YOUR LOAD SECUREMENT SPECIALIST 2019-2020

ABOUT Erickson

About Erickson

Erickson Mfg. came alive in 1977 when Brent and Connie Erickson had a dream to start their own company. Like many great companies today, the couple started operating the business from their garage behind their house. Through unparalleled passion, determination, and dedication Erickson Mfg. is now a leader in the load securement industry across North America.

Today, Brent and Connie still own and operate the business, but with the addition of several family members. Their three daughters and two grandson's are working together, while still exemplifying the same passion, determination, and dedication that has put our company in the position it is today.

The goal of our company is simple. We strive to provide our customers with industry moving innovation and superior customer service across every aspect of the sales process. We produce quality products because it's our families name on the line. We don't sell anything we wouldn't use ourselves. This has resulted in a trusted brand name throughout the load securement industry and keeps consumers coming back.

TIE IT TOW IT LOAD IT

At Erickson we try to help our customers with all their transportation needs. Whether it be Arched Aluminum Loading Ramps to load the ATV, a Hitch Hauler for the SUV, a tarp to cover up the old car, or you are stuck and need a tow, we have what you need. Erickson strives to supply our customers with a great value for the money with **QUALITY** always being our top priority.

D.O.T. COMPLIANT

All straps being used commercially meet or exceed the **DOT** requirements. Erickson Mfg. is a voted in member of the **Web Sling and Tie Down Association** (www.wstda.com). All commercial straps rated at **3000 lbs.** and up have printed web stating the **Working Load Limit (WLL)** on the complete assembly. Tags are also sewn in that feature the **WSTDA** logos and are compliant with all **DOT** regulations. Consumer straps not being used commercially all have a sewn in tag that states the **WLL** of the complete assembly. Strap labelling is mandatory in selected States in the USA and Canada now by the **DOT** to ensure safety on the roads. Our Anchor Points are also stamped with the **MAXIMUM LOAD LIMIT**, so rest assured you are up to date with new legislation and what is new in the cargo control world.

RETAILING OPTIONS

At Erickson we try to offer our retailing partners the exact package to meet their customers needs. Our farm and ranch partners like Bulk along with a few packaged items. Our Automotive retailers only like packaged, and in hardware a nice mix works as well. Available today are our traditional Blister Packs, a **PRO-SERIES** that is shorter and stands up better on the shelf and is designed to work in conjunction with our bulk bin program where the distance between the shelves can be a constant 12", making the presentation clean and exciting.

visit us @ www.ericksonmfg.com

SHOP BY COLOR!!!

***"Same great products but now in even better packaging.
Customers can now shop by color!"***

One of the biggest challenges today at the retail level is getting the proper strap to secure your load safely. At Erickson's we have developed a new Pro Series that is color coded to make the shopping experience easier and safer for our customers.

IMPROVED Pro Series packaging for a better presentation on your shelves. A shorter package now allows us to mix the pro line with our Bulk Bin concept for a more shoppable offering. The wider 2" base allows the package to stand better. We have new models and larger sizes now available whether you want 2 packs or 4 packs we have what you need.

RE-TRACTABLE

Ratchet Straps

Unlike the conventional Ratchet straps we have all grown to love and count on for all our Tie Down needs the **RETRACTABLE RATCHETS** are by far the best choice and our number one sellers. So smooth to use, simply ratchet tight, and to release simply push down on the red release button, and zoom the web rewinds in to the storage housing just like a tape measure. We offer both 1" and 2" models in both 6' and 10' lengths, from 1200 lb. up to 4000 lb. capacity. Check out our **BOLT ON** models, ideal for Boat transoms, Pick Up racks, permanent mounts on utility trailers, the ideas are endless. Once you use Erickson Retractable you won't want anything else. Be sure and ask for Erickson by name, built for the professionals.

WEB CLAMP Ratchets

Erickson Mfg. now offers our 2" Heavy Duty Long Handle Ratchet Straps with our new Web Clamp. The spring loaded clamping device acts much like a mouse trap. You simply take the excess webbing and place it under the spring loaded clamp. No more webbing blowing in the wind. So Neat and Simple!!

All 10,000 lb. rated straps have a Working Load Limit (W.L.L.) of 3300 lb. and are D.O.T. compliant.

Erickson Mfg. is a member of the Web Sling and Tie-Down Association. Our straps all have the WSTDA label sewn in the strap. D.O.T. inspectors know the manufactures are up to date with all rules and regulations. Take a minute and visit their website at www.wstda.com All members are listed.

