ORDER TOTAL

Standard Deal Tray - (Drop In Style 1-1/2" Scoop)

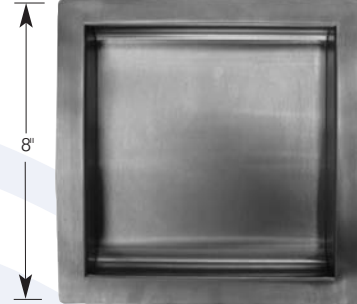

Standard Deal Tray - (Counter Top Style 1-1/2" Scoop)

(2" Height)

Bullet Resistant Non-Ricochet Deal Tray (Drop In Style)

Flush Mount Drop In Installation. Heavy Duty Stainless Steel Tray offered in three widths. Ideal for cash, coin, and small item transactions. Typical applications - banks, gas stations, and ticket booths.
(Deduct minimum of 1/4" for Drop In)

Counter Top Installation. Screw tabs are provided. Alternative side mounting is available upon request. Heavy Duty Stainless Steel Tray offered in three widths and are ideal when it is not feasible to cut the counter top. For more secure transactions the acrylic facing can be notched around the tray.

Drop In Counter Recess Installation offered in two width sizes and two levels of protection. Curved tray bottom is designed to retain a bullet within the tray or re-direct it back up. The level 3 design traps the bullet in a 1/4" steel box welded beneath the tray

(Deduct minimum of 1/4" for drop in)

Triple Track Screen Frame with Screens

- ★ Durable Extruded Aluminum
- ★ No Special Tools Required
- ★ Popular Style, Easy to Assemble

Don't miss this profitable part of the repair business!

Rely on **Circle Glass** to supply all necessary components and provide expert advice to help make building screen and window inserts for triple tracks, a great add-on service in your repair department.

Pro Tip:

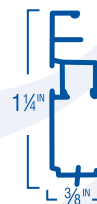

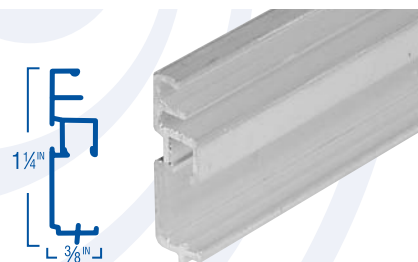

Use the top/side screen frame to make complete screen frames whenever you need a stronger frame than standard rolled aluminum can provide.

Rigid Screen Spline Fits Forever® Doors

Description	Part #
Black 200'	1942

Foam Screen Spline

Size/Product/Color	500' Spool	1000' Spool
.120" Screen Spline - Black	1928	1929
.145" Screen Spline - Black	1930	1931
.160" Screen Spline - Black	1932	1933
.180" Screen Spline - Black	1934	1935
.200" Screen Spline - Black	1936	1937
.225" Screen Spline - Black	1938	1939
.250" Screen Spline - Black	1940	1941
.270" Screen Spline - Black	1948	1949

Growing in popularity, foam spline works well for those "in-between" sizes. Compresses for a tight fit, is very easy to install, and expands to hold screen cloth firmly. **Our .270" is a great replacement for metal spline.**

Semi-rigid "T" Spline is ideal for patio screen doors. An ideal alternative for fiberglass screen cloth. Installs easily and holds tight.

FLAT SPLINE SIZING GAUGE

FIBERGLASS INSECT SCREENING

PHIFERGLASS™ fiberglass screening is woven from permanent glass yarn, which has been coated with a protective vinyl to ensure lasting beauty, color and flexibility. This screening is non-combustible and will not rust, corrode or stain.

FIBERGLASS 18 x 14 Mesh

This mesh is recommended for large openings such as porches, pools and patios or where extra strength is desirable. A stronger mesh than our standard 18 x 16.

Screen and Glass Installation Tools Made In The U.S.A.

