## Cutting Tools Brochure

Trusted by the Trades.

# FIVE LEGENDARY HAND TOOL NAMES NOW UNDER ONE ICONIC BRAND

As a part of the Apex Global Tool Group brand transition, beginning in 2018 the Crescent line will expand to include four other famous hand tool brands under the Crescent name.

These brands have built remarkable reputations on their own, and together,

will offer professional tradespeople over 2,600 quality tools they can count on to produce professional results, all under the Crescent banner.

With over 150 years of collective tool making experience, Crescent and its supporting brands have proven to be “Trusted by the Trades”.

The new brand platform will allow Crescent and its supporting brands to reach a broader market of professional tradespeople through more consistent product design, packaging, and other forms of communication. A new generation of tradespeople is looking for tools that will help them produce professional results and a new, stronger Crescent will be there to answer that call.

Please note this is simply a brand identification change such as trade dress, packaging etc. The performance of the tools will not change. Same great tools you buy today. There will be no tool model number change. There will be no change to the current order system. There will be no disruption of service or performance in any way.

Over the course of the following months, you will begin to see the Crescent brand in the market in a more consistent and powerful way.

Stay tuned for more information as we go through this transition. If you have specific questions, please contact your sales associate.

The following Brand Blueprint shows how the Crescent brand position of “Producing Professional Results” fits seamlessly into the other aspects of the brand: Our Purpose, Brand Values, Audiences, Brand Benefits, Behaviors, and Communications.

All of these important brand traits are exemplified in the Crescent logo, the Crescent Medallion, and “Trusted by the Trades” tagline.

The logo, with its bold font and striking Maker’s Mark, positions the brand confidently and communicates strength.

The tagline, TRUSTED BY THE TRADES, works to communicate power, strength, quality, and heritage.

Below are examples showing different product shapes and different types of packaging for various Crescent Master Brand and Supporting Brand products.

We will have a rolling change of packaging and trade dress in the coming months. So you can see the existing products in the market for some time.

## SHORT HISTORY AND HERITAGE

In 1847, thirty year-old cutler and gunsmith Jacob Wiss immigrates to the United States from Switzerland. He opens a small shop in Newark, New Jersey, forging surgical instruments and shears. His firm prospers, and during the American Civil War, it makes scissors for Union Army medical units and shears to cut uniforms.

The company continues to grow, expanding its product offering to include several lines of shears and scissors, trimmers, pruning shears, and tin snips. Crescent Wiss replaces any broken product, regardless of the reason for damage, and a loyal customer following develops.

Today, Crescent Wiss is a premier scissors, snips, and specialty trade tools brand from Apex Tool Group, one of the largest hand tool manufacturers in the world. Crescent Wiss has been the leading brand in aviation snips for over 50 years, driven by two simple principles: performance and durability. Crescent Wiss puts those same qualities into every product in its line.

Trusted by the Trades.

## NEXT GENERATION WISS SNIPS

### Snips made to earn the trust of a new generation.

Continuous improvement means never being satisfied. That's why these new Next Generation snips last 60% longer and require 20% less force to cut on average compared to our snips from just five years ago.

And that's why Crescent Wiss is the undisputed leading brand of snips for sheet metal professionals.

3-BLADE HAND CRIMPER

- Crimps male fitting end to connect guttering downspouts or metal pipe
- Optimal handle span for maximum power and comfortable operating range
- Non-slip cushion grips for superior comfort and control

Catalog No.	Description	UPC No.	Tool Length mm	Throath Depth mm	Product Weight kg	Shelf Pack Qty.	Packaging
WC3SN	3-Blade Hand Crimper	037103308597	248	31	0,386	3	Carded

5-BLADE HAND CRIMPER

- For crimping round metal pipe to create a male fitting end
- Crimps heavier gauge pipe up to 22 gauge/0.79mm galvanized steel
- Optimal handle span for maximum power and comfortable operating range
- Non-slip cushion grips for superior comfort and control

CABLE TIE TENSIONING TOOL

- Designed to install both heavy and light duty nylon cable ties
- For tightening nylon ties when securing flex duct to take-off collars
- Easy to operate cut-off mechanism that trims excess cable strap
- Comfortable cushion grip handles and internal stop

18" AND 24" FOLDING TOOL

- Commonly used for folding channels and making long uniform bends in sheet metal
- 3/8" and 1" depth folding channel to ensure proper depth alignment
- Constructed of heavy 16 gauge (1.59mm) steel that keeps folding channels from widening and ensures precise and accurate bends
- WF18 and WF24 are ideal for making long, uniform folds

H.K. PORTER®**

**SHORT HISTORY AND HERITAGE**

Since 1880, H.K. Porter has been producing cutters with a worldwide reputation for craftsmanship.

Today, Crescent H.K. Porter® provides an extensive line of cutters actuated by hand and pneumatics, designed to handle everything from heavy steel rods and bars to light wires and brushes.

**CRESCENT  
H.K. PORTER®**

Trusted by the Trades.

**SUB-CATEGORIES**

- Manual Bolt Cutters
  - Cable & Ratchet Cable Cutters
- Specialty Cutters
  - Pneumatic Cutters

**POWERPIVOT™ CENTER CUT  
DOUBLE COMPOUND ACTION BOLT CUTTER**

- PowerPivot™ technology for superior cutting power
- Double compound cutting action
- Precision engineered induction hardened center cut blades
- Heat treated for wear resistance and long cutting life
- Tubular steel handles for ultimate strength and cutting support
- Screw type adjustment for blade gap and alignment

**COMPACT BOLT CUTTER**

- Induction hardened cutting edges for ultimate durability
- Recessed notch blade design holds cutting material close for extreme cutting power
- Cuts mild steel (80,000 PSI) to 1/4"/6mm diameter, cuts very hard steel (285,000 PSI) to .14"/3.8mm diameter
- With angle cutter head and clipper cut blades create nearly flush cut
- Ideal for fencing work, exposed fasteners, or where near flush cut is required

HAND CUTTERS SELECTION

WHAT TO CONSIDER WHEN CHOOSING A HAND OPERATED CUTTER

What [size] is the material to be cut?

- Capacities of all hand-operated cutters are shown opposite each catalog listing.
- Do not exceed listed capacities.

How hard is the material to be cut? Many materials are made in varying degrees of hardness.

- The maximum hardness ratings that each hand tool is designed to cut are shown under each tool in this catalog.
- Extra hard metals: Up to Brinell 455 / Rockwell C48
- Hard metals: Up to Brinell 400 / Rockwell C42
- Medium Hard metals: Up to Brinell 300 / Rockwell C31
- Soft metals: Up to Brinell 200 / Rockwell C15

Will numerous or few cuts be made in a day?

- The frequency of cuts to be made and the required speed should be taken into consideration when choosing a cutter.
