

LIGHT IT!

Wireless LED Lighting

CATALOG &
PRICE LIST

VOLUME 14, ISSUE 2

NEW FROM LIGHT IT! wireless, remote-controlled ceiling lights and wall sconces. See pages 8 & 9 for details. ▶

LIGHT IT! It's simple with us. Our products use refined and straightforward technology to make lighting easy. All of our lights are fitted with Light Emitting Diodes (LEDs) and special lenses. LEDs shed a bright, focused beam of light, and last 100,000 hours. The lenses in our lights are carefully cut to diffuse this light into a broad, balanced beam which is clear, bright, and easy on the eyes. Together, these two elements create more light than a conventional lightbulb, and with 1000% more efficient use of energy. All of our lights are designed around this simple combination. These lights come in a variety of shapes and sizes, all of which are portable and battery-powered – no need for wires and plugs. The simplicity and economy of their construction makes them a quick, versatile, and scalable solution to any lighting problem.

We are top industry sellers for all kinds of lighting solutions, from indoor to outdoor, focused to floodlight, decorative to utilitarian, and visibility to security. Read this catalog to see how we can help meet your specific needs.

Wireless RC LED Ceiling Light

Use alone or with Wireless Remote Control LED Lighting System • 125 Lumens
 3 C batteries (not included)

Whether used alone or as an expansion of a set of remote control lights, this unit serves as a versatile solution for illumination. It installs without wires, plugs, or any special tools. The dimmer lets the light be adjusted to the perfect level and a built-in battery saver turns the light off if you forget.

Wireless RC LED Wall Sconce Set

RF Technology works through walls
Easy Installation • Add more lights to same remote switch • 55 Lumens
Switch 2 AAA batteries (not included)
Light 3 AA batteries (not included)

This wall sconce set can be combined with other Remote Controlled Lights to operate from a single switch. The sconce comes with a variable dimmer feature that provides just the right level of illumination. It mounts anywhere with tape or screws (included), making it a versatile solution for dark areas of any kind. A battery saver feature shuts off lights inadvertently left on.
