

Product Description

Dupli-Color® Caliper Aerosol Paint provides a durable, protective coating resistant to chipping, brake dust, and automotive chemicals. Formulated with Ceramic resins, this coating resists temperatures up to 500° F. This paint is resistant to chipping, chemicals, and paint dust.

Product Characteristics

Colors: Red, Yellow, Black, Silver, Blue, & Matte Black.

Finish: Gloss & Matte.

Properties

Product Weight: 6.37 lb/gal

Flash Point: Propellant < 0° F

Preferred Application

Dupli-Color Caliper Aerosol Paint provides the optimum performance when this application method is followed.

Prep	BCP200	Caliper Cleaner
	PW100	Prep Wipe
	CM541	Grease & Wax Remover
Coat	BCPxxx	Caliper Aerosol Paint

Refer to the application box for more specific instructions!

Uses

Brake Calipers, Rotors, & Drums.

Surfaces:

Metal

Application

Prepare surface by removing loose paint, dirt, rust, grease, wax, etc. For best results, use a Dupli-Color Prep Wipe (PW100) or Grease & Wax Remover to clean surface.

Mask-off surrounding areas to protect from overspray. Lightly scuff sand surface with 320-grit sandpaper or equivalent. Use at temperatures between 68° & 92° F, and when humidity is less than 50%.

Shake can vigorously for one full minute after mixing ball moves freely. After each minute of use, shake the can for an additional 10 seconds. To spray, hold can parallel 8-10 inches from surface to be painted and apply in an even, sweeping motion. To avoid sags, apply in light coats. Applying heavy coats will produce runs and sags. Apply all coats within one hour, allowing 10 minutes between each coat. For additional coats after 1 hour, wait 7 days for paint to cure. Dries to the touch in one hour. Can be handled in 3 hours. Covers approximately 12-14 square feet and 4-6 calipers.

Packaging

Fill Weight: 12 oz

Per Case: 6 cans

Case Weight: 6.17 lbs

Cases/Pallet: 156

Units/Pallet: 936 cans
