**ALL NATURAL FERTILIZERS**

**NET WT. 1LB (0.45 kg)**

**Acid Mix** is blended specially for acid soil loving plants like blueberries, rhododendrons, azaleas, hydrangeas, evergreen trees and shrubs, raspberries and other plants that thrive in a low pH soil. To encourage lush flowers and fruit, apply Acid Mix in early spring for vegetative growth and again when blooms appear. Fall applications can help promote root growth and boost resistance to extreme winter temperatures.

### GUARANTEED ANALYSIS

TOTAL NITROGEN (N)	4.0%	Derived from: Cottonseed Meal, Fish Bone Meal, Langbeinite, Rock Phosphate and Kelp Meal
0.4% Water Soluble Nitrogen		
3.6% Water Insoluble Nitrogen		
AVAILABLE PHOSPHATE (P2O5)	3.0%	
SOLUBLE POTASH (K2O)	6.0%	ALSO CONTAINS NON-PLANT FOOD
CALCIUM (Ca)	3.0%	INGREDIENT(S):
MAGNESIUM (Mg)	2.0%	2.5% Humic Acids derived from
SULFUR (S)	2.0%	Leonardite

### APPLICATION RATES

2½ cups ≈ 1 lb; ½ cup ≈ 3.2 oz; 2½ tbsp ≈ 1 oz

**Berries:** For new berry plants (1-2 years old), prepare transplant hole and mix 1 cup with the backfill soil. Use amended soil to fill in around the new plant and water in well. To feed established berries, apply 1 cup per plant in early Spring, mix into soil surface and water in well. Repeat application when blooms appear and again in Fall at half the recommended amount.

**Outdoor Containers:** For new plantings, add 2-4 tbsp per gallon of soil and mix thoroughly. To feed established plants, lightly mix 1-2 tbsp per gallon into the soil surface once each month during the growing season.

**Trees & Shrubs:** In Spring, spread 1 lb per 1" of trunk diameter around the base outwards to the drip line, mix into soil surface and water in well.