Bale Straps

Erickson's is proud to introduce our expanded section of **40' Bale Straps**. With safety in mind these straps are built with the farmer in mind. We have our regular 40' strap with its built in **Web Clamp®** available in J-hook and flat hook models. **NEW** to the selection is our **BALE BOSS**. This strap features double J-hooks and the multiplier Ratchet which exerts **TWICE** the amount of tension of a standard ratchet.

(See pg. 31 for more info on the Multiplier)

#58702 (Bulk)

15,000 lb. STANDARD RATCHET STRAPS

3" x 30' – 15,000 lb. (5000 lb. WLL) RATCHET STRAP W/ FLAT HOOKS

#58514 (Bulk)

NOTE: All tie-down straps, 5000 lb. and up, come with a label indicating size, maximum load, and WLL (working load limit). Remember, the WLL is 1/3 of the maximum load. Always use the WLL when selecting tie-downs. Example: For a box weighing 3300 lb., you would use 2 straps, with a 5000 lb. max. load limit. The working load limit (WLL) for a 5000 lb. strap is 1650 lb.

WORKING LOAD LIMIT (WLL) is one third (1/3) of the break strength.

EXAMPLE: 15,000 lb. (break strength) = 5000 lb. (WLL)

The basic rule to ensure safety is a 3:1 to be used on any item moving in any direction where brakes are being applied and G-forces occur. It is the responsibility of the user to determine the number of straps needed to secure his load safely based on the WLL rule above.

3" x 30' – 15,000 lb. (5000 lb. WLL) RATCHET STRAP W/ DOUBLE J-HOOKS

#58515 (Bulk)

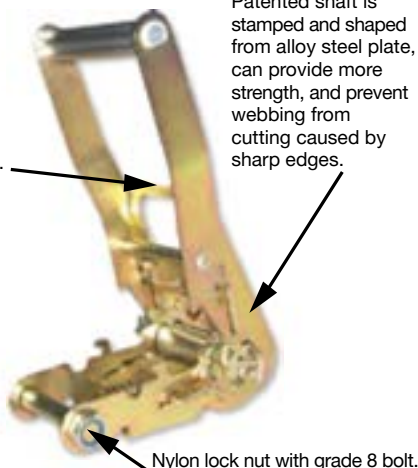

US Patent #5560086

Double security lock prevents the strap from loosening while driving. You must pull the lever first to release the buckle. A very well-designed lock.

US Patent: #5282296

New patent shaft. Patented shaft is stamped and shaped from alloy steel plate, can provide more strength, and prevent webbing from cutting caused by sharp edges.

Nylon lock nut with grade 8 bolt.

3" x 30' – 15,000 lb. (5000 lb. WLL) RATCHET STRAP W/ CHAIN LEAD

#58516 (Bulk)

All ratchets used in our 5000 lb. program and up are made from low carbon steel, then heat treated, deburred and yellow dichromate-plated for longer life. Makes for a quality ratchet.

Erickson Mfg. Ltd. is a member of the Web Sling & Tie-Down Association. All straps are sewn to the Association's specs. All straps have the WSTDA certificate sewn in, along with the maximum and working load limits.

HEAVY DUTY MULTIPLIER RATCHET

- Labor Saving
- 2 to 1 gear drive
- Pull to tighten ratchet strap
- Improved tension

Erickson's **NEW MULTIPLIER** ratchet strap has a 2 to 1 gear drive that exerts twice the tension with the same amount of force compared to the standard ratchet we all use today. Ergo friendly, it is much easier to apply the tension needed to secure your load with the Multiplier. To tighten pull on the handle rather than push. For instance, if the operator has numerous ratchets to tighten and he/she just simply doesn't have the strength in his/her arm to reach the proper tension to secure the load "The Multiplier" is the answer. 2" and 3" models available with flat and double J hooks.

MOVEABLE E-CHOCK

Finally a wheel chock that works with our very popular E-Track system. The NEW E-Chock has a simple lock and unlock mechanism that allows the user to choose the needed location on the track. Steel construction with a reinforced base support makes for a strong durable wheel chock. Yellow powder coat prevents rusting, the stand up packaging is easy to place and attention getting. We recommend using the "Get Back Strap" with our new Moveable E-Chock see Page 32.

CHOKER HITCH

WLL AND DESIGN FACTOR

Erickson's synthetic slings are manufactured to ensure a design factor of 5:1. This design factor is a factor which is divided into the nominal strength of a sling to arrive at the WLL (or Rated Capacity). This factor is necessary to allow for wear, abrasion, damage, and variations in loads which are not always readily apparent to the sling user

BUT DOES NOT COVER FOR INSUFFICIENT EDGE PROTECTION OR PROTECTION AGAINST CUTTING.

