affordable style

▶ When style also saves money, it's a good thing. Trendy, eye-catching designs help reduce energy bills – all while meeting energy efficiency requirements. And our fans even match our lighting families. Could there be any greater selling points? We don't think so.

list price each - \$41.76

Remote Control

E. 154286

Turn any ceiling fan into a remote control unit. Easy to install and easy to use! Requires 9V battery (not included). Reverse function may not operate with remote control. The remote control includes the following features:

- fan on/off function
- light on/off function and dimmer (incandescent only)
- 3-speed fan control
- operation range within 30 feet
- limited 10 year warranty
- list price each - \$49.46

3/4" Diameter Downrods

For optimal cooling, choose the downrod length to position the fan at approximately 8 to 9 feet above the floor. To calculate downrod length use the following formula:

(ceiling height in feet - 9) * 12 = recommended downrod length

length	finish	order code	box pack	list price each
12"	satin nickel	153460	12	8.85

VALVE & TRIM BUILDER PROGRAM

BUILDER PROGRAM VALVE

3 EASY STEPS

Choose the tub and shower components that best meet your needs. (see pages 144-145)

- Order the Builder Program Valve (524744) during the rough-in stage.
- Order the trim pieces needed when you order the rest of your after-paint decor.
 - shower head
 - escutcheon
 - shower handle
 - tub diverter spout (if needed)
- Mix and match trim pieces to create the design that meets your needs.

works exclusively with items on pages 144-145

Builder Program Valve

A. 524744

- pressure balanced
- ceramic disc
- 1/2" inlets/outlets (direct sweat or threaded connection)
- water limit screw stops
- plaster guard included
- brass plug included
- trim sold separately on next page
- box pack 1
- list price each - \$81.87

VALVE & TRIM BUILDER PROGRAM

C-TPAT CERTIFIED

Design House is proud to be a C-TPAT certified member. The Customs-Trade Partnership Against Terrorism (C-TPAT) offers trade-related businesses an opportunity to play an active role in the war against terrorism. By participating in this first worldwide supply chain security initiative, we ensure a more secure and expeditious supply chain for our customers. As a certified member we are granted front of the line privileges for container examinations. In the event of a situation that results in closing U.S. ports of entry, C-TPAT shipments will be given priority when business resumes. Our commitment to both trade security and trade compliance is rooted in our business practices.

SVI Number: A5e99586-720b-407a-ad37-914ae9191058

INDOOR LIGHTING

Certifications

UL Listed to ensure the highest quality. Most wall mounts and all vanity lights are UL listed for use in damp locations.

ENERGY STAR® qualified products meet strict energy efficiency guidelines set by the U.S. Environmental Protection Agency and the U.S. Department of Energy. All ENERGY STAR qualified lighting fixtures include compact fluorescent bulbs.

Warranty

10 Year Limited Warranty - most decorative indoor lighting
2 Year Limited Warranty - all ENERGY STAR qualified lighting

Green Advantage

Builders need ENERGY STAR qualified products to:

- meet green building standards
- earn LEED certification

Homeowners want ENERGY STAR qualified products to:

- reduce energy - use 75% less energy and produce 75% less heat than standard incandescent lighting
- save money - save on electricity costs by putting ENERGY STAR qualified fixtures in the most frequently used rooms of the home
- save time - compact fluorescent light bulbs only need to be replaced once every 7 years on average
- eliminate hassle - compact fluorescent light bulbs are included so no additional purchases are needed

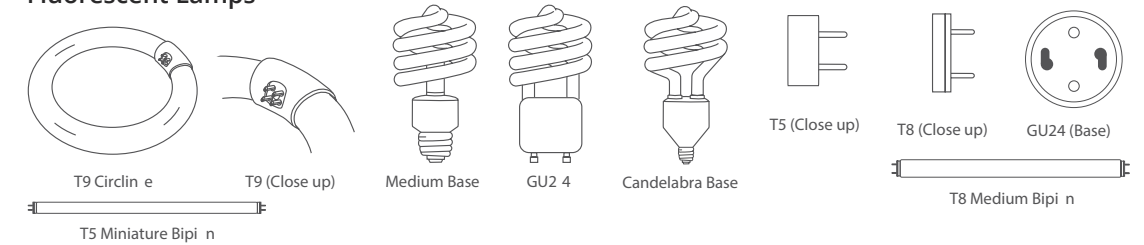

Lamping Information

Incandescent and Replacement LED

M = Medium base bulb required
 C = Candelabra base bulb required

Fluorescent Lamps

GU24 = 2 Pin fluorescent springlamp required
 T5 = 2 pin fluorescent cylinder bulb required
 T8 = 2 pin fluorescent cylinder bulb required
 T9 = 4 pin fluorescent circular bulb required

Chandeliers and Pendants are standard with 48" of chain and 60" of cord.

