

Guillow has been in business since 1926, and this next year marks our 90th year in the balsa wood glider and model kit business. When Paul K. Guillow founded the company, we bought our balsa wood for our gliders in Ecuador, today, they continue to produce over 95% of the materials required to fly our gliders - and we are proud of the way they perform. Since our materials come from trees that are plantation grown, our process is kind to the rain forest. It takes approximately 7 years to capture the density of the balsa wood at exactly the right weight for our various styles of gliders to perform the stunts, loops, and distance they fly that keep kids of all ages entertained.

There may be gliders out there that look like Guillow's, but they do not perform like Guillow's. Our products are made in the USA and conform to multiple quality standards.

Please join us in this celebration of our company and its employees who work so hard to provide the best quality balsa wood gliders and model kits to our customers. We would also like to thank all our customers for their support, and we look forward to many more years of everyone enjoying the high quality that Guillow produces.

2016 Toy & Hobby Catalog

Eagle

"Air superiority" flyer. Has a printed wing, tail surfaces and canopy. Individually packaged in a polybag and sold in an attractive display box with vivid colors to place on a counter or peg display.

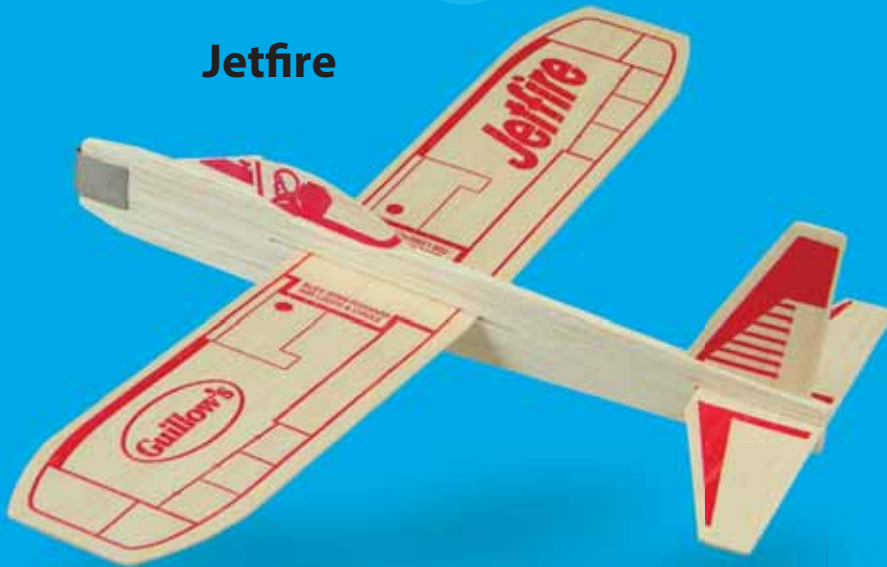

No.	Wingspan	UPC	Polybag Information	Display Information	Case Information
26	9"	0 72365 00026 1	contains: 1 glider size: 2" x 10½" pegboard ready	contains: 48 pcs size: 7" x 4" x 9½" set up size: 7" x 4" x 13¼"	12 displays / 576 gliders size: 20" x 15" x 12" weight: 14 lbs.

In 2016 Guillow's is proudly celebrating our 90th Anniversary

Making quality balsa wood toy airplanes in the USA since 1926.

Jetfire

A high performance flyer with the style of a jet fighter. Large 12" wingspan with a built in dihedral gives it the stability to easily have flights up over 30 feet ! Colorful style prints on the wing, tail surfaces and canopy.

No.	Wingspan	UPC	Polybag Information	Display Information	Case Information
30	12"	0 72365 00030 8	contains: 1 glider size: 2" x 13½" pegboard ready	contains: 48 pcs size: 7¾" x 4" x 14" set up size: 7¾" x 4" x 16"	10 displays / 480 gliders size: 21" x 15¾" x 14" weight: 16 lbs.

Starfire

A hefty glider especially designed for strong “baseball arm” hard throws and far flights. Kids love to compete with friends and throw this racy glider for flights over 40 feet.

