The ALL-PRO™ LED Twin Head 1850 series utilizes a durable polycarbonate housing and frosted lens design for a robust outdoor lighting solution. Producing over 1000 lumens at 5000K CCT, these LED fixtures deliver the equivalent of 90W incandescent. This versatile solution is available in flood, integrated photocontrol and motion sensor configurations for a wide range of outdoor security applications. The housing employs a simple mounting mechanism for hassle-free installation, and comes in white or bronze finish.

• Precision optics and reflector for maximum light output
• Perfect for wall or eave mount
• Mounts easily to recessed junction box; cover plate included
• Durable polycarbonate housing suitable for wet locations
• One-handed fixture adjustments
• Equivalent to 90W incandescent
• UV stable polycarbonate lens

Dual-Position LED Twin Head Floodlight with 180° Motion Sensor

• Motion sensor automatically turns lights on when motion is detected
• Integrated dusk-to-dawn sensor ensures lights only come on after dark
• Manual override – for use as standard floodlight
• Maintenance free LED with 35,000 hours of life
• Tool-less head adjustment
• Adjustable motion sensor sensitivity
• Selectable motion timer from 1 to 12 minutes