Mini Pendants are standard with 2 x 6" rods and 2 x 12" rods for adjustable heights.

RECESSED LIGHTING

Certifications

UL Listed to ensure the highest quality. All recessed housings and select recessed trims are UL listed for damp locations.
Washington State Energy Code compliant. All housings comply with the WSEC air sealing requirements to limit heat loss and moisture movement.

- **recessed construction packaging** can be sold as a single unit or as a contractor pack from the same kraft box

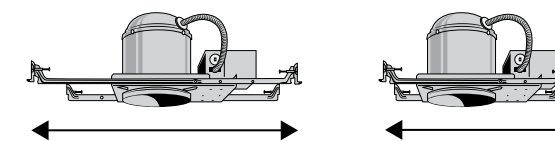

Housings

- housings are adaptable to both IC/non-IC applications (peel away label to show suitable lamping)

IC = installed with insulation contact non-IC = installed with no insulation contact

6" housings available
 adjustable nail-in hanger bars are designed to fit varying width joists

- pre-installed nails for easy installation
- all housings are airtight and suitable for damp locations

Light Trims

- popular styles
- designed to be used with both IC and non-IC housings
- shower trims available

OUTDOOR LIGHTING

Certifications

UL Listed to ensure the highest quality. All outdoor wall mount and post lights are UL listed for use in wet locations. All outdoor pendant and ceiling mount lights are UL listed for use in damp locations.

ENERGY STAR® qualified products meet strict energy efficiency guidelines set by the U.S. Environmental Protection Agency and the U.S. Department of Energy. All ENERGY STAR qualified lighting fixtures include compact fluorescent bulbs.

Dark Sky fixtures minimize glare, reduce light trespass and protect our natural night environment.

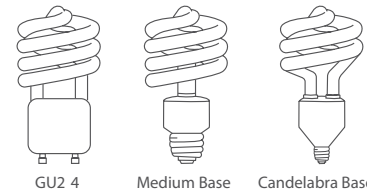

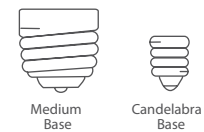

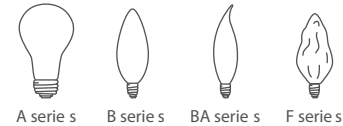

- fully shielded light fixture - all light emitted by the fixture, either directly or indirectly, is projected below the horizontal
- full cutoff light fixture - no light is emitted above the horizontal

Warranty

10 Year Limited Warranty - most decorative outdoor lighting

2 Year Limited Warranty - all ENERGY STAR lighting

Lamping Information

Light Output Equivalency		
Incandescent Light Bulbs (Watts)	Minimum Light Output (lumens)	Compact Fluorescent Light Bulbs (Watts)
40	450	5 - 8
60	800	7 - 10
75	1100	10 - 15
100	1600	15 - 20
150	2600	20 - 25

Incandescent and Replacement LED

M = Medium base bulb required
C = Candelabra base bulb required

Fluorescent Lamps

GU24 = 2 Pin fluorescent springlamp required

CEILING FANS

Certifications

UL Listed to ensure the highest quality.

ENERGY STAR® qualified products meet strict energy efficiency guidelines set by the U.S. Environmental Protection Agency and the U.S. Department of Energy. All ENERGY STAR qualified ceiling fans include compact fluorescent bulbs.

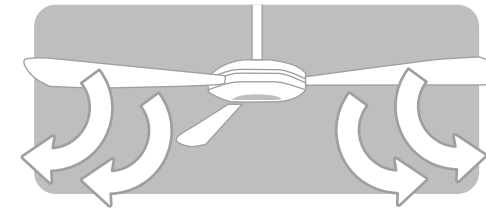

EPACT, the Environmental Protection Agency Act of 2005, mandates that fans manufactured after January 1, 2009 include a wattage limiting device that limits the light kit wattage to 190 watts. All Design House ceiling fans are EPACT compliant.

Warranty

10 Year Limited Warranty - select ceiling fans

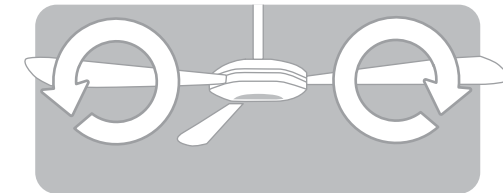

Lifetime Limited Warranty - select ceiling fans

Save Energy & Money, Add Comfort Summer - Clockwise

Circulates the air and creates a gentle cooling breeze. With a ceiling fan, 78° can feel like 72°. Supplements or even replaces air conditioning.

