

BRASS PIPE FITTINGS (BPIPE)

Applications:

Water, Oil, Air, and in some cases, Natural Gas and LP-Gas. Use with Brass, Steel, Iron Pipe. Pipe threads must be sealed using approved thread sealant for gas applications.

Assembly:

- Apply thread sealant compound or tape.
- If using tape, wind in the direction of the threads.
- Do not tape first 2 (starting) threads.
- Assemble hand tight.
- Tighten a minimum of 2-1/2 full turns past hand tight.

Advantages:

- Unlimited reusability.
- Unlimited connector combinations.