2040 2" Flat Steel Roller

- Used for rolling spline with fiberglass screen

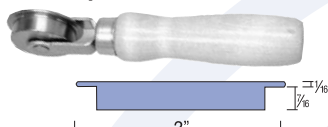

7300 Single Concave Steel Roller Wood Handle

8500 Single Convex Steel Roller

11500 Step Roller With Steel Wheel

- Step wheel runs along edge of frame for "noslip" action

12000 Single Concave Nylon Roller Wood Handle

12004 Single Concave Nylon Roller Soft Grip Plastic

12050 Single Convex Nylon Roller Wood Handle

12053 Single Convex Nylon Roller Soft Grip Plastic

12110 Double-End Nylon Wheels

- Two wheels, one concave and one convex
- Popular for use on fiberglass screens.

12150 Double-End Nylon Wheels

- Two wheels, one concave and one convex
- Popular for use on fiberglass screens.

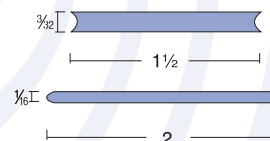

13570 Double-End Steel With Narrower Concave Wheel

- Two wheels, one concave and one convex

13520 Standard Double-End Steel Wheels

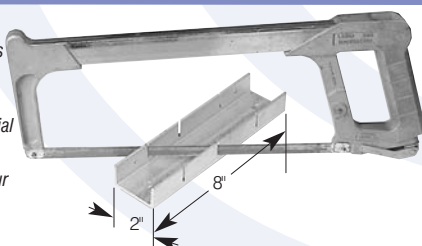

- Two wheels, one concave and one convex
- Concave wheel works great on most screen splines.
- Convex wheel is ideal for rolling aluminum wire cloth and rolling glass spline.

2735 Mitre Box

Cut aluminum screen and window frames easily and accurately.

- Steel construction with a high density polypropylene cutting pad.
- Locking turn screws hold frame material in place while cutting.
- Countersunk screw holes allow mitre box to be permanently mounted to your work table
- Heavy wall construction
- Precision 45° and 90° cutting slots
- Use with most standard hacksaws (not included)

2736 Replacement Pads - 3 pack

12003 Single Concave Nylon Roller with Ergonomic Fork and Soft Grip Plastic

12052 Single Convex Nylon Roller with Ergonomic Fork and Soft Grip Plastic

Step Drill Bits

Installing plunger assemblies is now a snap! Step Drill Provides proper hole sizes when using plunger assemblies.

- Saves time by drilling two hole sizes with one drill bit
- Drills the two hole sizes needed for plunger assemblies at one time.
- Made of long lasting tempered steel.

2738 Use w/ Plungers 2672, 5625, 5672, 5686

See Plungers on page 57

2740 Use w/ Plungers 5684, 5688, 5690, 5692, 5694

See Plungers on page 57

2739 Adjustable Screening Bar

- Helps prevent inward bowing while re-screening
- Adjustable slide easily adjusts to 54"
- Can be used with most screen frames
- A must for any screen repair shop

Glazing Adhesive and Thinner

Especially made for adhering glass to aluminum frames. Elasticity allows for expansion and contraction of aluminum. A must for all "Drop-In" type glass frames. Use Glazing Adhesive Thinner to prolong the life of adhesive and to help clean-up and remove old adhesive.

Product	Size	Part #
Glazing Adhesive	Quart	2751
Glazing Adhesive	Gallon	2752
Glazing Adhesive Thinner	6oz.	2760
Plastic Applicator (empty)	8oz.	2755
Adhesive Gun	6oz.	6504

Glass is held in place in "drop in" style frames with glazing adhesive, not glass spline. Glass Spline serves to shed water, create a weather seal and provide a professional, finished look. Always use Glazing Adhesive!

Professional Grade Glazing Compounds

Wonder Putty

Glazing Compound Products Ideal for:

- Bedding and setting glass in all metal or wood sashes.
- Repairing and rehabing projects.
- Setting toilet bowls, and all other plumbing uses.
- Patching and filling woodwork, stone, tile, concrete and brickwork.

Glass Caliper Accurate & Easy to Use

This measuring tool greatly reduces the time involved in measuring insulated glass thickness. To operate, simply slide the jaw of the caliper open, and place around the sash frame. Then slide jaw closed, until you hear the adjusting screw touch the glass. Read the exact thickness on the caliper scale.

Adjustment can be made by turning the screw left or right.

