CRL Hinged Screen Doors

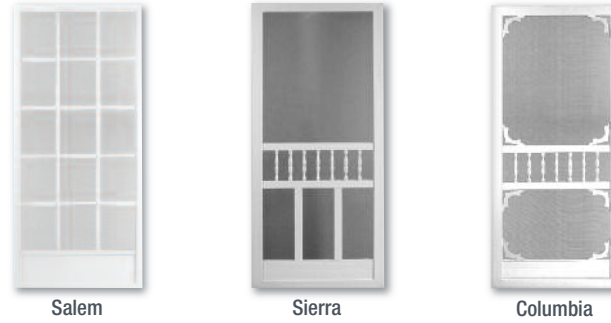

CRL French Screen Doors

CRL Hinged Steel Screen Doors feature our patented one piece construction technique (U.S. Patent No. 5,628,114) making it one of the strongest on the market. In addition, doors have scratch resistant polyester painted finishes over hot-dipped galvanized steel, allowing our finish to last a lifetime with no need to ever paint. They also have a separate hinge-bar for easy handing choices, and like the bottom expander, allow for the perfect fit every time. Pneumatic door closer and installation hardware included.

Note: Slide latches are included on French Doors to hold the fixed door in place when not in use.

CRL Vinyl Hinged Screen Doors

CRL Vinyl Hinged Screen Doors do not require cutting, never need painting, and will not peel, chip or splinter. The vinyl frame has interior webbing for maximum support and strength. Clean up with soap and water for easy maintenance. They feature a separate hinge-bar for easy handing choices. The bottom expander allows for a perfect fit every time. Pneumatic closer and installation hardware included.

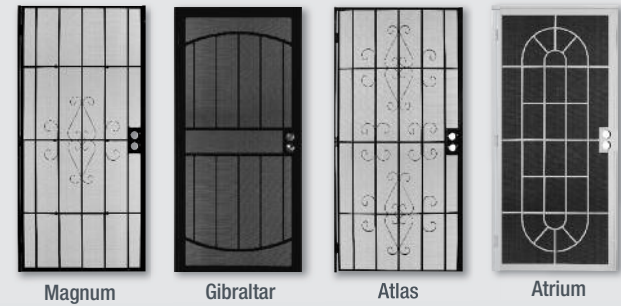

CRL Sliding Screen Doors

CRL Steel Patio Screen Doors utilize a patented one-piece roll formed frame construction technique, that makes them it stronger, more durable, and at the same time eliminates racking. Frames are crimp seam formed, corner stitched, and are both chemically bonded to eliminate gaps. Doors have spring loaded adjustable hoods with nylon wheels.

CRL Security Doors

French Security Doors

Belvedere

Sunset

CRL Columbia Security Doors are engineered to the toughest standards with commercial grade all steel construction. CRL Columbia offers some of the most durable security doors available, with several designs to choose from including heavy-duty castings, scrolls, bars, and laser cutting. Each door features heavy powder coated finish, reversible for left or right handed openings, 24 gauge perforated mesh, expanded mesh on some models, double hole security lock boxes with extended plates, and full length fly straps that do not impede the door's security.

Note: Slide latches are installed on French security doors to hold the fixed door in place when not in use.
