

DLLP-NL Series

LowPro Recessed Downlight
with Color Preference[®] and Night Light
561 - 1,857 Lumens | 9.06 - 22.7W | 5 CCT

FEATURES & SPECIFICATIONS

Overview

ETI SSL's LowPro Recessed Downlight with Color Preference[®] and Nightlight is one of the most versatile and easiest ways to upgrade your existing recessed lights to energy-efficient LEDs. This innovative fixture offers three unique features: First, there is no need for recessed cans or a separate J-box, so its ultra slim design easily installs into low clearance or sloped ceilings. Second, you can choose between (5) color temperatures of light output for your space from warm to cool whites, bright white, and daylight. Third, the Nightlight produces a soft, amber hue when activated from your wall switch. The fixture is dimmable, down to 10% without any flickering or buzzing and is suitable for any wet locations. It is maintenance-free with no need to replace bulbs, and is IC Rated for direct contact with insulation.

Construction

Die-cast aluminum housing design for maximum thermal management and performance for use in both IC and non-IC applications. High impact, diffuse polymer lens provides direct view shielding of LED array providing zero pixelation and overall visual comfort.

Optics

Uniform illumination is achieved by the coupling of the LED platform with a high impact polymer diffusing lens. The optical system creates an extremely uniform wide distribution with optimized fixture to fixture spacing. Diffusing lens provides a uniform and soft visual appearance when in direct view with no LED pixelation and provides excellent visual comfort.

Electrical

Remote 120V 60HZ constant current driver engineered to provide noise free operation. Continuous flicker-free dimming from 100% to as low as 10% with select TRIAC dimmers (recommended using dimmers with low end trim adjustment). Always consult dimmer manufacturer for proper use, installation and compatibility (some dimmers may require a neutral in the wall box).

Mounting & Installation

Two low-profile spring retention clips are designed to retain the downlight in drywall or drop ceiling applications without the need of a separate recessed housing or junction box for installation. Can be easily installed and serviced from below the mounting/ceiling surface. Minimum 2" plenum space required for the remote driver box installation. Installer must ensure fitment compatibility in any application and overall compliance to all applicable local and national building and electrical codes.

Compliance & Certification

All luminaires are built to UL1598 standards with appropriate UL/cUL labels. Suitable for wet location use. Adheres to LM63, LM79, LM80 and TM21 industry standards for fixture performance and lumen maintenance calculations. ENERGY STAR[®] listed product. Always refer to ENERGY STAR[®] database for current listings. Product can be used to comply with California Title 24 High Efficacy requirements. Product certified to California Appliance Efficiency Database under JA8. Suitable for use in clothes closets when installed in accordance with the NEC 410.16 spacing requirements. Always refer to ENERGY STAR[®] database for current listings by searching the first 6-digits of the model # followed by '###' on the ENERGY STAR[®] website database and the CEC JA8 Database...(Ex. '538291###').

[Search CEC JA8 certification here.](#)

ColorPreference[®] Field Selectable CCT

Patented ColorPreference[®] field selectable color temperature system and driver helps to provide added design flexibility and simplified SKU reduction and reduced complexity. An integrated switch on the remote driver box toggles between 2700K, 3000K, 3500K, 4000K and 5000K. (set to 2700K standard from the factory).

Warranty

The DLLP-NL series of luminaires ships with ETI SSL's 5-year standard warranty.

Notes:

- This product is not configurable, only designated 'Stock' SKUs are available.
- See "Performance and Operational Data By Catalog Number" for all available SKUs.
- Stock SKUs typically ship in 24-48 hours upon receipt of an approved released order.
- Nominal Lumens are not configurable, only designated to corresponding 3IN-8IN size.
- Factory set at 2700K.

3-CCT Color Preference® (field selectable)

Patented ColorPreference® field selectable color temperature system and driver helps to provide added design flexibility and simplified SKU reduction and complexity.

An integrated switch on the driver box toggles between 2700K, 3000K, 3500K, 4000K and 5000K. (set to 2700K standard from the factory)

KEY PRODUCT FEATURES, DETAILS & SPECS

- Direct mount w/ spring clips - no separate recessed housing or j-box needed
- Ultra-low profile design with a fixture height of 1.1" ideal for shallow applications
- Type IC Rated for direct contact with insulation if applicable
- Color Preference® field selectable 5-CCT (2700K, 3000K, 3500K, 4000K & 5000K)
- 90+ CRI with a R9 greater than 50 for true accurate color rendering
- Air Tight Certified per ASTM E283 helps HVAC energy efficiency & cost savings
- Wet location listed w/ IP65 cable connectors (showers, protected ceilings, etc.)
- 23" IP65 low voltage connecting cables standard (w/ optional 12' & 20' extension cables)
- Dimmable to 10% with many common 120V TRIAC & ELV dimmers
- Residential & light commercial applications (retrofit, remodel, new construction)
- Optional new construction rough-in guide plates available
- Optional designer color trim rings available
- California JA8 certified & can be used to comply with Title 24 requirements
- ENERGY STAR® rated to meet strict efficiency, quality & lifetime criteria
