

# TRUSTED POWER BY DURACELL®

# DURACELL BATTERIES

## DURACELL® COPPERTOP®

### ALKALINE BATTERIES

#### WITH DURALOCK POWER PRESERVE™ TECHNOLOGY

- + Increased battery life = longer service life, lower operating expenses, and an increase in productivity due to less man hours replacing batteries.
- + Duracell batteries are engineered for intermittent use, so the battery is not expelling energy when the device is off, providing longer life and increased productivity.
- + Less maintenance = less downtime in your facility, increasing efficiency throughout your location.
- + Mercury Free-Formula – No disposal issues.
- + Lasts up to 10X longer than super heavy duty batteries in power demanding applications.
- + 10 year shelf life (each battery is individually date coded to ensure freshness and guaranteed fresh for 10 years).
- + Available in bulk packs and smaller packs sizes.
- + Duracell CopperTop batteries can be used for increasing productivity, emergency preparedness, inventory management (Keepstock), and safety devices.

## DURACELL® ULTRA POWER®

### ALKALINE BATTERIES

#### WITH DURALOCK POWER PRESERVE™ TECHNOLOGY

- + Ultra Power batteries are designed for medium/high drain devices that use a lot of battery power.
- + Features Powercheck – allows you to see the remaining power on the battery at the push of a button!
- + Our longest lasting alkaline battery ever!
- + Increased battery life = longer service life and less man hours replacing batteries – lowering your operational costs.
- + Less maintenance = less downtime in your facility, increasing efficiency throughout your location.
- + Ultra batteries are engineered for intermittent use, so the battery is not expelling energy when the device is off, providing longer life and increased productivity.
- + 10 year shelf life guaranteed (each battery is individually date coded to ensure freshness).
- + Ultra batteries can be used for increasing productivity, emergency preparedness, inventory management (Keepstock), and safety devices.

## DURACELL® PROCELL®

### ALKALINE BATTERIES

#### THE EFFICIENT POWER CHOICE

- + Increased battery life = longer service life, less man hours replacing the batteries, lowered operating costs, and operational improvement.
- + Less maintenance = less downtime in your facility, increasing efficiency throughout your location.
- + Procell batteries are engineered for intermittent use, so the battery is not expelling energy when the device is off, providing longer life and increased productivity.
- + Procell batteries are economically packaged for professional applications.
- + Procell batteries have a 7 year shelf life (each battery is individually date coded to ensure freshness).
- + Contains no added mercury.
- + Reliable operation in temperatures between -4°F to 129°F.
- + Procell batteries can be used for increasing productivity, emergency preparedness, inventory management (Keepstock), and safety devices.

## DURACELL® RECHARGEABLE & STAYCHARGED®

WITH DURALOCK POWER PRESERVE™ TECHNOLOGY

- + Ideally suited for high-drain devices or in devices where you are frequently replacing batteries.
- + Rechargeable Batteries can be used up to 300 times = reduces waste and cuts operational costs.
- + Increased battery life = longer service life, less man hours replacing batteries, cutting expenses, and reducing waste.
- + Less maintenance = less downtime in your facility, increasing efficiency throughout your facility and generating less waste.
- + Lasts up to 4 times longer than a regular alkaline battery which increases productivity.
- + StayCharged Batteries – Ready to be used right out of the package! No waiting to charge!
- + StayCharged Batteries – Stay charged for up to 1 year in the package.
- + 15 Minute Charger increases productivity – Can charge up to 16 batteries in one hour. Comes with 4 Staycharged batteries
- + 15 Minute Charger and the Mini Charger are Energy Star Qualified.
- + Mini Charger comes with 2 Staycharged AA batteries and the charge time is 8-10 hours.
- + Rechargeable batteries can be used for sustainability, increasing productivity, and inventory management.

## ELECTRONIC BATTERIES & COIN CELLS

WITH DURALOCK POWER PRESERVE™ TECHNOLOGY

- + These coin cells with lithium or alkaline chemistries can power electronic devices including calculators, key fobs, memory backups, and testing meters.
- + High capacity, low self-discharge for longer service life.
- + Longer lasting to increase productivity.

## BUTTON CELLS

WITH DURALOCK POWER PRESERVE™ TECHNOLOGY

- + Silver Oxide batteries can power test equipment, measurement tools, and provide memory backup.
- + Designed for small electronics including watches.
- + Offers reliable, long lasting, and optimum performance.

## LITHIUM BATTERIES

- + For applications with a high current pulse and continuous drain.
- + Delivers long-lasting power to keep up with today's high-tech devices.
- + Reliability with more consistent performance.
- + Longer lasting to increase productivity.
- + Reliable operation in extremes from -40°C to 60°C.

## MEDICAL BATTERIES

- + Get the reliable performance you need for your critical medical devices.
- + For use in glucose meters, blood-pressure monitors, defibrillators, pulse oximeters, body composition analyzers, and more.
- + Longer lasting for an increase in productivity.
