SANDING INTRODUCTION

Coated Construction

Made by coating a substrate, usually paper based, with resin or glue and applying abrasive grain that has been electrostatically charged and then covering with a topcoat or sizecoat to bind the final abrasive during curing.

Common Products

+ Sanding Sheets
+ Sanding Discs
+ Sanding Belts
+ Abrasive Rolls

Usage

+ Multi-surface removal of finishes, paints and coatings
+ Multi-surface preparation for stain, paint and other coatings
+ Polishing topcoats

Bonded Construction

Made by bonding abrasive grains using a resin or binding agent and baking under pressure to form a hardened abrasive surface.

Common products

+ Cutting Wheels
+ Grinding Wheels
+ Sharpening Stones

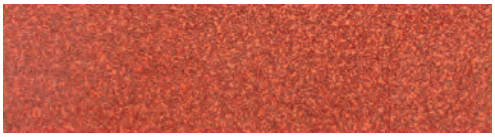

Usage

+ Cutting and grinding of metals, masonry and in some cases ceramics
+ Sharpening of metals

Gator® Product Grain Guide

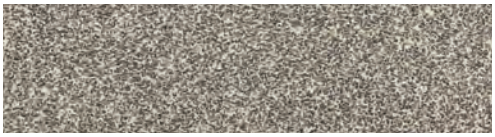

Our products are based on grain formulas designed to meet the demands of specific tasks, surfaces and conditions. Each formula is carefully monitored for consistency and quality. Most are Made-in-the-USA at the Fairborn, Ohio factory.

Note: *Not all variations and formulas are shown.*

Gator® Step System

REMOVE

GRIT	GRADE	DESIGNATION	GENERAL USE
36	Extra Coarse	Extreme Removal	Badly rusted metal, rough sawn lumber and thick layers of old paint
40	Coarse	Extreme Removal	Badly rusted metal, rough sawn lumber and thick layers of old paint
50	Coarse	Extreme Removal	Cleaning up 36 & 40 grit sanding scratches, removing old floor finishes, rust & paint
60	Medium	Extreme Removal	Cleaning up 36 & 40 grit sanding scratches, removing old floor finishes, rapid wood, paint & rust removal on various surfaces
80	Medium	Coarse Removal	Rapid removal of sanding scratches left by extreme grits. Flattens badly warped & rough sawn lumber. Light removal of paint & rust from various surfaces
100	Fine	Moderate Removal	Light rust, paint & wood removal

PREPARE

GRIT	GRADE	DESIGNATION	GENERAL USE
120	Fine	Moderate Surface Preparation	Raw surface preparation of wood, drywall, fiberglass & metal
150	Very Fine	Light Surface Preparation	Light smoothing of raw wood, drywall, fiberglass & metal
180	Very Fine	Final Surface Preparation	Final preparation of all surfaces before finishing. Removes all previous sanding scratches.

FINISH

GRIT	GRADE	DESIGNATION	GENERAL USE
220	Very Fine	Fine Scuffing	Scuffing & de-whiskering primers & sealers. Also use on raw wood for fine smoothing
320	Very Fine	Extra Fine Scuffing	Scuffing between coats of sealers & top coats
400	Extra Fine	Super Fine Scuffing	Scuffing & smoothing during final finishing & between applications of top coats

POLISH

GRIT	GRADE	DESIGNATION	GENERAL USE
600	Extra Fine	Ultra Fine Waterproof	Sanding final lacquer coats prior to compounding
800	Super Fine	Ultra Fine Waterproof	Light scuff sanding before applying color & clear coats or to produce a matte finish.
1000	Super Fine	Mirror Fine Waterproof	Sanding color or clear coats before buffing to a satin finish
1200	Super Fine	Mirror Fine Waterproof	Sanding color or clear coats before buffing to a satin finish
1500	Ultra Fine	Mirror Fine Waterproof	Sanding color & clear coats before buffing to a high gloss finish
2000	Ultra Fine	Micro Fine Waterproof	Sanding or touch up repairs on color & clear coats before buffing to a high gloss finish
3000	Ultra Fine	Micro Fine Foam	Wet sanding before polishing

GATOR® FINISHING PRODUCTS

HAND SANDING

Achieving the perfect finish every time.

Our hand sanding abrasives offer both quality and variety, giving you the best possible finish for any project. From sanding sheets with high-performance grains to innovative sanding tools that take the time and stress out of challenging projects, we've built our products to take care of even the most demanding users.

