

5ft 10/3 SJTW Lighted Triple Tap Generator Cords

Designed for use with most portable generators, our Generator Extension Cords extend portable power in an emergency, at the jobsite, and wherever regular power is needed. It converts an L14-30 Twistlock receptacle into (3) 5-15R household outlets. Our heavy duty, weather resistant coldweather jacket remains flexible in temperatures well below freezing.

FEATURES

- Each conductor of our 10/3 cords contain 104 strands of 30 gauge 100% pure copper wire.
- 4 or 3 prong twistlock male plugs connect to portable generators with an L14-30R (30A-125/250V) receptacle, providing immediate power through (3) lighted 5-15R (15A-125V) standard outlets.
- We use heavy duty molded on plugs and connectors that will not pull away from the cord body.
- Lighted triple outlet Power Check connector indicates the cord has power.
- Our weather resistant, heavy duty SJTW 300V coldweather jacket guarantees working flexibility in temperatures down to -40°F.
- Lengths: 5ft, 15ft & 25' (L14-30P)
- Jacket Color: Black
- UL Listed and cUL Approved for Canada