Winter - Counter-clockwise

Breaks up the stratification of heat on the ceiling and brings the warmth down to the people. (Temperature variation ceiling to floor can be 15°.) Room will be warmer at lower thermostat setting.

Energy Efficiency Data

Three energy efficiency data points are provided for all Design House fans: (see individual product pages)

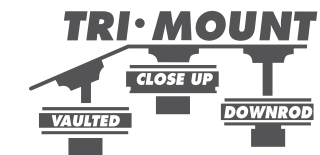

- **airflow** at high speed measured in cubic feet per minute (CFM)
- **electricity use** at high speed (excluding light kit) measured in watts
- **airflow efficiency** at high speed measured in CFM/watt

Comparison: 49" to 60" ceiling fans have airflow efficiencies ranging from approximately 51 to 176 CFM/watt at high speed.

Mounting

Hugger fans mount directly to the ceiling with no downrod (close-up configuration shown below).

Tri-mount adaptable feature allows the fan to be mounted with a downrod, in a close-up configuration or on a vaulted ceiling.

LOCKS & HARDWARE

Certifications

ANSI Grade 3 products are tested to meet grade 3 residential quality standards.

ANSI Grade 2 products are tested to meet grade 2 commercial quality standards.

Warranty

Lifetime Limited Warranty - locksets (mechanics)

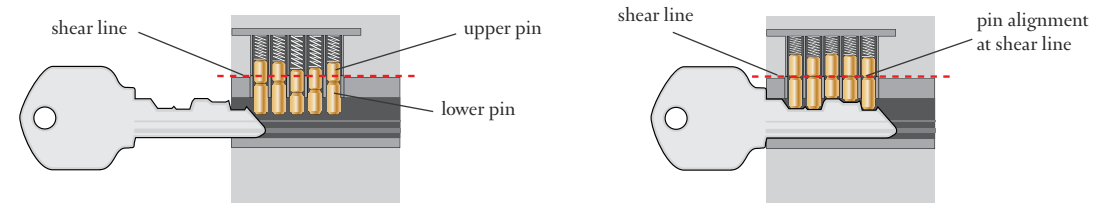

5 Year Finish Warranty - all locksets

1 Year Limited Warranty - locksets (electronics)

5-Pin High Security

Design House locks are a pin tumbler lock design, which is a system that requires a specific key to move a series of pins to release the lock.

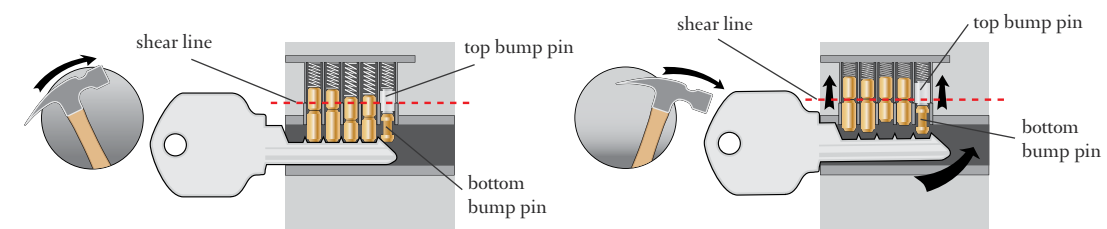

When the proper key is inserted, the pins will be pushed upward, lining up the pairs where the cylinder and the outer housing meet. This point is called the shear line. When the pin pairs meet at the shear line, it allows the key to rotate the cylinder plug and enables the door knob to become unlocked.

Anti-Bump Technology

Unlawful entry can be gained by skillfully “bumping” a pin tumbler lock. A strike to the back of a key with an ordinary household hammer sends a shockwave through the key that transfers to the pins. This causes the pins to rise in the cylinder walls past the shear line. Once the pins travel past the shear line, a simple twist of the key opens the lock.

For added security, Design House created anti-bump pins to prevent unlawful entry. The wider circumference of the anti-bump pin prevents the pin from moving past the shear line. When the pins are “bumped,” there isn’t sufficient force to move the anti-bump pins past the shear line, which means the door remains locked.

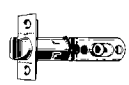

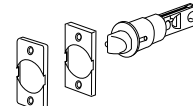

Features

Grade 2 and Grade 3 mechanical locks and electronic keypad locks available to meet all your building needs.

Mechanical locks feature reversible (non-handed) levers to make ordering and installation easy.

Custom keying to meet your specific needs - see page 105 for order codes and pricing.

