GAS POWER HAS MET ITS MATCH

The EGO POWER+ system delivers the power of gas without the noise, fuss or fumes. Our industry-leading 56V ARC Lithium™ battery technology provides a new level of performance and dependable power, plus any EGO battery fits every tool in the EGO POWER+ lineup.

The EGO POWER+ system offers the ultimate in convenience—no more trips to the gas station, no more storage of highly flammable liquids, and the freedom to work completely exhaust- and emissions-free.

All EGO POWER+ products come with a 5-year warranty on tools and a 3-year warranty on batteries. The warranty for commercial users is 2 years. See all the details on our website.

Gas-beating benefits

USING EGO POWER+		USING FUEL MIX	
COST PER CHARGE*	\$0.0566	COST PER GALLON**	\$2.70
CHARGES PER DAY	6	GALLONS PER DAY	1.5
DAILY COST	\$0.35	DAILY COST	\$4.05
MONTHLY COST	\$7.00	MONTHLY COST	\$81.00
ANNUAL COST	\$84.00	ANNUAL COST	\$972.00

*Cost of charging according to Wh pricing in USA. ** Cost of gas based on gasbuddy.com average price. EGO calculations based on daily use of an EGO POWER+ Mower with a 7.5Ah Battery charged on a 550W Rapid Charger. All estimated calculations based on a commercial 6 hours use per day and a 20-day working month.

Less vibration

Those who regularly use handheld power tools may be at risk from Hand-Arm Vibration Syndrome (HAVS), which causes painful and disabling disorders of the blood vessels, nerves and joints.

Choosing tools with less vibration is one way to help prevent HAVS.

Unlike traditional gas-powered products, EGO POWER+ mowers, blowers, hedge trimmers, string trimmers and chain saws have all been designed to operate with low levels of vibration, so you can comfortably work with them all day long—without added risk to your health.

Less noise

Traditional gas tools can be noisy, and long-term, daily exposure may lead to hearing loss and tinnitus—a permanent ringing sensation in the ears. Operating noisy equipment can also lead to an increase in work-related stress.

All EGO POWER+ tools operate at lower sound pressure levels than comparable gas-powered products, which reduces the potential of damage and stress, especially with long-term use.

THE POWER TO OUTPERFORM GAS

ZERO EMISSIONS

Our ARC Lithium™ battery gives gas-matching power without the fuss and fumes

LESS NOISE AND LESS VIBRATION

EGO POWER+ tools operate at lower noise and vibration levels than traditional gas-powered tools

EASY SET UP AND STARTING

No filling up with fuel; with EGO POWER+ just click in the battery and get to work

LOWER RUNNING COSTS

The cost of running an EGO POWER+ product for a month is the same as using a two-stroke product for a day

FOLD FLAT, EASY-STORE DESIGN

Unlike large, heavy gas mowers and snow blowers, the EGO POWER+ mowers' and snow blowers' fold-flat design helps make storage and cleaning simple

NO GAS TO STORE

Instead, EGO's Rapid Charger refuels batteries in as little as 25 minutes—less than the run time you get from a full charge

#1 RATED BATTERY- POWERED PLATFORM

Innovation. It's not just about the big idea. It's about the work you put in. The details. And pushing forward until you've created something unlike anything that has come before it. That's EGO. That's Power Beyond Belief.[™]

The technology used in the EGO POWER+ system breaks the mold. It begins with EGO's 56V ARC Lithium[™] battery. Unlike other battery packs, which are shaped like bricks and retain heat, ours follows a patented "arc" design. Inside, we developed the most advanced software-management system ever created in a lawn and garden product. And our proprietary Keep Cool[™] cell technology works with each battery cell to maintain long-lasting power and unmatched performance. The EGO POWER+ system also boasts a revolutionary charging system. In just 30 minutes, a depleted battery can be fully recharged: another first in the lawn and garden world. Power Beyond Belief starts with better technology. That's what puts EGO's power, performance and durability on a whole new level.

DELIVERING THE INDUSTRY'S HIGHEST ENERGY CAPACITY

POWER+ SYSTEM
ARC LITHIUM™ 56V

Delivered by our unique, patented ARC Lithium™ design

There is no other battery like EGO's POWER+ 56V ARC Lithium™ battery. Unlike conventional brick-shaped batteries that can overheat and lose power, our unique arc design dissipates heat more effectively. Combined with our advanced power management system and innovative, proprietary Keep Cool™ cell technology, ARC Lithium™ batteries deliver long-lasting power and unmatched performance. In fact, the 10.0Ah battery delivers the industry's highest energy capacity in a portable handheld battery.