ZIP™ TOOLS & SHEETS

Zip™ Speed Sheets™ Sander

Designed for comfort & superior results while sanding large areas. Quick-change hook & loop backing works with a full line of Gator Speed Sheets™ sanding sheets.

FEATURES & BENEFITS

+ Quick-change hook & loop backing makes changing sanding sheets a breeze
+ Extra large coverage sands large areas with ease
+ Comfortable foam grip reduces fatigue during use
+ Rigid Core Construction stays flat for consistent results
+ Two Hand Sanding for added control & refinement

SPEED SHEET SANDER 3-2/3" x 9"

Item No.	**7820**

Zip™ Speed Sheets™

Speed Sheets™ are extremely durable and versatile premium sanding sheets for any project, designed to be used by hand or with the Gator Speed Sheets™ Sander for maximum comfort and consistency. Made with premium AlumiNext® and SilicaCut® grain designed to sand faster and last longer while resisting build-up.

FEATURES & BENEFITS

+ Hook & loop backing makes changing sanding sheets quick and easy
+ Extra flexible for sanding irregular shapes, contours, and corners
+ Sanding sheets can be used on-tool or off for maximum versatility
+ Heavy duty construction resists tearing

SANDING **SHEETS**

Waterproof Sanding Sheets

Gator® waterproof sanding sheets are designed for applications where wet sanding is required. The sharp, fast cutting silicon carbide grain works well on metal surfaces and between coats of paint, primers and sealers.

FEATURES & BENEFITS

+ Best for sanding automotive paints, urethane, lacquer, varnish, porcelain, acrylic enamel, metal primer, or clear coats.
+ Waterproof paper backing holds up when soaked in water

Zip™ Drywall Mesh

These mesh drywall sanding sheets are best for moderate sanding and blending of join compounds and spackling. The sheets work just like a sanding screen and resists clogging and loading.

FEATURES & BENEFITS

+ The hook and loop backing makes changing the sheets quick and easy
+ Heavy duty mesh works like sanding screen
+ Use with Zip™ XL Sander

ALUMINEXT® 4-1/2" x 10-1/2"

Item No.	7176	7177	7178

GATOR® FINISHING PRODUCTS

POWER SANDING

Bringing power tools to life.

Achieving superior results from a power tool is about choosing the right accessories. Our product lineup of power tool abrasives is built to take care of the needs of enthusiast, pro and DIY users. Whether it's removing rust, stripping old paint or finish sanding a wood table, we have the right abrasive for the task.

Explore Gator Products, Tips & Projects

SANDING BELTS ◆ SANDING DISCS ◆ SANDING SHEETS ◆ BACKER PADS ◆ POWER ACCESSORIES

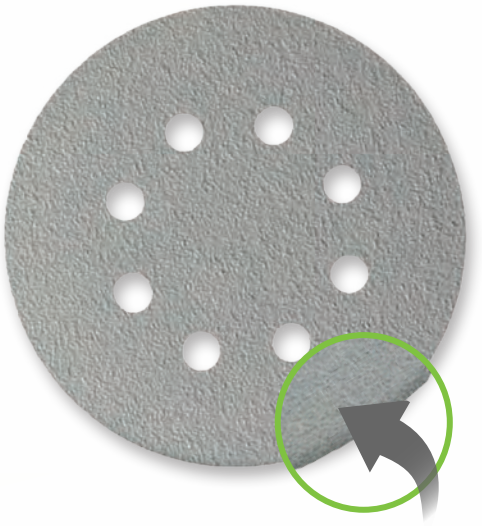

THE ULTIMATE SANDING DISCS

PLATINUM PERFORMANCE™

+ Extremely durable plastic film backing provides 4 times longer life
+ High performance grain cuts 4 times faster, increasing productivity
+ Coating resists material buildup on the abrasive surface
+ Advanced resin bonding system for increased durability & performance

Gator® Platinum Discs will take your sander to the highest levels of performance and produce unbelievable finishes. Unlike traditional paper discs, Gator Platinum discs resist tearing and edge wear for longer life. The plastic film also provides an ultra smooth surface that ensures even grain coverage for consistent finishing results.

