools to salt water oceans, CAMO buglehead, trimhead and composite screws provide ultimate corrosion resistance in extreme environments.

WHY CHOOSE CAMO STAINLESS FOR YOUR PROJECT?

Premium Deck Screws - These versatile buglehead and trimhead fasteners can be used for decking, exterior trim, fences and other exterior projects; and trimhead screws are available in six painted head colors that complement the most popular PVC decking and trim colors as well as most popular hardwoods.

Composite/Capstock Screws - These screws can be used with composite, capstock or PVC deck product. They are available in ten colors to match the board colors of most major composite and capstock brands.

Corrosion Resistant - 316 Stainless Steel is considered marine-grade, providing superior protection in coastal areas. It is preferred for use with many hardwoods to avoid staining, and stainless steel is ACQ-compatible.

Type 17 Slash Point - For fast starts and easy penetration.

Limited Lifetime Warranty - CAMO guarantees against rust and corrosion for the life of the project.

national nail corp.
more than just nails

SIMPLY THE BEST FIT.®

Pro-Fit® provides an unexpected experience: a brand, a product and a partner that are Simply The Best Fit for your business or project.

Available in packaged or bulk, our Pro-Fit fastener program delivers high product quality and dependability, great value and access to fastening solutions for any project.

Progressive sourcing, marketing, program and product solutions supported by cutting edge technologies are what make the Pro-Fit experience something no other brand of fasteners can offer.

National Nail has been serving businesses like yours since 1963. We are an employee-owned manufacturer and distributor of high quality, innovative building product and service solutions for the residential and commercial construction industries.

Hidden Deck Fastening System

- Hidden Fasteners
- Edge Pro / Edge Guides
- Marksman Pro® - Series Guides
- Driver Bits
- Pre-Drill Bit

Exterior Screws

- Premium Deck
- Structural
- Composite
- Stainless

CHANGING THE FACE OF DECKING

The CAMO Hidden Deck Fastening System changes the face of your deck to a beautiful, fastener-free deck surface. Easy, secure and removable, CAMO can be used with any treated wood, hardwood, cedar, composite or PVC deckboard.

CAMO HAS YOU COVERED

From the substructure to the deckboards and trim, CAMO Exterior Screws offer effective and affordable fastening solutions for all aspects of a deck. Whether the material is wood, composite or PVC, CAMO blends into board surfaces with color-matched deck, composite and painted head stainless steel fasteners.

SIMPLY THE BEST FIT

- Collated Fasteners
- Packaged and Bulk Nails and Screws
- Anchor Bolts

SIMPLY THE BEST FIT®

For over 20 years, from collated to hand drive nails and screws, Pro-Fit has focused on being the best fit for your business. Our programs deliver dependable product quality, rugged packaging, and innovative marketing and sourcing solutions that make your Pro-Fit experience both unexpected and relevant.
