SMOKE/CO/COMBO ALARMS, STROBE UNITS, FIRE EXTINGUISHERS AND MORE

INTRODUCTION

WHY BRK BRANDS?

For over 50 years we've made the home safety products that make your job easier.

You can install BRK Brands, Inc. products with confidence! Our products are designed to save lives. It's a responsibility we don't take lightly. We build each smoke alarm, carbon monoxide alarm, and fire extinguisher to the highest standards.

We have also taken a leadership role in building the home safety product category, and in educating communities on making their homes safer. We partner with Fire Services Professionals, schools, and other community groups to promote prevention as well as fire and CO safety. We help our distributors through point-of-purchase sales tools and special seasonal promotions. We are committed to serving our customers, from you - the professionals who install our products - to the families who count on them. We are proud of the products we make, and welcome the opportunity to serve all our customers together.

TABLE OF CONTENTS

CHOOSING THE RIGHT ALARM

BRK®, one of the most recognized commercial safety brands in Canada, offers an array of alarms and safety products to meet almost any family's need.

TYPES OF SMOKE ALARMS

Smoke alarms can be found with a variety of features and added benefits to help maximize home safety, however it is important to know there are two main types of smoke alarms. They are differentiated by the smoke sensing technology they are constructed with. These technologies are called **ionization** and **photoelectric** smoke sensors and differ by the way they react to a fire occurrence:
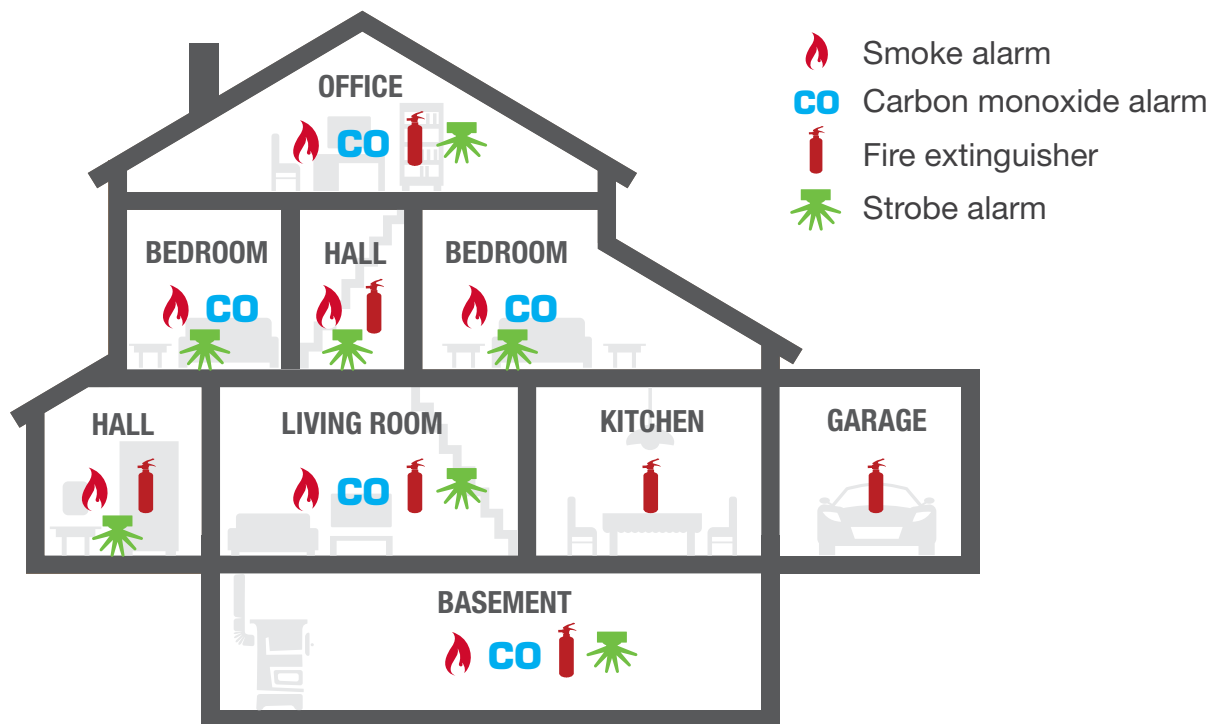

Ionization technology smoke alarms are generally more sensitive than photoelectric technology smoke alarms at sensing small particles, which tend to be produced in greater amounts by hot, flaming fires, that are consuming combustible materials rapidly and may spread quickly. Sources of these fires may include paper burning in a wastebasket, or a grease fire in the kitchen.

