GacoGrip Texture Granules

June 2015

Supersedes 05/06

GACOG RIP TEXTURE GRANULES

DESCRIPTION:	Aggregate of walnut shells that are dense, hard and have a low specific gravity.	
USAGE:	Skid-resistant texture for pedestrian decks.	
COLOR:	Light Brown	
SPECIFIC GRAVITY:	1.35	
HARDNESS:	MOHS Scale	3-4
FLASH POINT:	Closed Cup	380°F (193°C)
MOISURE CONTENT:	Less than 2% by weight after processing.	

PACKAGED PRODUCT DATA

PACKAGING:	12 oz. jar.
SIZE:	40 on 60 (0.42 mm on 0.25 mm)
STORAGE:	Store in a dry environment.

APPLICATION

APPLICATION:	Mix one canister of GacoGrip (12 oz.) with one gallon of GacoDeck TopCoat or any other top coat in need of a non-skid surface. Stir thoroughly, dispersing granules throughout the coating. Apply as recommended on the label of GacoDeck TopCoat or other top coat brands. GacoGrip can be combined with paint and other coatings to achieve a textured surface but must be encapsulated in the coating; walnut shells should not be left exposed.
CAUTION:	For specific Health and Safety information, please refer to the Safety Data Sheet.
