Grip Rite FITTINGS & ACCESSORIES

Quick Reference Guide

*Industrial and Automotive style plugs are the two most popular styles on the market. Grip-Rite Fittings feature both of these styles.

INDUSTRIAL INTERCHANGE (I/M)

Coupler usually designated by 2 thin rings on the coupler sleeve

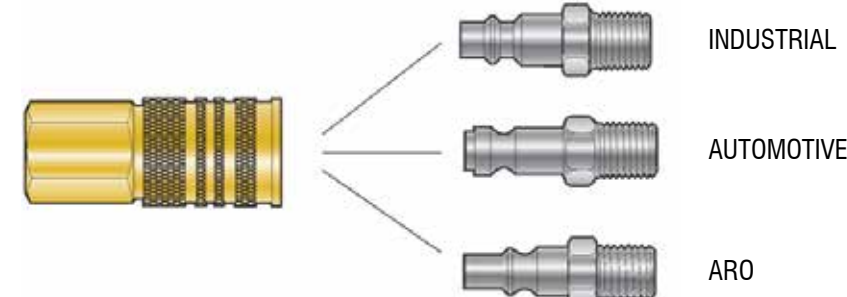

AUTOMOTIVE INTERCHANGE (T)

Coupler usually designated by 1 thin ring on the coupler sleeve

UNIVERSAL COUPLERS

Universal couplers can be attached to the 3 most popular style plugs: Industrial, Automotive, and ARO

Grip Rite FITTINGS & ACCESSORIES

About Grip-Rite Fittings and Accessories

This efficient mix of professional quality plugs, couplers, and accessories allows you to stock the optimal assortment for your customers. This program, with both carded and bulk SKUs, provides the perfect add-on sales opportunity for your Grip-Rite or any other branded pneumatic products.

Trust Grip-Rite for the finest pneumatic accessories

Plugs are heat treated to help eliminate failure at critical wear points. Professionals prefer steel construction plugs due to their superior wear resistance and longer life.

Couplers have stainless steel ball bearings to ensure a secure connection. Professionals prefer solid brass couplers due to their non-sparking attributes and higher corrosion resistance.

Fittings and Accessories Display

Grip-Rite's comprehensive assortment of pneumatic accessories can be merchandised a number of different ways to best fit your customer's needs. Ask about possible display options available.

*High quantity packaging options also available.