POWER PULL Bungeys®

POWER PULL® ASSORTMENT

#06659 (6-Pack)

Includes:

- (2) 18" x 9mm
- (2) 24" x 9mm
- (2) 30" x 9mm

Our new "Power Pull" Bungee comes in assorted colors along with contrasting colored hooks.

The patented hooks feature a **"PULL LOOP THAT IS MUCH SAFER"** than the current hooks we all see today. Attach one end of the hook and simply stick your finger in the pull loop, stretch and attach. So safe and easy to use.

TARP BIN DISPLAY PROGRAM

IS YOUR TARP SET A MESS & IN NEED OF HELP?

**Erickson's New Tarp Bin Program
is a PATENTED DESIGN!**

(US D617,1255)

ERICKSON
TARP CENTRE

Our patented bin design makes the shopping experience smooth and simple. Sizes and styles are spelled out clearly on the advertising card on the front of every bin.

Our patented design allows the retailer to affix the bins to slotted shelves. Starting at the far left of the shelf place the bin and using the 4 safety locking push pins (supplied) lock the bin to the shelf.

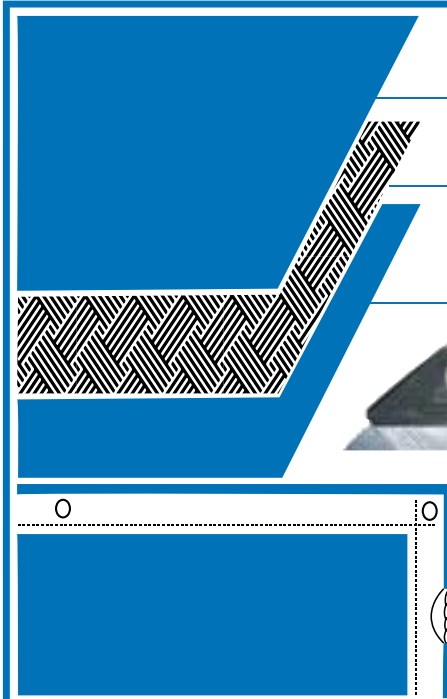

Allow 12" between bins, positioning 4 on a 48" shelf. Bins are designed to hold a complete case of all tarps. Mix and match your display to meet your customer's needs. Designed for 16" deep shelves but will work with deeper shelves as well.

TARP DISPLAY
United States Design Patent
#US D617,1255
SHELF DIVIDER

Date of Patent
June 8/2010

**COMES WITH FOUR LOCKING PINS TO SECURE
THE BIN TO THE SHELF. PLACE BINS 12 INCHES
APART, SIDE BY SIDE ON A 16" X 48" SHELF.**

TARP CONSTRUCTION

Top Coating

(Weather-resistant polyethylene coating)

High-Density Polyethylene Weave

(Strands of high-density polyethylene are woven horizontally & vertically)

Bottom Coating

(Weather-resistant polyethylene coating)

Reinforced corners

on all Mid-Grade and Heavy-Grade tarps

- Grommets on each corner every 3 feet around the hem
- Poly roping in hem all around
- Double-stitched or heat-sealed hems

CHOOSING THE RIGHT TARP Weather Related Factors

SUN

Erickson's poly and canvas tarps are UV treated to resist the harmful effect of UV rays

RAIN

Poly tarps are naturally water resistant. Treated canvas tarps are waterproof. However, if enough water accumulates on the canvas tarp, water will eventually seep through.

WIND

Clear White tarps are great for wind break while still allowing light to pass through. It is important to properly secure your tarp to prevent wind from getting underneath.

COLD

Heavy duty or better grade poly tarps adapt well in winter conditions. Yet tarps are the best performers in very cold temperatures, built to withstand as low as -40 degrees Fahrenheit.

MID GRADE CAMOUFLAGE POLY TARP

Our Mid-Grade poly tarps are designed to be a step up from our economy line tarps with increased durability.

- Thickness = 5.5 MIL
- Weave = 9x9
- Grommets = Aluminum every 36" & corners
- UV Protection
- Reinforced corners

#57003 – (12' x 16') – Camo
 #57004 – (8' x 10') – Camo
 #57005 – (10' x 12') – Camo

INSULATED TARPS

IDEAL FOR :

- Insulated Enclosure
- Scaffolding Enclosure
- Concrete Curing
- Temporary Curtain Wall

Features and Specs:

- 4 MIL Closed Cell PE Foam
- Weave = 10x8
- Brass grommets every 3 feet

#57091 – 8' x 24'
 #57092 – 12' x 20'
 #57093 – 12' x 24'

HEAVY GRADE SILVER POLY TARP

Our Heavy Duty grade poly tarps are laminated with tough and reflective silver color on both sides.

