IT'S AN HEIRLOOM.

On April 1, 1898 Willem de Wit started his blacksmith company in Kornhorn, a small village in northern Holland. Today, the 4th generation of the forging family is running the company. Top-notch quality combined with innovative designs make DeWit tools the ultimate gardener's choice. The latest equipment and techniques combined with historical craftsmanship make DeWit one of the most modern garden tool manufacturers in the world. It's not only about tools - the handles are also very important. Handles come from Forest Stewardship Council (FSC®) certified, government controlled forests. This regulates the use of wood and the replanting of trees for a greener environment.

# DUTCH P-GRIP™ TOOLS

## Push or Pull...it's Perfect!

The P-Grip concept was developed by TDI and is manufactured by DeWit! This exclusive P-Grip handle is much more ergonomic than a standard hand tool. The exclusive "P" handle allows the use of either one or two hands while giving more pushing and/or pulling power with less pain! The Dutch-made tools carry a lifetime guarantee.

### Great for seniors!

The P-Grip's appeal to the aging population and "no frills" ergonomics, along with the natural look and feel of the tool, creates much interest for this innovative tool line.

### Great for Raised Bed Gardening!

"The P-grips are made really well and give the gardener much better control and power. I love them as well." - Michael Hicks  
(Director of the Center for Community Empowerment in Jasper, IN)

# DUTCH SPECIALTY TOOLS

## Drop Grip Tools

DeWit calls them “drop grip” handles. You’ve likely seen these before - formerly available from two popular east coast tool manufacturers. The bulb on both ends of the handle keeps your hands from slipping off the handle. Made from Ash, the tools measure around two feet in length. Great for working in raised beds and to use along with a kneeler seat. A great 2-hand tool for seniors!

- The ultimate trowel with Drop Grip handle
- Easier to dig holes for planting

**31-8713 Drop Grip Trowel**

Head: 3.6”W; Total: 26”L; 0.8lb

# Old-Fashioned, European-Style Eye Hoes

Dating back to the early Romans, these hoes are primarily used as chopping tools for breaking up hard soil, grubbing out stubborn weeds and roots, and hilling up around vegetables. Ash handles are thickest at the bottom where the "eye" rests. Our Eye Hoes are available in two lengths: 16" and 51", and the handles are interchangeable with each head.

*Interchangeable Heads!*

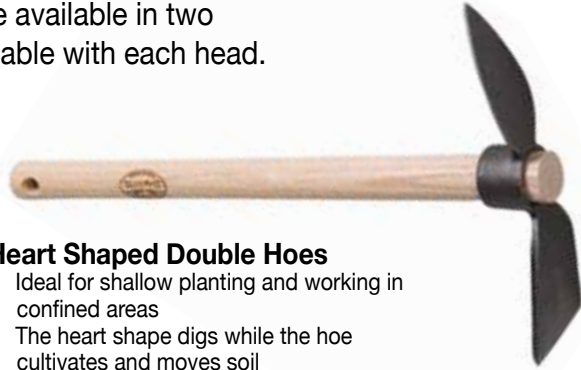

### Chelsea Eye Hoes

- Great for digging in soil with gravel or stones
- Making planting furrows
- Digging up potatoes and other root crops
- Head: 5.5"W x 6"H; 1.5lbs

31-0934 16" Handle

31-0935 51" Handle

### Heart Shaped Double Hoes

- Ideal for shallow planting and working in confined areas
- The heart shape digs while the hoe cultivates and moves soil
- Head: 2.5"W x 9"H; 1.5lbs

31-0920 16" Handle

31-0939 51" Handle

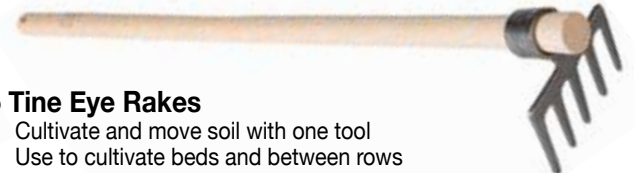

### Canterbury Eye Hoes

- Use for cultivating deep soil and moving mulch
- Great for small gardens
- Head: 3"W x 4"H; 1lb