Grade 3 latch options:

- 2-way adjustable latch 
- universal (6-way) latch 

PLUMBING

Certifications

CUPC compliant | NSF 61-9 compliant | ASME A112.18.1/CSA B125.1 compliant

Lead-free compliant faucets meet California AB1953, Vermont S-152 and Maryland HB 372 lead-reduction legislation.

ADA compliant faucets have a handle that is easy to grasp with one hand and, when properly installed, does not require pinching or twisting of the wrist to use.

WaterSense labeled faucets use 20% less water without sacrificing quality or performance.

Warranty

Lifetime Limited Warranty

Lifetime Limited Finish Warranty

Green Advantage 

Builders need WaterSense labeled products to:

- meet green building standards
- earn LEED certification

Homeowners want WaterSense labeled products to:

- reduce water - use about 20% less water and perform as well or better than standard faucets
- save money - if all U.S. households installed water-efficient faucets and toilets, the country would save more than 3 trillion gallons of water and more than \$18 billion dollars per year
- protect the environment and preserve the water supply for future generations

Builders and dealers need lead-free compliant products to:

- meet California, Vermont, and Maryland lead-reduction legislation

Homeowners want lead-free compliant products to:

- reduce their families’ exposure to lead in drinking water 

Technology

Pressure-balanced valves on tub and shower faucets maintain a constant temperature even when the water pressure changes. This prevents the occurrence of both sudden scalding and extra cold water temperatures.

Washerless cartridges, used in washerless faucets, are plastic discs with holes that align to control the flow of water and eliminate leakage problems that result from worn washers.

Ceramic disc cartridges are wear-resistant ceramic plates with holes that align to let water flow or close to shut off water supply.

Plating finishes are designed and tested to withstand over 96 hours of salt spray and are guaranteed to give you years of trouble-free performance.

Hot water stops are adjustable to prevent thermal shock by restricting the faucet’s hot water output.

Air injection technology accelerates the water to create more water pressure with less water, thus improving the spray force using a minimal 2.0 GPM of water. In our tests, 30% less water was used with the air injection technology.

Lead-free brass

Injection molded waterways

Lead-free compliant faucets have reduced the allowable amount of lead in kitchen and lavatory faucets to a maximum of 0.25%, down from the federal requirement of 4%. To accomplish this, we have used state-of-the-art technology in our engineering and manufacturing processes. Compliant faucets will be identified on our packaging with this logo .

Before

After

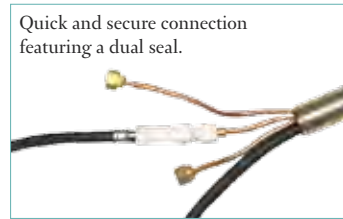

Faucet extension kits are now available to help complete faucet installations when the mounting surface is thicker than the threaded waterways. Installing the extension kit extends the available length of the waterways by an additional inch. The extension kit fits most faucets and is lead-free compliant.

Easy clean shower heads make it easy to clean the mineral deposits that often clog shower heads. Simply wipe the rubber spray nozzles with your finger or a sponge to clean away any hard water deposits and prevent lime scale build-up.

No tools required. Simply snap quick attach hose to spout.

Quick and secure connection featuring a dual seal.

Quick Attach technology makes faucet installation easy by eliminating the need to use tools to attach hoses to the spout. The Quick Attach technology snaps together with a telltale "click" so the novice do-it-yourselfer or professional can be assured the connection is secure with audible, visual and tactile confirmation. The dual internal o-ring seal prevents the possibility of leaks.

Pull-out kitchen sprayheads have toggle control spray options that make it easy to change from aerated stream to spray functionality. The pull-out sprayer swivels 360° on a ball joint to ensure smooth and quiet operation with minimal effort.

Multi-sprayer shower options enhance the shower experience by offering a choice of custom spray settings to match your showering needs. We offer both single function and multi-function shower heads for performance and versatility.

Gallons per minute (GPM) is a measure of the rate at which water flows through a fixture or fitting at a certain pressure. It is measured by the number of gallons flowing from the device in one minute at a given water supply pressure.

Spare parts are available to support the quality of our product. Download the product spare parts diagrams from www.todaysdesignhouse.com or call customer service 800-558-8700 for pricing and order codes.

BATH HARDWARE

Certifications

ADA compliant Design House commercial safety grab bars feature a gripping surface of 1 1/4" or 1 1/2" in diameter and a bar that does not rotate within its fittings.

Warranty

1 Year Limited Warranty

Easy Installation

- easy mount anchors make it easy to install your bath accessories to drywall
- convenient mounting templates are located on the back of the packaging all mounting hardware is included

Finishes

Computerized plating finishes are used in our manufacturing process to provide the highest quality, appearance, and durability. Our products are tested to withstand over 25 hours of salt spray and are guaranteed to give you years of trouble-free performance.