Photoelectric technology is generally more sensitive than ionization smoke detector technology at sensing large smoke particles, which tend to be produced in greater amounts by smoldering fires, which may smolder for hours before bursting into flame. Sources of these fires may include cigarettes burning in couches or bedding.

For maximum protection, industry experts recommend the use of both types of technology on each level and in every bedroom of your home. Regardless of what type of smoke alarm you have in your home, First Alert® recommends replacing smoke alarms every 10 years.

WHERE TO PLACE SAFETY PRODUCTS

Smoke alarm

Fire extinguisher
Strobe alarm

ZERO WASTE

WHAT IS IT?

Zero Waste is an Industry first. A simple recycling program that helps Property Management and Government Housing Authorities meet sustainability targets. Simply put, when a First Alert® Zero Waste product is purchased for a retrofit application, we will take back and fully recycle the disposed unit at no added cost to the distributor, end-user, or taxpayer no matter what brand.

ⓘ IONIZATION

SC9126TCA

Smoke and Carbon Monoxide Alarm
- 120V AC, 60Hz wire-in alarm
- Electrochemical CO sensor
- Dual ionization
- Latching alarm indicator
- Single button test/silence
- End of life signal
- 7 year warranty

ⓘ IONIZATION

SC9126BTCA

Smoke and Carbon Monoxide Alarm
- 120V AC, 60Hz wire-in alarm
- Electrochemical CO sensor
- Dual ionization
- Battery back-up
- Two latching features
- Single button test/silence
- 7 year warranty

ⓟ PHOTOELECTRIC

7016TCA

Smoke Alarm
- 120V AC, wire-in alarm
- Photoelectric
- Latching Alarm Indicator
- Single button test/silence
- 10 year warranty

ⓟ PHOTOELECTRIC

7016BTCA

Smoke Alarm
- 120V AC, wire-in alarm with 9V battery back-up
- Photoelectric
- Optipath 360 technology™
- Battery back-up
- Two latching features
- Single button test/silence
- 10 year warranty

ⓟ PHOTOELECTRIC

SC7016BTCA

Smoke and Carbon Monoxide Alarm
- 120V AC, wire-in alarm with AA battery back-up
- Electrochemical CO sensor
- End of life signal
- Spread spectrum horn tone
- Two latching features
- Single button test/silence
- 7 year warranty

SPECIALTY PRODUCTS

(i) DUAL IONIZATION

Smoke alarm with built in relay
• Dual ionization
• Single or multiple station 120VAC, 55mA, 60Hz
• Built in "Form C NO/NC" relay
• Interconnection of up to 18 alarms (maximum 12 smoke alarms & 6 CO alarms)
• Alarm source indicator
• Loud 85db alarm
• 10 year warranty

PIR725A

Motion sensing light socket
• Ideal for indoor use in laundry rooms, garages, basements, attics, closets etc.
• Hands free - Automatically turns light on when entering and off 4 minutes
  after exiting the room
• Easy to install
• Senses movement in all directions
• Works with both types of light bulbs (fluorescent and incandescent)
• 3 year warranty

RELAYS

RELAYS AND ADAPTER

RM4 - *RELAY*
• Form C "NO/NC" contacts
• Interconnect smoke / Heat and / or CO alarms to auxiliary devices
  (fire panels / shut off valves / exhaust fans).

PSM1A - *INTERCONNECT MODULE*
• Interconnects and activates smoke alarms on activation of fire pull stations,
  sprinkler flow switches, etc.