31-0932 16" Handle

31-0933 51" Handle

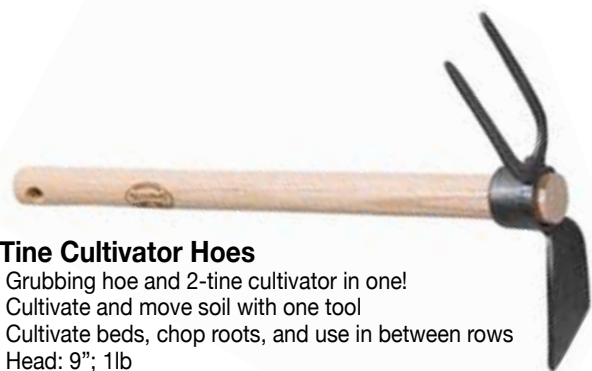

### 5 Tine Eye Rakes

- Cultivate and move soil with one tool
- Use to cultivate beds and between rows
- Head: 4.5"W x 3"H; 1lb

31-0936 16" Handle

31-0937 51" Handle

### 2 Tine Cultivator Hoes

- Grubbing hoe and 2-tine cultivator in one!
- Cultivate and move soil with one tool
- Cultivate beds, chop roots, and use in between rows
- Head: 9"; 1lb

31-0921 16" Handle

31-0938 51" Handle

**16" & 51" handles!**

### D10 Half Moon Pull Hoe with Long 72" Handle

Head: 2"L x 6.25"W  
Total: 72"L; 3.5lbs

8 714936 035167

**P-Grip Diamond Hoe** - "We used this a lot. Can cover a lot of ground but also can get into tight places. With the P-grip and long handle, it doesn't place much strain on your body. We use it to cultivate between rows of kale, bok choy, turnips, head lettuce, etc. The blade is extremely sharp. Easiest to use by pushing it down the bed but can be pushed and pulled or moved sideways. I love this tool." - Michael Hicks  
(Director of the Center for Community Empowerment in Jasper, IN)

**TIP: 6' Length Prevents Back Strain**

- Forged V-shaped head
- The original Dutch push hoe
- Sharpened & hardened

**31-3016 Forged Push Hoe**

Head: 2.25"L x 6.25"W  
Total: 62"L; 2.7lbs

- An economical version of our 31-3016
- Laser-cut Boron steel
- Sharpened head

**31-3160 Dutch Push Hoe**

Head: 1.5"L x 5"W  
Total: 62"L; 2.4lbs

- Pull hoe design
- Rakes weeds after cut by a hoe edge
- Extra wide
- Saves time and effort

**31-5328 Hoe Rake**

Head: 2"L x 6.25"W  
Total: 62"L; 3.5lbs

**Oscillating Hoes**

- Blade is sharpened on both edges
- "Cut" instead of push the soil
- Swinging motion keeps blade at proper angle while continuously working the soil forward and backward
- 58" handle
- Made in Switzerland

**R404/5 5" Oscillating Hoe**

5" Blade; Total: 65"L; 2.47lbs

**R404/7 7" Oscillating Hoe**

# Dutch Sporks

Spork blades are made from boron steel. The design features slots in the blade to give the tool a spring effect. The blade will not bend, even with heavy duty use.

The unique cutting edge of the Spork tool makes it easy to cut through the soil or lawn.

- Multi-tasking hand tool
- Combines trowel/fork/hoe
- Digs soil like a trowel, cultivates like a fork, and hoes with its sharpened blade

### 31-0816 Hand Spork

Head 4.5"L x 3.25"W  
Total: 12"L; 0.5lb

- Perfect tool for tilling and breaking up soil
- Pull to break up soil instead of pushing

### 31-0811 Pull Spork

Head: 4.5"L x 3.25"W  
Total: 62"L; 1.5lbs

- Combines the features of a spade & a fork
- Ventilated head slides through the soil with less friction
- Patented design
- New socket type head design

### 31-8305 Solid Socket Spork

Head: 9.5"L x 6"W  
Total: 46"L; 3.5lbs

- Ideal for tilling and breaking up soil
- Sharp edges easily penetrate soil
- Open slots allow spork to slide in and out of the soil
- Great for edging and digging in small areas

### 31-0810 Mini Spork

Head: 6"L x 4.5"W  
Total: 39.5"L; 1.75lbs

- Ideal tool for digging in small confined areas