No.	Wingspan	UPC	Polybag Information	Display Information	Case Information

200 Laser Cut Series

Kit 203
Nieuport

Guillow's legendary WWI series all have **precision laser cut** balsa parts that make it a snap to assemble these historic aircraft. Each kit contains plans and instruction sheets that have set the standard in the industry for over 85 years, realistic looking water release decals, lightweight wheels, detailed plastic parts that consist of a radial engine, access panels, machine gun and pilot figure. Each kit is packed with ample covering tissue, balancing clay, an assembled propeller and rubber thread. These kits are the last word in scale realism for both the detail enthusiast and for those who build to fly scale WWI models.

300 Laser Cut Series

Kit 305 LC
DHC-2 Beaver

The popular private planes in the 300 series now have **precision laser cut** balsa parts. Laser cut parts are much easier to build from and make a more precise model than die cut. Guillow's has been working hard to re-draw and convert our existing kits over to this newer technology. Watch for the above laser cut logo in catalogs and on box covers!

700 Laser Cut Series

Kit 703 LC
Edge 540

Build by number models, great for first time builders - ideal for individual use or for group model building such as in a school class. Now with precision laser cut balsa parts for easier assembly and precise builds. The Fairchild 24 and Arrow are built light to fly right and make great models to take to the local fields. The Edge 540 contains bright red tissue covering and fun decals, just like the real air show stunt plans at today's shows.

1200 Laser Cut Series

Kit 1202
1903 Wright Flyer

On December 17, 1903 Orville and Wilbur Wright flew into history. Orville Wright made the first sustained, controlled powered flight of an heavier than air aircraft. The 1903 Wright Flyer was flown 120 feet in 12 seconds by Orville Wright. The same day Wilbur Wright flew the plane 852 feet.

This 1:20 scale Build 'n Show display model of the 1903 Wright Flyer has been designed for easy assembly using Guillow's famous step by step building methods. Kit includes grade A **precision laser cut** balsa parts, high quality tissue covering, laser cut profile of pilot, simulated engine, movable propellers and a display stand with plaque.

In 2016 Guillow's is proudly celebrating our 90th Anniversary

1400 Series

Kit 1401
F-15 Eagle

Popular jets available as balsa and tissue models, these unique scale construction kits offer an interesting alternative to the wide range of plastic models offered hobby fans. Built as “skeleton” models (as show above) they make impressive display pieces. Tissue covered and decorated with decal insignia, each model is an eye catching replica of its namesake. The results are certain to please both the beginner and advanced model builder.

2000 Series

Kit 2003
B-24 Liberator

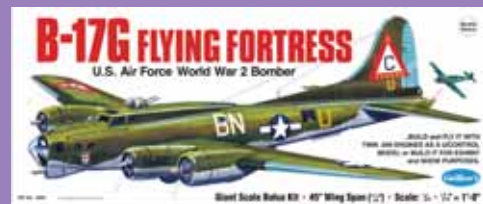

Super detailed GIANT scale models. Some of the most popular airplanes in WWII in large scale detail. The P-38 with it's unique fuselage was one of the most popular fighters, the B-17 and B-25 both great bombers of the era and the PBV-5a was one of the most successful 'flying boats' ever produced. These large kits are loaded with detail and make truly impressive airplane construction kits that honor the actual WWII aircraft. A few of these kits feature true to life "action" parts such as movable flying surfaces, sliding canopies, retractable landing gear and drop-able bombs.

In 2016 Guillow's is proudly celebrating our 90th Anniversary

4000 Series

Kit 4301
Cloud Buster

These models are designed to teach a builder with little or no experience in model building, from the very basic all balsa Goldwing glider to the Fly-Boy box fuselage stick and tissue rubber powered model. Build-N-Fly models are ideal for individual use or for group model building such as scouts or a school class. Each kit contains very easy to follow step-by-step plans, building materials and "power package" (where needed) to assemble an attractive model with good flying ability. Short build times will have you in the air fast!

In 2016 Guillow's is proudly celebrating our 90th Anniversary

Making quality balsa wood toy airplanes in the USA since 1926.

No.	Kit	Wingspan	UPC	Box size	Build time / skill level

4500 Laser Cut Series

Kit 4505
Stunt Flyer

Guillow's miniModels™ series contain 6 different flying model kits, three private planes and three military planes. Airplanes can be assembled easily in about two hours using step by step instructions to guide you in the building process. No cutting of parts, no sanding, just a little glue makes these simple enough to construct in one night - this makes them a great project for parent / child to have fun in the backyard.
