The Rectorseal Corp.

Leak Locator - Rector Seek® Better Bubble is a uniquely formulated leak locator that pinpoints the smallest leak quickly and easily. Its organic ingredients make it safer to use on most gases including ammonia, oxygen, air, and refrigerants. Its thick blue formula produces large, long lasting, well defined elastic bubbles that stand up under pressure and windy conditions. It may be used on surface temperatures from 0° F. to 250° F., is noncorrosive, will not attack rubber or plastic, and is biodegradable. 8 oz. bottle with dauber top.

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost

NOTE 1: Flexible - Polybutylene may be shaped, contoured or looped to fit any installation requirement. Pressure rated with a burst strength of 900 P.S.I. of 150° NSF PWS, E listed, CSA B137.8. Exceeds ASTM 3309. Dependable 1-piece construction with formed self-sealing heads. No crimps, fittings, O-rings, or compression sleeves to fail or leak. Solid brass connecting nuts on each tube. Tube size on all connectors 3/8" O.D. x 1/4" I.D.

CONNECTORS

Fluidmaster Inc.

Toilet Connector - No-Burst® braided stainless steel toilet water supply connectors fit 3/8" Female compression thread x 7/8" Female ballcock thread. Nickel-plated brass water supply hex nut. 220' of stainless steel wire per foot ensures high bursting strength. Stainless ferrules are extra long, with radial crimps. Inner strengths, too. Tough, NSF approved polymer core resists chlorine and chloramines. Ample inside diameter for high flow capacity. Captive cone washers seal tightly, can't fall out. Exceptional flexibility for fast, easy installation. Won't kink or crease, even in the tightest of spaces. Heavy-duty nuts are easy-to-grip. Exceeds all requirements for flexible water connectors as defined by ASME A112.18.6 and CSA B125. 10 year warranty. The longest warranty available.

Dishwasher Connector - Fits-All™ No-Burst® dishwasher connector. Takes the guess work out of connector selection. 1 connector fits 4 shut-off valve sizes: 3/8", 7/16", 1/2" Male compression and 1/2" Male iron pipe. 60" length. Thread adapters fit most shut-off valve connection fittings. 220' of stainless steel wire per foot ensures high bursting strength. Stainless ferrules are extra long, with radial crimps. Nickel-plated brass hex nuts. Inner strengths, too. Tough, NSF approved polymer core resists chlorine and chloramines. Ample inside diameter for high flow capacity. Captive cone washers seal tightly, can't fall out. Exceptional flexibility for fast, easy installation. Won't kink or crease, even in the tightest of spaces. Heavy-duty brass hex nuts are easy-to-grip and nickel-plated for durability. Exceeds all requirements for flexible water connectors as defined by ASME A112.18.6 and CSA B125. 10 year warranty. The longest warranty available.

Watts Water Technologies

Water Pressure Regulator - Bronze body construction. Stainless steel seat and integral strainer. Unitized construction. High temperature resisting diaphragm for hot or cold water. All working parts easily serviceable without removing valve from line. For supply pressure up to 400 lb. Adjustable reduced pressure range 25 to 75 lb. Standard setting 50 lb. 3/4" F.I.P.S. connectors; union 1 end. When relief setting is in excess of available supply main pressure, bypass feature limits build-up of system pressure from thermal expansion by instantly equalizing the system and supply pressures.

FROST-PROOF HYDRANT

Mansfield Plbg. Prod.

Anti-Siphon Wall Hydrant - Self-draining. Mansfield anti-siphon frostproof sill cocks assure protection against freezing and undesirable back-siphoning. Because they're frostproof, they can stop outside hydrants from freezing and bursting the pipes. Plus, the anti-siphon feature protects against water siphoning back to contaminate the potable water system. Also, unlike anti-siphon attachments, which must be manually drained to prevent freezing, the integral anti-siphon design is self-draining. 1/2" sweat inside, 1/2" I.P.S. outside.

FROST-PROOF HYDRANT

Mueller/B & K

Backflow Preventer-Vacuum Breaker - Attached to sill cocks, valves, and hydrants with Male hose thread outlet. For indoor or outdoor use. Designed to prevent dangerous back siphonage and back flow into a potable water supply. Furnished with break-a-way lock screw if vandal-resistant installation is desired. For nonfreezing areas only. Designed to protect hose connections from contamination where temperatures do not get below freezing. Outlet side of vacuum breaker has a manual drain release of check valve to allow complete draining of valve, but must be operated manually after hose is disconnected to prevent valve from freezing. I.A.P.M.O. and A.S.S.E. approved. 1 each per display pack for peg hook hanging.

Genova

Straight Stop - This valve adapts directly from 1/2" CPVC tubing at floor to 1/4" I.D.-3/8" O.D. pex (previously uncopper) lavatory and/or closet riser tubes.

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost
434391-D	53030	Strat Supply Valve	1/10/100	.275	8.79 EA

Genova

Angle Stop - This valve is designed to join pex tubing, copper tubing, or CPVC tubing to pex or chromed metal supply tubes. Most often used where toilet, vanity, or sink piping comes through the wall. 1/2" x 3/8" (previously uncopper).