4X LONGER LIFE

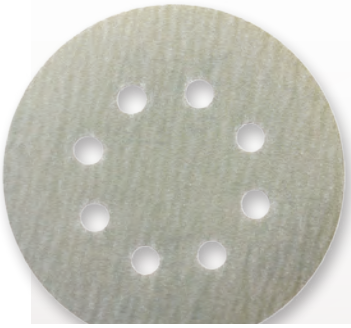

Film backing helps eliminate tearing & edge wear

*Both discs tested in a controlled environment with same surface, time, and speed

SANDING **DISCS**

Platinum Sanding Discs

Gator abrasive film discs will take your sander to the highest level of performance and produce unbelievable finishes. Unlike traditional paper discs, these film discs resist tearing and edge wear for a 4x longer life.

FEATURES & BENEFITS

+ Quick-change hook & loop backing
+ 8-hole venting for dust collection
+ Clog-resistant stearate coating

STRIPPING WHEELS **& FLAP DISCS**

Paint & Rust Stripping Wheels

Ultra-tough ceramic and zirconium-oxide stripping wheels designed for aggressive removal of coatings and rust.

FEATURES & BENEFITS

+ For aggressive removal of paint layers, coatings and rust
+ For use with angle grinders
+ Abrasive web won't rust or splinter

CERAMAX® 4-1/2" RAG

Item No.	9185GA
Grit	36
Grade	Ex. Coarse
RPM	-
Pk. Qty.	1
Inner/Master	–/5

Premium Flap Discs

The ultra-tough ceramic grain makes Gator premium flap discs perfect for more aggressive applications like removing welds and finishing of ferrous and non-ferrous material.

FEATURES & BENEFITS

+ For use with angle grinders
+ Perfect for removing rust and deburring metal
+ Last longer than traditional resin fiber discs

CERAMAX® 4" x 5/8" Arbor (Hangable)

Item No.	9180	9181GA
Grit	40	60
Grade	Coarse	Coarse
RPM	13,300	13,300

FIBER & COND. DISCS

Fiber Discs

Gator® fiber discs feature heavy-duty fiber backing for increased strength and durability.

FEATURES & BENEFITS

+ For use with backer pads on angle grinders
+ Great for blending, grinding and deburring
+ For use on wood, metal, drywall, fiberglass and painted surfaces
+ Resin bonded to resist heat & humidity for longer life

Large Stripping Wheel

Best for moderate surface preparation and refinishing where control and precision are desired

FEATURES & BENEFITS

+ For use with non-impact electric drill/drivers and die grinders
+ Open-webbed design strips edges and uneven surfaces

Drill Mount Flap Disc

Great for removing rust from metal, paint from wood and cleaning up surface imperfections.

FEATURES & BENEFITS

+ For use with non-impact electric drill/drivers
+ Quick removal of paint & can sand grind, level and strip surfaces
+ High quality coated abrasive cloth provides solid & durable power combined with efficency
+ Cleans up welds & metal fabrications

GATOR® FINISHING PRODUCTS

AUTO ABRASIVES

Crafting the flawless finish.

Created specifically for the demands of automotive body work, Gator delivers top performance products at an unsurpassed value. The unique four step approach creates the perfect finish for any restoration project. Whether you are grinding, prepping or finish sanding, we provide a full selection of abrasives to give you the flawless finish you want on your car or boat.

AUTO SANDING DISCS

PSA Gold Discs

These durable aluminum-oxide grain sanding discs are designed for stripping and preparing primed and painted surfaces for finishing, sanding of plastics, fiberglass and composites, light weld blending, preparing and finishing metal, and sanding gel coat and body filler compounds.

FEATURES & BENEFITS

+ For use with 6"orbital, and DA sanders with stick-on (pressure sensitive adhesive) backer pads
+ The pressure sensitive stick-on holding system holds securely without slipping, tearing or wrinkling
+ The anti-clog stearate coating reduces particle build-up

1/3 Wet/Dry Sheets

Our premium waterproof sheets are the ideal choice when wet sanding and finishing by hand are required. The tough silicon carbide grain helps produce exceptional finishes in wet sanding applications. We offer a full grit range that will take your project from start to finish.

FEATURES & BENEFITS

+ Use dry during the preparation phase of a project, usually when removing existing finishes, rust and oxidation; it is also key when sanding and shaping body fillers and primer coats
+ Use with water to help lubricate the surface during sanding
+ The ultra flexible latex backing allows the sheets to be soaked in water for an extended duration