ADK-12 - *ADAPTER*
• Easily connect competitive alarms without rewiring
• Perfect for retrofit applications
• 10 year warranty

p VISUAL SIGNALLING/HEARING IMPAIRED

7010BSLA

Smoke and Strobe Light
• Integrated Photoelectric Smoke Alarm and Strobe Light
• Smart Strobe – Distinguishes and warns between Smoke, or CO dangers
  (when interconnect with CO alarm)
• Optipath 360™ - Photoelectric smoke sensing design
• Visual and audible alarm signals – 177 Candela strobe and 1 Hz
  flash rate meets ADA, ANSI 117.1, NFPA 72, and UL 1971
  requirements for visual signalling devices
• 120VAC
• Two latching features – Two Silence Features
• Two AAA battery back-up (Note: will not power strobe)
• 10 year warranty

p VISUAL SIGNALLING/HEARING IMPAIRED

SA7020BSLA

COMING SOON

HALF THE SIZE OF THE SA7010BSLA

SA7010BSLA

120Vac / DC Photo Smoke / Strobe for Hearing Impaired
• Low Profile, Modern Look: new product is about half of height of the old product
• LED Technology: Using LED instead of Xenon bulb for the strobe light to save energy and improve durability
• Strobe Signal Synchronization: visible signals do not cause a photosensitive epileptic to initiate a seizure
• Smart Interconnection: Can be interlinked with First Alert CO alarms in addition to smoke alarms
• 10-year Sealed Battery Backup: No battery replacement is required throughout life time of the alarm
• 10 year warranty

p VISUAL SIGNALLING/HEARING IMPAIRED

SL177A

Accessory Strobe Light
• Interconnects to any First Alert® or BRK® 120VAC model
• 177 candela Xenon strobe
• 1 Hz fast rate (60 flashes per minute)
• 120VAC
• "SMART" interconnect identifies between smoke or CO
  alarm signals and flashes the appropriate pattern
• No relay needed
• Meets ADA and OBC requirements for visual signalling
• 10 year warranty

CARBON MONOXIDE

CO5120BNA

120Vac Carbon Monoxide alarm with battery back-up
• Advanced Electrochemical CO sensor
• 9 volt battery back-up – EZ Access battery door
• Two latching features – Alarm latch: Remembers and identifies initiating alarms
• Two Silence Features – Silence low battery chirp for up to eight hours,
  or, temporarily silence nuisance alarm conditions
• End of life signal
• 7 year warranty

AC SMOKE ALARMS

ⓘ IONIZATION

9120A · 9120BA

120VAC Hardwire Ionization Smoke Alarm
• Intelligent Sensing Technology – Greatly reduces nuisance alarms possibility
• Alarm Latch – Remembers and identifies initiating alarms
• Perfect Mount – Easy install and alignment
• Single Button Test / Silence feature
• 10 year warranty

with battery back-up
• 9 volt battery back-up – EZ Access battery door
• Two latching features – Alarm latch: Remembers and identifies initiating alarms.
  Low battery latch: identifies affected unit
• Silence Feature – temporarily silence nuisance alarm conditions
• Low battery warning
• 10 year warranty

ⓟ PHOTOELECTRIC

7010A · 7010BA

120Vᴀᴄ Photoelectric Smoke Alarm
• Optipath 360™ - Photoelectric smoke sensing design
• Alarm latch – Remembers and identifies initiating alarms
• Single button Test/Silence feature
• 10 year warranty

with battery back-up
• 9 volt battery back-up – EZ Access battery door
• Two latching features – Alarm latch: Remembers and identifies initiating alarms.
  Low battery: Identifies affected unit
• Silence Feature – temporarily silence nuisance alarm conditions
• Low battery warning
• 10 year warranty

ⓘ ⓟ ION + PHOTO

3120BA

120Vᴀᴄ Photo & Ion Dual Alarm
• Dual smoke technologies: Optipath 360™ Photoelectric and
  "Intelligent" Ionization combined
• Two latching features – Alarm latch: Remembers and identifies initiating alarms.
  Low battery: Identifies affected unit
• Two Silence Feature – Silence low battery chirp for up to eight hours,
  or, temporarily silence nuisance alarm conditions
• Two AA battery back-up – EZ Access battery door
• 10 year warranty

AC SMOKE & CO COMBINATION ALARMS

IONIZATION

SC9120A · SC9120BA

120Vac Smoke & CO Combo Alarm
• Intelligent Sensing Technology – Greatly reduces nuisance alarms possibility
• Advanced Electrochemical CO sensor
• End of Life signal (CO)
• Alarm Latch – Remembers and identifies initiating alarms
• Perfect Mount – Easy install and alignment
• 10 year warranty

with battery back-up
• 9 volt battery back-up – EZ Access battery door
• Two latching features – Alarm latch: Remembers and identifies initiating alarms.
  Low battery latch: identifies affected unit
• Two Silence Features – Silence low battery chirp for up to eight hours,
  or, temporarily silence nuisance alarm conditions
• Low battery warning
• 10 year warranty