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost
434408-D	53065	1/2x3/8 Angle Valve	1/10/100	.400	7.29 EA

NOTE 1: Universal™ the unique Genova hot and cold water system pex fittings allow for complete and direct transition between Pex, CPVC, copper, and galvanized pipe. Approved for both hot and cold water supply. Designed to withstand continuous operating pressures of 100 P.S.I. at water temperatures of 180° F.

Genova

3/4" Gate Valve - This valve is used on the hot water heater and any other application where full flow gate valves are desired. It is designed to join pex tubing, copper tubing, or CPVC tubing (previously uncopper).

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost
408050-D	53027	3/4" Bulk Gate Valve	1/0/5	.980	16.49 EA

PIPE/VALVES/FITTINGS

Genova

Line Valve - This valve is designed to allow flow rates equal or exceeding conventional gate valves. It can be used to join pex tubing, copper tubing, or CPVC tubing (previously uncopper).

FlowGuard Gold® CPVC Water Pipe - FlowGuard Gold® CPVC is made of a higher impact resin that insures increased product toughness year round. This higher density (heavier) CPVC is a high-temperature water pipe that has a long term stress rupture of 100 P.S.I. at 180° F. (400 P.S.I. at 73° F.). Conforms to ASTM standard D2846. Use only CPVC cement approved for use on FlowGuard Gold® CPVC water pipe.

Zurn Qest

100' Coil PEX Tubing - Flexible, corrosion-resistant, no electrolysis, and freeze damage-resistant. QestPEX pipe can be connected to galvanized, copper, and CPVC systems with standard Qest® fittings, including crimp and compression. QestPEX pipe meets or exceeds ASTM F-876 and F-877 standards. QestPEX pipe is easy-to-install and will handle all normal temperatures and pressures common in residential systems and commercial potable water systems.

NOTE: Same size as copper tube.

5' Straight Lengths Pex Tubing - Made of the finest cross-linked polyethylene (PEX). Flexibility that allows fast installation, bends easily around corners. Withstands freezing, gets stronger as the temperature gets colder. Tubing has been tested to withstand freezing down to -95° F. Winterizes easily - can be used with most anti-freeze solutions. Repairs easily, should ever a frozen tube need thawing, simply apply heat, using a heat gun, the flexible tubing will not weaken from the applied heat.

PIPE/VALVES/FITTINGS

No-Caulk Flashing With Thermoplastic Base - 1-piece construction eliminates any possibility of the collar coming off. Patent pending. Patented positive double seal ensures leak-free fit around vent stack. Black color blends with modern roofing material colors and is an excellent weathering color. No-Caulk collar allows plenty of room for expansion and movement of pipe. Gives with the movement of the pipe while maintaining leakproof seal. Fits roof angles from flat to 45°. Will not warp or crack. Never needs caulking. Fits all types of pipe, copper, cast-iron, plastic, aluminum, and galvanized. Easy-to-install, slips over the vent stack and automatically adjusts to pipe size and roof angle. Won't rust or corrode. No roof discoloration.

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost

No-Caulk Flashing With Galvanized Steel Base - Exclusive 1-piece construction insures a positive leakproof installation every time. Elastometric collar allows the vent stack plenty of room for expansion and contraction. Galvanized base is made from 24-gauge deep drawing steel extra high with no seams. Easy- to-install, the flashing slips over the vent stack and automatically adjusts to pipe size and roof angle, and remains perfectly flat on the roof.

Cresline Plastic

PVC Drain And Sewer (D & S) Pipe - 10' lengths belled ends. O.D. of pipe 4.215", minimum wall thickness .075 conforms to ASTM No. D2729 specifications. Manufactured of high-quality PVC resin. Remains flexible and is less apt to crack and split than pipe made with PVC regrind material. Pipe printed 3000 lb. crush.

Available sizes:

- 4" solid drain pipe, 10' L., belled end.
- 4" perforated drain pipe, 10' L., belled end. 2 rows, 5/8" diameter holes, 120° spacing.
- 4" perforated drain pipe, 10' L., belled end. Indiana Code. 3 rows, 5/8" diameter holes, 120° spacing.

NOTE: Due to fluctuation of the cost of PVC resin, Distribution reserves the right to bill at the prices prevailing on date of shipment.

Watts Water Technologies

Water Service Vacuum Relief Valve - Automatically vents a closed system if vacuum occurs. Allows air to enter system. Relieves vacuum conditions which could siphon the water from the system and burn out a water heater or collapse a tank. Male pipe thread. Maximum water working pressure: 200 P.S.I. Maximum temperature: 250° F. Also suitable for steam service, maximum pressure: 15 P.S.I.

Product No.	Mfg. No.	Description	Order Mult.	Weight	Unit Cost
492604-D	N36-M1	1/2"	1/0/24	2.917	22.99 EA
432091-D	N36M1	3/4"	1/0/24	1.583	19.49 EA

NOTE 1: Check your local plumbing codes to see if 1/2" size is code approved in your area.

Watts Water Technologies

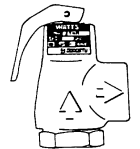

ASME Water Pressure Relief Valve - Bronze body relief valves for pressure protection of all types of hot water heating boiler equipment. Pressure setting 30 lb. 650,000 BTU/hr. 3/4" I.P.S. Female inlet and outlet.