Create a **WholeHouse™ Package** for your bathroom with Design House bath accessories:

- **TruMatch® finishes** - ensure matching finishes across all categories from bath accessories and faucets to vanity lights and cabinet hardware
- **matching designs** - many bath accessory collections are designed to match specific Design House faucets and/or lighting designs
- **everything from one source** - everything you need to outfit your bathroom, including vanities, vanity tops, faucets, lighting, bath accessories, door hardware and cabinet hardware all from Design House

BATH FURNITURE

Certifications

CARB, the California Air Resources Board, approved an Airborne Toxic Control Measure (ATCM) to reduce formaldehyde emissions from composite wood products sold or used in the state of California. Design House furniture products noted as California 93120 compliant meet these requirements.

UL Listed to ensure the highest quality. All lighted cabinets are UL listed for damp locations.

ANSI, UPC, & CSA compliant. All Design House cultured marble and solid surface vanity tops are ANSI Z124.3-2005/CSA B45 series compliant, which includes testing for impact resistance, stain resistance, chemical resistance and thermal shock, among others. Our granite top undermount bowls comply with ASME A112.19-2008/CSA B45.1-2008. All products are tested in IAPMO R&T labs.

Warranty

1 Year Limited Warranty - bath furniture and granite vanity tops

5 Year Limited Warranty - cultured marble and solid surface vanity tops

Green Advantage

Retailers and builders in the state of California need to use only California 93120 compliant wood products in order to comply with state laws.

Homeowners want **California 93120** compliant products to:

- reduce exposure to formaldehyde - wood and composite wood products have been identified as a major source of formaldehyde in the context of total daily exposure to the general public
- reduce the risk of cancer - reducing formaldehyde exposure will reduce the risk of formaldehyde-related cancer
- improve air quality - reducing formaldehyde emissions will benefit the population by improving ambient air quality

Features

Features on Montclair, Ventura, and Richland Collections (products found on pages 170-177):

Concealed, adjustable hinges allow for smooth, easy use.

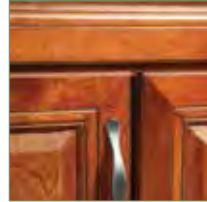

Full extension ball bearing drawer glides.

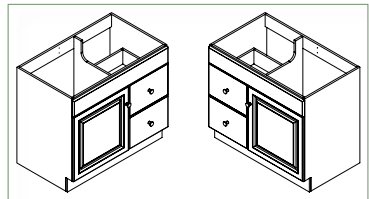

TruMatch™ cabinet hardware—also available open stock.

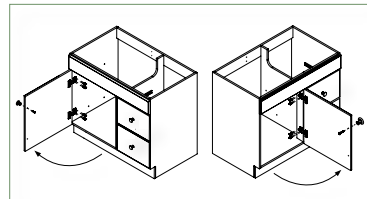

Adjustable shelves.

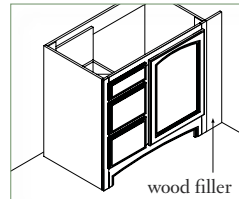

Solid wood door and drawer frames feature either cope and stick or mitered joint construction.

Reversible door and drawers on some Claremont and Wyndham vanities makes them convenient in any space.

Reversible door feature on many Design House vanities allows the homeowner to mount the door for left or right opening.

3" wood fillers available for installing vanities into areas that need an extension to fill in gaps.

Finishes

Stain gives a natural look and enhances the inherent beauty of the wood.

Paint is applied to obtain a rich, semi-opaque color that can not be achieved with natural wood alone.

Glaze is added over a base coat of stain. The glaze settles in corners and crevices enhancing the detail of the door design.

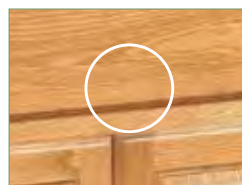

Laminate cabinet doors have a thin plastic substrate applied to the door creating a smooth, durable surface.

Natural Characteristics

Joint lines are the natural result of wood expanding and contracting based on moisture in the air. They do not weaken or diminish the strength of the joint.

End grain surfaces and other softer areas of the wood accept more stain naturally, creating a darker appearance which adds to the character of the wood.

Telegraphing is the effect of the grain showing through the stain. Open or coarse wood grains, like oak, will "telegraph" more than closed or finer wood grains.

Mineral streaks are a naturally occurring variation in the grain caused by mineral deposits absorbed from the soil. After the finish is applied, the mineral streaks may appear lighter or darker than the rest of the wood.