PHOTOELECTRIC

SC7010BA · SC7010BVA

120Vac Photoelectric Smoke & CO Combo Alarm
• Optipath 360™ - Photoelectric smoke & Advanced Electrochemical CO sensor
• Spread Spectrum Horn – Easier for elderly with normal hearing loss to hear
• Two latching features – Alarm latch: Remembers and identifies initiating alarms.
  Low battery: Identifies affected unit
• Two Silence Features – Silence low battery chirp for up to eight hours,
  or, temporarily silence nuisance alarm conditions
• End of life signal (CO)
• Two AA battery back-up – EZ Access battery door
• 10 year warranty

with Voice Locate Feature

IONIZATION

SC9120LBLA

120Vac Smoke & CO Combo Alarm
• Separate smoke and carbon monoxide sensors detects both dangers
• 10 year sealed lithium battery backup
• Dual ionization
• 120V AC, 60Hz hardwire
• Latching alarm indicator
• Single button test/silence
• Two latching features
• 10 year warranty

IONIZATION

9120LBLA

Battery Smoke Alarm
• Dual ionization
• 10 year sealed battery back-up
• Latching alarm indicator
• Single button test/silence
• Low battery warning
• 10 year warranty

ⓘ IONIZATION

FG250BA

Battery Smoke Alarm
- Ionization smoke sensing technology
- Single button test/silence
- Low battery warning
- Operating LED light to show that alarm is receiving power
- 9V Battery included
- Loud 85 decibel alarm
- 10 year warranty

ⓘ IONIZATION

SA304CNA

Battery Smoke Alarm with Escape Light
- Bright escape light: lights a path to safety
- Ionization smoke sensing technology
- Single button test/silence
- EZ Access battery door
- 9V Battery included
- Low battery warning
- Optional theft prevention lock
- 10 year warranty

P PHOTOELECTRIC

SA7106CNA

Battery Smoke Alarm
- Photoelectric smoke sensing technology
- Single button test/silence
- Optional theft prevention lock
- Low battery warning
- Missing battery guard
- 9 volt battery included
- EZ Access battery door
- 10 year warranty

P PHOTOELECTRIC

P1000A

World's Smallest Alarm
- Advanced Micro Technology
- Maximum Protection - Fewer False Alarms
- Long-Life Battery Included
- Easy Installation - Smart Product Clip System
- Loud and Powerful Penetrating Sound
- 10 year warranty

SLIM ROUND SERIES

p PHOTOELECTRIC

PR700A

Smoke alarm
• Battery operated, slim design alarm - 9V
• Photoelectric sensor
• Silence feature
• Low profile, round design
• Loud 85db alarm
• 10 year warranty

p PHOTOELECTRIC

PRC700A

Smoke and Carbon monoxide alarm
• Battery operated, slim design alarm - 2AA
• Photoelectric sensor
• Silence feature
• Low profile, round design
• Loud 85db alarm
• 10 year warranty

p PHOTOELECTRIC

PRC700VA

Smoke and Carbon monoxide alarm with voice location
• Battery operated, slim design alarm - 2AA
• Voice and location technology
• Photoelectric sensor
• Silence feature
• Low profile, round design
• Loud 85db alarm
• 10 year warranty

VOICE LOCATE TECHNOLOGY

½ THE SIZE OF THE STANDARD ALARM

PHOTOELECTRIC

PR710A

Smoke alarm
- 10 year sealed lithium powercell
- Battery operated, slim design alarm
- Photoelectric sensor
- Silence feature
- Low profile, round design
- Loud 85db alarm
- 10 year warranty

PHOTOELECTRIC

PRC710A

Smoke and Carbon monoxide alarm
- 10 year sealed lithium powercell
- Battery operated, slim design alarm
- Photoelectric sensor
- Silence feature
- Low profile, round design
- Loud 85db alarm
- 10 year warranty

PHOTOELECTRIC

PRC710VA

Smoke and Carbon monoxide alarm with voice location
- 10 year sealed lithium powercell
- Battery operated, slim design alarm
- Voice and location technology
- Photoelectric sensor
- Silence feature
- Low profile, round design
- Loud 85db alarm
- 10 year warranty

VOICE LOCATE TECHNOLOGY

10-YR

Nuisance and hassle free 10-year smoke alarm. It's protection at its finest. First Alert introduces a new slim line of 10 year sealed lithium battery alarms, eliminating annoying low battery chirps and costly battery replacements! Simply install and replace the unit only at end of life.

