## Grow...

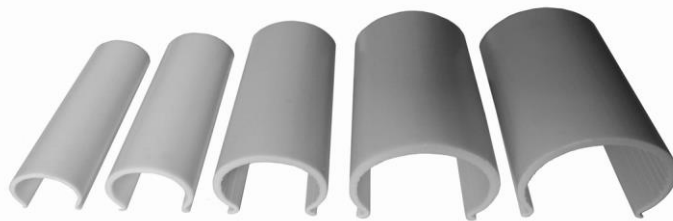

- ✓ Get an Early Start

- ✓ Extend Growing Season

**Snap Clamps™**: (pat. 5,752,297) are used to attach tarps or netting to pipe. The ABS clamps have higher temperature resistance and gripping strength than our original clamps. They are compatible with any type of pipe, including PVC. Some applications include greenhouses, row covers, shelters, bird protection, dog beds, and quilting frames. In windy areas, the Grip Clamps can be used to hold the Snap Clamps more securely.

# Circo Fittings™

Build pipe structures like furniture, greenhouses, cold frames, safety shields, and shelving. "F" designates unmarked, glossy, furniture grade fittings with beveled edges. "U" designates utility grade fittings, which are marked and rated Schedule-40. All of our fittings work with regular PVC water pipe, our utility grade unprinted pipe, or our furniture quality pipe. For colored fittings please see last page.

"F" designates unmarked, glossy, furniture grade fittings with beveled edges. As seen with this 113-F

"U" designates utility grade fittings, which are marked and rated Schedule-40 as seen with this 113-U

# Furniture PVC Pipe Glossy & Unprinted

Our pipe meets the size and thickness standards of Schedule-40 PVC water pipe. The pipe contains UV stabilizers which delay sun damage and discoloring.

## Furniture Pipe:

Furniture pipe comes in 10-ft lengths. We cut it to shorter lengths for UPS shipping. Almost ALL of our furniture pipe can be run in various colors if ordered in sufficient quantity.
