Over 90 Years of Experience with Chemical Solutions

In 1924, Mr. I. D. Blumenthal was traveling to Charlotte, NC when he discovered a leak in his car's radiator. Blumenthal brought his car to a local tinsmith for repair.

The innovative tinsmith poured "magic powder" into the radiator and the leak was fully repaired. Being a savvy businessman and entrepreneur, Blumenthal proposed a partnership with the tinsmith and Radiator Specialty Company was born, with Solder Seal® as the company's first product.

With more than 1,600 customers in 81 countries around the globe, Radiator Specialty Company (RSC) today develops, manufactures and markets high performance products for auto, motorcycle, plumbing, marine, hardware and industrial applications. RSC products are manufactured at its 400,000 square foot operations facility in Indian Trail, North Carolina, which is ISO 9000-2008 Certified and includes eight state-of-the-art production lines with an SAP Operating System. RSC trademarked brands include: LIQUID WRENCH, GUNK, MOTOR MEDIC®, TITSEAL®, HOLD-ZIT, GUNK powered by SAFECARE®, LIQUID WRENCH powered by EnviroLogic® and Solder Seal®.

RSC delivers powerful chemical solutions that enable tinkerers and tradesmen to achieve hands-on success. Our products enable them to design, build, maintain and repair real things that encourage a "can do" spirit and support self-reliance. We believe their efforts should be celebrated and we are on a mission to elevate the value of their work in society. Through our innovative and sustainable technologies, RSC strives to inspire the maker in all of us to keep everyday things working longer and to build the next great machine.

Cleaners & Degreasers

The GUNK® brand was built on a solid foundation of high performing products that solve our customer's most difficult cleaning challenges and have always been manufactured in the USA. The heritage and strength comes from years of experience tackling the toughest oil, grease, dirt and mud covering jobs anywhere from your car or truck to your garage, shop, barn, facilities maintenance or fleet. GUNK continues to prove its versatility and dependability in any industry where serious cleaning projects require high performance products.

Hold-Zit™ The toughest straps with a lifetime warranty.*

Hold-Zit™ Straps are scientifically designed and made in the U.S.A. of EPDM (Ethylene Propylene Diene Monomer) rubber for all-weather durability. Standard equipment on many trucks and trailers, they hold down tarps and other equipment. Reinforced ends help prevent hooks from pulling out. It's used in preference to SBR (Styrene Butadiene Rubber) because of excellent flexibility at low temperatures and resistance to ozone and aging. Hold-Zit™ Straps come with a lifetime guarantee.