When it's time to recharge, the Rapid Charger's innovative fan system cools the battery—so it starts charging earlier and finishes sooner. As a result, the time it takes to refuel the battery is often less than the run time you get from a full charge. So with 2 batteries on the go, you'll never run out of power and can keep going all day long. Plus, with a range of battery sizes available from 2.5Ah to 10.0Ah, you can choose the power you need to tackle any task.

POWER WHEN YOU WANT IT POWER WHEN YOU NEED IT

A true alternative to compact gas generators

Say goodbye to the gas generator. The EGO Nexus Power Station can harness the power of any EGO battery to deliver clean, quiet power—indoors or out.

The Nexus Power Station is the first portable power station of its kind. Use in a power outage to plug in your refrigerator so the food does not spoil or plug in your microwave to cook the family a quick dinner. Bring the power station anywhere you do not have convenient power, like camping, hiking, boating, tailgating; the possibilities are endless.

INDUSTRY'S #1 RATED CORDLESS LAWN MOWERS

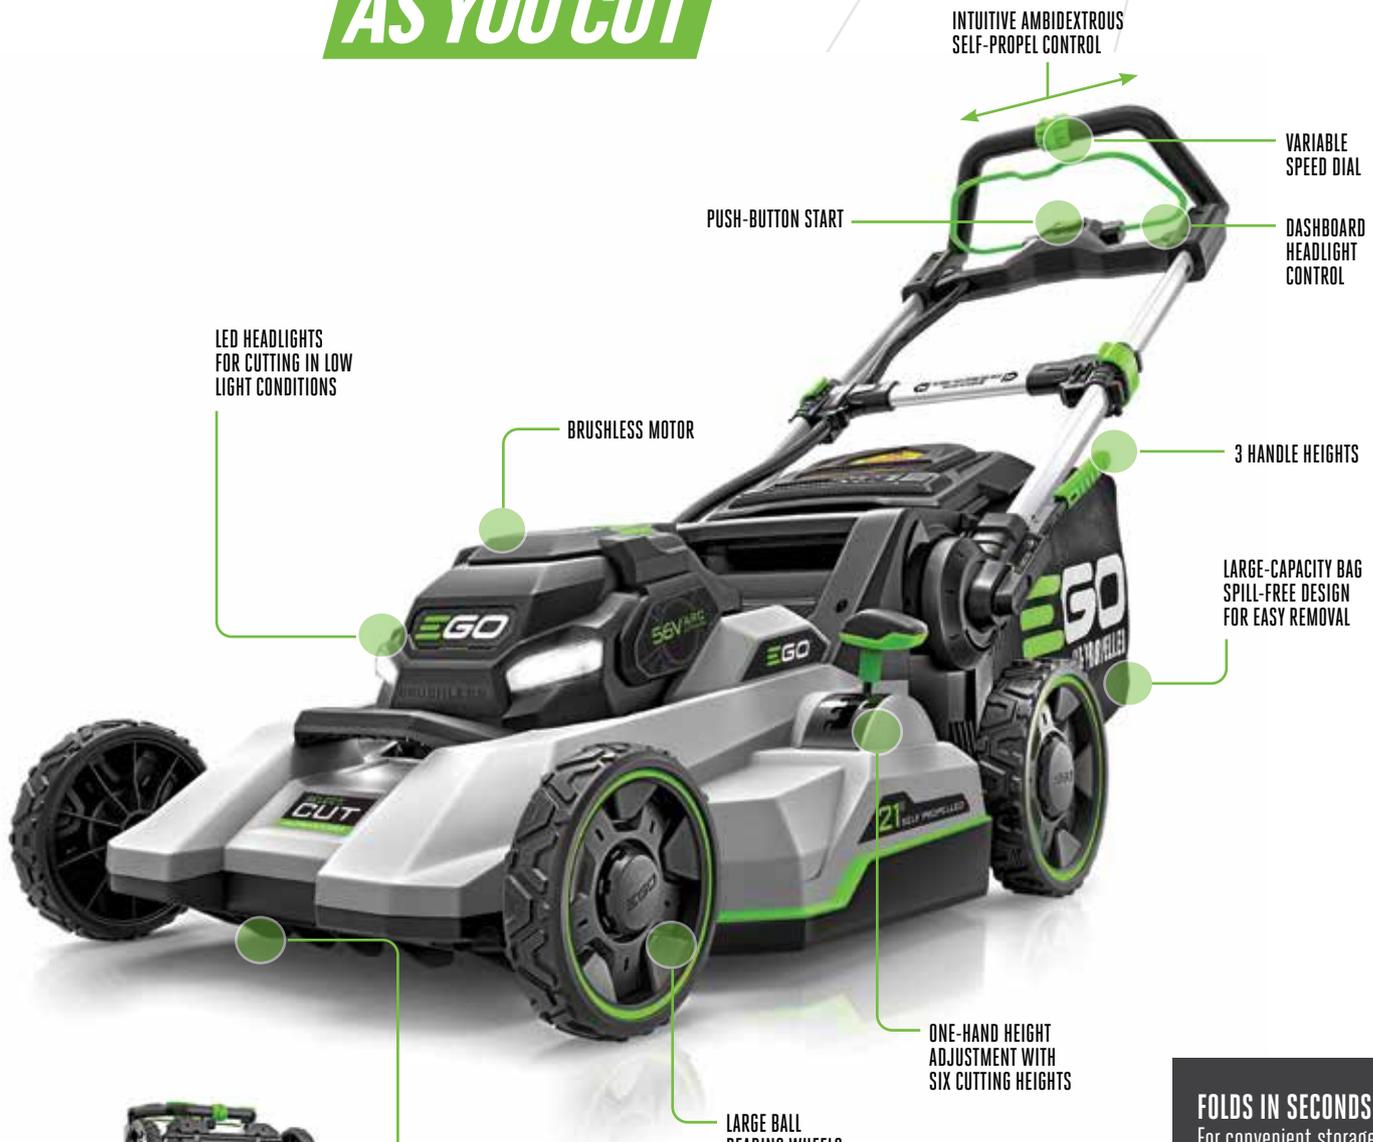

5 YEAR
Warranty

The new EGO POWER+ Select Cut™ multi-blade system delivers more torque than premium gas mowers. It also beats premium gas mowers in mulching and bagging performance, thanks to an industry-first, patent-pending design that utilizes two blades at once. And Touch Drive Technology™ reimagines the self-propelled drive system to deliver best-in-class control.

The variable-speed self-propel motor keeps you in control as you cut. Plus, on a single charge, our battery gives you up to 60 minutes of cut time.* On select mower models we have automatic load sensing; this helps deliver the optimal cutting speed to maximize battery run time while maintaining grass-cutting performance.