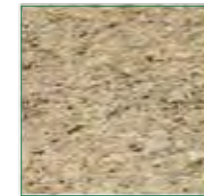

GRANITE VANITY TOPS

Available Granite Finishes:

- Five Finishes Available in Six Sizes, see pages 186-191 for details

black pearl

venetian gold

golden sand

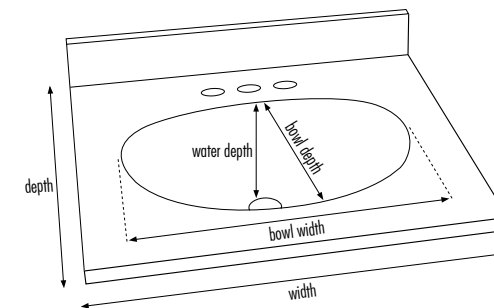

uba tuba

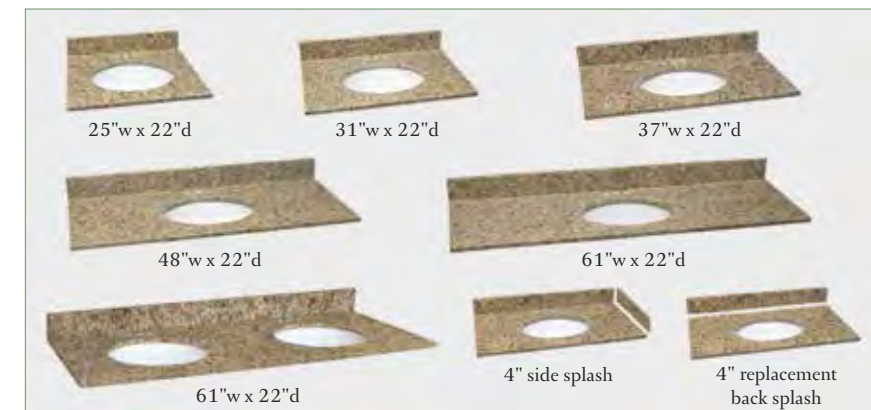

tropical brown

Vanity Top:

- Fits Design House fully assembled and ready-to-assemble vanities
- Pre-sealed granite for stain resistance
- 2 cm thick granite polished on three sides with eased edge profile
- Pre-drilled for 4" centers
- Pre-installed oval ceramic UPC certified undermount sink
- 4" backsplash included
- One year limited warranty

Cultured Marble Vanity Top Sizes:

TERMS OF SALE & POLICIES

Terms of Sale

Possession of this catalog does not constitute permission to purchase or an obligation to sell.

All goods are shipped F.O.B. shipping point.

There is an additional \$5.00 handling fee on all FedEx/UPS orders. (For residential deliveries, the additional handling fee is \$8.00).

Freight charges are added to each order unless the amount qualifies for prepaid shipping. A fuel surcharge is added to each order regardless of freight prepaid.

Invoices NOT paid by the due date are to be paid with the HANDLING AND FREIGHT charges included.

There is a \$50 minimum order requirement.

To help us process your payment timely and accurately, please note the invoice number with your payment.

If you have problems or questions concerning your account, please call our accounting department. We will be glad to assist you. 800.558.8700

Summary of Terms

- F.O.B. Shipping point.
- NET 30 days from invoice date.
- Freight prepaid on all qualifying orders only.
- Send payments to:

DHI Corp.
NW 6143
P.O. Box 1450
Minneapolis, MN 55485-6143

Technical Assistance

If you (or your customers) have questions regarding Design House products, please call our Customer Service Team. They are available toll free at 1.800.558.8700

Reorder Versus Backorder

In those instances where we are temporarily out-of-stock on an item, we will advise you to reorder. If you phone in your order, we can tell you at that time when to reorder the item. Orders placed by FAX or email will show "REORDER" on the Packing List when you receive your shipment.

Returns – Guaranteed Sale

It is our policy to ship only clean, new, pristine merchandise. Therefore we do not participate in take-backs, guaranteed sale, or accept any returns of special order merchandise. There may be instances where we will authorize the return of non-defective merchandise for credit to your account. Such returns require written authorization and are subject to a 25% restocking charge and return freight expenses.

Phone Orders

Most incoming orders are placed easily and conveniently by calling a Customer Service Representative at:

1.800.558.8700

**Customer Service hours are 7:30am -5:00pm
 Monday - Friday Central Time**

Having your account number and product order codes available will speed up the process. Phone orders give you the added benefit of immediate feedback on:

- What will be shipped
- When it will be shipped
- How it will be shipped
- Whether it meets prepaid freight minimums
- When to reorder out-of-stock items
- Info on special prices and promotions

When ordering by phone, please give our six digit order code first and then the quantity.

order code first... quantity second

Fax or Email Orders

For your added convenience, you may place orders by fax or email seven days a week, 24 hours a day.