BATTERY SMOKE CO COMBO'S

P PHOTOELECTRIC

SC05CNA · SC07CNA

Battery Combination Smoke & CO Alarm
• Optipath 360™ - Photoelectric & Advanced Electrochemical CO sensor
• Single button test/silence
• End of Life signal (CO)
• Two AA Batteries included
• EZ Access battery door
• Low battery warning
• 10 year warranty

(Additional features):
• "Voice with location" provides necessary hazard location information for blind or visually impaired residents
• 10 year warranty

BATTERY MODELS

CO250TCNA

- Travel pouch included
- Battery operated 9V
- Mute button
- Low battery signal
- 85 decibel alarm
- Mounting hardware included
- 7 year warranty

CO400A

- EZ Access battery door
- Battery operated 9V
- Mute button
- Low battery signal
- End of life timer
- 85 decibel alarm
- 7 year warranty

CO410A *with Digital Display 2 AA*

PLUG IN MODELS

CO600A

- Plug-in
- Mute button
- End of life signal
- 85 decibel alarm
- 7 year warranty

CO605A *with Battery Back-up 9V*

CO615A

Plug-In with Battery Backup and Digital Display
- Backlit digital display
- Advanced Electrochemical CO sensor
- Single button Test/Silence
- EZ Access battery door 2 AA
- End of life signal
- 7 year warranty

GC016CNA

Battery with Digital Display
- 3 Way Protection: Carbon Monoxide, Propane & Natural / Methane gas
- Battery back-up 9V
- EZ Access battery door
- Backlit LED display
- 5 year warranty
- Plug-in
- Mute button
- Low battery signal
- End of life signal
- 85 decibel alarm

CO ALARM

CO710A

10 YEAR SEALED BATTERY CARBON MONOXIDE ALARM

- Electrochemical CO sensor
- Multi-function digital display - temperature and CO PPM
- Peak level memory feature
- 10-year sealed lithium battery
- Modern, compact design
- Versatile mounting options
- Alarm status LED indicator
- End of life signal
- Test/silence button
- 10 year warranty

KFE5-A

Kitchen Fire Extinguisher
• Quick-release mounting cap for easy access
• Push button pressure check
• Sodium bicarbonate extinguishing agent
• 5-B:C rated
• 10 year warranty

FE1A10GOA · FE1A10GO-MNA

Multi Purpose Fire Extinguisher
• Rechargeable fire extinguisher
• All metal valve
• Corrosion resistant metal gauge
• Metal pull pin
• Includes mounting bracket with strap
• 5-B:C rated
• 10 year warranty

• Coast guard approved

FE3A40A

Heavy Duty Fire Extinguisher
• Heavy duty 5lb fire extinguisher
• Rechargeable fire extinguisher
• Large easy to read pressure gauge
• Metal valve and handle
• Coast guard approved
• Rated 3A:40-B:C
• 12 year warranty

FE4A60BA

Commercial Grade Fire Extinguisher
• Commercial 10lb fire extinguisher
• Rechargeable fire extinguisher
• Large easy to read pressure gauge
• Commercial grade metal valve and handle
• Fits easily inside standard fire box
• Rated 4A:60-B:C
• 12 year warranty

WIRELESS INTERCONNECT

Need to add interconnected alarms but getting AC power to the location is difficult?

Interconnection wirelessly provides easier and quicker installation with the benefit of all alarms sounding in the event of smoke or CO being detected.

Cost effective retrofit and remodel solutions
- Wireless interconnect technology eliminates the need to pull wires through existing walls
- Save an average of between $150 - $200** per alarm when compared to retrofitting hardwired alarms in existing walls or ceilings
- Faster job turnaround - 4X more jobs completed increases your profits
- Photoelectric sensing technology saves maintenance calls with fewer nuisance alarms