The 3-in-1 functionality lets you bag, mulch or side discharge clippings while the LED headlights let you work further into the day. And when you're done, the easy-fold design makes cleaning and storage simple.

POWER+ STRING TRIMMER

EFFICIENT, EFFECTIVE, EASY TO RELOAD

With a large cutting swath to cut any task down to size, the EGO POWER+ String Trimmers feature an adjustable handle for optimum balance and control.

The soft-start function and constant-speed control ensure consistent trimming and on a single charge, and the ARC Lithium™ battery gives you all the power you need to tackle the toughest conditions.

Other features include variable speed, easy line replacement and dual-line trimming for faster cutting and lower vibration, while the free-rotating bump head lets you rest the cutting head on the ground without it being worn away.

MORE POWER THAN A HANDHELD GAS BLOWER

Powered by a high-efficiency brushless motor, the EGO POWER+ Blowers feature jet turbine technology and a large diameter tube to give maximum airflow.

The variable-speed function is designed to keep you in control, even in Turbo Boost mode that's capable of pushing air up to 180 MPH, depending on the model. That's more than most hand-held gas blowers on the market and that's enough power to clear up even the biggest windfall.

POWER TO REACH NEW HEIGHTS, THE NEW EGO POWER⁺ MULTI-HEAD SYSTEM

With a single power unit and many different attachments, it's easy to see why the EGO POWER+ Power Head System is a very handy tool to have around. The simple and secure tool-free coupling makes switching attachments quick, easy and safe. And with our innovative 56V ARC Lithium™ battery supplying all the power you need, you can breeze through a variety of jobs without the fuss or fumes and with less noise than traditional gas-powered tools. Plus the extension pole gives you the reach to tackle any height.