Fax: 262.236.4577

Email: customerservice@dhi-corp.com

Please include the following information on your order:

- Contact name
- Contact phone number
- Contact fax number or email address
- Company name (and account number if possible)
- Complete ship-to address

Request a Design House order calculator to make ordering easier!

Mailed Orders – EDI Orders

Mailed orders: If you need price or product availability verification, clearly write your request and include "name and telephone number" on the end of your order. Mail orders to the following address:

Design House, Attn: Customer Service
 5205 West Donges Bay Road, Mequon, WI 53092

EDI Orders:

Electronic P.O. from your computer to ours!
 Electronic invoicing from our computer to yours!

Please contact our MIS department at 800.558.8700 to arrange.

Direct Import Services

Design House can provide direct import services for our customers. Customers with an interest in container quantity purchases should call Customer Service. 800.558.8700

New Account Information

Minimum order of \$750 Net Value is required to establish a new account. A valid resale tax # is required. All goods sold are for the purpose of resale. No direct sales to consumers, contractors, builders, or other end-users. Design House sells to home improvement retailers such as home centers, lumber dealers and hardware stores. Possession of this catalog does not constitute permission to purchase or an obligation on Design House to sell.

Customer Pickups – Will Call

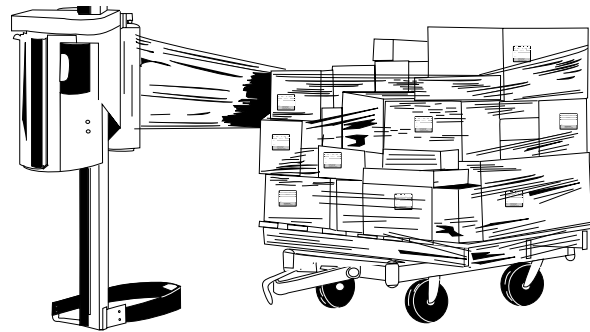

Please call 1.800.558.8700 to arrange for a will-call order.

"Will Call" orders will generally be available for pick up the second business day after order is placed. Please call to schedule pick-up.

Sorry, but we do not have counter service.

Shrink Wrapped Shipments

- Speeds unloading and handling for your receiving department
- Helps eliminate pilferage - any broken pallet should be checked before signing bill of lading
- Helps eliminate shortages

Clearly note any damage to shipment on the delivery receipt before signing.

Small Order Shipped Direct

Most items in this catalog can ship small package carrier (FedEx/UPS). Motor freight on non FedEx/UPS items would be \$70.00 or more; so you may want to include with a stock order. Residential delivery is not available on motor freight; must be deliverable with a small package carrier.

When you order, we will . . . :

- Verify in-stock status
- Reserve inventory for your order
- Provide the approximate shipping charges

Please note a broken case upcharge may also apply. To confirm availability and for approximate small package carrier charges call our Customer Service Department at 1.800.558.8700. We suggest calling one time to confirm details and to place the order.

FedEx/UPS will only deliver to a street address, not a P.O. box.

Damaged Goods – Missing Parts

If you receive merchandise with missing or damaged parts or components, call a Customer Service Representative for assistance. Please be prepared to give the six digit order code and a brief description of the problem.

In many cases we will be able to replace the missing or damaged part immediately at no charge.

The Customer Service Representative will determine the best way to solve your particular problem.

Defective Goods – Return & Credit Policy

In cases involving defective materials and/or workmanship covered under warranty terms, you should call a Customer Service Representative for assistance 800.558.8700. Please be prepared to provide the six digit order code number and a brief description of the problem.

We will forward the return authorization and instructions for returning the merchandise. Please do not return merchandise without an authorization as it prohibits the proper crediting of your account. Credit will be issued as appropriate upon receipt and inspection of the merchandise.

Shipping Errors – What To Do

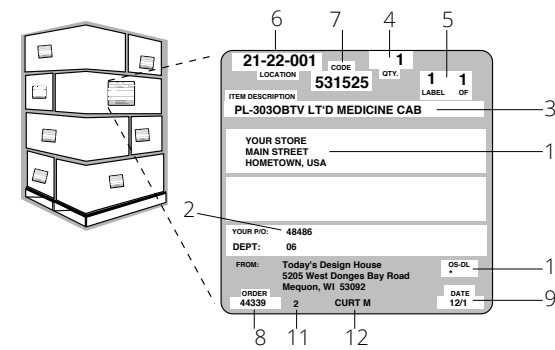

Many orders are palletized and shrink-wrapped to prevent loss. When items are missing or damaged in a palletized shipment, please call our Customer Service Department. In all other situations, you should file a claim direct with the carrier. If you need guidance or assistance just call. We will be glad to help. 800.558.8700

Important:

Report shipping errors to our Customer Service Department within five (5) days from receipt of your order. Please check in your order at the time the pallet is broken.