- Thickness = 10 MIL
- Weave = 14x14
- Grommets = Aluminum every 36" & corners
- UV Protection
- Reinforced corners

#57018 (12' x 24')	#57024 (12' x 20')
#57019 (20' x 40')	#57025 (16' x 20')
#57020 (6' x 8')	#57026 (20' x 30')
#57021 (8' x 10')	#57027 (30' x 40')
#57022 (10' x 14')	#57028 (30' x 50')
#57023 (12' x 18')	#57029 (40' x 60')

HEAVY DUTY "MESH" TARPS

The mesh design allows air to flow through the tarp. Also works great for covering loads that need containment but not water repellent. The flapping we see with most tarps is drastically reduced with the mesh design.

- Density = 9 threads (9 needles/inch)
- 3 layers of Mesh fabric in the hem for added strength
- Grommets = Brass every 24" & corners
- UV Protection
- Fabric breathable & see through
- Reinforced corners with tarp fabric

IDEAL FOR: Trailer Covers, & Truck Bed Covers

#57056 (6' x 8')
#57057 (8' x 10')
#57058 (10' x 12')
#57059 (12' x 16')

INDUSTRIAL GRADE TRUCK/TRAILER

Our truck/trailer tarps are fitted and made to work with an elevated center ridge poll. This design is like a roof on a building with slope. The rain runs off quickly, not allowing it to form a puddle. It is lightweight yet very strong. It is laminated and UV treated to ensure it won't shrink or absorb water.

- Thickness = 12 MIL
- Weave = 14x14
- Reinforced corners w/steel D-Rings placed ~36" & corners
- UV Protection
- Water & mildew resistant

#57040 (6' x 8')	#57048 (12' x 18')
#57041 (8' x 10')	#57049 (12' x 20')
#57042 (10' x 12')	#57050 (12' x 22')
#57044 (10' x 16')	#57051 (12' x 24')
#57045 (10' x 18')	
#57046 (10' x 20')	

CANVAS TARPS

Our Canvas tarps are a premium canvas tarp. Wax coated not just treated with a chemical to repel water like many others in market.

- Wax processed for waterproofing & protecting against mildew
- Material = 100% cotton canvas
- Reinforced corners
- Breathable to help prevent condensation

#57070 (5' x 7')	#57076 (10' x 16')
#57071 (6' x 8')	#57077 (12' x 20')
#57072 (8' x 10')	#57078 (14' x 24')
#57073 (8' x 12')	#57079 (16' x 28')
#57074 (10' x 12')	#57080 (18' x 24')
#57075 (10' x 14')	#57081 (20' x 30')

HEAVY DUTY BALE TARPS

Our Hay Bale tarps are heavy duty and reversible. Silver on one side to reflect light/heat and black on the other side to absorb light/heat if you need it.

- Thickness = 12 MIL
- Weave = 14x14
- 2" wide polypropylene loops sewn every 36"
- Grommets = Brass every 36"
- Corners = Strong reinforced corners with 2 grommets/corner
- UV Protection

#57052 (25' x 33')
#57053 (23' x 48')
#57054 (28' x 48')
#57055 (33' x 48')

- (A) Strong reinforced corners with 2 rustproof grommets
- (B) 2" wide polypropylene web is sewn on 3 ft. centres along the edge
- (C) Simply slide pipe through loops for added weight or use separately with anchor screws or pegs
- (D) 1/4" rope is sewn in the hem for added strength

NEW!

BIG BED® THE TAILGATE SAWHORSE

USA PATENT 6,941,655

DESIGNED FOR THE JOB SITE!

Turn your tailgate into a workstation, or host a tailgate party. Recommended for hauling light loads, the Tailgate Sawhorse easily hauls things like canoes or extension ladders. When you've got a long load to haul and a short truck bed can't get the job done, upgrade with the Tailgate Sawhorse!

#07610 - 4-Pack

EXTENDS THE TRUCK BED 3 FT

TAILGATING

RECREATION

"STAND UP PACKAGING"

BIG BED[®] SENIOR

'TAILGATE EXTENDER'

The Big Bed[®] SENIOR is the perfect addition to any vehicle with a 2" hitch receiver, and allows you to haul loads safely.

