

# CORNER BEAD

**Grip-Rite® drywall corner bead is high-quality metal bead that makes drywall finishing a seamless experience.**

**Benefits:**

- ☑ Hot dipped galvanized coating
- ☑ Impact-resistant bead allows top-quality finish
- ☑ Superior corrosion resistance
- ☑ Textured surface provides excellent adhesion for all drywall compounds
- ☑ Ideal edge protection & corner reinforcement
- ☑ Available in industry standard lengths & packaging
- ☑ Available in either dull or shiny finish

**Grip-Rite corner beads meet or exceed the following ASTM standards:**

- ☑ ASTM A653: G40-120 g/m<sup>2</sup> coating designation. This specification describes the standard coating for steel which is zinc-coated (galvanized) or zinc-iron alloy-coated (galvannealed) by the hot dipped process.
- ☑ ASTM C1047: This specification is for accessories used in conjunction with gypsum wallboard and gypsum veneer plaster.

**Other recommendations:**

- ☑ Protect product from moisture and damage from elements
- ☑ Designed for interior use
- ☑ Avoid bending product
- ☑ Store in a dry place

SKU	Size	Finish	Carton/ Pallet	Pallets/ 20 ft. Container