Putting the inovation in renovation
When it comes to alarm renovation and retrofit projects, choices have been limited. Installing battery operated alarms and sacrificing interconnectability or investing in the time and labor to retrofit hardwired alarms have been the only options available.* Until Now! First Alert Wireless Interconnect eliminates the need to pull wires through existing walls saving time, money and labour.
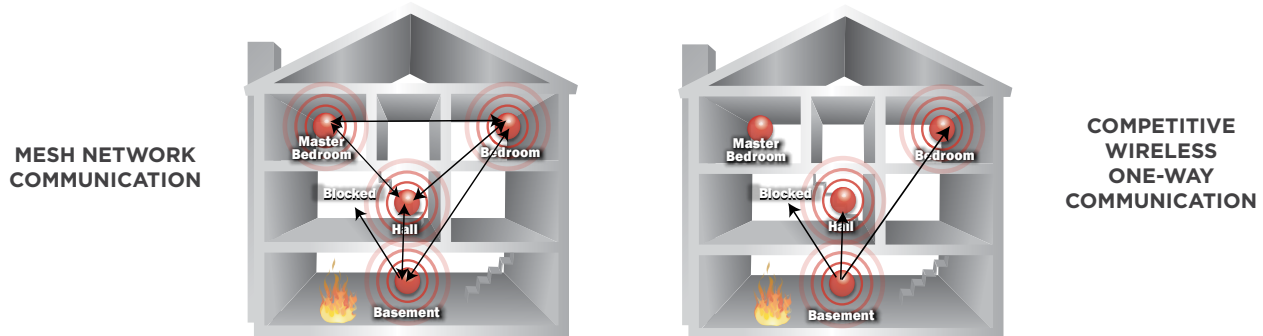

No matter what your renovation project, First Alert Wireless Interconnect provides a cost effective solution:
Home Addition Projects:
Using the First Alert Wireless Interconnect hardwired "Bridge Unit" (SA520CNA-3ST), simply replace one hardwired alarm in the existing installation and add one to the new installation. Wireless technology saves time, material and labour to connect to the existing alarm circuit. Now add standard First Alert hardwired alarms as required in the new section and other First Alert Wireless Interconnect battery alarms in the old section to complete the alarm safety system. Some inspectors only allow hardwire alarms for code. All alarms, hardwired and battery, existing and new are now interconnected.

Retrofit Projects:
Property Owners, Facility Managers and Electrical Contractors can all benefit from installing First Alert Wireless Interconnect alarms for existing retrofit projects. Saving $150 - $200** per alarm and increasing job turnaround 4X are key reasons to consider First Alert Wireless Interconnect alarms for all of your renovation projects.

MESH NETWORK COMMUNICATION

COMPETITIVE WIRELESS ONE-WAY COMMUNICATION

MESH NETWORK COMMUNICATION
BRK Wireless Interconnect alarms operate on a "mesh network"; a 2-way communication format that sends, receives and then re-sends the alarm signals. If the initiating alarm signal is blocked from reaching one of the alarms, the mesh network communication reroutes and re-sends the signal via the other alarms as shown in the illustration. With competitive one-way wireless communication, only the initiating alarm sends a signal which may never be received, leaving the blocked alarm deadly silent.

**Note: Based on average retrofitting costs of time, material and labor to connect to existing alarm circuit, drywall repairs, painting, etc. Special cases that require conduit, wire mold, concrete drilling, etc. would add additional costs and increase savings. This product is intended for non-professional do it yourself installation. If you would like information about a professionally installed and monitored system, please contact 1-800-265-5674.

ONELINK

Easy - Smart - Simple

Let's face it, homeowners interaction with smoke alarms has been a nuisance. Whether changing batteries due to that annoying low battery chirp in the middle of the night or trying to silence an alarm because they burned dinner, responding to or keeping tabs on the working condition of their alarms has always been a chore. Until Now!
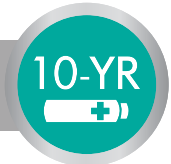

First Alert Onelink Wi-Fi Alarms allow homeowners to easily silence and monitor the alarm condition and events that take place inside their homes via an iPhone or iPad. They don't even have to there with the conviently connected Onelink(reg) App.

Conveniently connected

First Alert

Onelink ™/MC

• Wi-Fi and Bluetooth connectivity
• 10 Year sealed battery or battery backup
• Apple HomeKit enabled
• Works with Apple iOS 9 or later.
• Free App to stay connected with alarms
• Speaks what and where danger is detected
• Interconnects with all current BRK/First Alert hardwired alarms
• Two versions available: AC10-500A (120V hardwired w/battery backup) & DC10-500A (battery powered)

No need to replace the battery for the life of the alarm.