ATTACHMENTS AVAILABLE:

- Extension pole
- Pole saw
- String trimmer
- Edger
- Cultivator
- Bristle brush
- Rubber broom

*Run time may vary and depend on the battery used, charge level of battery, and user's operation technique.

***TOOL-FREE
CHAIN TENSIONING AND
DURABLE BAR & CHAIN***

**SAFE, SUPERIOR
PERFORMANCE,
CUT AFTER CUT**

The EGO POWER+ Chain Saws are built tough to tackle even the hardest jobs. Trunks, logs, branches—nothing gets in its way.

The tool-free chain tensioning makes set up and adjustment simple. Check the lubrication level through the oil inspection window and you're ready to go.

It really cuts it when it comes to safety, too.

The chain kickback and electric brake protect you while you work. And the auto-lubrication system keeps the chain spinning freely at all times.

Plus, with EGO's 56V ARC Lithium™ battery delivering such impressive run times and incredible power on a single charge, it'll keep you working cut after cut after.

Featuring Peak Power™ technology the EGO POWER+ Snow Blower combines the power of any two EGO 56V ARC Lithium™ batteries for superior clearing power, even heavy, wet snow. Built with a high-efficiency brushless motor and a 21-inch-wide intake it can handle it all, even what the city snow plow leaves behind.

Easily adjust the variable-speed auger to control how far the snow is thrown, up to 35 feet, for maximum control. A robust, handle-mounted chute-adjustment lever puts the user in control when re-directing the snow up to 200 degrees from side to side. Two bright LED headlights make it convenient for use early in the morning or at night and the robust steel chassis is built for aggressive use in demanding conditions.

POWER+ COMMERCIAL SERIES

POWER FOR PROS MEET THE COMMERCIAL SERIES

When we created our EGO POWER+ commercial series we set our standards high. Not content with developing a range of tools that redefined what cordless tools can do—we looked to deliver power and performance that exceeds their gas-powered equivalents

Designed to work harder, all day every day, in the most challenging conditions. This series of high-spec tools and backpack battery take gas-free working to a whole new level, ensuring productivity levels remain high.

***SUPER TOUGH.
SUPER POWERFUL.***

Built to last and last

All tools in the commercial series are engineered to last longer, so you can cut maintenance time down to size. And because they are quieter and lighter with no fumes and less vibration, you can work comfortably for longer.

New series, same compatibility

EGO is a name you can rely on. With a history of cordless power innovation, we know the ability to mix and match batteries, backpacks, harnesses and tools is vital. This level of complete flexibility continues with the commercial series.

LESS VIBRATION, LESS NOISE, MORE USER FRIENDLY

Power through any job without the excess physical stresses and strains associated with heavy, noisy and vibrating gas-powered tools

A big benefit of choosing EGO's low-vibration cordless tools is how they help users avoid the risk of Hand-Arm Vibration Syndrome (HAVS). Also known as "Vibration White Finger" it causes painful and disabling disorders of the blood vessels, nerves and joints.

Designed so you can work comfortably all day long

With a smooth brushless motor and fewer moving parts, all EGO POWER+ tools have been designed to operate with low levels of vibration, often under the 2.5m² Exposure Action Value limit (EAV) and well below the Exposure Limit Value (ELV).

This allows you to comfortably work with them all day long without any risk to your health. So, choose EGO POWER+ and protect yourself every working day.

They are much quieter, too

Let's face it. Gas tools are noisy, and daily exposure can lead to hearing loss and also tinnitus, a permanent ringing sensation in the ears. Fortunately, the EGO POWER+ range is much quieter than gas-powered alternatives reducing the risk of potential damage, especially over long-term use.

Operating noisy equipment can also lead to an increase in work-related stress. Many factors are known to contribute to this condition and rarely there is a single cause. However, because EGO POWER+ tools operate at lower sound levels, the working environment is quieter and less stressful for the user.

POWER+ BACKPACK BATTERY

BACKPACK BATTERIES THAT WORK AS HARD AS YOU DO

Team up your EGO POWER+ tools with one of our lithium-ion backpacks

Balancing exceptional power with user comfort, EGO's lithium-ion BAX1501 backpacks are ergonomically designed to keep you working all day long. The battery pack can be removed from the harness* allowing the battery to be shared among multiple users, each with their own harness.