METAL DOOR GRILLES

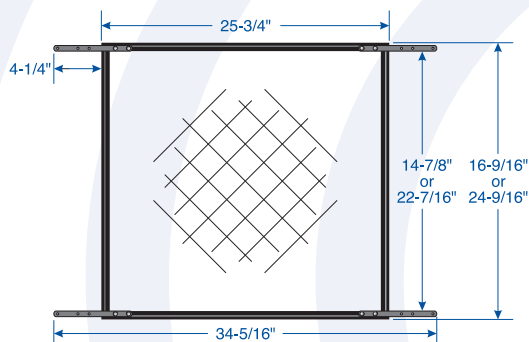

Aluminum Screen & Storm Door Grilles

16" and 24" heights available. These are the finest door grilles available. They protect and beautify doors. With homeowner's looking for high quality, contemporary styling, **Circle's** Aluminum Door Grille program is your best choice.

Circle Glass's Aluminum Door Grilles Offer:

- Exceptional strength
- Extruded frame construction
- Exclusive "close weave" mesh keeps children's fingers from getting caught.
- Fits doors 30", 32" and 36" wide.
- Five finishes to choose from plus mill finish.

Note: Satin finish is an anodized version of the mill finish. The satin anodized finish is ideal for consumers who wish to custom paint their door grille. The anodizing process also leaves a clean, satin look to the door grille for those who do not want a painted finish.

Description	16" Grille	24" Grille	Ctn Qty
Mill Finish	0900	0910	6
Satin Finish	0901	0911	6
Black Finish	0902	0912	6
White Finish	0903	0913	6
Dark Brown Finish	0904	0914	6

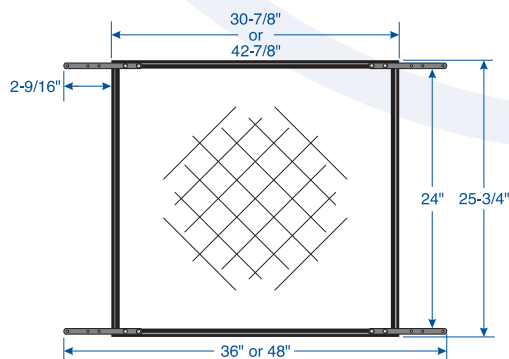

PATIO DOOR GRILLES

Sliding Patio Screen Door Grilles

High quality patio screen door grilles prevent pets and children from damaging patio screens. Attractive, durable and easy to install. Rugged aluminum frame and "close weave" mesh make this the best patio screen door grille available.

Check These Other Features:

- Fits 36" and 48" patio screen doors
- Four popular finishes
- Maintenance free

ORDERING INSTRUCTIONS FOR SPIRAL BALANCES

- All Spiral Balances are sold individually, for best results Circle Glass recommends that both balances be replaced at the same time.
- Other sizes available upon request.

How to Order Spiral Balances

1. Determine what type of Sash Balance is needed, tilt or non-tilt.
2. Determine the diameter of the tube, 3/8" or 5/8".
3. Determine the length of the tube only, (don't include the Spiral Rod).
4. State what color of Bearing.
5. For Non-Tilt determine Rod length.

ORDERING INSTRUCTIONS FOR WINDOW BALANCES

- All Window Balances are sold individually, for best results Circle Glass recommends that both balances be replaced at the same time.
- Top and Bottom ends are to be ordered separately. Circle Glass can install the guides you order. Simply specify what part number, and that you would like them installed when placing your order.

How to Order Window Balances

1. Measure the Metal Channel Balance length only, (do not include the plastic ends).
2. Check the number stamped on channel.
3. Select our part number from the chart.
4. Refer to page 76 to identify the top and the bottom ends to be attached.

1/2" Block & Tackle Channel Balances for Non-Tilt Windows

NOTE: Channel measures 5/8" but considered 1/2" in the trade.

All Balances are sold individually. Weight and Capacities are listed per pair of balances in pounds. Circle Glass block and tackle balances are a popular and growing platform. Long the standard for wood window designers, block and tackle balances are now incorporated into aluminum, vinyl and composite material windows.