#07600 - (1) 46" x 50" x 18.1" (installed)
46" x 5" x 7" (collapsed)

- 400 lb. evenly distributed weight.
- Extends the pick-up truck bed by 4 ft.
- PERFECT for short-bed trucks
- Folds for easy storage
- Easily haul: canoes, extension ladders, lumber, drywall, and other oversized loads
- Extend your work station or make a table for your tailgate party
- Replaces the trailer

USA PATENT # 8,070,028 B2

CONVERT YOUR BIG BED INTO A 'HIGH-MOUNT' WITH THE ADDITION OF PART #07601.

#07601

- Keep your truck bed empty while you haul your load up top.

BIG BED[®] JUNIOR

'TAILGATE EXTENDER'

#07605

Dimensions : Top Bar - 50.75"
Base Bar - 52.75" Overall
To Centre of Pin Hole - 50.75"

- Ideal for oversized equipment including ladders, full sheets of drywall, or small boats
- Extends pick-up truck bed by 4 ft
- Fits any pick-up truck with a 2" receiver
- Black Powder coat finish (rust resistant)
- Welded loops to tie-down loads
- Easily removed and stored
- Handles up to 350 lb.

USA PATENT # 5,950,890

PACK
**12" ALUMINUM RAMP
END PLATE KIT**
750 lb. RATED

#07300

- Includes nuts and bolts
- Fits 2" x 12" boards

Bicycle Carrier

LOAD IT!

BIKE CARRIER

#07405

NEW!

Erickson's has introduced our new Bicycle Carrier with one goal in mind; to get you to your favourite riding spot as easy as possible. Our new carrier features our 1.25" and 2" hitch adaptor and anti-wobble hitch pin so it's sure to work on any of your vehicles!

The wheel base is completely customizable to provide a perfect fit for your specific bicycle. When you put your bike on the carrier the mounting arms simply slide down the main upright until tight against your bike. This works great for bikes with low frames.

As a bonus feature, we've included a hitch lock and bike lock to keep your load safe and secure. When you're done with the carrier, both sides will fold up for easy storage!

**80lb.
MAX LOAD**

1 1/4" and 2" Hitch Adaptor

Adding the adaptor will make the carrier fit snug into a 2" receiver.

Anti-Wobble Pin

Once tightened this pin will reduce the side to side wobble of the carrier.

Adjustable feet

Adjust from 32" to 67" on centers to fit your bicycles wheelbase.

Adjustable Mounting Arms

Slide down the upright to secure bicycles. Ideal for low frames. Push button release to remove.

Foldable

Side arms fold up for easy storage.

BIKE & HITCH LOCK INCLUDED

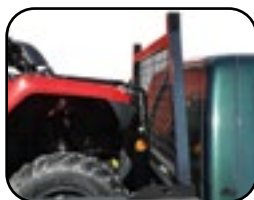

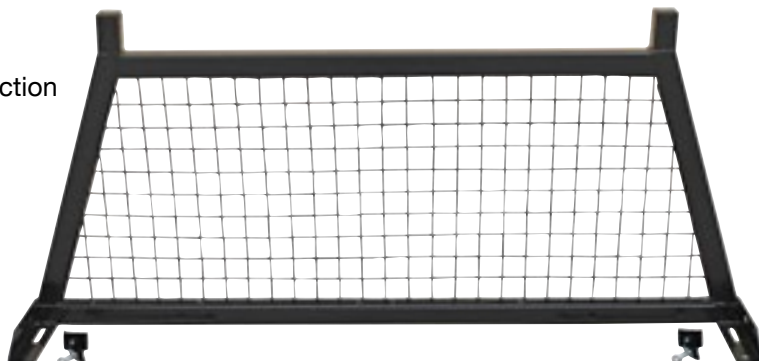

STEEL HEADACHE RACK

NEW!

STEEL HEADACHE RACK

#07715

- 3/16" steel mesh welded at each intersection

2" x 20' – 10,000 lb. HAND WINCH STRAP

#06410 (1-Pack)

1000 lb. PWC LIFT SLING

#02000

A pair of Heavy 1/4" steel lift brackets are finished with a thick layer of a protective PVC glossy black vinyl coating to help prevent the PVC from scratching, 4 black polyester 2" wide straps with d-rings are properly positioned, attach safety hook to an approved lifting device. Ensure safety when moving.

NOTE: it is very important that the lift brackets be placed in the proper location on each side of the machine before lifting. Always test first to ensure the balance is proper, a little time here is well worth the time spent. Once you have found the perfect lifting location, mark it. This will make the next lift much simpler and quicker.

BOLT-ON RE-TRACTABLE TRANSOM TIE-DOWNS

Erickson's Re-tractable Transom Tie-downs gives the customer some additional options. Designed for boat transom trailers, and contractors pick-up racking. All Transom Re-tractable's come with 2.5" Mounting Bolts