To ensure optimum performance, efficiency and longevity, these high-energy capacity batteries incorporate intelligent individual cell monitoring and balancing, both when powering a tool and when recharging.

CHARGING POINTS

ROBUST CABLE AND
PLUG DESIGNED FOR THE
TOUGHEST CONDITIONS

Designed to perform, built to last

Delivering the run times you demand, EGO POWER+ backpack batteries can give you a full day's work** from a single charge. The high-quality cells with both high power rating and high energy density can handle up to 1,000 charge cycles. Plus, with fast recharging you can go from empty to full in just 3.5 hours.

Flexible performance

With long run times and user-comfort, EGO POWER+ backpack batteries are perfect for all-day use. They're compatible with all EGO POWER+ tools, and as the battery is on the harness and not the tools, they are lighter and even easier to handle.

BAX1501 COMMERCIAL BACKPACK BATTERY

56V 28Ah lithium-ion backpack battery that provides the same power as 80% of gas products, all minus the noise, fumes and vibration, of course

	BAX1501
CAPACITY	1568Wh at 56V rated
CONNECTION METHOD	Adapter / Plug-in
BATTERY WEIGHT	19.8 lbs w/o harness
HARNESS	Detachable
WEATHERPROOF PROTECTION	IP56
CHARGER	CHX5500
CYCLE LIFE	Up to 1,000 cycles

*Note the harness straps are supplied with padded comfort straps and may appear different.

**Dependent on the tool and based on an 8-hour working day

FROM EMPTY TO FULLY CHARGED, IN JUST 30 MIN

With a range of battery sizes available from 2.5Ah to 10Ah, you can choose the power you need to tackle any task. When it's time to recharge, the EGO POWER+ Rapid Charger is the fastest on the market. The intelligent battery control system constantly monitors each cell's charge and temperature to deliver the most efficient and quickest charge.

Plus, the fan-cooling system allows the battery to start charging sooner and finish faster. As a result, the time it takes to refuel the battery is often less than the run time you get from a full charge. In fact with the rapid charger, the 4.0Ah battery takes just 30 minutes. So with two batteries on the go, you'll have all the power you need, all day long.

**CH5500
RAPID CHARGER**

The EGO POWER+ Rapid Charger leads the industry in recharge times; in just 20 minutes, a depleted 2.0Ah battery can be fully recharged

POWER+ COMMERCIAL
STRING TRIMMER

THE TOUGH ANSWER TO ROUGH GROUND

Perfectly balanced for comfortable use, the EGO Power+ Commercial String Trimmer make short work of even the roughest ground; power comes from EGO's Commercial Backpack Battery and the ready-for-anything 2,000-watt motor

All this is channeled through the light yet amazingly strong carbon fiber shaft. Unlike alloy shafts, it won't bend and lose its shape over time, keeping vibration levels to a minimum.

STX3800
COMMERCIAL STRING TRIMMER

Leave the fuss and fumes of gas behind with this powerful, pro-standard tool. Pair up with our Commercial Backpack Battery BAX1501 for all-day power and comfort.

WARRANTIES YOU CAN RELY ON

At EGO we pride ourselves on manufacturing products that are not only innovative and easy to use, but reliable and robust, too. And however unlikely our products are to go wrong, it's good to know that all our products are covered by a warranty* you can rely on. All EGO POWER+ tools come with a 2-year warranty and batteries come with a commercial user 2-year warranty.

The support of our service dealer network

With a nationwide network of EGO approved service dealers, you're never too far from the support you need. From selecting the most suitable tools for your needs to providing an outstanding after sales service, get great face-to-face advice whenever you need it.

Original spare parts

We're here to keep your tools running for years to come. We can provide the spare parts to extend the life of the tool.

Committed to quality

We're one of the biggest power tool manufacturers in the world with over 5,500 employees and over 10 million units manufactured each year. To make sure our tools combine gas-matching power with the ease of use and reliability you need, we've invested heavily into research and development to become one of the world leaders in battery technology.

Our advanced manufacturing process is highly digitalized and automated to ensure the consistent high quality and performance of our tools.

*For defects caused by material or manufacturing fault. This does not cover wear and tear.

*Bicycle handle string trimmer available in UK only.
