

P Y G A R
TOOLS FOR PROFESSIONALS

CATALOG

Sole importer of FELCO, SWIZA, TINA and ISTOR products in USA and Canada.

In a world of standardization, driven by short-term goals, PYGAR has chosen to maintain the tradition to offer the highest standards of excellence, durability and sustainability in the products it sells; there never will be a compromise.

FELCO, TINA and ISTOR are known worldwide as unsurpassed leaders in the manufacture of pruning, cutting and sharpening tools; made to last and give satisfaction for many years of intensive use.

Made in Switzerland and Germany, these tools are designed with the professional in mind and produced with state-of-the-art technology, decades of know-how and the tradition of quality workmanship.

FELCO, TINA and ISTOR are multi-generation family owned manufacturers continuously striving for excellence to serve the most demanding professionals. We will make sure that your experience with PYGAR will commit to the absolute best quality products the industry has to offer.

Distributor of SILKY and BERGER products.

When PYGAR's core brands are in need of a compliment we provide two additional brands to complete the portfolio.

SILKY saws are manufactured in Ono Japan, home of fine cutlery steel. Crafting fine wood cutting saws since the early 1900s, SILKY continues to raise the bar for quality, endurance and cutting efficiency that few can match. Leading the industry in both design and innovation, saw users are changing their language in all parts of the world from merely asking for a saw, to asking for a SILKY.

In 1918, Julius Berger started making quality garden tools Wuppertal-Cronenberg, Germany. These tools were designed on site and made by machines that Julius designed himself. Since that time Arno Berger (1972) and Ina & Julian (2005) have carried on the BERGER name, making quality garden tools for gardeners around the world. PYGAR is happy to offer two styles of their hedge trimmer product.
