

Product Description

The Cobra WallGripper™ is the only expandable screw-in anchor on the market. It expands and grips behind the drywall and it is twice as strong as a regular screw-in anchor. Patented design to offer you the ultimate holding power without any pre-drilling. It is a unique body design with 4 expandable wings that collapse and grip tightly behind the drywall. A fine center point that helps guide the anchor into the wall with flawless precision. A sharp cutting edge that reduces the force required to cut the material. Also, a sharp profile thread that cuts deeply into the hole to ensure ultimate holding power and stability without damaging the wall material.

Features & Benefits

- ▶ Expands and grips tightly behind drywall
- ▶ No pre-drilling required
- ▶ All you need is a screwdriver

Perfect for:

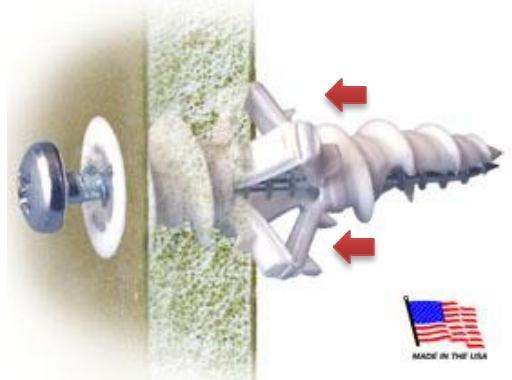

Electrical boxes, lighting fixtures, shelving, etc.