Manufacturer's Note

The information printed in this catalog is based upon the latest product information available at the time of printing. Design House reserves the right to make changes at any time to prices, colors, specifications and models; and to discontinue models without notice. All specifications are approximate and dimensions are nominal.

Packing Label Information

1. Customer name/address/shipping location
2. Your P/O number, or name of person who placed order. Also, on request we can show your department number and/or your SKU number in this area.
3. Item description, exactly as it will appear on packing list and invoice.
4. Quantity of item covered by this label.
5. If more than "1 box" or "1 case" is ordered, then this will read "1 of 2", "1 of 3", etc.
6. Bin location spot in distribution center from which item was picked.
7. Design House order code number. Useful for re-ordering and double checking.
8. Design House order number. Use for checking packing list and invoice.
9. Order entry date.
10. Indication to our distribution center employees whether or not there is more inventory available in other locations in the distribution center.
11. Section of the distribution center the item is to be picked from.
12. Person in customer service who entered your order.

Advantages

Faster and easier check-in. Each box labeled to conform exactly to packing list. Eliminates shipping and billing errors.

Miscellaneous Information

Items shipped in full pallet quantities have two labels. Example: 1 full skid of Vanities - the label shows 1 of 1A and 1 of 1B.

Mixed case material: the item description reads "mixed case" to help your people identify materials which are shipped in less than case quantity.

Co-Op Advertising Policy

1. Calendar year program. Cooperative advertising funds are available at the rate of 3% of all net purchases from Design House in prior calendar year.
2. Qualifying media expense is limited to newspapers, flyers radio & TV ads. Any exceptions must be approved in advance and in writing prior to expenditure to be eligible. Cooperative advertising is reimbursed on a 50/50 basis up to 3% of net purchases.
3. The flexible Multi-Media spending plan allows you to use your accrued funds to advertise any Design House product of your choice.
4. You get one full year to use the funds you earned the prior year. Unused funds expire at the end of the calendar year.
5. All purchases for all locations are automatically lumped into one total. Funds may be used for a total company program or individually by each location.
6. Claims are regularly processed in 45 days or less and paid by check. Claims are to be submitted within 60 days of the ad and include proof of performance and invoices. Claims for production costs not honored. Product and Design House logo must appear prominently in ad to qualify for reimbursement.
7. Account must be current and in good standing to qualify for co-op advertising funds.

Free product photos available. Call our Customer Service Department. 800.558.8700

DESIGN HOUSE WARRANTY

The Design House products listed below are warranted to be free from defects in material and workmanship from the date of the original purchase through the time period specified below with the following limitations.

1. The owner of the product claiming under this warranty must be the original owner of the product and must occupy the residential premises upon which the product was originally installed. This warranty does not cover industrial, commercial or business use of the product.
2. The product must have been purchased from an authorized Design House dealer. A copy of the bill of sale including the date of purchase must be presented to Design House as the proof of purchase.
3. This warranty does not protect against malfunction or other failure caused by abuse or misuse including but not limited to repair by persons not authorized by Design House, improper handling or maintenance, improper installation, modifications of any kind including painting or use for purposes other than intended or in locations subject to conditions not specified on the packaging.
4. This warranty does not cover product finish on any products with the exception of products covered by a specific finish warranty which warrants the product to be free from finish defects in material and workmanship. Finish warranties do not cover scratches, abrasions or deterioration due to the use of paints, solvents or other chemicals.
5. It is recommended that installation be done by a qualified professional. The customer has sole responsibility for proper installation in compliance with all local and state code requirements.
6. This warranty specifically excludes claims for indirect, incidental or consequential damages.

(Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.)

This warranty is given in lieu of all other warranties expressed or implied, written or oral. No employee, agent, dealer or other person is authorized to give any warranties on behalf of Design House. The customer's legal rights are limited to those stated specifically in this warranty statement.

With proof of purchase, Design House, at our discretion, will repair or replace the defective product or will refund up to the original purchase price of the product within the warranty time period. The customer shall be responsible for all costs incurred in the removal, reinstallation and shipment of the product for repair. If a material or workmanship defect is found, please call Design House customer service at 800.558.8700.
