

10" Sliding Dual Compound Miter Saw with Laser Marker

C10FSHC

HITACHI

- **Simple & compact slide system** allows the saw head to slide along fixed rails, for zero rear clearance
- **Positive stops and indications on the miter** with indexing override for easy to read measurements and quick transitions between miter angles
- **Upfront bevel lock** for quick and easy adjustments
- **Laser Marker System** from Hitachi increases cutting accuracy
- **Powerful 15 Amp motor** to tackle tough cutting jobs with ease
